For Very Little Money
GEO. Y. DIBBLEE,

PEOPLE'S DRUGGIST, - - opp. City Hall.
Fredericton's Leading Drug Store.

Chestnut
says

"Quality and quality alone
is the only proper basis for
comparison of prices. It is
the quality of an article
which determines whether
the price asked for it is
high or low. We carry a
choice, well varied assort-
ment of first quality goods.
Cheap quality is dear at
any price when you are
buying drug store goods."

"THE QUALITY STORE,"
572, Queen Street.

Satisfaction.

OUR MOTTO.

Everything got at this Store is guaranteed to give
good satisfaction. Anything proving unsatisfactory
will be gladly exchanged for the asking.

BARBAROUS CRUELTY.

**Tale of Man's Inhumanity to Man Reaches
Sydney--Sailors Treated Worse Than
Dumb Beasts.**

Sydney, N. S., Sept. 21.—(Special.)—An enquiry has been received here from a firm of Glasgow solicitors, with respect to the treatment accorded seven sailors of the steamer Boveric who had been arrested at this port, for refusing duty on board the ship.

The men were lodged in jail here until the steamer sailed for Seattle with a cargo of rails from the Dominion Steel Company.

The Glasgow solicitors give the following statement:

The sailors after the Boveric left Sydney, were put into separate confined places, and kept there in handcuffs till they arrived at St. Lucia, W. I. on the 18th of June a period of nine days. Irons were never off during that time. They were fed on three biscuits and a half pint of water the first day, two biscuits and a half pint of water the second day, and one biscuit and half pint of water for the remainder of the time. The men were bruised and in some cases so cut into the flesh, that they had to be bandaged and moved higher up.

One man, named Williamson, was for five days shackled round a stan-

chion, and could not lie down for part of the time, with the sea beating in upon him.

Another man named Haddock, was five days in the forepeak handcuffed and shackled to a ladder.

Another named McKinnon was placed in a bunker with absolutely no light, handcuffed and fastened so that he could not stand up.

Another Diggon had his hands fastened around a shaft that ran through a seven by seven room from the lower deck. He was kept there for a week, suffering the bitterest agony from loss of sleep, bloody and swollen bruised wrists, where the cords were into them. All the others were bound and fastened in a similar manner.

On the arrival at St. Lucia on June 18, they were again sent ashore into the charge of colored policemen under a mock charge of refusing duty.

The ship left immediately after putting them ashore in continuance of her voyage, and the men were sent by a coast steamer to Barbados. Then they were transferred to the Royal steamer Atroto, which brought them to Southampton as distressed seamen, reaching their home in Greenock the 16th of July.

AFTER MANY YEARS.

**Rev. Leonard Gaetz, Former Pastor
of Methodist Church, is in City.**

Rev. Leonard Gaetz, D. D., of Red Deer, Alberta, who has been attending the Methodist Conference at Montreal, arrived in the city by the noon train today and is registered at the Queen. The new gentleman, was pastor of the Methodist church here in the early seventies, but has been in the west for some years. He contested Red Deer in the Conservative interest for the new legislature of Alberta in the general election of last year, but was defeated.

It is needless to say that Rev. Mr. Gaetz is receiving a cordial welcome from his many old friends here.

This is what Mr. Gaetz looked like when he left Fredericton in 1874. He is whiskerless now.

To a representative of the Herald, who had a brief chat with him at the hotel, Rev. Mr. Gaetz said that he was on a flying visit to the maritime provinces just to see his relatives and old friends. He had, he said, been attending the Montreal conference, but only as a visitor, as he was now on the retired list of ministers.

"It is thirty-six years since I left and I expect that there has been great changes since that time. I have a team engaged and intend taking a drive about this afternoon. I know that death has been busy among my old friends and associates here, and I can walk about the streets without being recognized by a single person. It is remarkable the changes that time will bring about."

In conclusion Rev. Mr. Gaetz remarked that he had visited the High School building in search of his old friend, Mr. C. A. Sampson, but had not succeeded in finding him.

Asked in regard to the political situation in Alberta, the rev. gentleman smiled good naturedly, climbed into a cab and drove off.

WILL ASK DAMAGES.

Gaslight Company Say City is Responsible for Recent Leakage in Mains.

It is not improbable that the Fredericton Gaslight Company will present a claim to the city council for damages resulting from the recent breakage in the main on Waterloo Row, near the I. C. B. crossing. The company lost as a result of the leak, no less than 25,300 feet of gas, and the service in the lower section of the city has not yet been restored.

The company are not disposed to blame Contractor McManus for the break, as in excavating it was necessary for him to follow the course mapped out by the engineers. They claim however, that the engineers in getting over the railway crossing did not follow the course laid down in the plans, but swerved to one side, and thus came in contact with the gas pipes. By deviating from the plans, a few dollars was saved, no doubt, but it has been done at the expense of the Gas Company.

The leakage in the gas pipes was caused by the sewerage laborers excavating too close to them. The pipes were not broken, as alleged in some quarters, but the extra strain placed upon them caused the lead which is used at the joints to break away.

The Company's officials claim that it is a case of negligence on the part of the city, and that they should be compensated for the loss sustained.

A GOOD ONE.

Gloria, the Boston horse which won the free for all race at Chatham on Wednesday and broke the Maritime record, has competed in eighty-one races up to the present time, and has only lost two of them. Driver Fox, who has handled this great pacer for some time, is responsible for the statement, that she has not made a break in a race during the past four years.

Dr. C. C. Jones, chancellor of the U. N. B., who arrived yesterday to take up his duties, was last night joined by Mrs. Jones and their three children. They are guests at Windsor Hall.

PROBING FORESTERS.

**High Chief Ranger Thought it a Brilliant
Idea to Enlist Services of Hon.
G. E. Foster.**

Toronto, Sept. 21.—Dr. Oronhyatekha yesterday related to the insurance commission the genesis of the formation of the Union Trust Company, established for the purpose of investing the surplus funds of the I. O. F.

The supreme executive in December, 1898, declined an invitation to take a larger interest in the Provincial Trust Company. Subsequently representations were made to him by prominent members of the order of the advisability of making better provision for investing the surplus funds of the order and in January, 1900, a resolution was passed by the executive authorizing the purchase from time to time of stock in the provincial trust company until a controlling interest was acquired.

Wm. Laidlaw, K. C., to whom the task of securing the stock was entrusted, advised that a new company be formed and the Union Trust Company was the result.

The increase in rates in 1899 over the old schedule of 1881 was shown by a statement filed by Dr. Oronhyatekha to have been from 26 to 110 per cent, the greater percentage being on advanced ages.

From another statement filed it appeared that Dr. Montague received a special allowance of \$200 in addition to his salary and expenses while in Australia representing the Foresters.

BIG BONUSES PAID.

It also transpired that although expenditure under heading of "organizing work" was materially reduced in 1900 and 1901 the reduction was offset by a new item for "bonuses and commissions" which amounted to \$36,000 and \$40,000 respectively for

Montreal, Sept. 21.—(Special.)—The Methodist conference this morning disposed of the re-organization proposals in four departments.

In mission work a compromise was adopted, and after a debate occupying two entire sessions the compromise was adopted without discussion.

It provides for the election of two general secretaries and a division of the work into home and foreign departments. This point was yielded by a majority of the committee, the details of the arrangements to be left between the secretaries, mission boards and executive.

In addition, it was decided that there should be a layman and that a sub-treasurer should be appointed for office duties.

In the Epworth League department there is to be a general secretary, one to reside west of Lake Superior.

The proposal to elect an associate secretary of the temperance and moral committee was voted down and the board was authorized to employ such aid as was needed.

Educational department is left in executive charge of a general secretary and the board of education is authorized to appoint a field secretary.

Elections then followed and the first vote was for treasurers, lay and clerical for the superannuation fund, the choice of the conference being Dr. W. S. Griffin and Edward Guernsey the present officers.

NEW BRUNSWICK IS BEST

**St. Andrews Farmer Could Not Bear
Prairie Life Monotony.**

St. Andrews Beacon.—Mr. John Greenlaw, who recently sold his farm at Bayville, and left for Saskatoon, Alberta, about three weeks ago with the intention of settling there, if the conditions pleased him, returned home on Saturday. The treeless expanse of the level prairie looked so uninviting after a life spent amidst the verdant, sun-kissed hills and dales of New Brunswick, that he could not entertain the thought of spending the balance of his days there. He said that he would just as soon be placed on a raft in mid ocean as to be fixed upon one of those lonesome prairie farms.

Saskatoon he described as a lively little place about the size of St. Andrews. He saw Capt. E. S. Andrews there and says that the advance in the price of land that followed the selection of Saskatoon as a railway terminus, had made the Capt. a wealthy man. Mr. Greenlaw is quite well satisfied to let others exploit the West, the East is good enough for him.

the years named.

The expenditures of publication of the official organ, for legal expenses and loss sustained by the operation of the cafe in the Temple building were also dealt with.

A further loan from the sick and funeral benefit funds of \$150,000 to the orphan home, which also borrowed an additional \$50,000 from the Traders' Bank, was also disclosed by the evidence.

"How did Mr. Foster's name come to be mentioned as a prospective manager of the company?" asked Mr. Shepley.

"The executive were discussing the subject and I had one or two applications from gentlemen for the position. Eventually somebody—I think it was Laidlaw—suggested to me that we might be able to secure Mr. Foster. It struck me as a brilliant idea; I put myself immediately in communication with Mr. Foster and eventually obtained his assent to accept the position if it were offered to him."

Dr. Oronhyatekha said the capital stock of the Union Trust Company was taken by the I. O. F. at \$110 per \$100 share and the subsequent increase of \$500,000 capital stock had been issued at the same rate.

Mr. Shepley next called attention to the fact that nowhere in the minutes of the I. O. F. was to be found direct authority for taking up stock in the Union Trust Company.

Dr. Oronhyatekha said that might be so, but the principle of taking stock in the company was, he thought confirmed at the Los Angeles meeting of the supreme court, and the action of the executive had since been ratified.

The dispatch adds that the revolutionists bought two dirigible balloons from an American, and are keeping them in Germany, until a favorable opportunity offers for them to carry out their plan.

The revolutionists hope that the victims will include the Czarevitch and Grand Duke Vladimir.

A dispatch from St. Petersburg to a news agency reports that Vazet, characterized as the most dangerous of the terrorist leaders and the author of many crimes, was arrested on Tuesday at Mitau. He gave a false name, but it is said there is not the slightest doubt as to his identity. Vazet has been traded over the military authorities for trial by drumhead court-martial. The greatest importance is attached to his arrest.

As the result of the rumor that there was a secret revolutionary working press in existence in the workshop of a new bridge in the course of construction at Warsaw six battalions of infantry, six squadrons of cavalry and two batteries of artillery took possession of both banks of the Vistula in the vicinity of the bridge and four gunboats stopped river traffic and posted loaded guns at the piers whilst officers and soldiers made a minute search of the locality, arresting engineers, workmen, boat-repairing engineers, workmen, boatmen, fishermen and inhabitants of neighboring houses. Altogether 900 persons were searched or arrested.

MAY BE MURDER.

St. John, Sept. 21.—(Special.)—Thomas B. Galbraith, 19 Moore St., assaulted his wife last night and her injuries may prove fatal. Galbraith had been drinking and became dangerous. He became angry with his wife and hurled a sugar bowl at her. The missile struck the unfortunate woman with great force and she was knocked down.

Galbraith is under arrest.

Felix—I don't think poor Toby is getting along well in the other world—just look at him when he was alive, the way the fleas always troubled him—and now we have had him stuffed and the moths are feeding on him.
