

LUSITANIA'S 26 KNOTS AN HOUR

World's Most Speedy and Luxurious Liner—Able to Cross Atlantic in Four Days Six Hours

London Daily Mail.—A vast ship that is so splendid a palace of luxury that one can scarcely realize that one is not in a magnificently appointed West End hotel—that is a first impression of the Cunard Company's new leviathan, the Lusitania, the largest, most powerful, most speedy, and most wonderfully equipped vessel of her kind in the world.

Every detail of this mighty ship has been artfully designed to beguile passengers into the belief that they are on terra firma, and not crossing the wide Atlantic at all. Even when her massive 785 feet is being thrust through the waves at over twenty-five knots by the 68,000 horse-power of her tremendous turbine engines, only the faintest tremor of her decks tells you that she is forging ahead. One can promenade her deck and a half of upper deck even when white crested waves are tumbling away from her lea, tall sides and deck not the suspicion of a rise or fall.

TWENTY-SIX KNOTS AN HOUR.

On Saturday evening last this ocean monster weighed anchor in the Clyde, sped round the Irish coast, and arrived on Monday at midday with a few amazed passengers at the mouth of the Mersey. Although she is contracted to steam twenty-five knots, she actually accomplished over twenty-six knots, or 24½ miles an hour, at times, thereby easily establishing her claim to be the fastest craft of her kind afloat. Her stability is little short of marvellous. Even on the gloomy Skerries, on the southwest coast of Ireland, when a heavy Atlantic ground swell rolled powerfully beneath her keel, she was perfectly steady.

How can one describe this wonder that has been created by the greatest geniuses of shipbuilding and decoration? When a double-decked tram-

way-car could be driven comfortably down any one of her four gigantic funnels, description seems woefully inadequate to estimate the colossal proportions of this giantess of the seas, whose gross tonnage is 32,500, whose framework is locked together by 4,000,000 rivets, and which can stow away easily between her spaci-

ACROSS ATLANTIC IN FOUR DAYS.

Although the vessel has twenty-nine miles of framework in her various decks, and towers 155 ft. from her keel to her funnel tops, she is handled at sea with as much ease as an electric launch on the river. Her Saturday to Monday trial trip was more to test her comfort and absence of vibration than her sustained speed ability. So she occupied some thirty-six hours in covering the 700 odd miles round the Irish coast, although once or twice the captain slipped his great greyhound from her leash. She will go into regular commission on September 7, when she will sail on the Liverpool-Queens-town-New York route. Her maiden trip should establish a new Atlantic record likely to stand for some time to come.

During a forty-eight hours' continuous run over a course of 300 miles, covered four times the Lusitania maintained an average speed of more than 25½ knots (28½ miles) for the whole 1,200 miles. If the Lusitania were to maintain the above speed over the 3,113 miles from Plymouth to Sandy Hook she would cross in about 4 days, 11 hours, against the fastest German time by the Deutschland of 5 days 7 hours, 38 minutes.

A PLEASING LITTLE PARTY FROCK.

It is now the season of children's parties, and as the little maid becomes old enough to participate in these festivities she must have a frock that is suitable. The light-toned cashmeres, lingerie fabrics and washable silks are the materials usually chosen for frocks of this kind, while being the first choice. A small gown consisting of a tucked waist finished low neck with a wide round berth, and an attached skirt tucked in front and gathered at the sides and back is one of the newest designs and very pleasing. The sleeves are in full puff to the elbow and completed by narrow, straight cuffs. The berth may be a lace collar applied or be made of the material inset with lace or pleated silk. The sash may be omitted, but it is so soft and pretty in effect that it is really needed to complete the dress. For the medium sized 14 yards of 27-inch material are needed.

4120—Sizes, 6 to 14 years inclusive.

The price of this pattern is 10c.

To the Fredericton Herald:

Please send the above mentioned pattern, as per directions given below, to

Name.....

No..... Street.....

To..... Province.....

Measurement—Waist..... Bust.....

CAUTION.—Be careful to send size of pattern wanted. When the pattern is sent measure you need only mark 32, 34, or whatever it may be. When in waist measure, 22, 24, 26, or whatever it may be. If a skirt, give waist and length measure. When miss' or child's pattern write only the figure representing the age. It is not necessary to write "inches" or "years." Patterns cannot reach you in less than three or four days from the date of order. The price of each pattern is 10 cents in cash or postal order or stamps.

THEY STAND ALONE.

Standing out in bold relief, all alone, and as a conspicuous example the sick and afflicted, are Dr. Pierce's Favorite Prescription for weak, over-worked, debilitated, nervous, "run-down," pain-racked women, are Dr. Pierce's Golden Medical Discovery, the famous remedy for weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness, all catarrhal affections, whether of the stomach, bowels, kidneys, bladder, nasal passages, throat, bronchial or other mucous passages, also as an effective remedy for all diseases arising from thin, watery or impure blood, as scrofulous and skin affections.

Each bottle of the above medicines bears upon its wrapper a badge of honest in the full list of ingredients composing it—printed in plain English. This frank and open publicity places these medicines in a class all by themselves, and is a strong guarantee of their merits. They cannot be classed as patent or secret medicines for they are neither—being of known composition.

Dr. Pierce's Pleasant Pellets cure constipation, headache and biliousness. In viols, a convenient vest-pocket remedy.

This is the first year "out" of a certain pretty little Baltimore girl, but she is promising. Not long ago at a dance a young man who had for some time been an ardent but bashful admirer succeeded in getting his nerve up to the point of asking her to sit out a dance with him in a little nook beneath the stairs well screened by a bank of palms.

"I—I don't know whether I should do that," she said, twisting her face in her hands and looking up at him from beneath her long lashes; "but—yes, I will!"

"Why—er—you don't think it would be improper?" he said, blushing.

"No, no," she hesitated; "but the last time I sat there with a young man—he kissed me!"

With a sudden light in his eyes the youth led the way toward the palm bank.

"Dress" Corsets
Modelled upon scientific principles a series of curves of grace and elegance is comprised in every pair of D. & A. Corsets. You can buy a "D. & A." at various intermediate prices ranging from \$1.00 to \$6.00. Are Fashionable Models.

Safest Medicine for Women's Complaints

Women certainly do neglect themselves. They work too hard—over-tax their strength—and then wonder why they suffer with diseases peculiar to their sex.

Most cases of female trouble start when the bowels become inactive—the kidneys strained—and the skin not cared for. Poisons, which should leave the system by these organs, are taken up by the blood and inflame the delicate female organs.

Fruit-a-tives

OR (FRUIT LIVER TABLETS.) remove the CAUSE of these diseases. "Fruit-a-tives" sweeten the stomach—make the bowels move regularly every day—strengthen the kidneys—improve the action of the skin—and thus purify the blood.

"Fruit-a-tives" take away those distressing headaches, backaches and bearing-down pains, and make women well and strong. "Fruit-a-tives" are fruit juices, intensified with tonic and antiseptics added. 50c. a box—6 for \$2.50. At all druggists—or from Fruit-a-tives Limited, Ottawa.

"Yes," said the girl who makes collections. "It is one of the best autographs I have in my collection." "But are you sure it is genuine?" "Positive. I cut it from a telegram that his wife received from him."—Tatler.

THAT DRY COUGH IS BRONCHITIS.

If neglected it will weaken the throat and finally reach the lungs. Nothing simpler than inhaling the healing vapor of Catarrhoxone. Its action is like magic, so helpful, so easy to apply. Be done with Bronchial trouble for all time! Catarrhoxone does cure the worse cases, will cure you, too. Sold everywhere, 25c. and \$1.00 under absolute guarantee of satisfaction.

MAILS CLOSING

In effect, October 1, 1906.

6 a.m.—For St. John, etc., St. Stephen and Charlottetown, Co., Carleton, Victoria and Madawaska Counties, and United States.

MYSTERIOUS ASSAULT

I.C.R. Fireman Badly Hurt at Campbellton—Found by Side of Track

Moncton Transcript: Badly cut and painfully bruised as the result of a mysterious accident or assault, Manning Renton, an I. C. R. locomotive fireman, was brought to Moncton from Campbellton Sunday night, now confined to bed at his home on Upper Main street. Whether he was struck by a train, assaulted, or fell, the injured man does not know, but he is pretty badly hurt, a severe gash, extending across his forehead, his cheeks cut, and his body covered with bruises.

From six o'clock Saturday evening until he awoke in the ditch at the side of the I.C.R. track, some distance from the Revere hotel at Campbellton at eleven o'clock Sunday night, Renton has absolutely no recollection. He was visited today by I.C.R. Detective Williams, accompanied by a reporter, but could throw no light on cause of his injuries. According to the story told by Renton, the last thing that he remembers on Saturday afternoon was sitting in the hotel at Campbellton. Afterwards, so he has been told by other boarders at the hotel, he got up and went out, but of this he has no recollection. About eleven o'clock on Saturday night, he awoke to find himself badly bruised and cut, lying in a ditch a couple of hundred yards from the hotel, beside the I.C.R. track, in the rock cutting, through which the I.C.R. track approaching Campbellton passes. Renton says he had not had a drink, and is utterly at a loss to account for the injuries to himself.

A few days ago, while firing on a locomotive between Moncton and St. John, Renton was struck on the head by a felling coal shovel, and quite a bad wound inflicted. It is possible that this wound might have some effect on his brain, in causing the lapse of memory in which time the injuries were sustained. It is possible that a slowly moving freight train might have struck him while he was in this condition, and this would account for his being in the ditch. The injured man is still somewhat dazed, and unable to give any opinion whatever as to the cause of his injuries.

"I guess it's just part of a streak of hard luck," Renton said. "Something told me not to go to Campbellton when I was ordered out, and I didn't want to go."

The injured man says he has had no trouble with any one in Campbellton, and had not been there for six months before the day he was hurt, as he is on the east and west side of the I.C.R. He had been around with some friends in the afternoon, and had parted from them on the best of terms.

The young man is a son of Mr. John Renton, of Lutz Mountain. He is likely to be laid up for some time.

THE ODDFELLOWS

Annual Meeting of Grand Lodge at St. Stephen—Large Attendance

ST. STEPHEN, N. B., August 13.—Members of I.O.O.F., Patriarchs, Rebekahs and of subterranean lodges have been arriving by train since yesterday. There are now probably two hundred and fifty here.

The Grand Encampment opened its first session in the Masonic hall at

ten o'clock this morning and the Rebekah's theirs in Oddfellows' hall at the same hour. These two bodies will hold sessions this afternoon and evening.

The grand lodge of Oddfellows will begin its sessions at 10 o'clock tomorrow morning in Masonic hall. Last evening Grand Patriarch H. L. Hartt, accompanied by several other visiting patriarchs, through the courtesy of Patriarch L. M. Robinson, enjoyed the hospitality of Ivanhoe Encampment, Calais, Maine, where the patriarchal degree was exemplified by members of that encampment.

FOR AN IMPAIRED APPETITE.

To improve the appetite and strengthen the digestion try a few doses of Chamberlain's Stomach and Liver Tablets. Mr. J. H. Seitz, of Detroit, Mich., says: "They restored my appetite when impaired, relieved me of a bloated feeling and caused a pleasant and satisfactory movement of the bowels." Price 25 cts. Samples free. All dealers.

HOUSEHOLD SUGGESTIONS.

Outer leaves for lettuce which are not attractive for salad can be boiled or steamed and served as greens.

When a glass stopper is immovable expand the neck of the bottle by heating on the outside; this will loosen its hold on the stopper.

To keep the bread jar and bread box sweet rinse after washing, with boiling water in which a little common soda has been dissolved; then set out of doors in the sun for a few hours.

To clean a sponge dissolve a little of salts of lemon in a quart of hot water and in it steep the sponge. When it is clean rinse it thoroughly. Do not use the water too hot or it will spoil the sponge making it shrink.

If those housekeepers who complain of a bitter taste to the cucumbers will begin at the blossom end when paring and slice the skin off toward the stem, they will find that it makes a decided difference in the flavor.

Tops of fruit cans can be cleaned if they are placed in sour milk or vinegar and left until the mold comes off easily when they are washed in water. They should also be scrubbed with a brush to clean the grooves in the side of the lid.

After washing decanters turn them upside down and allow water from the cold water tap to run over them. In about five minutes' time they will be beautifully dry inside, and if the outside is carefully wiped and rubbed they will sparkle beautifully.

Better without a Stomach than with one that's got a constant "hurt" to it. Dr. Von Stan's Pineapple Tablets stimulate the digestive organs. Let one enjoy the good things of life and leave no bad effects—carry them with you in your vest pocket—60 in a box, 35 cents. Sold at Central Pharmacy, A. J. Ryan.

Redd—Outin my car with a party yesterday.

Greene—Yes.

Came to a wide, deep stream which we could not ford.

No bridge you could run the machine over?

No.

What in the world did you do?

Just sat there and thought it over.

First Professor—That man has been

signally honored by many colleges.

Second Professor—I should say so. He has been given enough degrees to

qualify him for a first class thetometer.
