MONCTON'S BAD MEN.

Organized Gang of Thieves Surprised and
Overpowered by the Police.
Women There Too.

CROWD WERE PREPARING CHICKEN SUPPER BUT
FEAST WAS RUDELY DISTURBED.

Moncton, Aug. 11.—(Special)—The police last night or early this morning made a big haul of jail birds in their raid of a house on the North track. During the past week or two, a number of citizens have had chickens and hens stolen. The robberies have been most prevalent in the western part of the town. Besides the wholesale robberies of hen roosts, other petty burglaries have been perpetrated, the most important of which was breaking in and robbing the store of Jas. Doyle & Son, some weeks ago. The police have been busy watching an organized gang of suspects, who seemed to cover their operations so closely that detection was almost impossible. Last evening Chief Tinsley, in company with Officers Chapman and I. C. R. Police Officer Perry, visited one of the houses lately purchased by the I. C. R. up the North line, and which has been lately occupied by one Hunter White, who has been suspected of running a disorderly ranch. Surrounding the house cautiously, the officers soon overheard an argument which confirmed their suspicions of replying operations. Plans were being laid for further operations, and the officers for a time withdrew to a distance to watch. About seven o'clock Ross Budd, who has served a term in Dorchester penitentiary, and who has been under surveillance, was seen to leave the house in company with another man and about an hour later they returned in company with a third party. They had apparently been successful in bagging game. A little later, the police raided the place, finding the party busily engaged in plucking chickens. The occupants of the house, the chickens, etc. were scooped by the police, and carted to the lockup. When the officers entered the house great preparations were being made for a midnight feast. Among those arrested are Ross Budd, Henry White, and Cook Wallace, the latter being employed as watchman at the new I. C. R. shops. A couple of young women were also scooped. The men put up a stiff fight when pounced upon, but the police easily overpowered the gang. The house they occupied, had been taken possession of without leave or license from the I. C. R. The police believe they have broken up a bad gang.

CRUSHED TO DEATH.

Boy at Newcastle, Queens Co., Fel.
Under Sloven and Was Killed.

A sad accident occurred at Newcastle, Queens Co., on Wednesday evening, when a fourteen year old boy by the name of Mercer was run over by a sloven and instantly killed. Young Mercer had been down to watch the arrival of the May Queen, when she left he jumped on a sloven owned by T. E. Miller, which was

going to Upper Newcastle. The team had only gone a short distance from the wharf when young Mercer slipped and fell beneath the wheels of the sloven, which was loaded with freight from the steamer. The wheels passed over the boy's chest and rendered him unconscious. He was carried to a nearby house, but by the time the house was reached life was extinct. The boy was an exceedingly bright and popular young fellow and much sympathy is expressed for the bereaved parents. His father is an employee of the New Brunswick Coal and Railway Company.

BANK PURCHASE.

Officially Announced That Peoples'
Has Been Absorbed by Bank
of Montreal.

Montreal Herald.—The result of the contest between the Bank of Montreal and the Royal Bank of Canada for the control of the Peoples' Bank of New Brunswick has been now given out by the Bank of Montreal which has purchased the New Brunswick institution. The official announcement today from the Bank of Montreal occasioned considerable surprise in financial circles, as it had been regarded as almost certain for some days past that the Royal Bank would win. The deal will give the Bank of Montreal a much stronger position in the maritime provinces, where the Royal Bank of Commerce and Bank of Montreal have been competing very keenly for business. When it was thought the Royal Bank had secured control the purchase price was thought to be \$300 per share of \$150 per value, but the price announced for the Bank of Montreal is still higher, being \$350 per share. The Peoples' Bank had a capital of \$180,000; the amount subscribed was \$180,000 and the reserve \$180,000. It has been paying 8 per cent. The largest shares are the estate of A. F. Randolph, 169 shares. The Randolph family also hold 256 shares making 425 or nearly half of the total number.

SINGULAR ADVENTURE.
Henry Braithwaite, the well known hunter, met with a singular adventure a few days ago. As he was returning from Miramichi Lake, accompanied by an Indian, he heard a strange cry about a quarter of a mile away in the woods. Hastening in that direction they came upon a moose lying on the ground with a bear on its back lapping the blood that flowed from the moose's wounds. Whenever the moose raised its head the bear bit it on the neck. Mr. Braithwaite crept up to within thirty yards of the animals and fired at the bear, the bullet passing through its body. Bruin then made for the thick woods, badly wounded, and Mr. Braithwaite fired again and struck him, but he managed to escape, and the hunters were unable to track him far. When they returned to the moose they found that its back was broken, and an end was put to its suffering. Mr. Braithwaite says that the bear was the largest he has ever seen.

McIntyre, the first three men up, played carefully and made some brilliant hitting and when the third wicket went down St. John had thirty-five runs, the last wicket falling for 48 runs.
