DAILY HERALD.

SATURDAY, JUNE 9, 1906.

AN OPPOSITION DISGUISE.

Mr. Hazen seeks to create the impression that his party in the legislature is non-partisan so far as Dominion politics is concerned, and he is claiming Liberal support, but his attitude is only a blind.

Mr. Hazen and his supporters in the House, with the single exception of Mr. Morrissey, are straight Tories, and if they are ever permitted to form a government it will be a Tory one from stem to stern.

An evidence of the real conditions is seen in the fact that at the opposition picnic to be held at Gagetown on Dominion day, Mr. Borden, Mr. Bergeron and Mr. Broder, three Tory members of parliament, are expected so speak.

These gentlemen have no particular interest in the local politics of New Brunswick, and would not be invited to the picnic if they were not Tories, who naturally would like to see Mr. Hazen succeed in his hunt for office. The opposition might as well throw off their cloak of deceit, as nobody is foolish enough to believe that they have anything in common with the Liberal party of this province.

The Gagetown picnic is being held to forward the interests of Mr. Hazen and the Tory party, and Liberals will have no part in it.

With respect to Mr. Bergeron's appearance in Queens, this gentleman is a French Canadian, and it is not very long ago that a Tory candidate in Queens rather dramatically declared that the time was coming when the farmers of New Brunswick would have to go gunning for the people of that race. Isn't it rather peculiar then that Mr. Bergeron should be brought to Queens to bolster up Mr. Hazen's cause?

However, the Gagetown picnic is not likely to disturb the local government or the Liberal party. Fredericton is offering a far better show for Dominion day and the two days following, and the crowd will come this way.

CONSERVATIVE SUPPORT.

Liberal candidates in the Nova Scotia Provincial elections, are receiving support from very many Conservatives who believe in the good faith and energetic action of the Murray government and its friends. In Colchester, Messrs. Pearson and Hill have the active co-operation of Mr. J. J. Drummond, head of the Iron Industries of Londonderry, who although declaring himself a Conservative, believes that the Liberal candidates belong to a party that has done much towards developing the mineral resources of Nova Scotia. In a public address Mr. Drummond testified to the support he and his company had received from Mr. Pearson in re-establishing the Londonderry iron works.

A few years ago the place, formerly known as Acadia Mines, was nearly deserted, the works were closed down, the houses empty, the stores without business and general stagnation reigned.

This seriously affected the surrounding country, the farmers of which found a ready market for their produce at "The Mines," but the works have been re-established, population has returned, good times reign again in the village, and the farmers have their former market restored.

Mr. Pearson does not claim to have created these pleasant conditions, but Mr. Drummond declares that at Ottawa and at Halifax, in his efforts to bring about conditions that would make the operation of the mines successful, he had the hearty co-operation of that gentleman, who deserves well of the electors of his native county.

The people of New Brunswick, especially the Liberals, have a special interest in Mr. Pearson, through whose efforts the Sun newspaper of St. John was rescued from Toryism, and established as a good Liberal organ.

CURRENT COMMENT

Those pugilistic Yarmouth aldermen should meet in a twenty foot ring under Marquis of Queensbury rules. The Bay of Fundy town blushes at remembrance of the disgraceful scene.

It's the business of the board of health to get the hospital sewer un-

hitched from Fredericton's water supply as speedily as possible.

It's the first instance of Mr. Foster inviting any man to a bar, and after he got the reporter there he had nothing to offer.

The chief Tory witness in the North Atlantic Trading Co. investigation at Ottawa, is an agnostic, who refused to be sworn on the Bible, and who declared he did not believe in future rewards and punishments. Nice sort of a man that upon which to depend for the conviction of reputable officials of the government. However, nobody has taken Mr. Jury's evidence seriously.

Mr. Foster criticizes the federal government for patronizing McAvity & Sons of St. John, for hardware supplies, but the ex-finance minister evidently forgets that when he had control of the Dominion treasury his good friend, Mr. Harry Thorne, got all the government's orders for hardware in New Brunswick. What would Mr. Foster have the government do? Throw over the McAvity's and place their orders with Mr. Thorne?

The hospital trustees failed to take the public into their confidence when they diverted hospital sewage from the cesspool to the river.

The Board of Health didn't know a thing about the hospital sewage being emptied into the river until they "saw it in the Herald." They know it now, and it's their business to act promptly.

Chicago pork packers appear to have been canning everything belonging to his pigship, but the squeal, and that is now coming from the consumers.

Because the aldermen couldn't agree on the Carleton street extension, is no reason why Aberdeen street should not be extended and the Shore property down town opened up. Surely there is enough energy and enterprise in the city council to proceed with the work.

The St. John millmen's strike is a big affair—seven hundred wage earners out when the mills need their services.

Anyhow the best that Mr. Cinq Mars can expect from Mr. Foster, when he next appears at the bar is cold water.

BITS OF NEWS.

The Canadian Dredge Manufacturing Company has been incorporated at Ottawa with a capital of half a million and headquarters at New castle, N.B. The incorporators are W. H. Russell, Newcastle; H. O. Aiton, of Red Bank; G. J. Sproule, W. T. L. Nelson and R. A. Mordock of Charlottetown.

The Ontario railway and municipal board appointed by the Whitney government is as follows: James Leitch, K. C., Cornwall, chairman; Andrew Ingram, M. P., for East Elgin; Henry Kittson, wholesale grocer, Hamilton, secretary; Henry C. Small, barrister, Carleton Place.

Charges involving felony and misdemeanors against Dist. Attorney Jerome, of New York, have been filed in the executive chamber at Albany by five citizens, chief of whom is Wm. N. Amory, lawyer, of 27 William St., who declares that Jerome's continuance in the office of district attorney is a public scandal and a menace to good government. They request Governor Higgins to dismiss Jerome.

A London cable says: Upon the war office vote in the house of commons the meat scandal was brought to its attention. Mr. Haldane, the secretary of war, replying, said he would be sorry for more than one reason, to say that they should only buy tinne meat in the kingdom. There was such a place as the colonies and he thought they ought to buy where they got the best and purest. He was sending out an expert to inspect tins carefully, before being used.

Steps have been taken with a view to extending the medical course at McGill University, Montreal, from the present four years to five years, and it is probable that the proposal will go into effect in the session of 1907-1908.

Fire broke out this morning shortly after midnight in the boiler house attached to the greenhouses of W. & K. Pederson, on the Sandy Point Road, St. John. Before being subdued the fire destroyed the adjoining greenhouse and the barn near on the roadside. The house and the main greenhouse were only saved by the direction of the wind. The damage is roughly estimated at \$3,000.

Sir Wilfrid Laurier, Hon. W. Patterson and Hon. Rodolphe Lemieux received a deputation Friday from the outside service of interior post offices, and customs departments numbering about forty, asking for increase of salaries. The premier said that his colleagues were presiding over those departments would look into the matter. It might be a little late this session to do anything, after the justice of their claims had been investigated, but when parliament again met the matter could be attended to.

Word has been received at Moncton of the death at Winnipeg of Alexander Stronach, a former resident of

that place. Mr. Stronach was one time foreman of the mechanical department of the I. C. R., when the shops were located at Shediac. Later he was mechanical superintendent at Charlottetown. He went to Winnipeg twenty-three years ago and was in the employ of the C. P. R. He was seventy-four years old.

MILLMEN STRIKE.

700 Employees of St. John Lumber Concerns Walked Out This Morning—Their Demands.

St. John, June 4.—(Special)—As a result of the strike of the local mill hands, 700 men are out of employment today, and seven of the largest mills are shut down.

Only 45 men struck, but as a result the remainder are out, and the general opinion is that the owners will refuse an increase in wages.

St. John is in the throes of another labor strike and 700 men employed by the saw mills in that city and vicinity are out, temporarily closing down several industries.

The Sun this morning says: "In the mills affected the trouble was precipitated by the demand of the millers for an increase of wages from two dollars to two dollars and thirty cents per day. The mill owners in every case refused the increase, and were then informed that none of the employees would be on hand for work in the morning."

The mills which will be idle today as a result of the strike are Stetson, Cutler & Co's big mill at Indian town and their mill at Pleasant Point; Miller Bros. mill at the Strait Shore John E. Moore & Co's, and Murray & Gregory's.

The mill owners held an informal meeting last evening and discussed the situation, and state positively that they will not accede to the demands of the men. They seem unanimous in the view that from the manufacturers' standpoint, there could not be more opportune time for the strike, as the logs are coming down very slowly, there being scarcely a day's cut ahead of the mills.

The men interviewed seem quite confident that the mill owners will eventually come to their terms, and as the owners are equally emphatic in stating that they will not, a season of stagnation seems imminent.

The shutting down of these mills is a serious blow to the community, and the hope is expressed that their suspension will not be of long duration.

Randolph & Baker, Andrew Cushing & Sons, F. E. Sayre and Hilyard Bros., all stated to the Sun that no extra demand had been made by their men, and they are expected to resume work as usual this morning. Miller Bros. mill at Pokioh will also be running, as far as the owners knew last night.

It was freely stated among the men last night, however, that these owners, with the possible exception of the Cushings, who run their mills almost the year round, would be notified that unless the increase asked for in the case of the other mills was granted, that they too would be idle on Monday.

Should the men in all the mills mentioned go out too, there will be in the neighborhood of sixteen hundred men idle. Stetson, Cutler & Co. admitted that their men had gone out. About four hundred are employed in their two mills. The millers sent a delegation to the office stating that they wanted two dollars and thirty cents instead of two dollars, which they are now receiving, and announced that they would not be back in the morning if their demands were not acceded to. The lumbermen will never pay the extra rate, said Manager Beatty, for the simple reason that the business would not stand it. They would remain idle until this time next year before they would give in.

John E. Moore was equally firm in his statement of the mill owners' intentions. "The logs are coming slow," he said, "and the American market has gone off, therefore it will be no hardship for the manufacturers to shut down. The strike could not have come at a better time." His men presented an ultimatum similar to that received by the other owners, whose men went out.

Murray & Gregory's mill also be idle this morning. Their men to the number of about one hundred and forty-five, announced last evening, if the millers were not given the rate demanded the men would all go out on strike this morning.

"Their demand was not granted, and will not be," said Mr. Gregory. "The business cannot stand a cent more increase."

Chas. E. Miller, of Miller Bros., said that the millers in their Strait Shore mill had gone on strike, which would, of course, necessitate the closing down of the mill. There was no trouble in the Pokioh mill as far as he knew.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they do is ten fold to the good that you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly on the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure to get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price 75c. per bottle. Take Hall's Family Pills for constipation.

A meal ticket looks better than a work of art when you are hungry.

Mr. A. W. Gregory of St. Stephen, is stopping at the Queen.

A LAW

In amendment to "A Law to prevent the running at large of Cattle and other animals."

G. J. McNALLY,

Mayor.

(L.S.)

Be it Enacted by the Mayor, Aldermen and Commonality of the City of Fredericton, as follows:

1. Section one of "A Law to prevent the running at large of cattle and other animals," passed on the twentieth day of June, A. D., 1895, is hereby amended by the addition of the following sub-section thereto: (2) No horse, sheep, swine, goat cow or other neat cattle, shall be permitted to run or go at large or be herded or pastured on said road, to be paid by the owner or person owning or having possession of same.

Passed and enacted this fifth day of June, A. D., 1906.
