DID NOT KEEP HIS AGREEMENT

Obtained Twelve Thousand Dollars on a Promise to Commit Suicide Within One Year.

Fort Smith, Ark., June 20.—A little more than a year ago Henry James, a young man about town, made to Geo. Johnson, a wealthy ranchman residing near Cowetta, the following proposition:—

"Mr. Johnson, I am a failure and am in hard luck. Everything I try my hand at turns badly. I have concluded that my entire fortune will be a string of blanks. For all the good I am to this world I might as well be dead. The sooner I am out of the way the better it will be for others capable of making good.

"They need the room I occupy. However, before I shuffle off I would like to taste the sweets of life to the fullest for a short time. For this reason I have come to you. You have money sufficient to grant my request and I will far more than make it worth your while. For the sum of \$12,000 cash down I will have my life insured in your favor for \$50,000 with it with it specified in a contract that I commit suicide within a year. Is it a go?"

After thinking the proposition over Johnson agreed and the contract was drawn, James receiving the \$12,000.

He took the money and went East. Everything was new to him and he lived high. Under the beneficent influence of money life became extremely sweet to the young man. Yet he was fully determined to fulfill the contract with Johnson and commit suicide when, a few weeks before the expiration of the time, he met a young heiress at Sag Harbor, New York, with whom he fell desperately in love.

She reciprocated his affection. Love changed the course of his life. The marriage has just been celebrated.

And so the expiration of the year finds James alive and with no intention of committing suicide. Now Johnson is preparing to bring suit to recover the \$12,000. The case is attracting widespread attention.

"After one dose of Dr. Hamilton's pills there was a sudden change. I felt better, my appetite increased, and that exhaustion and depression gradually left me. Life seemed brighter and happier after I used Dr. Hamilton's Pills, so I strongly recommend such good medicine."

NO APPETITE—BAD COLOR—GENERAL DEBILITY

"I was run down," writes Mr. Albert E. Dixon, of Fairhaven, P. O. "My color was dull and my appetite poor, and I constantly suffered from rheumatism.

INTENSIFIED FRUIT JUICES
AN IMPROVEMENT ON NATURE

A Discovery that is Revolutionizing Medicine.

Remarkable Success Attends the Finding of a New Medicinal Compound by Combining the Juices of Apples, Oranges, Figs and Prunes.

Fruit helps to keep one healthy. Fruit, in itself, will not cure disease. The medicinal principle—or that part of fruit which has a curative effect—is in such infinitesimal quantities, that it is unable to overcome a diseased condition of the stomach, liver, bowels, kidneys or skin.

Just here is where science stepped in. An Ottawa physician did what nature could not do. He first found that some fruits were stronger medicinally than others—and that apples, oranges, figs and prunes contained all the healing properties of other fruits. There are two principles in fruit juices—bitter and sweet. After extracting the juices of the four fruits mentioned, this physician succeeded in replacing one atom of the sweet principle by one of the bitter. This resulted in an entirely new combination being formed. This new compound was many times more

active medicinally than the fruit juices. Where eating fruit only helped to keep one well, this compound actually cured disease.

To make it more valuable still, this physician added the finest tonics and antiseptics, and then, by evaporating the entire compound to a powder, made it into tablets.

This, in short, is the method of making "Fruit-a-tives"—these wonderful tablets—the most reliable cure for Constipation, Biliousness, Stomach Troubles, Kidney and Bladder Disease and Skin Affections. Being made from fruit, "Fruit-a-tives" may be taken by women and children without fear of ill-effect.

Don't take a substitute. If your druggist does not handle them, send 50c for a box to Fruit-a-tives Limited, Ottawa.

GROWING OLD WHILE YET YOUNG

What a number of women there are who feel that these words exactly suit their case.

There are thousands of females all over our land, broken down in health and dragging out a miserable existence, overburdened with disease peculiar to their sex, apparently growing old while yet young.

From early morn till late at night they have been on the go year after year, attending to the household duties. Is it any wonder then that sooner or later there comes a general collapse? Palpitation of the heart, nervous prostration, smothering and sinking spells, weakness, dizziness, sleeplessness and many other troubles follow. What a woman wants is something to build up the system and for this purpose you cannot equal

THE HIGHWAY ACT.

Hon. Mr. LaBillois Lays Down Rules for Guidance of Road Superintendents.

Campbellton, N. B., June 21.—A meeting of the highway superintendents for Restigouche county numbering thirteen, was held here yesterday in the Temperance Hall.

Hon. C. H. LaBillois and William Currie, M. P. P., were present, and the meeting was presided over by Ebenezer McMillan. The chief commissioner fully outlined the duties of the road officials about as follows:

All repairs on roads must be done prior to the first day of August. Everybody must be offered an opportunity to work on the roads.

There should be no politics shown in the administration of the road law.

All culverts must be made level with roadway.

Strict attention must be paid to skirting and drainage.

All waterways must be cleared.

All roads must be crowned so as to lead the surface water into the gutter.

Construct ditches along the side with a free and uniform fall to a certain outlet.

All obstructions must be removed from the highways.

Bridges and culverts must be frequently examined to prevent any accidents.

No money to be expended on private roads and no private jobs to be given.

The road machines and road scrapers were a great saving.

Detailed accounts must be furnished by the superintendents for every dollar expended.

Mr. LaBillois said good roads were in the interest of every citizen in the community and he made an eloquent appeal to the officials to do their duty like men.

Wm. Currie, M. P. P., said that he wanted to see good roads in the county. He spoke at length. It was his first experience and he would do all in his power to help the superintendents in their duties.

A vote of thanks was passed to the chief commissioner for the information he had given the superintendents.

AN ANGLER DEFINED.

The angler has one great advantage over any and all other sportsmen. He can pursue his favorite sport in more places, and, as a rule, at less cost, than those who prefer shooting, hunting, yachting or any of the other open air recreations.

While an angler is a fisherman, the average fisherman is not an angler. The distinction and difference is as great as that which makes the sportsman from the farmer and the yachtsman from the sailor.

There is no commercial side to angling. It is a dignified, gentle sport, generally indulged in by those who love the woods and waters and who enjoy a day with rod and line without regard to the size of the catch.

Poets, artists and naturalists are born anglers, and the nature lover who takes to the woods for health and recreation soon becomes an ardent angler. The song of the reed, the dainty swish of the line, the graceful curves of the leader as the flies hover for an instant over the clear cool stream and then light as delicately as a zephyr-carried rose leaf on the surface of the water, when, if the cast is successful, there comes a dash and a whirl, and the fight is on, the world is forgotten, every care and ill vanishes; brain, eye, nerve and skill all combine to land the prize. Sport! It is of all sports the most refined and artistic.

NESS.

Perhaps it is in the neck or shoulder. First thing is a good rub with Eerviline. No more speedy remedy can be adopted. When applied to the muscles Eerviline gives them flexibility and vigor; inflammation, soreness and stiffness disappear. "Whether in the chest or throat nothing can surpass Eerviline," writes O. B. Deaton, Lumber Merchant at Oak Bay N. B. "Rubbed on at night, trouble is gone by morning. I have proved Eerviline a great medicine." Every one says the same, and Eerviline all ways makes good, 25 cent bottle sold everywhere.

In Heart Disease It Works Like Magic—"For years my greatest enemy was organic Heart Disease. From weakness and debility it developed into abnormal action, thumping, fluttering and choking sensations. Dr. Agnew's Cure for the Heart gave instant relief, and the bad symptoms have entirely disappeared. It is a wonder worker."—Rev. L. S. Dana, Pittsburg, Pa.—Sold at Central Pharmacy, A. J. Ryan.—155
