

"It Pleases Me."

I sell that permanent, healthful wall coating (Church's Alabastine), because it never fails to satisfy my customers. I believe that a satisfied customer is the best advertisement that I can have. It pleases me to recommend Alabastine.

It won't peel, rub off or scale. It grows harder with age, because it is made from cement and goes through a process of "setting" on the ceilings or walls of your rooms. Healthful, because it cannot possibly decay. There are sixteen beautiful tints (and white). Easy to apply. Never sold in bulk. It pleases me to recommend Church's

Alabastine.

Change of LIFE

**Need Not Bring
Suffering
and Misery**

This perfectly natural change in a woman's life is too often accompanied by painful, distressing symptoms due to female troubles and slight irregularities in her delicate organism.

The woman who passes this change without the development of tumors, cancers, or chronic invalidism enters a new field of happiness and usefulness in the domestic circle and in social activity. Her physical system should receive the necessary assistance at this critical period.

Lydia E. Pinkham's Vegetable Compound

is exactly suited to woman's needs at this time. It strengthens and cures all derangements of the female organism, it overcomes the hot flashes and dizzy fainting spells, and all other distressing symptoms.

Woman's Friend During Change of Life

Dear Mrs. Pinkham:—I owe my splendid health to Lydia E. Pinkham's Vegetable Compound. I am the mother of three children, have safely passed the change of life, and feel as young and strong as I did twenty years ago, and this is all due to your friend of women, Lydia E. Pinkham's Vegetable Compound. I took it before my children were born, and it greatly assisted nature and saved me much pain, and during change of life I took it off and on for four years, and had but little trouble and sickness such as most women have to endure.

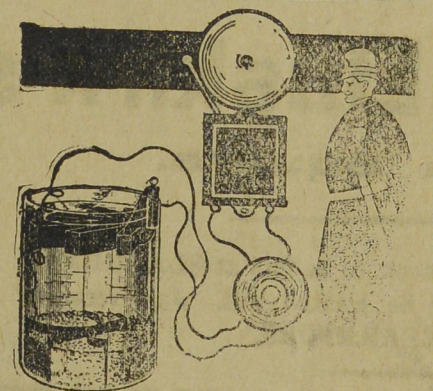

Mrs. JAMES K. MANN, 806 Bathurst Street, Toronto, Canada.

The whole secret of safety at this time of life is thorough preparation before the change begins. Fortify the system with a course of Lydia E. Pinkham's Vegetable Compound. This wonderful medicine has carried thousands of women through this danger period.

No such helpful advice to women who are sick can be had anywhere as will be received free by addressing Mrs. Pinkham, Lynn, Mass. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham, and for twenty-five years under her direction, and since her decease, she has been advising sick women free of charge.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

The cynical bachelor rises to remark that the woman-haters are not all married.

GROWTH OF CANADA'S WEST.

**Tardy Acknowledgement Comes from United States---
American Consulate to be Established in that
Growing Part of the Dominion.**

Toronto, March 3.—A Washington, D. C., despatch to The Toronto Globe says: The State Department is fully aware of the almost singular condition that exists in regard to American Consular representation in western Canada. Congress has been asked to provide for the appointment of a Consul either in the province of Alberta or Saskatchewan, and the pending Consular reorganization bill proposes to establish a Consulate in that growing section of the Dominion.

This movement calls attention to the fact that, so far as the United States Government is concerned, little attention has been paid to the marvellous developments going on in the great region lying between Winnipeg and British Columbia. At this late date the State Department is taking cognizance of the rapid settlement which has been going on for some time in western Canada, and the department of commerce and labor is receiving reports which show that in almost no part of the United States is such a significant development of rich natural resources taking place as in the provinces of Alberta and Saskatchewan.

Nearly a year ago the Treasury Department of the United States was reminded of this great development by the application of American transcontinental railroads for the establishment of additional sub-ports of entry on the international boundary of North Dakota and the line dividing Washington from Idaho. The demand for these sub-ports was brought about by the rapid settlement of agricultural lands in western Canada and the increased production of wheat. The American railroads wished to have a share in the transportation of this wheat to the seaboard, the object being to carry it across the international boundary into the United States, and then eastward to Duluth, and thence to Buffalo and New York. After full consideration of the matter the Treasury Department declined to establish the additional sub-ports.

DEPARTMENT HAS YIELDED.

Since that time the fact that settlement is going rapidly forward in western Canada has gradually impressed itself on the official mind in Washington, and one of the results is the proposition to establish at least one Consulate either in Alberta or Saskatchewan. Senator Frye of

Maine has presented to the Senate eleven reasons why an American Consulate should be established in that part of Canada. These are summarized substantially as follows:

(1) Consulates of the United States are established in all the other provinces of Canada, even in the Yukon territory.

(2) This country (the Dominion of Canada), including these provinces, (Alberta and Saskatchewan), is developing more rapidly than any district in the world since the discovery that wheat can be successfully raised there.

(3) American citizens predominate (131,000 coming in in ten months.) An American representative should be nearer than 900 miles, for the nearest consulate representative of the United States is now stationed at Winnipeg.

(4) American capitalists have established a distributing trade centre at Calgary, in the Province of Alberta, from which place goods are shipped over the entire northwest in rapidly increasing quantities. They have built fifteen grain elevators in Alberta.

(5) The wheat yield in the western Provinces last year was 88,500,000 bushels. In Alberta more than a million pounds of butter were produced last year.

A TARDY ACKNOWLEDGEMENT

(6) Canada is third in the lists of customers of the United States and is likely soon to be second. American exports to the Dominion in the calendar year 1905 were 9144,076,835, as against \$187,285,267 in 1904, and as against \$212,696,329 to Germany, which is the second largest customer of the United States. American imports from Canada are increasing in a larger ratio than exports to that country, for the total last year was \$63,927,923 as against \$56,626,111 in 1904.

(7) The Provinces of Alberta and Saskatchewan are about four and one-half times as large as Manitoba and are destined to become the most important of the Dominion. (These are the words of Senator Frye, which represent the views of the State Department in the matter.)

THIS SEEMS RATHER STRONG.

(8) The town of Calgary, in the Province of Alberta, has already 15,000 inhabitants, of whom 13,000

are Americans.

(9) This new country offers great opportunities to our manufacturers and merchants. This is shown by the fact that Americans now resident in that part of Canada are constantly calling attention to these opportunities and urging persons in the United States to take advantage of them.

SIGNS OF THE TIMES.

(10) The Canadian Pacific Railroad runs through the Province of Alberta, and several branch lines are in operation and others projected. In fact, the railway development of this part of Canada is one of the significant signs of the rapid settling up of the country and the increasing productivity of the area between Manitoba and British Columbia.

(11) The State Department has received a report from the United States Consul at Winnipeg. This official visited the Provinces of Alberta and Saskatchewan last spring with the express purpose of examining into conditions thoroughly. He reports that there is the strongest possible justification for the establishment of a Consulate (at least one), and that, in fact, a Consulate is urgently required by American interests.

The State Department and members of the Senate Committee on Foreign Relations have received many letters from American residents of Canada calling attention to the lack of Consular representation in Alberta and Saskatchewan, and describing the striking developments which are taking place in that part of the world.

RADIANT WOMANHOOD.

The glory and satisfaction of beautiful womanhood can be known only to those possessing the limited advantages of health. No weak woman can be happy or enjoy half the pleasures of life. Pallid cheeks, sunken eyes, exhausted nerves tell of a terrible struggle to keep up. What the weak woman needs is Ferrozone; it renews, restores and vitalizes instantly—it's a "woman's remedy,"—that's why.

Ferrozone makes women strong, plump and healthful because it contains lots of nutriment, the kind that forms muscle, sinew, bone and nerve. Vitalizing blood courses through the body, making delightful color, happy spirits, true womanly strength. Fifty cents buys a box of Ferrozone in any drug store.

OLDEST TWINS IN MASSACHUSETTS.

Brockton, March 1.—Mrs. Susanah Paine of this city and Mrs. Phoebe Rich of Wellfleet, who celebrated their 89th birthday today, claim the distinction of being the oldest living twins in the state of Massachusetts. Mrs. Paine lives in Brockton and Mrs. Rich resides at the old home in Wellfleet. They were born in Wellfleet March 1, 1817.

Mrs. Paine is the widow of Capt. Amos Paine of Truro, who died in 1882, and after his death she came to live with her son in this city. She has had nine children and has two sons living. Dr. Paine, one of the best known of the Suffolk county officials and court crier in the Suffolk criminal session. Mr. Rich has been three times married but has had no children.

Both of the sisters are very active for their age and seem much younger than they really are. Mrs. Paine frequently goes shopping and is quite regular in her attendance at the Central Methodist church, of which she is a member. There was no special observance of the anniversary, but their friends are planning for an extensive observance should they live until their 40th birthday, one year from now.

BRIGHT'S DISEASE.

A Cure of Marvelous Merit That Gives Instant Effect Found at Last.

No malady is more stealthy or fatal than Bright's Disease. Every year it claims more victims than famine and war combined.

In the beginning it is marked by puffiness under the eyes, yellow, salted skin and pain in the back. The urine becomes scanty, often contains sediment, causes great irritation and pain.

Reader, if you are troubled with these symptoms, get Dr. Hamilton's Pills at once. This vitalizing medicine will fast restore brilliancy to your dull anxious eyes. Exhaustion will be replaced by surplus vigor. Your back pains and urinary disorder will cease.

Renewed life is put into the kidneys, and Bright's Disease passes away forever.

Where the blood is weak and de-ton's Pills will restore you to rosy good health. No medicine in the world so efficient for diabetes, Bright's Disease and affection of the kidneys, liver and bladder. Price 25c. per box, or five boxes for \$1. At all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

PERMANENT CURE IN EVERY CASE.

"I was stricken with Bright's Disease two years ago," writes Mrs. G. E. Mathewson, Middletown. "I grew worse. Sugar was almost eleven per cent, and the doctors gave me up."

"After using Dr. Hamilton's Pills one week I began to mend."

"Dr. Hamilton's Pills have made a well woman of me, and I know others who have been cured also by this medicine."

Why suffer any longer? Dr. Hamilton's Pills. Every tired, nervous, overstrained man and woman should use this grand tonic regularly. Life will then be full of happiness and buoyant health. All dealers sell Dr. Hamilton's Pills. 25c. per box, or five boxes for \$1. By mail if price is forwarded to the N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.
