Corner of York and King Streets, Fredericton.

Upholstering Furniture is My Trade

Over 30 years experience in the best shops in Boston and St. John. Practical and satisfactory work guaranteed. Many Fredericton people have had valuable Furniture simply ruined by incompetent, self-styled Upholsterers. Householders may now rely on having their Chairs, Sofas, Lounges, Couches, Cosy Corners, etc., etc., re-upholstered or re-covered as neatly and as cheaply as if sent to any first-class out-of-town shop. Samples on hand of the latest Coverings in Tapestries, Corduroys, Silks, etc. Antique Furniture cleaned and repolished. Now is the time for promptness, before the regular spring rush begins.

THE CENTRAL RAILWAY.

Government's Foresight and Policy
Viewed with Great Satisfaction.

The announcement in regard to the Central railway made by the premier in the legislature on Wednesday night was an interesting and important episode. It was made at a time when the opposition felt sure of being able to make a severe attack on the government on account of their policy in regard to this railway, and when their Achilles was about to step to the front to overwhelm them by his eloquent words.

There is no denying the fact that the obligations incurred by the province in connection with the railway had been giving some alarm to many of the best friends of the government who feared that it would be as unsuccessful as most of the branch lines in New Brunswick have been. Government supporters feel that it is greatly to the credit of Premier Tweedie and the government that they have had the boldness to grapple with that problem, which to others appeared so difficult of solution, and to stand by their policy of developing the resources of the province even at a time when it seemed likely to involve the province in a very serious obligation and responsibility.

The coal areas of Queens and Sunbury counties have long remained unused for lack of proper means of communication. It was therefore felt by the administration to be right that the government should endeavor to do something to make them useful to the province, and in this policy the leader of the opposition at first appeared to concur. But he soon found means to separate himself from the government in this respect and to make their connection with the New Brunswick Coal and Railway Company a ground of attack. Fortunately for the government, things have turned out very differently from what their opponents hoped and expected.

Business men have seen in the New Brunswick Coal and Railway and in the coal fields of Queens and Sunbury counties, a means of making money for themselves, while benefiting the province, and now the government has an offer to lease this railway for a period of 99 years, at \$21,000 a year, which is just three per cent. on the amount they have invested in it, or for which they are liable on its account. That this offer will be accepted is generally agreed.

While three per cent may not quite meet the interest on the obligations which the government have incurred, at the present time, it is pointed out that New Brunswick will not always be paying four per cent on its bonds. It is predicted that within ten years and perhaps very much sooner, this province will be able to issue three per cent bonds at par, so that the interest on account of the railway will be fully met.

Another consideration is the royalty on coal which will accrue from this arrangement. As the railway is essentially a coal carrying road, no company could afford to lease it that did not intend carrying at least 100,000 tons of coal annually over it. This would give the government a royalty of \$10,000 a year, but if, as is now inferred, this road is to be utilized for the purpose of supplying the Grand Trunk Pacific with coal, one may calculate on the consumption of at least 20,000 tons annually for the use of the railway between Montreal and Moncton, and this would give the province a royalty of \$20,000 a year. In whichever light the matter is viewed, nothing but the greatest satisfaction and hopefulness is felt among government supporters for the outcome of this affair in which they feel the government, and the premier especially, have shown so much courage and far sightedness, bringing the matter to a successful conclusion in spite of the dire predictions of their enemies and even of a few others who would not like to be ranked in that category.

SELL YOUR COLD FOR \$1.

You surely won't stop at a dollar bill to cure that horrid, sniffling cold? Go to any druggist and get "Catarrhazone," and your cold will be a thing of the past. There is almost witchery in the swift way Catarrhazone kills colds. But when you consider the penetrating, healing and antiseptic qualities of Catarrhazone, perhaps it's not so wonderful. Certainly there is no remedy half so prompt for colds and catarrh as Catarrhazone. Refuse a substitute and insist on having "Catarrhazone."

FRESH OYSTERS.

Fresh raked oysters from Barnes' famous oyster beds, Buctouche, now in stock at W. A. Lindsay's, King Street, E.
