The members of the local government are expected here on Tuesday and will hold a meeting that evening.

MONTHLY MEETING.

The R. T. of T. No. 12 of Gibson, purpose holding the second of their annual contest series of elocutionary entertainments in their hall at Gibson on Monday evening next at eight o'clock. Admission 10 cents.—Aug. 4—d21.

SHOULD BE STOPPED.

Residents on the extension of York street, beyond the shoe factory, have just reason to complain of the wanton disregard of sanitary regulations

by some of the firms who have cattle to kill. At a short distance from this neighborhood, of late on warm evenings the odor has been so foul coming from one or two of the slaughter houses that families there have been compelled to close their windows for the night.

GAS INSPECTOR.

An Ottawa despatch says that J. E. Wilson of St. John, is gazetted inspector of gas and gas meters at Fredericton. (Mr. Wilson is the inspector of gas and gas meters for the province and will fill the duties here performed by the late J. D. Fowler, no local appointment being made and a saving of \$200 being effected.)

A BAD BLAZE.

Woods & Fortier's Bottling Works Badly Damaged by fire.

The firemen were called out at eight o'clock last evening to extinguish a blaze in a barn on the Peter McFarlane property, Charlotte St., owned by Mrs. A. H. Woods. The flames originated near the roof and had made considerable headway before being discovered.

An alarm was rung in from Box 28 which brought the firemen to the scene in short order. They did very efficient work under the direction of Chief Rutter and had the fire subdued before it had spread to the ell or main building.

Messrs. A. H. Woods and Peter Fortier, who manufacture beer and aerated waters used the building in connection with their business. They valued their plant at \$1500 and had not a dollar of insurance. The plant was considerably damaged and a quantity of extracts were destroyed, but most of the bottles were got away in safety.

Nobody seems to know just how the fire originated, but it may have been caused by a spark falling on the roof. Mr. Woods visited the place at seven o'clock last evening and there was then no sign of fire.

Mrs. Woods has \$100 insurance on the barn in one of Mr. F. I. Morrison's companies and it is thought that this will pretty nearly make good the damage to the property.

VICTORIA HOSPITAL.

Trustees Find That a New Contagious Wing is a Necessity.

The Victoria Hospital Board held a meeting on Wednesday and discussed the proposal to rebuild the contagious wing of the hospital. The estimated cost of the work is \$1600, and the trustees do not see their way clear at present to finance the undertaking. Another meeting of the trustees will be held at the office of Senator Thompson on Tuesday evening. It is generally felt by the hospital authorities that the present contagious wing is inadequate, and that a new one will have to be provided.

HAD AN ADVENTURE.

Two young ladies, who are members of a jolly camping party staying at Pine Bluff this week, had rather an exciting adventure on Thursday. They started out to explore Springhill Creek and had not proceeded far into the woods, when they spied a big bull moose ambling leisurely along. The horrid thing gave the fair ones a look that betokened independence and defiance, and not wishing a more intimate acquaintance, they turned on their heels and beat a hasty retreat. They declare that they will never again wander into the woods without escorts.

PAINFUL ACCIDENT.

A young man named Thomas Daley, employed at the Victoria Mill, was the victim of a serious and painful accident this morning. While moving about the floor of the mill, his right foot got into a crevice and came in contact with the teeth of a bed saw. It severed four of his toes as quick as a flash, the large one alone remaining. Dr. Weaver was called in and rendered the necessary surgical aid, and at last accounts the young man was resting comfortably.

CLAIMS \$500 DAMAGES.

Mr. E. H. Allen, claims agent of the I. C. R. was at Boiestown Wednesday enquiring into a claim of Mr. William McMillan of that place for damages to lumber property by fire which he alleges was set by a burglar from a locomotive. Mr. McMillan was represented by his counsel, Mr. A. J. Gregory, K. C., of this city. He claims \$500 damages.

SMALLPOX EPIDEMIC.

Chairman McElman Thinks There Will be no Further Spread of Disease.

Mr. J. G. McElman, chairman of the County Board of Health, visited Lake George on Thursday, accompanied by Dr. Weaver, and had six houses placed under quarantine on account of smallpox. Dr. Weaver vaccinated twenty-one persons in the neighborhood.

It seems to be the general impression that the disease was brought from Maine by a man who lately arrived in the neighborhood.

Chairman McElman has consented to lift the quarantine on five of the houses as soon as they can be fumigated and he is to send out the material and apparatus for the work on Monday. The remaining house will likely be kept under quarantine for another three weeks.

Chairman McElman has instructed the postmaster not to accept any mail from the infected houses and at his request the church is to be closed for a time. He is certain that there will be no further spread of the disease.

GOING TO THE ROCKIES.

Mr. Charles B. Love, a popular guide of Keswick Ridge, is to leave this evening for Philadelphia, to join Mr. Henry Diston, the well known saw manufacturer of that city, and accompany him on a three months' hunting expedition to the Rocky Mountains. Mr. Diston has hunted big game on the Tobique and Miramichi with Mr. Love, and the fact that he has engaged him for a trip to the Rockies, shows that he places a high value upon his services as a guide. Mr. Love's numerous friends hope that he will have a pleasant trip and a safe return.

A PUBLIC NUISANCE.

People who do business in the vicinity of Phoenix Square complain loudly against the health authorities for permitting citizens to deposit decayed vegetables and other offensive matter on the city hall dump. The place has developed into a common garbage heap and when the wind is blowing on shore the odor that arises from the dump is something fierce. Roadmaster McKay has the power to put a stop to this nuisance, but he seems rather backward in exercising it.

COMMISSIONER COOMBS HERE.

Commissioner Coombs, of Toronto head of the Salvation Army in Canada, arrived in the city by boat yesterday on a holiday trip. He was accompanied by Mrs. Coombs and their daughters Miss Coombs and Miss Daisy Coombs. The party put up at Windsor Hall and in the evening were entertained to a drive about the city by the local Salvation Army officers. They left for St. John by train this morning.

ENJOYABLE CONCERT.

The band of the 71st regiment gave an open air concert on parliament square last evening. There was a large crowd of people present, and showed the appreciation of the good work of the band by frequent outbursts of very hearty applause. The 71st band has improved wonderfully of late, and will rank with the best organizations of the kind in the Province.

CAUGHT A GRISLE.

Mr. H. H. Hagerman of the Normal school staff, had the good fortune to kill a five pound grisle in the Hart's island pool yesterday. The fish gave him a battle royal and although an inexperienced salmon fisherman, Mr. Hagerman came out ahead.

TO WED TUESDAY.

The nuptials of Mr. James A. Hughes, the popular principal of the Regent street school, and Miss Evelyn McMann, will be celebrated at St. Dunstan's Church on Tuesday morning at seven o'clock.

Mildred is a bright little girl of six. The other day she was with her mother in the park, when she saw a dog whose species was entirely new to her.

That evening she thus described it to her father: "It was such a funny dog, father; it looked about a dog and a half long and only half a dog high and it had only four legs, but looked as if it ought to have six."

Needless to say her father recognized from her graphic description that Mildred had seen a dachshund.
