THE VALLEY RAILWAY.

McKenzie & Mann's Observation Party talk of their trip--Some Sections of the Line will be expensive to build.

Telegraphic A. P. Stewart, assistant chief engineer, and G. G. Ruel, solicitor for the Canadian Northern Railway, returned to the city last evening after a flying survey of the Valley route. They report the traffic prospects as excellent and with the exception of a small section of the route between Fredericton and Westfield they found that the line could be constructed at moderate expense. Speaking of the trip to a Telegraph reporter last evening, Mr. Ruel said they left St. John on Saturday, May 25, and on arriving in Fredericton drove over the proposed route to Woodstock. Everywhere they found good opportunities for local traffic and the route presented no difficulties. At Woodstock they were joined by Solicitor-General Jones and Mr. Carvell, M. P., and proceeded on to Centerville. This section, owing to the gradual rise from the low level to the Centreville plateau, would be slightly more expensive and the same would apply to the country from that point on to Grand Falls. The whole line, however, Mr. Ruel added, from Woodstock up could be constructed at moderate expense. Returning by rail to Fredericton, Mr. Ruel said they proceeded down the valley in the direction of Westfield. Keeping as close as possible to the river the difficulties increased considerably, especially below Hampstead. South of the Devil's Back the route was comparatively easy, but the lower section as a whole would be an expensive one to build. Asked as to the nature of the difficulties, Mr. Ruel said there would be considerable cutting through rock granite and also trestle work where pockets lead into the hills. He could understand, he added, why the route had never been taken up for a local road, but as part of a trunk system such as the Canadian Northern it would naturally be a different matter. From Westfield to St. John Mr. Ruel said the ground was looked over with a view to another line separate from the C. P. R. It would be an expensive undertaking, but might be accomplished, but it had to be borne in mind that aid was only guaranteed as far as Westfield. No steps had been taken to ascertain where the road would enter the city. Mr. Ruel said that the flying survey was undertaken in order that Mr. Stewart and himself could submit facts as they found them. It would be for Messrs. MacKenzie & Mann to act upon them. Mr. Stewart left the city last evening for Toronto. While the surveyors are naturally somewhat guarded in their statements about the future, those who talked with them were convinced that their report will be most favorable in tone and that the Valley route is certain to be begun in the near future.

OUR MANUFACTURES.

Returns Show Value Nearly Doubled in Five Years--Figures from Various Persons and Towns in New Brunswick.

Ottawa, June 5.—(Special)—A bulletin was issued to-day by the census department dealing with the manufactures of the Dominion for 1906 compared with those of 1901. During the five years the value of manufactured products in Canada have about doubled, from \$481,055,375 in 1901, the value is \$712,661,835 in 1906, or an increase of \$231,611,460. The details by provinces for works employing five persons and over are as follows:

	1901	1906
B. C.	\$10,447,778	\$38,013,515
Manitoba (not complete)	12,927,439	27,609,268
N. B.	20,972,470	22,133,681
N. S.	23,592,513	32,545,939
Ontario (not complete)	241,533,486	365,692,144
P. E. Island	2,326,708	1,851,615
Que. (not complete)	158,287,994	217,224,073
The Territories (not complete)	1,964,987	7,594,000

The figures for New Brunswick and towns of a population of 1,500 and over are:

	1901	1906
N. B.	\$12,952,481	\$15,421,389
Cambridge	322,223	606,706
Chatham	780,003	1,077,929
Fredericton	691,043	829,402
Moncton	870,809	924,988
Milltown	873,560	812,000
Newcastle	1,291,036	1,431,606
St. John	365,980	234,233
St. Stephen	6,712,769	6,918,626
Woodstock	559,946	973,800

HUNT FOR MURDERERS.

Great Gathering of Detectives at St. John to run Father Krspar's Murderers to Earth--Missing Boy Safe.

St. John, June 5.—(Special)—The murderer of Father Krspar, of New York, who is supposed to be in St. John, have made this city the centre of attraction for nearly all the detectives in two provinces. Two Pinkerton men from the head office, New York, are here and also Chief Detective Williams and Detective Inspector Dunn of the I. C. R. Tingley of Moncton, Nobles of New Brunswick, Jones of Amherst, as well as our local Sherlock Holmes, "Paddy" Killen. Harry Ougler, who disappeared from home, Monday, is reported this morning to be at Evandale and the river.

MONCTON BUDGET.

Moncton, June 5.—(Special)—The Moncton First Baptist Church to-day begins a five day's celebration of the 80th anniversary. Rev. John Hughes of St. John and Rev. W.W. Corey, two of the oldest Baptist clergymen in Canada, will conduct an old fashioned conference tomorrow

evening. C. H. McDonald, wholesale tea merchant, St. John, has subscribed \$100 towards the First Baptist Christian Brotherhood hall, being built in this city. W. Harold Coleman, who has been on the teaching staff of Mount Allison Academy the past year, has accepted a call to the Baptist Church at Alma and Waterside. He left for Albert County today to commence work.

WANT FREE WATER.

Down Town Milling Concerns Petition Council to Extend the System.

Following is the full text of a memorial presented to the city council Tuesday evening by the Scott Lumber Co. and John A. Morrison, asking for an extension of the water system to the mills: To His Worship the Mayor and Aldermen of the city of Fredericton: Gentlemen—We, the undersigned, owners and operators of mills and a number of dwellings situated at Phoenix mills and Victoria mills, within the limits of the city of Fredericton, respectfully solicit the attention of your honorable body to the pressing necessity for water extension and protection to their respective establishments. We believe it should be the policy of the city council to not only encourage the introduction and establishment of new industries within the limits of our city, but also to lend all possible assistance for the protection from fire and other dangers to those industries which are already established, and which form no inconsiderable part of the commercial life of our city. We also respectfully direct your attention to the fact that in and around that locality commonly called The Mills, are a large number of taxpayers, who are entitled to the benefit of the water system for both domestic and fire purposes. We therefore respectfully request that the water mains may be extended to the Phoenix and Victoria Mills at the earliest possible date, and that your honorable body may so order and direct. In view of the privileges which are being sought by those promoting the establishment of industrial enterprises within the city, we who are large ratepayers and employers of labor, thus directly of great benefit to the city, have also to request that we be furnished with free water from the city system for manufacturing purposes. Yours respectfully, JOHN A. MORRISON, SCOTT LUMBER CO. Ltd. Fredericton, June 4th, 1907.

NO CIRCUS PARADE. Hargreaves Disappointed Waiting Thousands at St. John.

St. John, June 5.—(Special)—Thousands of people were disappointed this morning when it was announced that the Hargreaves circus parade would not take place. The excuse put up by the management of the show was that delay in handling the cars made the parade impossible. The tents are pitched on the Shamrock grounds, and the performance this afternoon was very largely attended.

FIRE NEAR AMHERST.

Residence and Farm Buildings Burned. No Insurance.

Amherst, N. S., June 5.—(Special)—The residence, barns and out-buildings and most of their contents, of Cardy A. Ripley, Fenwick, ten miles east of this town, were totally destroyed by fire yesterday. Loss about twenty-five hundred dollars. No insurance. The fire caught in the house, and owing to the strong wind blowing soon caught the barns, and owing to the scarcity of water nothing could be saved.

PROSPECTORS DROWNED.

Toronto, June 5.—(Special)—Deaths from New Liskeard, Ont., announce that Jack Thompson and Marcus Orr, members of a prospecting expedition in New Ontario, in which four young Toronto men set out on May 13th, have been washed over the Falls there and drowned. The particulars of the fatality have not been received.

CROKER'S HORSE WON.

London, June 5.—(Special)—Richard Croker's Orby, ridden by Johnny Reid, won the Derby stakes, 6,000 sovereigns, at Epsom, today, distance, 1 mile and a half. Wool Winder, was second, Slieve Gallion, an Irish horse, third.

EARL GREY'S VISIT.

City Council Appoints a Committee to Arrange for Entertaining His Excellency

OTHER MATTERS DEALT WITH AT MONTHLY MEETING OF THE COUNCIL BOARD.

At the monthly meeting of the city council Tuesday evening, a communication was read from Dunbar & Sons Limited, asking for certain concessions to be given in case they should remove their industry to Fredericton. A similar letter was read from McFarlane, Thompson & Anderson. The whole matter was referred to a committee. A special committee was appointed to arrange for the visit of Earl Grey to the city in August. Those present at the meeting were His Worship Mayor McLeod, in the chair and Alds. Scott, Hooper, Kelly, Everett, Hanlon, Dougherty, Oldham, Jewett, Johnson and Moore. The auditor's report for May was read by the Mayor and adopted. The payments in the several departments during the month were as follows: Roads and streets \$838 16 Public works 706 07 Fire department 198 00 City hall 128 89 Contingencies 277 59 Administration of justice 126 29 Wharves 173 73 Market 1 00 Alms House 33 85 Street lighting 28 33 Sewerage 112 78 Water 1,163 85

MUNICIPAL HOME. Ald. Hanlon presented the report of the commissioners for the municipal home, which showed an expenditure during the month of \$138.18. The report was adopted and a check for \$350 was ordered to be issued in favor of the commissioner for June. Ald. Hanlon explained that the season's supply of coal was purchased during the month. He complained that the expenditures were made on account of the Home, which were not under the control of either the chairman or commissioner. He thought that it was only right that one of them should be consulted in regard to all expenditures made in connection with the institution. The mayor said the fee of \$20 for the admission of patients to the provincial hospital was fixed by law. Ald. Hooper for the fire committee reported that it had been decided to give the hose contract to Estey & Co. of St. John. The contract for uniforms for the drivers had been awarded to Mr. J. R. Howie. Adopted.

THE SEWERAGE SYSTEM. Ald. Scott for the sewerage committee reported that applications had been received for extending the sewerage system on Phoenix Square, Campbell street and Waterloo Row. The estimated cost of the work was \$840, being \$300 for Campbell St., \$140 for Waterloo Row and \$400 for Phoenix Square. He recommended that the tender of Mr. J. S. Neill for pipe at 9 1/2 cents f. o. b. at Fredericton and cement at \$2.65 to be accepted.

Ald. Scott pointed out that the pipe and cement were badly needed as citizens were anxious to make house connections. No regulations governing house connections had yet been adopted, but several citizens who had received authority to tap the system would sign an agreement to be governed by any regulations that might be adopted. The committee's report was adopted. The street light committee recommended that a light be placed on the corner of University Avenue and Shore street, also that a light on the corner of St. John and Aberdeen street, and another on Campbell street be shifted. Adopted. Ald. Everett submitted the following comparative statement of tax collections for May:

May 1906 for 1903	\$50.00
May 1906 for 1904	44.23
May 1906 for 1905	812.40
	\$906.63
May 1907 for 1904	\$15.49
May 1907 for 1905	206.60
May 1907 for 1906	846.23
	\$1,068.31

PHOENIX SQUARE WHARF. Ald. Johnson, for the wharf committee, reported that acting under orders from the council he started in to buy hemlock logs for the proposed Phoenix Square wharf. He bought 16,300 feet at \$8.20 per thousand, and then concluded to go no further as he considered the price too high. He considered it advisable to report the matter to the council.

Ald. Hanlon thought it very important that the work on the proposed wharf should proceed at once.

MAY COME HERE. A communication from the secretary of the Summer School of Science, asking for a grant to enable them to hold their annual meeting in this city during the coming summer, was referred to a committee. A communication endorsing the proposal was read from President Chestnut of the Tourist Association.

A NEW FOUNTAIN. A communication was read from Havlock Coy. secretary at the Local Improvement Association, asking permission to place a fountain and watering trough on the triangle at the head of King street.

Ald. Scott and Hooper strongly favored the proposal, but Ald. Hanlon advised the council to act cautiously in the matter. The latter took occasion to explain that he always looked at these matters from a business standpoint and in the interest of the citizens. Ald. Scott eulogized the work of the Improvement Association and spoke strongly in favor of granting the request. He said the watering trough and fountain would be of great convenience to country people arriving in the city.

Ald. Hanlon explained that he was not opposed to the drinking fountain. (Continued on fourth page.)
