SYNOPSIS OF CANADIAN NORTH-WEST

HOMESTEAD REGULATIONS.

ANY even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply to apply for patent.

W. W. CORY,

Deputy of the Minister of the Interior

Some Interesting Information for Busy Housewives

RECIPES.

SPICES.

One peck of crabapples, seven pounds brown sugar, one quart good cider vinegar, five cents worth of stick cinnamon, whole cloves, allspice and nutmeg. Boil all together; take out apples and cook down juice, pour it over fruit and can it.

SPICED CUCUMBER PICKLES.

To each gallon of very small cucumbers dissolve two tablespoons salt in enough boiling water to cover and let them stand over night. Repeat the process three successive mornings, using fresh salt and water boiling hot each time. The fourth morning pour off the salt water and cover with unsalted, boiling water for half an hour, while the vinegar is heating. Take three pints of vinegar, one half pint sugar, two teaspoonsful each of cinnamon, allspice and cloves (whole or ground, but if ground, tie in muslin bag) and bring it to boiling point. Pour the hot water from the cucumbers and pack them closely in a jar, and pour the boiling vinegar over them.

EAST INDIA PICKLES.

Twelve medium sized green cucumbers, six green tomatoes, two medium sized onions, two green peppers, one red pepper. Remove the seeds from the tomatoes and slice them and the onions very fine. Sprinkle a cup of salt over all, and let stand twenty-four hours. Drain and pour over all two cups of vinegar and one of water, and heat slowly until boiling hot and drain again. Heat one pint vinegar to boiling, add two tablespoons each of chopped mint and white mustard seed, three tablespoons sugar, one teaspoon ground cinnamon, one half teaspoon of ground cloves and allspice mixed, add the prepared vegetables and cook for twenty minutes after it begins to boil, stirring constantly. Pour into small glass fruit jars while boiling hot and seal as in canning fruit. It's easily kept.

CATSUP.

Cook and rub through a sieve five and a half pounds of grapes, add one pint vinegar, three pounds sugar, one tablespoonful allspice, one of cloves, cinnamon and pepper and a pinch of salt. Boil until thick. Two gallon of stewed tomatoes, one half pounds salt, a half ounce each of garlic, pepper and pimento, and one ounce of cloves and ginger root. Put into kettle, cook thoroughly, strain, bottle and seal with wax.

RIPE CUCUMBER PICKLES.

Pare firm, yellow cucumbers, remove the seeds and pulp, slice lengthwise into strips three-quarters of an inch thick, and boil in vinegar in a granite kettle for fifteen minutes. This vinegar must be thrown away as it has the "green" taste from the cucumbers. Prepare a new vinegar by taking enough vinegar to cover the cucumbers, measure it and add half as much sugar as vinegar, with cinnamon, cloves and allspice to flavor

GREEN TOMATO SWEET PICKLES.

Weigh fourteen pounds green tomatoes, slice, sprinkle over them one half cup salt and let stand over night In the morning drain from the juice (throwing it away). To a quart of vinegar add four cups of sugar, cloves, cinnamon and allspice to season, boil up, put in the tomatoes and let the boiling point. Green tomatoes cook fifteen minutes after reaching can be put in brine in the fall to be made into pickles during the winter. To do this use one teacup salt to each two gallons of water, pack the tomatoes in a jar, keg or barrel, and put on enough brine to cover well, weighing down so that none can come above the brine. Do not let freeze. When wanted for pickling, wash, slice once or twice, put in a granite kettle and boil until clear and tender, in plain water; then proceed with the syrup just as for fresh tomatoes.

FASHION DECREES.

Tulle and mull and the rest of the many diaphanous stuffs which promise show embroidery applied in lavish ise to be exceptionally good this winways.

Radium silk, that wonderful stuff that is a cross between silk and chiffon comes in the most exquisite gray shown in any material for many a long day. Apparently it is solid color but with the shifting of light the surface flushes into rose and pales to blue, shimmering back in a moment to its own clear toned gray.

After all that has been said and done against them, girdles are still with us, appearing today in a dozen new forms (most of us thought the whole gamut had been run) from the high, swathed effect that takes a wonderful, willowy figure to wear, to the one which is eloquent of Japanese influence.

Lace combinations are to be even more daringly made this winter—heavy and light, or one sort of heavy lace combined with another, or with others as many and as picturesquel put together as possible.

Tailored suits are much trimmed. Different materials are untied and quantities of braid decorates many of the handsomest dresses. Mahogany is a pronounced favorite, while greens, browns and bright blue of a new tone that is indescribable, beyond that it is a trifle more intense than "Alice blue, make up the representative autumn colors. Last year was especially notable in this regard. The colors this fall are dark and very rich. Many of them depend upon their trimmings to give them life. With this fact in view designers have not forgotten the touch of calor here and there which is often the very "making" of the gown.

HOOTED LORD DUFFERIN.

The reception of Earl Grey and his Countess in Vancoover is widely different to the welcome that was extended to Lord Dufferin and Lady Dufferin just thirty years ago last July. The province was incensed because of the failure of the Ottawa government to fulfil the agreement to begin overland railway construction within a certain date after confederation. An appeal had been taken to England and new terms were arranged by Lord Carnarvon, the secretary for the colonies. This agreement the Dominion parliament refused to ratify, and the indignation of the people of Victoria found vent in an arch which was erected across Fort street through which it had been arranged the procession should pass. The arch bore in loud, startling letters the inscription: "Carnarvon Terms or separation." Lord Dufferin, when apprised of the existence of the arch, declined to pass beneath it. He suggested, with that ready wit which never forsook him until he yielded to the blandishments of Whittaker Wright, that if the letter "R" was substituted for "S" in "separation," which would make it "Carnarvon. Terms or Reputation," he would pass under it. The committee refused to make the alteration and the Governor General's carriage left the line of procession. Amid the hoots of a large concourse, it was driven up a side street and rejoined the line on the other side of the offensive arch. The incident created a marked impression throughout the British empire at the time and probably hastened railway construction. —Vancouver World.

A MAN OF GOD.

(From the Boston Transcript.)

The death of Rev. George Matheson of the United Free Church of Scotland will be mourned wherever there are lovers of Christian hymnody, his classic of aspiration and devotion, the hymn "O Love that will not let me go," being found in practically all recent hymnalr of every sect. Losing the use of his eyes early in life, he rose above the need of outward sight to a vision of things spiritual which gave to all his writings pertaining to theology, religioa, literatare and science a touch that was all his own and not possessed by ordinary men.

Academic honars came to him as the reward of his attainments in philosophy, and high ecclesiastical honors might have been his had he so desired. Queen Victoria rated him as one of her favorite preachers. His point of view in all things pertaining to the rational side of religion was modern, but his uniqueness lay in his mystical, seer-like insight into the truth of the Bible and in his fibe art as a painter of biographical portraits. When the history of the revolt of modern Scotland from the Calvanism of the fathers comes to be written he may not figure as a theologian, but he will give his due place as one who sang the love and mercy of God.

"ROD AND GUN" HUNTING NUMBER.

"A hunting we will go!" is now the thought, if not the cry, of every sportsman longing for experiences and adventures in the cool woods. Just in the nick of time comes the fine October number, devoted primarily to hunting, of "Rod and Gun and Motor Sports in Canada," published by W. J. Taylor, at Woodstock, Ont., which gives the sportsman just the reading matter he wants, and increases his desires to be far affield. This number ought to be the companion and friend of every hunter this fall. "Scientific Deer Hunting" by Dr. Franklin Hawley, and "In the Woods with Indian Guides," by Mr. C. C. Farr, would alone render any number notable, but there are a dozen hunting stories in addition, several fishing stories, and papers concerning all parts of Canada. The fine illustrated accounts of the qualification climb for the membership of the Alpine Club of Canada, and of the Convention of the Ontario Fish and Game Protective Association add interest to an excellent number, and give a variety calculated to meet all tastes. Boating, automobile, sporting items, and trap shooting, are dealt with at generous length, and show how thoroughly this magazine fills the field as the representative Canadian Magazine of sport and outdoor life. No sportsman should be without it, and its work in making the sporting advantages of Canada known to the world is one deserving the sympathy, encouragement and help of every Canadian.

"Do you enjoy going to church now?" asked a lady of Mrs. Partington.

"La, me, I do," said Mrs. Partington. "Nothing does me so much good as to get up early on Sunday morning and go to a church and hear a papulace minister dispense with the gospel.

"Don't you think you have a good mamma to spread such nice large slices of bread and jam for you?" said an old lady to a little boy who was enjoying his tea.

"Yes," was the reply, "but she'd be still nicer if she'd let me spread on the jam myself."

BIG GAME PRESERVE.

Lands of New Brunswick Railway Company Leased to New Organization.

(St. John Telegraph.)

A company, the New Brunswick Fish and Game Company was formed in Montreal last week to take over from the New Brunswick Railway Company a lease of all lands in this province for the purpose of establishing fishing and game preserves.

The membership of the club or company is limited to 100 at a subscription of $1,000 each, in addition to which it is expected an annual assessment will be made. The following officers have been elected: Lord Strathcona, honorary president; Robert Meighen, of Montreal, president Col. H. H. McLean, vice-president; Alfred Seeley, St. John, treasurer; W T. Whitehead, Fredericton, manager, and on the list of provisional directors are the names of a number of New York sportsmen. The head office of the company will probably be at the club house on the property. Letters patent have been issued in New Brunswick.

Col. McLean in speaking of the matter yesterday, said the formation of the company should tend to the preservation of game in the province. The object was to protect the big game and the preserves would act as a nursery ground for the rest of the province. He did not think the average sportsman would be at any disadvantage. The area under the lease was surrounaed on all sides by millions of acres of crown lands where it would be free for anyone to shoot and the moose and other big game were perfectly free to roam all over the province as formerly. He believed sportsmen in general would appreciate the effort which was being made to keep from depletion one of the finest hunting grounds on the continent.

It is understood that plans for a club house on the property have been prepared and that it is intended to establish a large number of sporting camps. Guides will be secured from among the residents in the district who will likely benefit in many ways from the presence of a number of wealthy sportsmen.

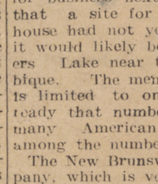
Mr. W. T. Whitehead, M. P. P., of the New Brunswick Railway Company when seen in reference to the above, stated that the company had been granted a charter by the local government some weeks ago, notice of which had been given in the Royal Gazette at the time. The work of organization was now about completed and the company would be ready for business next season. He said that a site for the central club house had not yet been selected but it would likely be located at Trowsers Lake near the head of the Tobique. The membership of the club is limited to one hundred, and already that number has been secured many American millionaires being among the number.

The New Brunswick Railway Company, which is very closely identified with the New Brunswick Fish and Game Company and also with the Tobique Salmon Club, are the owners of 1,647,000 acres of timber land, situated in the counties of York, Carleton, Victoria and Madawaska counties. Many guides now have camps scattered about this territory and have hitherto enjoyed the hunting privileges free of charge. Of course this will not be permitted under the new order of things, but it is understood that the most efficient of the guides will be offered employment at good wages with the company, so the change will really be in advantage to them. A most rigid system of fire and game protection will be carried out and only members of the club and their guests will be permitted to hunt on the property.

Mr. Whitehead says that the company have no fault to find with the system of protection carried on by the government in the past, but under the new arrangement it will be possible to make the service more efficient, while the government officers will be in a better position to look after the crown lands. Lumbering operations will be carried on on the company's lands as heretofore.

ANOTHER WONDERFUL CASE.

Here is something that will be Welcome News to Many a Discouraged One.



"For several years I have been troubled with gas around my heart, shortness of breath, in fact, if I walked my usual gait my breath would get so short I would be compelled to make several stops during my walk.

"Of late my food did not digest properly. It turned sour in my stomach, causing me great distress; often, too, I had disagreeable attacks of belching gas and heartburn.

"I was bothered with severe pains across the small of my back, and the least bending or turning would cause me to almost cry out.

"I was induced to try Dr. Leonhardt's Anti-Pill and from the very first found relief.

"For the last three months I have had no recurrence of my former complaints, so I am bound to say that Anti-Pill indeed cured me."

This is the voluntary statement of Wm. H. Reed, of 165 Queen Street, Kingston, Ont.

All Druggists sell Anti-Pill. The Wilson-Fyle Co., Limited, Niagara Falls, Ont.

The remedy that cured such an extreme case is surely worth trying.

"Those young fellows act like a bunch of fools."

"They consider that they have a right to act that way."

"I'd like to know what right."

"They belong to the smart set."

A Most Remarkable Remedy.

Has Used it for 22 Years.

DIARRHOEA, DYSENTERY, COLIC, STOMACH CRAMPS, CHOLERA MORBUS, CHOLERA INFANTUM, SEA-SICKNESS, and in fact all BOWEL TROUBLES can be quickly cured by the use of DR. FOWLER'S EXTRACT OF WILD STRAWBERRY. It is the original Looseness of the Bowels remedy.

Be sure and accept no substitute.

Has been on the market 60 years, so you do not experiment when you buy it.

Mrs. D. Taylor, Cranbrook, Ont., writes: "For the past 22 years I have used Dr. Fowler's Extract of Wild Strawberry as a family remedy for all kinds of summer complaints with the greatest success, in fact, I have found it a most remarkable remedy."

Price 35 Cents.

ALL DEALERS SELL IT.

SUIT OVER TOMB STONE.

Ottawa Ladies Claim $5,000 For Desecration of Their Family Plot.

Ottawa, Sept., 28.—A curious case is before Judge Anglin, at the Assizes. The Grant sisters, Misses Ellen, Theresa and Catherine, furriers, of Ottawa, and a fourth, Mrs. Daniel McCallum, of St. Thomas, Ont., want $5,000 damages because Robert Brown, marble cutter, Bay street, removed a tombstone from their family lot in Notre Dame Temetery.

The plaintiffs claim that the monument, including corner-stones and everything, and the inscribing of names of deceased relatives, was to cost $85. Of this $74 had been paid and the statement of claim set forth that the balance had been offered Brown's defence is that he made efforts to get his money, and when he could not, removed the stone. He makes a curious claim in his statement of defence when he asks $10 for retaking, $10 for relettering, and $10 twenty dollars for loss, as he had to sell the monument for $235 instead of $155, as he first asked.

JUMPING WITH NERVE PAIN.

That's how you feel with neuralgia. But why lie awake at night, grumble or complain—get busy with a bottle of Nerviline. It does act like magic, seeks out the pain and destroys it. Harmless and certain, instant in effect, nothing is so popular as Nerviline for aches and pains of all kinds. Try it for lumbago, test it in rheumatism, prove it in neuralgia, pleurisy or colds. You'll soon acknowledge that Polson's Nerviline beats them all Sold everywhere in
