

HUDSON BAY ROUTE FEASIBLE.

Opinion is Expressed by Engineer Who Has Been There on Several Occasions.

Winnipeg, Dec. 10.—James William Tyrrell, whose name needs no introduction to Canadians, is in this city. Mr. Tyrrell comes of a distinguished engineering and exploring family. His own splendid record on the Dominion topographical and geological survey is well known.

Being a servant of the government Mr. Tyrrell did not feel at liberty to express an opinion with regard to the Manitoba boundary question, the matter being at the moment sub judice. Mr. Tyrrell was, however, good enough to give his views on the feasibility of a direct route between Hudson Bay and Great Britain. As there are few men more competent to pass an opinion on the Hudson's bay region Mr. Tyrrell's remarks should prove interesting.

Mr. Tyrrell explained that he has been sent out on two different occasions by the government to study the question of navigation on Hudson's bay and through the Hudson's strait. Again during the past summer, Mr. Tyrrell was on the bay in a private capacity. When at the mouth of the river he made a complete chart of the harbor with a view to making it a railway terminus. There was, he thought, absolutely no question about the project of shipping grain from the bay to Great Britain being feasible. The only really excellent harbor on the coast was that at the mouth of the Churchill river. He had surveyed the whole coast down to the mouth of the Nelson river, including the so-called harbor of York.

The mouth of the Nelson river was some years ago, said Mr. Tyrrell, considered to be the most likely railroad terminal on the west coast of the bay, but it had now been found to be out of the question. Vessels had to anchor thirty miles from the shore and to notify the people at York factory of their arrival by means of sky rockets.

Twenty-one years ago he was sent out with the Gordon expedition to watch the condition of ice formation during the whole year. On that occasion Mr. Tyrrell spent eighteen months in the Hudson's straits. From his observations made at that time and subsequently—he had been five times on the bay—he was convinced that the straits were navigable for five months of the year, from July to November inclusive. During November thin ice would form in the straits, but such ice as would form in November would not be a serious obstruction to large vessels. They would be able to steam right through it with ease.

Mr. Tyrrell thought a very large proportion of the grain could be taken out through the Hudson straits the same season as grown. From Prince Albert to Fort Churchill was 700 miles, but if this compared rather badly with the 400 to Fort William it must be remembered that the distance from Fort to Liverpool was, if he was not mistaken actually shorter than from Montreal to Liverpool.

6742

A NEW DRESSING SACK MODEL.

There are many varieties of negligee and one of which but is fascinating to femininity. Yet a choice must be reached for one cannot have all. For a boudoir or breakfast sack the one shown is most attractive. It has a square yoke of lace and beading, while the lower portion is tucked across the front and back. The top of the sleeve is also tucked and hangs free below. The sock is easily made and for materials there are the light silks, albatross and challis. For the medium size the pattern calls for 4 1/2 yards of 27 inch goods.

6742—SIZES 32 to 42 inches bust measure.

To the Fredericton Herald:

Please send the above mentioned pattern, as per directions given below, to

Name..... Street.....

No..... Province.....

To.....

Age of child's or miss' pattern.....

CAUTION.—Be careful to send size of pattern wanted. When the pattern is sent measure your neck only 32, 34, or whatever it may be. When in waist measure, 22, 24, 26, or whatever it may be. If a skirt, give waist and length measure. When miss' or child's pattern write only the figure representing the age. It is not necessary to write "inches" or "years." Patterns cannot reach you in less than three or four days from the date of order. The price of each pattern is 10 cents in cash or postal order or stamps.

TREATING WRONG DISEASE.

Many times women call on their family physicians, suffering as they imagine, one from dyspepsia, another from heart disease, another from kidney or liver disease, another from nervous exhaustion or prostration, another with a pain here and there, and in this way they all present alike to themselves and their easy going or indifferent or over busy doctor, separate and distinct diseases, for which he assumes them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of the suffering, encourages this practice until large bills are made. The suffering patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native medicine roots and is perfectly harmless in its effects in any condition of the system.

"GAVE LIFE FOR ANOTHER."

Little Girl Fatally Burned Herself Trying to Rescue Baby From a Burning Building.

London, Dec. 9.—A little girl of 10 named Rose Reed, died in West Ham Hospital recently from burns sustained in heroic efforts to save another child.

In a small house in Lucas Road, Abbey Lane, Stratford, lived two families, named Reed and Lake. Mrs. Lake and Mrs. Reed went out shopping in the morning leaving five children in the house—Rose Reed and John Lake, each aged ten, the other three being babies, whose ages varied from 18 months to 4 years. A fire broke out upstairs, and all of the children got out of the house except Alice Lake, the youngest baby.

Rose Reed, hearing of her little comrade's dangerous position ran upstairs to attempt a rescue. An alarm was raised, and a coal dealer named Hull rushed into the house. He found that Rose's clothes were on fire and he promptly extinguished the flames and carried the child downstairs.

Re-entering the house, Hull found that the baby's clothes were smoldering. He bent over the flames and hurried with the little one to a place of safety.

The fire, a slight one, was quickly put out by the neighbors before the arrival of the brigade. Rose Reed succumbed to her injuries later in the day.

The baby was practically uninjured and was not detained in the hospital.

JUST WHERE THE DANGER LIES.

In many catarrh snuffs, cocaine is the largely used ingredient; in consequence the drug habit may be formed. To be really cured of catarrh, to do so quickly, safely and pleasantly, doctors say Catarrhazone is superior to any other remedy. It heals sore places, stops discharge, prevents hawking, spitting and bad breath—does this by first destroying the cause of the disease. Catarrhazone is no experiment, it is a tried and proven cure that is guaranteed for bronchial, throat, nose and lung catarrh. Two sizes, 25c. and \$1.00 at all dealers.

HIS INTEREST IN THE BOX OFFICE.

"Did you ever succeed in swaying an audience in laughter and tears at will?"

"No," answered Senator Sorghum, "I recognize the fact that all the world's a stage. I don't care to be reciting speeches. I want to be one of the men in the box office."

THE APOLOGY ACCEPTED.

"Sir," exclaimed the pompous individual, "I am a self made man."

"I accept your apology," murmured he of the patrician countenance.

GIFTS FOR KING AND PRESIDENT.

Ottawa Author Will Send Edition de Luxe of Works.

Ottawa Free Press: King Edward and President Roosevelt will be the recipients before long of two handsome boxes made of the cedar of which will contain artistically bound volumes of Mr. Anson A. Gard's "Pioneers of the Upper Ottawa." In addition to the book there will be a collection of photographs and autographs of the noted persons who took an active part in the celebrations in honor of King Edward's visit to Canada in 1860, when he was Prince of Wales. In the book mentioned there is much space devoted to narrative and description of the now historic mission of the Prince, and no doubt His Majesty will peruse the pages with interest. The pictures of the men who met the scion of royalty and their signatures will be an appropriate volume to accompany the history. It is possible that Mr. Gard will send some other of his works, which also contain allusions to the prince's Canadian tour.

ARE PASSING AWAY.

It is remarkable how few of the men who participated in the various welcomes. Hon. R. W. Scott, Secretary of State, alone remains of the 20 citizens of Ottawa who acted on the entertainment committee. On this account he was requested to

NOBODY BUT FATHER.

Nobody knows the money it takes To keep the house together, Nobody knows of the debt it makes, Nobody—only father.

Nobody knows that the boys need shoes, And the girls hats with a feather, Nobody else old clothes will choose, Nobody—only father.

Nobody hears that the coal and wood And flour's out together, Nobody else must make them good, Nobody—only father.

Nobody's hand in the pocket goes So often, wondering whether There's any end to the wants of those Dependent—only father.

Nobody thinks where the money will come To pay the bills that gather, Nobody feels so blue and glum, Nobody—only father.

Nobody tries so hard to lay Up something for bad weather And runs behind, do what he may, Nobody—only father.

Nobody comes from the world's cruel storm, To meet dear ones who gather Around with loving welcome warm, Nobody—only father.

Nobody knows of the home life pure, Watched over by a mother, Where rest and bliss are all secure, Nobody can—but father.

USES OF SAWDUST.

Too Valuable Now to be Put to Uses I Once Served.

Many are the uses of sawdust. In the days when the sawdust wagon made its lumbering round through the streets of most cities, two commercial uses of sawdust were to sprinkle floors and to shelter lead pipes from cold and glass bottles from breakage.

Nearly every saw mill was a vat for the sawdust, and it was carried away free by anyone who had any use for it. In this era of the use of by-products, sawdust has a commercial value. It is no longer given away, but is sold.

One of the recent uses of sawdust

WHAT

Fruit-a-tives

OR "FRUIT LIVER TABLETS"

ARE

Fruit-a-tives are the marvels of modern medicine. They have accomplished more actual cures—done more good to more people—than any other medicine ever introduced in Canada for the time they have been on sale.

Fruit-a-tives are fruit juices. They are nature's cure for

- CONSTIPATION
- BILIOUSNESS
- BAD STOMACH
- DYSPEPSIA
- HEADACHES
- IMPURE BLOOD
- SKIN DISEASES
- KIDNEY TROUBLE
- RHEUMATISM
- IRRITATED HEART

Fruit-a-tives are the juices of apples, oranges, figs and prunes. These juices are concentrated—and by a secret process, the juices are combined in a peculiar manner. This new combination is much more active medicinally than fresh juices—yet so perfect is the union that Fruit-a-tives act on the system as if they were in truth a natural fruit, medicinally stronger than any other known fruit.

To this combination of fruit juices, tonics and internal antiseptics are added, and the whole made into tablets.

These are Fruit-a-tives—sold everywhere for 50c a box or 6 boxes for \$2.50. FRUIT-A-TIVES LIMITED - OTTAWA.

AN HEREDITARY TROUBLE.

First physician—Has he got an hereditary trouble? Second Physician—Yes, I hope to hand his case down to my son.

FATAL BLOOD POISONING.

Frequently follows the use of cheap corn salves and plasters. The safest is the best and that's Putnam's, which has a record of fifty years success. Refuse substitutes for "Putnam's" which costs 25c. in every drug store.

MAILS CLOSING

In effect, October 1, 1906.

6 a.m.—For St. John, etc., St. Stephen and Charlotte Co., Carleton, Victoria and Madawaska Counties, and United States.

7.00 a.m.—Woodstock and Gibson Branch Stations, daily.

WAY MAILS—East Side St. John River.

7.00 a.m.—For Keswick Ridge, Southampton, etc., Mondays and Thursdays.

West Side St. John River.

7.00 a.m.—For Springhill, Kingsclear, Prince William, etc. Mondays, Wednesdays and Fridays.

6.30 a.m.—St. John River via Steamer—For Oromocto, Shefford, Gagetown, etc.

9.15 a.m.—St. John, etc., C. P. Railway stations, East, Nova Scotia and P. E. Island.

10 a.m.—For St. Mary's Ferry, Gibson and Marysville.

WAY MAILS.

2 p.m.—For Nashwaakiss and St. Mary's Ferry, daily, Nashwaakiss, New Maryland, Hanwell, Lower St. Marys and Royal Road. Wednesdays and Saturdays.

4.15 p.m.—For Gibson, Marysville, Boiestown, Doaktown, Blackville, etc., Chatham, and I. C. Railway Stations, north and south.

4.45 p.m.—For St. Stephen, Woodstock, United States, Montreal, Toronto, Ottawa and North West West Provinces.

8.15 p.m.—For St. John, etc., Nova Scotia and P. E. Island.

4.30 p.m.—British mails via New York, Mondays and Thursdays.

MAILS RECEIVED.

5.30 a.m.—From St. John, etc., and Nova Scotia.

From Hamtown, Royal Road, etc.

11.00 a.m.—From Nasonworth and New Maryland, Wednesdays and Saturdays.

12.00 noon—From Montreal, Ottawa, Northwest Provinces, etc., and United States.

8.20 p.m.—From Nova Scotia, P. E. Island and St. John.

WAY MAILS.

7.00 p.m.—West Side River, St. John—From Meductic, and Way Offices, Tuesdays, Thursdays, and Saturdays.

St. John—From Woodstock and Way Offices, Tuesdays and Fridays.

TIPPED AN M. P.

Showed an American Raund and was Taken for a Guide.

London, Dec. 11.—Mr. E. B. Barnard, M. P., relates an amusing incident, which has just happened, in which he was the principal figure.

He was called from the House of Commons and asked by the manager of his hotel to get an American visitor into the gallery. Mr. Barnard first took the visitor to the House of Lords. The American did not know who Mr. Barnard was, but apparently thought he was an official, for, as he was leaving he quietly slipped half a sovereign into Mr. Barnard's hand. The coin was declined, Mr. Barnard humbly informing him that they were not allowed to receive tips.

Afterwards the visitor found out who his conductor was and studiously kept out of his way. Before the American left the hotel, however, he deposited a small case with the manager to be given to Mr. Barnard as a remembrance of his kindness. It contained a gold and turquoise scarf pin.

NO WOMAN CAN BE STRONG AND HEALTHY UNLESS THE KIDNEYS ARE WELL

When the kidneys are ill, the whole body is ill, for the poisons which the kidneys ought to filter out of the blood are left in the system. Then how important it must be to see to it that this system of sewerage be not clogged up. Those who have never been troubled with kidney trouble know not the misery and suffering which those afflicted undergo.

Doan's Kidney Pills

are a specific for all kidney troubles. They begin by healing the delicate membranes of the kidneys and thus make their action regular and natural.

They help the kidneys to flush off the acid and poisonous impurities which have collected, thus clearing out the kidneys, bladder and all the urinary passages.

Doan's Kidney Pills are entirely vegetable, and may be safely taken by young and old.

Let Doan's Kidney Pills do for you what they have done for thousands of others, that is, cure you. Mrs. John Young, Harwood, Ont., writes: "I was troubled with my kidneys for some time and my back was so lame I could scarcely get around. After using two boxes of Doan's Kidney Pills, I am completely cured. I find there is nothing like them for the cure of all kidney troubles."

Doan's Kidney Pills are 50 cents per box or 3 boxes for \$1.25 at all dealers or mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.
