SHERRING'S WELCOME.

Winner of Marathon Joyfully Received---
Talks of His Experience.

Montreal, May 22.—William J. Sherring, the Canadian boy who won the famous Marathon race at Athens, arrived in Canada yesterday morning and was given an enthusiastic recep- tion by the city of Montreal and re- presentatives of all the leading city athletic associations.

Although Sherring's train pulled into the Bonaventure station a few minutes after seven, Mayor Ekers and fully two hundred of the athletic fraternity were on hand, and a strenuous cheer greeted the runner as he reached the platform. As the train pulled in, Mayor Ekers, Victor Buch- anan, president of the M. A. A. A., and Ald. Thos. O'Connell, president of the Shamrock Amateur Athletic Association, boarded the car, and formally welcomed Mr. Sherring back to his own country. Mayor Ekers ex- tending the freedom of the city to the Marathon runner.

Immediately on alighting, Sherring was caught by a lusty half dozen ath- letes and unceremoniously "bounced" after which he was carried in triumph through the station on the shoulders of the same sextette and out to a carriage, in which he was driven to the Windsor, where he spent the day as the guest of the M. A. A. A., and Shamrock A. A. A.

Sherring looked to be in splendid condition, despite his voyage, and the enthusiastic reception accorded him by the Hamilton Association and other Canadian clubs in New York. Immediately after breakfast he went up to the splendid new club house of the M. A. A. A., where he was met by a large number of members, and enjoyed a swim in the tank. Short- ly after ten o'clock he was escorted in a procession of half a dozen car- riages on a drive through the city.

Sherring took all the honors show- ered upon him very modestly and seemed to be delighted that he had been able to honor his native Dom- inion as he had. He remarked that from the minute he had landed in New York from the Campania he had been in the hands of fellow Can- adians, who did not seem to be able to do enough for him. At the New York docks he was welcomed by T. M. Wright of Hamilton, specially sent to meet him, and F. M. Dwyer of the Grand Trunk, who took him in hand as far as the Canadian clubs of New York would let him. At New York he was also the guest of the Pastime Club, who insisted on his giving an exhibition four mile run, and later showed him the sights of the city as only native New Yorkers can.

HIS FAMOUS RACE.
Discussing his famous race, Mr. Sherring said that he felt confident from the first that he had it pretty well in hand, despite the heat of the day.

Mr. Sherring said the rest of his stay in Greece was one long tri- umph. When he took the train to come home it stopped at every sta- tion and the people came out to cheer and throw bouquets at the winner of the Marathon.

Mr. Sherring said that since coming back he has been offered a good position by the Dominion govern- ment, at the customs house at Hamilton. Yesterday afternoon he was the guest of the Montreal Ball Club at the game with Jersey City. Last evening he attended the academy where Miss Robelle is starring in "When Knighthood was in Flower," and she placed a box at his dis- posal. At 10.30 he left for Hamil- ton and was escorted to the station by members of the various city ath- letic associations.

THE LOST CHILDREN.

No New Developments in the Case---Suspicion of
Kidnapping.

Sackville, May 21.—Practically no- thing new has developed today in connection with the lost Creamer children. No search has been carried on today. Creamer, father of the children, seems to have braced up some and his wife remains as coolly composed as ever. Some continue to hold the theory that the children were drowned, and if this was true, the bodies would rise tomorrow, the ninth day. The shore will be care- fully watched with a view to finding them. Unless something comes to light tomorrow people will be forced to the conclusion that the children have been the victims of foul play. A peculiar thing happened today. A

man by the name of Landry, a half- witted half blind individual hailing from the North of Prince Edward Is- land, who has been in the vicinity of Spence Settlement for the past four days, showed up at the residence of M. B. Riley and demanded four days' pay for searching for the children. He admitted he was half blind and could not search much, but insisted that he should be paid for his work. The man claimed that he was a fortune teller and could locate the children if he were paid for it. Squire Riley pay for searching for the children. He told him to move on. He seems to be a harmless half crazy tramp. So far no investigation has been started. It was hoped that the chil- dren would be found and hence no active steps have been taken. Unless something develops shortly, however, more drastic measures will have to be resorted to. Various wild rumors are in circulation.

A report came from Amherst at noon today that the children had been found hung up to a tree in the woods, but investigation proved the rumor to be absolutely without founda- tion.

General opinion seems now to be favoring the idea that Mrs. Creamer knows more of the strange disappear- ance than she admits. Her very composed manner strengthens this view, but on the other hand it is con- tended that the seeming callousness is a characteristic of her family.

Many are firmly convinced that the children were kidnapped by Mrs. Creamer's relatives with the assist- ance of Mrs. Creamer, who had some- thing less than an hour at that time, when such a thing could be done. The weakness of this theory is that no one saw any strange people in the vicinity. No strange team of a sus- picious character was lurking round. It would be extremely difficult for a team to arrive within miles of the Creamer house without someone see- ing it and giving a clue to the mat- ter. The general opinion seems to be that it would be impossible for the children to travel far in the woods and every inch of the forest within a radius of a mile has been covered again and again. The forest search-

ed forms a block of fully twenty square miles of woodland, intersect- ed by two carriage roads and many wood roads. This would give plen- ty of room to get lost in, but then the tender years of the boy Ralph would lead one to the conclusion that he could not possibly travel more than half a mile from the place where last seen. Some advance the opinion that the children will be found hung up in a tree somewhere and have advised searchers to look up rather than down. Whether any- one has heeded the advice it is diffi- cult to say, but certain it is that the mystery still remains unsolved.

TUMOR OF 200 POUNDS.

Springfield Woman Relieved on Cure by Prayer Until Malady Was Too Far Advanced.

Springfield, Mass., May 21.—Mrs. Annie Hodgegny, whose funeral was held yesterday afternoon, was a mar- tyr to her faith. She died Friday at the Springfield Hospital, after an operation pronounced by physicians as one of the most remarkable in the history of surgery—the removal of a tumor weighing nearly 200 pounds.

Mrs. Hodgegny has been ill five years, and for the past two reclined in a specially constructed chair. Al- though repeatedly urged to undergo an operation she persistently refused. Being a Christian Scientist, she be- lieved that she would be cured by prayer. She was of very slight build but her bulk had increased to enor- mous proportions. Finally, on Wed- nesday, she yielded and went to the hospital.

The doctors assert that had the operation been performed two years ago she would undoubtedly have re- covered.
