FREDERICTON'S BIG HARDWARE STORE.

Tender for Dredging.

Sealed Tenders addressed to the undersigned, and endorsed "Tender for additional dredging, Sand Point, N. B." will be received up to and including Tuesday, 10th July, 1906, for the dredging required at Sand Point, St. John, N. B.

Specifications can be seen and form of tender obtained at the Department of Public Works, Ottawa, and at the office of E. T. P. Shewen, Esq., resident engineer, St. John, N. B. Tenders to include towing of plant to and from the works. Contractors must be ready to begin work not later than fifteen days after the acceptance of their tender.

Tenders will not be considered unless made on the printed form supplied and signed with the actual signatures of tenders.

An accepted cheque in a chartered bank payable to the order of the Honorable the Minister of Public Works, for ten thousand dollars (\$10,000.00), must accompany each tender. The cheque will be forfeited if the person tendering declines the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED GELINAS,
Secretary.
Department of Public Works,
Ottawa, June 28, 1906.

Newspapers inserting this advertisement without authority from the department, will not be paid for it.
July 3-4-5.

At 103 1/2 Prince Wm. street, St. John, N. B., are the offices of
Albert J. Machum,
MANAGER of the

Union Mutual Life Ins. Co.

of Portland, Me.
Established 1848

It is a strictly Annual Dividend Company, the surplus or profits being apportioned every year upon all plans of insurance and a statement of same given to each individual policy holder at the expiration of the first and each subsequent year. The result is that every holder of one of these contracts knows exactly what profits have accumulated every year on his own particular policy. He can make use of such profits any time he so wishes, and in event of his death, such additions are paid, besides the full amount for which the policy is written.

If "A Bird in the Hand is Worth Two in the Bush," how much is a policy worth which guarantees annual dividends as above, compared with a policy under which no profits are apportioned until the end of twenty (20) years? Policy contracts are the most liberal issued. The guaranteed reserve value is equal to that of any company in the world. If you require insurance of any kind consult a "Union Mutual" agent, or write direct to

Bowel Troubles of Childhood

It is impossible to exaggerate the value of FRUIT-A-TIVES as a medicine for children. They contain no alcohol—no morphine or cocaine—no dangerous drugs of any kind.

Fruit-a-tives are fruit juices—concentrated and combined with the most valuable tonics and internal antiseptics known to medicine.

Fruit-a-tives are free of calomel, cascara, senna and the host of irritating purgatives that simply act by irritating the bowels. Fruit-a-tives are made from fruit and tonics and are pleasant to take, and so mild in their action that they never gripe or pain.

During the summer, when children are so apt to eat improperly, mothers should have a box of Fruit-a-tives always handy.

At the first sign of Diarrhoea, Indigestion, Headaches, Biliousness, Peevishness, Vomiting—give Fruit-a-tives according to directions. These splendid fruit liver tablets will instantly correct faulty digestion—clean and sweeten the stomach—regulate the bowels, kidneys and skin—and so invigorate and strengthen the whole system, that the little ones can quickly throw off the temporary illness.

Get a box now—today. See a box of 6 for \$2.50. Sent on receipt of price, if your druggist does not handle them.

FRUIT-A-TIVES LIMITED, OTTAWA.

HUSSEY MAY DIE.

Victim of the Charivari Shooting at Kingsbridge, Ont.

Goderich, July 3.—The Kingsbridge shooting affair of Wednesday night is assuming a more serious aspect than appeared at first. Joseph Hussey, the man who was shot, is not expected to recover. Twenty-seven shots, size B, lodged in his body, neck and head. Doctor Whitney of Goderich, and Simpson of Kintail, have extracted a large number, but others cannot be found.

Early this morning, as the result of a visit to the scene last night by Crown Attorney Seager, Detective Phelan and Constable Taylor, three young men, Matthew McCreight, Thomas Fattish and Charles Taylor, were lodged in the county jail here. Further arrests are expected. Chief Attorney Seager is working actively in the matter, and left again this evening for Kingsbridge. Detective Murray of Sarnia, who arrived today, and Detective Phelan are also on the ground.

It appears that there was some ill feeling on the part of a considerable number of people around Kingsbridge that they had been invited to the Dalton-Moss wedding on Wednesday, which was quite a large affair. When the crowd gathered at the Dalton house at midnight two or three of them had guns. Hussey came out of the house and fired a shot with the object of scaring the intruders away, and as he turned to re-enter the house, someone in the crowd fired on him with terrible effect. Hussey belongs to a well known family of Ashfield township. Rev. Father Hussey of Ridgeway, is his brother, and he has arrived and is attending him. It is reported one of the men under arrest has confessed to the shooting, but this cannot be verified.

"A few months ago," said the sufferer "I had indigestion and rheumatism, but it is otherwise now." "How's that?" quired the stranger. "Since a rich uncle shuffled off and left me half a million," explained the other, "the doctors call it appendicitis and locomotor ataxia."

Gin Pills for the Kidneys

We believe we have in Gin Pills the most perfect remedy that has ever been discovered for all kinds of Kidney trouble. So positive are we that Gin Pills will cure any case of Kidney disease that we guarantee every box and authorize any druggist to refund the price in case of failure.

LOGGERS PAINT THE BEACH RED.

Hold Wild Orgie on British Columbia Coast.

Vancouver, July 3.—"It was the wildest time that ever happened on the coast of British Columbia. Talk about Indian potlaches! Why they were sewing circles in comparison. It was an orgie of fighting, drinking, blasphemy, profanity and obscenity." So spoke Mr. G. H. Graham, foreman of the Tomlinson logging camp at Port Harvey.

Two was referring to the opening of the new hotel at Port Harvey. The right to open the hotel had just been obtained and on Saturday last the stock arrived. A bar was made by putting a couple of planks across a few boxes. As soon as the scores of loggers near by heard of the fact that the place was open they went over and practically took charge. The man behind the bar might as well have been a dead one. The loggers ran things. It was not long before there were many fights in progress. Two couples were fighting and struggling on the beach and they kept at it till the tide came up nearly to their knees. One of the couples then fell down. The bath brought a temporary return of sanity and they took hands and returned to the place of the planks across the boxes.

Near a corner of the building two men lay too drunk to get up and fight, much though they wanted to. All they could do was to lie there and call each other all the vile names they could lay their tongues to. The saturnalia lasted a full 12 hours and the whole period was marked by one continuous succession of fights, and all the time the circumambient atmosphere was made hideous by the violence of the oaths and obscenity that was being howled and shrieked and screamed. The two or three ladies in the vicinity hid themselves till the carnival of sodden drunkenness was over. Things will perhaps be better, thinks Mr. Graham, after the men in the vicinity are used to it, but that opening Saturday night is not one that he will soon forget.

THROW MEDICINE TO THE DOGS

At best they are unpleasant, often useless. You have some disease of the nose, throat or lungs. Doctor call it bronchitis, asthma or catarrh. The common root of these diseases is germ or microbic irritation.—Catarrh is not only destroys disease germs, it does more, it heals the diseased and inflamed tissue. The disease is not only cured, but its return is forever prevented by using Catarrhose, which is splendid also for colds, coughs and irritable throat. Remember that you inhale Catarrhose—nature's own cure—use no other but Catarrhose—it's the best catarrh cure made.

OVERRUN THE COUNTRY

Striking Italian Laborers in Kingston District.

Kingston, Ont., July 3.—Farmers are alarmed at the number of Italian G. T. R. strikers who are roving in this district, having fled from the police and military when the latter went to the Junction to capture them for rioting. One farmer drove post haste from Sunbury to report that fourteen had lurked around that vicinity all night, sleeping in the barns. Six were seen in Drapery's swamp at Glenburnie during the morning. Two police constables went down to the swamp, but no trace of the men could be found. It is not likely that further search will be made, as there is no use in hauling in a lot of men with no evidence against them. Three more Italians were secured this afternoon, two at Brockville and one at Kingston. The latter having returned to reconnaissance. The large batch of prisoners were very ugly when they were informed that they would have to remain in jail a week before getting a hearing. Little Port-Sargant Nesbitt and G. T. R. Detective McRae recover sufficiently to give evidence, and identify who stabbed them, the case cannot proceed. The injured men are improving.

SPORT AT THE PARK.

Bourbon T. Won the Twenty-one Class and Victor the Thirty-five Class.

The first day's race meeting at the driving park Tuesday afternoon attracted a crowd of about twelve hundred spectators. The weather was fine and warm, the track was in splendid shape and altogether the conditions were perfect for a race meeting.

There were two events, the 221 and 235 classes, and both were very keenly contested. Bourbon T. won the 21 class in straight heats and Victor, a Chatham horse, captured the 35 class in the same manner.

The 221 class, which was called first, had six starters. Etta Mac had the good fortune to draw the pole, but it did her little good as she was in fifth place at the finish of the heat. The real contest was between Ruth Wilkes and Bourbon T. Though MacDuff got in some good driving in several of the heats. Ruth Wilkes got a very bad start in the third, in fact, she actually broke in passing under the wire. Starter 122 failed to notice this, however, and sent the horses away. It was a serious handicap for the Truro mare, and she had to move lively to save herself from being distanced. The 21 class was a well contested race, all the way through, and made lots of sport for the spectators. MacDuff Recorder Colter's speedy pace, although he acted badly in the first and second heats, managed to capture third money. MacDuff is not in good form just now, but he will probably be heard from before the season closes. Bourbon T. won the first heat in 2:21, which was the fastest time made during the afternoon.

The 235 class was a very pretty struggle between Victor and Meadowvale. Although the first named took the race in straight heats, she had not very much to come and go on. Meadowvale kept right on her wheel all the way through and made a remarkably pretty race. In the first heat there was a collision between these two horses near the three-quarter pole, and one of the wheels on Meadowvale's sulky was badly broken up. Driver Dewitt, however, succeeded in getting under the wire in second place. He entered a protest with the judges against Driver Henry for fouling him, but it was not allowed. Anona K., owned by A. B. Kitchen of this city, took part in the thirty-five class and made a very good showing, considering that it was her first race. Anona has lots of speed and may develop into quite a racer.

The list of officials was as follows: Starter—E. R. Teed. Judges—E. R. Teed, W. S. Jewett, Hugh Calder.

WATCHING CHURCH UNION.

Manitoba Anglicans Give Expression of Opinion.

Winnipeg, Man., July 3.—At the Anglican Synod this morning the question of retention of the Metropolitan See in the Diocese of Rupert's Land was discussed in private, but it is understood the decision was arrived at to oppose any movement to alter existing conditions. The Synod concluded its sessions this afternoon, before adjourning, a resolution defining the attitude of Rupert's Land was unanimously adopted. This resolution states that Anglicans watch with interest the growth of union among some of the Christian churches tending towards union of their interests. It was a matter for which churchmen were devoutly thankful, and the hope was expressed that the basis of union might be a scriptural and historical one, which would allow Anglicans to join with their brethren of other churches.

"We had a waiter who was a genius at our hotel last summer," said the funny man. "He understood the English. We asked him one morning what sort of berries he had for breakfast."

"I have strawberries," he answered "and raspberries—it was worth the price of admission to hear him pronounce raspberries—and huckleberries and gooseberries."

"Gooseberries?" we repeated. "You mean gooseberries."

"No," he said firmly. "I mean gooseberries. I understand the English. I set up right studying it. Gooseberries, it's singular, but gooseberries is the plural of it."

"Yes," she said, "I've been going to cooking school for nearly six months now, and really, you'd be surprised if I were to tell you all I've learned. I could, for instance, go into the kitchen, and get up a good, wholesome meal, without using a bit of meat of any kind, and—"

"Darling," he wildly cried, "will you be mine?"

YOU ARE AILING.

Not quite sick—but robbed of ambition to work—find it hard to think clearly. Not ill enough to think of dying, but bad enough for life to be pretty dull. There is a remedy—Ferrozone—that quickly lifts that half dead feeling. Gracious, but Ferrozone makes you feel good; it sharpens the dulled appetite, makes it as keen as a razor.

BLOOD? Ferrozone makes lots of life to be pretty dull. There is a remedy—Ferrozone—that quickly lifts that half dead feeling. Gracious, but Ferrozone makes you feel good; it sharpens the dulled appetite, makes it as keen as a razor.

Not only the complexion, but every organ of the body is strengthened, cleansed and made healthy by Dr. Hamilton's Pills. Buoyancy, vim and a feeling of vigor invariably follow their use. Sold in yellow boxes by all dealers; 25c per box or five boxes for \$1.00, or by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Improve Your Complexion.

Give Up Cosmetics and Seek the Cause of Your Bad Color.

When it's so easy to bring back the bloom of youth, to remove the blemishes and fill the hollows, isn't it foolish to plaster on cosmetics?

Sallow skin and fallen cheeks are produced by disorders of the alimentary canal.

Remove the cause—correct the condition that keeps you from looking as you ought. Use Dr. Hamilton's Pills and very soon you'll have a complexion to be proud of.

Just imagine how much happier you will feel when those pimples and murky look have gone.

Dainty looks came to Miss Vrooman, a well-known resident of Belfast, from using Dr. Hamilton's Pills. Read what she says:

"My friends all admit that I have a very delightful complexion. This I owe positively to Dr. Hamilton's Pills. I used to look so yellow I thought it might be jaundice. There was simply no color in my cheeks at all. Today my skin is clear and rosy, and gets that murky, dull appearance it had before Dr. Hamilton's Pills have also given me a good appetite and improved my general health also."

Not only the complexion, but every organ of the body is strengthened, cleansed and made healthy by Dr. Hamilton's Pills. Buoyancy, vim and a feeling of vigor invariably follow their use. Sold in yellow boxes by all dealers; 25c per box or five boxes for \$1.00, or by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Premier's Thanks.

Hon. Mr. Tweedie Appreciates Aid Gibson Co. Gave in Extinguishing Forest Fires.

The following letter is self-explanatory:

Chatham, N. B., June 25, 1906. Alex. Gibson Mfg. Co.

Dear Sir,—I have before me, the report of Chief Ranger John Robinson, regarding the recent Forest fires at Blackville, in which he speaks most highly of the valuable assistance rendered by your company to him in his endeavor to curtail the damage to the forest land, and also the protection of property. On behalf of the government I beg to thank you for the timely aid you have rendered and in this connection may say that if all the licensees of the Crown Timber Lands would act in the same manner and render timely assistance the menace to our forests by fire, would be greatly lessened.

Again thanking you, I remain, Yours sincerely, L. J. TWEEDIE.

Six Brave Canadian Girls.

In an attempt to save the life of little Olive Clegg, six girl friends, members of the Girls' Friendly Society of St. George's Church, Hamilton, went to St. Joseph's Hospital a few days ago and one after another submitted to being placed on operating tables to have pieces of cuticle removed from their bodies to be placed on the head of the little sufferer. The child was adjusting belt in Miss Connor's tailoring shop when he hair caught in the machinery, and in an instant her scalp was torn completely off.

She hovered between life and death for days, and Dr. McNicol decided the girl's only chance for life rested on a skin-grafting operation. The first to volunteer were the two brothers of the lady in whose place the child met with the accident, James and Thomas Connor, who reside on York street, near the Dundurn. In all twenty-seven pieces of skin were taken from their bodies, but this was not sufficient, and Dr. McNicol found it necessary to ask for more. The six young ladies of the Girls' Friendly Society, of which Olive was a member, then volunteered. Their names are Jesse Williams, Edith Smith, E. Gardner, Emma Gillies, Marion Marshall and Rose Bowden. They are all getting along nicely.

Canada's Long Frontier.

The Earl of Meath, in an article on the defence of the Empire in The Nineteenth Century, referring to the Canadian frontier, says: "It is earnestly to be hoped that never shall be at war with our friends in the United States, but still it is only right for a nation to consider all eventualities. Because we hope never to go to war, we ought not to neglect to be prepared for war, even against those whom we think there is little chance of ever having to contend. Here we have a frontier 6,000 miles long to defend. It is absolutely necessary for the Empire that we should have predominance of the sea. We should be starved out if we failed to maintain that predominance. Moreover, we should be unable to defend our Empire by conveying our troops across the ocean. On the other hand, we must remember that although we may possess that predominant power at sea, still it will not in any way prevent certain nations from being able to make land attacks upon us, of which the United States might be one."

What Can a Boy Do?

This is what a boy can do, because boys have done it.

He can write a great poem, Alexander Pope wrote his famous "Ode to Solitude" when he was only twelve years old.

He can write a great book, Macaulay wrote his first volume, "The Primitiae," which took the literary world by storm, before he was in his teens.

He can write a successful play, John O'Keefe, the famous Irish actor and playwright, wrote a play that is considered good to-day when he was only fifteen.

He can enter a great university before he is thirteen, William Pitt did it.

THE BAND OF RONINS.

A Gory Story to Prove the Loyalty of Japanese Servants.

The other day I found amid a great wealth of old theological material, now dead, a curious little book printed in Tokyo in 1892 called "The Story of the Forty-seven Ronins" and purchased it at once for the love of the covers. The Ronins seemed to have been the servants of some noble of Japan who had been killed at the hands of another Japanese lord, and it had become their duty as faithful servants to kill their master's enemy. The way they went about it was the story.

Of course the party of the second part was not anxious to be killed and took every precaution. The forty-seven, knowing what he would do, took to drink and dissipation. They apparently gave up all purpose of revenge. They were often seen drunk on the streets of Tokyo or playing at blindman's buff with sakshi girls. Some of them even quarreled with their wives and divorced them. The noble lord, hearing through his spies what the Ronins
