SACRED REFRIGERATORS.

Name Given to Genteel Churches by New York Divine.

New York, Nov. 17.—(Special.)—The Tribune prints the following:

The Rev. Dr. Madison C. Peters said yesterday that he would soon start a movement to reach the "un-churched masses." The departure will be made as soon as the Baptist Church of the Epiphany, of which he has been the pastor for the last year, vacates its present site on December 9.

Dr. Peters has leased the Majestic Theatre at Columbus Circle for morning services, beginning the first Sunday in January. The building has a seating capacity of two thousand. He is also negotiating for a downtown theatre in Broadway for evening services. It is his purpose, he says, to become the "people's preacher," and the services, "while dignified, will be made as attractive as possible and unsectarian."

Dr. Peters said he believed the time had come for the Church to avail herself of the popularity of the

theatre. Many of the most eloquent preachers, he said, pastors of fashionable churches, were preaching to less than fifty men on the fairest Sunday mornings.

"The fact is, the churches have been serving Christianity on ice, and sinners are afraid of coming into our sacred refrigerators for fear of catching the chills," said Dr. Peters. "I do not believe that I was either by nature or by calling intended to be an apostle to the genteels. I believe that the church must fit herself to new conditions."

A preacher should be a fisher of men, and if a run of herring go away from his section of the sea, and in their place there comes a shoal of smelts, he is not much of a fisherman if he doesn't change his net, instead of sticking to the old one, which has been a failure in the catching line. I am simply going to alter my machinery to the needs of the people."

Considerable Rolling Stock Damaged—Result of a Collision in Amherst Yard.

Amherst, N. S., Nov. 17.—(Special.) A serious collision occurred here this morning on the I. C. R. when considerable rolling stock was damaged. The main line was blocked, another illustration of the great need of more siding room.

A number of cars standing in the siding above the subway were started, probably by Nickerson's special, which was at work in the eastern end of the siding and came down with considerable force, just as the shunter in charge of Foreman McKim and Driver Gillis was coming in the opposite direction and met at the

points. The tender of the shunter was badly damaged and a carload of steel billets and a car of pig iron were thrown from the track.

A number of other cars were badly damaged and the track was torn up. Fortunately one siding is clear so there will be no interruption to the regular trains.

It seems a strange coincidence that only yesterday D. Pottinger, general manager of the road, spent the day looking into the need of better siding accommodation at this point.

THE MAIL CARRIERS.

Said that Allan Turbiners will not Come to St. John for Lack of Wharf Accommodation—I. C. R. Special Made Good Time.

Ottawa, Nov. 17.—(Special.)—It is stated at the department of trade and commerce, that the Allan Liner turbiners steamers will stay at Halifax, as they cannot go to St. John, as there is no wharf accommodation.

Montreal, Nov. 17.—The special mail train bringing the mails from the Allen Liner Virginian at Halifax passed, Levis at ten fifteen this morning, and is expected in Montreal at two forty this afternoon.

The train left Halifax at five fifteen yesterday afternoon, and if she arrives on time, will have completed the journey in twenty-one hours and a quarter. The regular train covers the distance in twenty-six hours and a quarter.

MONCTON SCOTT ACT.

Moncton, Nov. 17.—The temperance people feel another victory has been gained by the decision of the supreme court sustaining the decision of Magistrate Kay in imposing a fine of \$200 on Scott Act violators. It would not be surprising if there would be an unusual stir created in Scott Act circles very shortly by the issue of commitments in the cases of parties sentenced to jail without the option of a fine. Some seven or eight sentences of this kind were recently imposed in addition to some four or five cases in which fines have not been paid. Two or three hotel men are included in the sentences of a month in jail.

THE STOCK MARKET.

Montreal, Nov. 17.—(Special.)—Dominion Coal and Steel both showed a slight downward tendency this morning in the local stock market, coal selling at 65 and Steel from 25 to 24 1/2.

Other stocks active were: C. P. R. 17 1/2 to 17 3/4. Montreal Power, 96 1/2.

TELEPHONE MERGER.

Application for Injunction by Cumberland Co. Dismissed by Judge Barker.

In the equity court at St. John on Friday, Mr. Justice Barker gave judgment in the case of the Cumberland Telephone Company Limited of Nova Scotia, against the New Brunswick Telephone Company, Limited, in which he dismissed the application of the Cumberland Company with cost against that company.

He held that the Central Company had a right to sell and dispose of its property to the New Brunswick Telephone Company; that any rights the Cumberland Company might have over the lines of the Central Company were preserved to it under the terms of the agreement between the New Brunswick and Central Companies.

The questions in dispute having now been disposed, nothing remains to obstruct the completion of the amalgamation of the New Brunswick and Central Companies.

BOXER KILLED.

Knockout Blow Caused Concussion of the Brain.

Detroit, Nov. 17.—Mike Ward, the Sarnia boxer, died at St. Mary's Hospital, Grand Rapids, at six o'clock yesterday morning of concussion of the brain, the result of a hard fall on the floor following a knockout blow from Lewis in the ninth round of the previous night's go. Both men fought fiercely up to the seventh round, when Lewis took the lead, sending some hard punches into Ward's body. Ward died from cerebral hemorrhage, according to physicians who attended him. A post-mortem will be held to determine the cause of death.

Harry Lewis, Frank O'Brien, his second, and Referee Ryan are under arrest. Lewis was distracted Thursday night and worked hard with the doctors to restore Ward to consciousness.

THE MOUNT PROPERTY.

Government Claims it and will Take Steps to Secure Possession.

At a meeting of the local government at St. John Friday, an order was passed authorizing the attorney general to take such steps as might be necessary to secure the property at the late Sarah Mount, who died in Fredericton in 1890 without heirs, and whose estate has consequently lapsed to the crown. The property is valued at about \$3,600.

This is the property now in dispute in the equity court between Postmaster Edwards and Mr. Pick of Moncton. It is the building and lot on which the same is located, at present occupied by Mr. Dugald McCatherine, on Queen street.

MIDDLE HAINESVILLE.

MARINE DISASTER.

Schooner Wrecked on P. E. Island Coast, Captain Perished.

Charlottetown, P. E. I., Nov. 17.—

The schooner A. J. McKim, commanded by Capt. Desroches, with whom were the following crew, William Mallett, J. Richard, Joseph Lavalotter, went to pieces in Alberton harbor on the bar which had shifted during the recent storms. She went on at 12 o'clock midnight. Although the sea was running high there the wind was not blowing hard, so the captain decided to stick to his vessel in hopes of getting her off.

At 3 a. m. a furious squall struck her. The ship's boat was broken in pieces, making it impossible for the crew to reach the shore. In a short time the sea was breaking over the vessel, which was grounded hard on the bar. The crew took to the rigging, lashed themselves and clung there. At daylight she was sighted from the shore and a number of men, commanded by Capt. John Champion in the latter's seine boat, rowed to the wreck.

After three hours' hard work they saved the crew except the captain, who was so benumbed by cold that

he could do nothing for himself. In great danger of their lives from the swaying of the spars of the vessel and the heavy seas and the under tow these brave men made effort after effort to save him. Finally the vessel parted amidships and poor Desroches was drowned before their eyes and within ten yards of safety. The rescuers and rescued reached shore safely.

While playing with a revolver Friday Laurie Perry, aged twelve years, shot and instantly killed his young companion, Edgar Boonville at Marlboro, Mass.
