PROMPTLY NAILED.

Tory M.P. Made Insinuations Against Sifton Which He Was Compelled to Swallow.

CLOSE OF THE LANDS DEBATE---PREMIER WILL BRING DOWN NEW PENSION BILL.

Ottawa, June 6.—The House had a long session last night. Sir Wilfrid Laurier moved to take Mondays for the balance of the session. Several members wanted their bills to get special privileges, but finally the motion was approved. The premier said that he was to bring in a bill in regard to minister's pensions but he was not prepared to say what it provisions would be.

Mr. Crawford, Portage, resumed the debate on the amendment of Mr. Borden in regard to Dominion lands.

Mr. Crawford said that the amendment was a certificate of the good management of the interior department. There was no charge in it of wrong-doing, because there was none to be had. He proceeded to show the great progress the west was making under Liberal rule compared with when the Conservatives were in power.

The homestead entries in 1895 were 2,118, and this year they would amount to about 40,000. The average each year of Liberal rule was 22,222.

He condemned the land grants of the late government to railways. The land should be left to the settler. The Conservatives had been the party to the speculation to every one that went to the settler. On the other hand, the Liberals gave ten acres to the settler to every acre that was disposed of in every other way. The minister of the interior would have to maintain that the land was given to the settler to the settlement of the west that had been in existence for years past.

MORE INSINUATIONS.

Mr. Ames, St. Antoine, followed. He concluded by saying that from information he had obtained and which he believed to be correct, Hon. Clifford Sifton, the member for Brandon, had purchased the interests of A. D. Philip, A. Fenwick and C. E. Hall, of the Milk River Company ranch, south of Medicine Hat. A thoroughly respectable party sent him a signed letter, making this assertion, and stating that the same thing applied to the Grand Forks Ranch Company.

SIFTON'S STRAIGHT DENIAL.

This statement was made at six o'clock when Mr. Sifton was not in his seat. As soon as the House met at eight o'clock Mr. Sifton gave a most emphatic contradiction to the report. He said:

"I desire to say a word before my hon. friend who has the floor proceeds with his remarks. I have been informed that the member for St. Antoine division, Mr. Ames, made the statement before the House took recess that he had been informed that certain parties having an interest in the Milk River Cattle Company, Ltd. had sold their interest to me some months ago; and also that a similar statement was made in regard to the Grand Forks Cattle Company. I desire to say in the most emphatic way that nobody ever sold to me directly any interest in the Milk River Cattle Company or the Grand Forks Cattle Company. I have no interest, and never had any interest in any grazing lease issued by the department of the interior or by the government of Canada.

Mr. Ames—Mr. Speaker, if the hon. member for Brandon declares that neither he nor any member of his family is now or ever has been directly connected with or interested in—

Mr. Sifton—If my hon. friends will allow me to amplify my remarks by saying that neither I nor any member of my family has any such interest.

Mr. Ames—I have passed over to my hon. friend what I am saying. If

the hon. gentleman for Brandon declares that he nor any member of his family now or ever has been directly or indirectly any interest in the Milk River Cattle Company or the Grand Forks Cattle Company, then I will most assuredly accept his disclaimer and admit that my information, which at the time it was given to me, I believed to be true, was faulty.

Mr. Burrows (Dauphin) said that he wanted to speak upon a subject on which he was in a better position to speak than any other man. The leader of the opposition made some reference to his dealings with the government and particularly with the interior department. He was rather glad to have an opportunity to make a statement clearly, emphatically and explicitly.

When the leader of the opposition made the statement he did about his (Burrows) owning certain timber limits, Mr. Borden had in his hands a departmental paper showing that these limits were obtained by public tender in the open markets. Mr. Borden had the names of the successful and unsuccessful members. He saw that he (Burrows) was successful in some instances and unsuccessful in others.

"I have never received," said Mr. Burrows, "any favor from the department of the interior with regard to timber berths or with regard to any other matter. And it might be just as well for me to say the same at this moment in regard to the question of grazing leases, and I have never been on a ranch in my life. That will set that matter at rest."

Mr. Burrows then read a statement of the limits he had secured showing the competing tenders in each case. His tender was in each case the highest and on 43 square miles the government got \$9,386 more from him than if they took the next tender.

LAURIER CLOSES DEBATE.

It was a quarter to 1 o'clock when Sir Wilfrid Laurier rose to close the debate. As to the publication of all the reports that came to the minister. In England there were no marks where a report was shortened. There was nothing in the amendment which ought to have it passed. He referred to the Saskatchewan Valley Land Company agreement as a good one.

The premier defended the changes in the grazing leases as one in the interest in the department as well as of those who invested in them. But the opposition say that they are satisfied with the policy as it exists today and why then should they ask an investigation into what had taken place some years ago? There was no charge of wrong doing, only insinuations.

The premier admitted that where there was a vigorous administration abuse would creep in. Whenever there was a charge made it would be investigated and when any wrong-doing was discovered the party responsible would be dealt with.

The amendment was lost by 52 to 99 against 47 of a majority for the government.

Mr. Bourassa said the scope of the amendment was too wide. He could not vote for it.

BIRDTON.

June 5.—Owing to the cold wet weather, the farmers are getting along very slowly with their work. Mr. and Mrs. Benj. Griffiths, of Fredericton, were the guests of Mr. and Mrs. W. Griffiths on Sunday. Samuel Bird sold a very valuable team of Clyde horses to Mr. Christie of Penniac.

Our teacher, Miss Lillian Pond, spent Victoria day at her home in Upper Durham. She was accompanied by Miss Jennie Foreman.

Mrs. J. L. Bird is visiting her daughter, Mrs. F. Richards of Fredericton.

The young men have nearly all returned from the drive.

A number of the farmers have purchased new cream separators. Roy C Bird has purchased a very fancy driver.

Mrs. Rogers of Patten, Me., is visiting her sister, Mrs. Thomas. Miss Nellie Bird has returned home from a visit to relatives at Fredericton and St. Mary's.

Miss Gertrude McElwain is the guest of her cousin, Miss Bessie Bird. Miss Melissa Griffiths left on Saturday for Lawrence, Mass.

William Morris, wool merchant, passed through this place today. Miss Edith Nicholson has returned from Auburn, Me., where she spent the winter.

There is only one person enough interested in your secret to keep it. It takes absolute genius to interfere in a woman's affairs and not get the worst of it.

EARN CASH

In Your Leisure Time

If you could start at once in a business which would add a good round sum to your present earnings—WITHOUT INVESTING A DOLLAR—wouldn't you do it?

Well, we are willing to start you in a profitable business and we don't ask you to put up any kind of a dollar.

Our proposition is this: We will ship you the Chatham Incubator and Brooder, freight prepaid, and

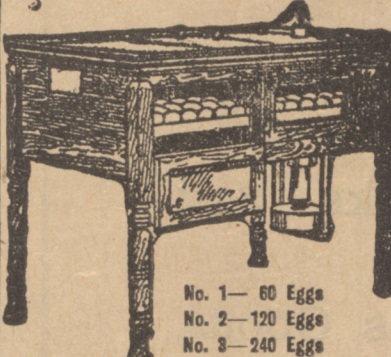

You Pay No Cash Until After 1906 Harvest.

Poultry raising pays.

People who tell you that there is no money in raising chicks may have tried to make money in the business by using setting hens as hatchers, and they might as well have tried to locate a gold mine in the cabbage patch. The business of a hen is—to lay eggs. As a hatcher and brooder she is out-classed. That's the business of the Chatham Incubator and Brooder, and they do it perfectly and successfully.

The poultry business, properly conducted, pays far better than any other business for the amount of time and money invested.

Thousands of poultry-raisers—men and women all over Canada and the United States—have proved to their satisfaction that it is profitable to raise chicks with the

CHATHAM INCUBATOR AND BROODER.

"Yours is the first incubator I have used, and I wish to state I had 22 chicks out of 22 eggs. This was my first lot; truly a 100 per cent. hatch. I am well pleased with my incubator and brooder. T. J. McNAUGHTON, Chilliwack, B.C."

"My first hatch came off. I got 176 fine chicks from 184 eggs. Who can beat that for the first trial, and so early in the spring. I am well pleased with incubator, and if I could not get another money could not buy it from me. Every farmer should have a No. 3 Chatham Incubator.—F. W. RAMSAY, Dundasville, Ont."

"The incubator you furnished me works exceedingly well. It is easily operated, and only needs about 10 minutes attention every day. H. MCGUFFEE, MOORE JAW, ALB."

The Chatham Incubator and Brooder is honestly constructed. There is no humbug about it. Every inch of material is thoroughly tested, the machine is built on right principles, the insulation is perfect, thermometer reliable, and the workmanship the best.

The Chatham Incubator and Brooder is simple as well as scientific in construction—a woman or girl can operate the machine in their leisure moments.

You pay us no cash until after 1906 harvest.

Send us your name and address on a post card to-day.

We can supply you quickly from our distributing warehouses at Calgary, Brandon, Regina, Winnipeg, New Westminster, B.C., Montreal, Halifax, Chatham. Address all correspondence to Chatham.
