Boiler Exploded and Killed Three Men

Metchuen, N. J., March 13.—Three men were killed and a number of others hurt, and Metchuen was shaken and threatened with many fires today when the boiler of a locomotive on the Pennsylvania Railway exploded while drawing a freight train through the town.

IMPOSSIBLE TO
STOOP OR BENDSEVERAL DOCTORS COULD DO
NO GOOD.

PAIN IN BACK AND KIDNEYS.

People often say, "How are we to know when the kidneys are out of order?" The location of the kidneys, close as it is to the small of the back, which is not affected materially by other organs, renders the detection of kidney trouble a simple matter.

The note of warning comes from the back. Backache is the signal sent out by the kidneys the minute they become overtaxed. Those who heed the warning when it first comes, usually have but little trouble. The danger lies in delay. A few doses of

Doan's Kidney Pills

taken in time, often saves years of suffering, and in many cases life itself.

They stimulate the action of the kidneys, enabling them to perform their duty perfectly.

Miss S. C. Pye, Reum Secum, N.S., writes:

"For the past three years I have been troubled with a very bad pain in my back and kidneys. It was so bad it was impossible for me to stoop or bend. I had several doctors attend me, but found no relief until I picked up one of your Egyptian Dream Books, and found out about your remarkable remedy, Doan's Kidney Pills. I procured two boxes and their action surprised me, for they completely cured me. I don't think they have an equal for kidney trouble."

Doan's Kidney Pills are 50 cents per box or 3 boxes for \$1.25 at all druggists or mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.

gh the town. The train left Jersey City at 1 a. m. and was passing through this place under good way when just opposite the railroad station the boiler of the locomotive exploded with terrific force. Hardly any portions of the locomotive except the wheels were found at the point of the explosion. Portions of the boiler were blown two blocks away and tore their way into buildings.

A portion of the locomotive was blown into Hahn's drug store two blocks from the tracks, and another piece of steel entered McCutcheon's pharmacy. Both stores were set on fire simultaneously, but in neither case was there any serious loss.

Windows in buildings within a radius of two hundred yards were broken by the explosion, the force of which was so great as to seem like an earthquake.

CHAMBERLAIN'S COUGH REMEDY IS BOTH AGREEABLE AND EFFECTIVE.

Chamberlain's Cough Remedy has no superior for coughs, colds and croup, and the fact that it is pleasant to take and contains nothing in any way injurious has made it a favorite with mothers. Mr. W. S. Polham, a merchant of Kirksville, Iowa, says: "For more than twenty years Chamberlain's Cough Remedy has been my leading remedy for all throat troubles. It is especially successful in cases of croup. Children like it and customers who have used it will not take any other." For sale by all druggists.

LOST HIS STEPMOTHER.

Mrs. Charles Fielding, widow of Charles Fielding, of Noel, Hants Co. N. S., died at her home Wednesday aged 77 years. Her husband predeceased her about two years. Mrs. Fielding was the stepmother of Hon. W. S. Fielding, finance minister.

AGRICULTURAL COMMITTEE.

Members Discussed Horse Registration and Importation, Starch Factories Dog Law, Etc.

The committee on agriculture met Thursday morning under the chairmanship of Mr. Ryan, who expressed his regret that so few members thought it worth while to attend that important committee.

Hon. Mr. Farris said he had nothing to say but to express his regret that some of the members would have come prepared with something interesting to tell them. He had received a resolution from the Sussex Agricultural Society upon which he would like to have the matter discussed. There was another matter which somewhat affected the river districts, namely, the potato growing in that part, and that was the subject of granting financial aid to starch factories. The deputy commissioner had obtained some statistics as to the probable output, and he would like to hear what they thought of the matter.

Mr. Carpenter considered the resolution forwarded by the Sussex Society as a most drastic one, and out of all reason. He was just as much in favor of having pure bred horses as anyone in this province but he certainly could not see any way clear to adopt such a resolution as suggested. Such an idea was impossible in the province at present. With regard to the proposal to give aid to starch factories, he thought it was an excellent suggestion and he would advocate it with all the strength he had. He thought a factory in Shediac would be likely to pay, as that was one of the largest potato growing districts in the province. There were large quantities of waste potatoes which could not be used for other purposes, which could possibly be used in the production of starch and he was surprised that the matter had never been suggested before.

Another matter he would like to see encouraged was that of pork raising. He had been informed by one of the largest dealers of St. John, that there was nearly as much again imported pork sold in that city as there was home raised. At Memramcook they were using imported pork and paying twelve cents a pound for it. He would like to see a model pork farm established and a bonus given for that purpose. There was one in Quebec, which he understood was quite a success. He thought it was an industry which should be specially encouraged in the province.

On the motion of Mr. Carpenter, it was resolved that the resolution lie on the table.

The deputy commissioner, speaking on the question of starch factories, said he had not very much to tell them. The principal use for starch was in the cotton mills, and that at Marysville used about 45 tons a year, and paid about \$57 a ton for it. This

he understood, was about the average consumption, so when the number of mills were ascertained, it would be easy to figure out the probable amount of starch likely to be required. He had no information as to what quantity of potatoes were required to make a ton of starch, but any one thinking of embarking in that industry would find this out for himself. Four years ago the government looked into the matter and decided that it would not be a profitable undertaking. Since then the conditions were somewhat changed. There were at present fewer factories consequently there would be larger profits. To make the business pay it would be necessary to buy potatoes at not more than 25 cts. a barrel, anything higher than that sum would not pay. Lots of starch was made out of corn and there were several other materials, besides, out of which starch could be made. He had applied to the factories for further information but he could not, of course, say if he would get it.

Mr. Goggin could not say that he approved of the idea. There was no difficulty in selling potatoes at 25 cts. a barrel, and what could not be sold could be used for feeding. Over in Shediac they could get 75 cents to \$1.25 a barrel. Some years ago they did think of starting a factory, but they found that they could not buy potatoes for less than 40 cents a barrel, and at that price there was no profit in it.

Mr. Farris doubted very much if the factory could procure potatoes for less than 40 cents a barrel, and at that price the up river counties were going in extensively for potato growing, and the potatoes of that district contained a reputation in the west. If there should happen to come a good year with an extra large yield there ought to be some market to get rid of the surplus and for that reason he would advocate a bonus on a starch factory to be paid according to the output. No output, no bonus.

Mr. Carpenter asked what amount of bonus he would suggest, and Mr. Peters replied \$5 a ton.

Dr. Rudwick would like to know what the government intended to do about importing horses. He considered it a most important matter, and one about which they should have some information.

Mr. Rudwick said that in the Speech from the Throne, it was stated that they would soon be importing some brood mares. There were enough stallions in the country to supply the present needs, but some well bred mares were needed. The government also thought of importing some sheep, but before doing this the farmer wanted some alterations in the present dog law.

Dr. Rudwick agreed that some alteration in the dog law was needed. At present there were in St. John County not more than 500 sheep, and about twice that many dogs.

The committee then adjourned.

HOUSEHOLD HINTS.

Some Interesting Information for Busy Housewives.

THE TEA COZY.

For the "afternoon tea," the hostess should by all means show pretty "cozies" to keep the teapot warm, and incidentally, to catch a bright spot on the table among the cups and saucers.

Cut four pieces of any soft silk ten inches wide at the base and narrowing into a dome fourteen inches high; these are for the lining, and must be padded thickly with soft wadding.

Then cut four other pieces of dull colors an inch and a half smaller for the outside and embroider each in gold-thread Japanese designs, very much raised, that it may show plainly when finished. Baste wadding on the inside of these pieces also, as the cozy must be thick to keep in the heat, and put a stout cord, covered with ribbon or bias silk, all around the bottom to give the requisite firmness for the cozy to stand upright.

Catch lining and outside together carefully, that the shape and symmetry may be preserved, and cover the seams with a flat silk braid, which is carried all around the bottom and is finished at the top, where the four points meet with four flat and one upstanding loop.

HEALTH AND BEAUTY.

Infectious diseases are unknown in Greenland. Avoid eating foods that nature says disagree with you. Sleeping with the hand under the face induces wrinkles. Goose oil, persistently applied for a few weeks, will loosen stiff joints. Castor oil applied to warts regularly at night for a while will dry them up.

To have good eyesight one must enjoy good health. Poor health leads indirectly to various eye troubles. Avoid rubbing the eyes with the hand or with a rough cloth, but rather bathe them in cold water twice a day.

When the eyes become watery or show signs of indistinctness of vision, it is time to rest them. A few drops of essence of peppermint on a cloth laid against the ear

(not inside it) will relieve an earache.

Avoid dazzling lights and sudden changes, and never use the eyes when everything appears hazy and the letters blur, but obtain suitable glasses.

The well-groomed woman must watch her waistline; old dingy belts or skirts slipping down are unbearable. There are big pins and safety-pins to hold the skirts in place, and a new belt may be had for a few cents.

The proof of the effect of a bath is the reaction which follows. If this is not quick and good, the kind of bath should be changed. The effect of the cold or cool bath is stimulating. Good rubbing helps to bring on the reaction. If the bath feels chilly and languid, if the finger tips and the lips are blue, then the bath has been too cold or too long or the bather is not robust enough for a cold bath. In such cases a tepid bath is much better.

DO NOT CROWD THE SEASON.

The first warm days of spring bring with them a desire to get out and enjoy the exhilarating air and sunshine. Children that have been housed up all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their flannels. Then a cold wave comes and people say that grip is epidemic. Colds at this season are even more dangerous than in mid-winter, as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It always cures, and we have never known a cold to result in pneumonia when it was used. It is pleasant and safe to take. Children like it. For sale by all druggists.

Old garments that may be utilized in a hundred ways, for rugs, linings, cushions and the like, are sometimes rendered worthless because when no longer fit to wear, they are not ripped to pieces, brushed and put away.

BLOOMFIELD RIDGE.

March 11.—The weather for the past few days has been all that could be desired.

Mr. Abram Spencer of Taxis River, attended church here yesterday.

The Boies brothers have finished their logging operations on the Taxis River.

Mr. and Mrs. James E. Boies are receiving congratulations over the arrival of a bouncing boy.

Mr. and Mrs. Frank Calhoun are wearing a broad around the Corner Times are brisk around the Corner these evenings. "Bluff" is the particular game this spring.

Miss Annie E. Boies is rapidly recovering from a bad attack of la grippe and is again able to resume her studies at school.

Miss Mary K. Boies, our popular nurse, is staying with her sister-in-law, Mrs. James Boies.

Misses Isabelle and Leah Spencer and Mrs. Mary Parker were the guests of Mrs. J. A. Spencer Thursday evening.

Surprise parties are the order of the evenings. There were one at James P. Boies and one at J. A. Pond's last week.

Mr. A. L. Boies had the misfortune to fall down C. Parlier's stairs the other evening. He got off lucky with a sprained ankle. Miss J. E. Parker is the nurse in attendance.

Messrs. Raymond Mann and Percy Boies made a flying trip to Gordon Vale today.

Mr. James E. Spencer is visiting relatives at Marysville.

Mr. Helen L. Parker was visiting relatives one day recently.

Miss Annie E. MacRae was calling on friends at Gordonvale quite recently.

Mr. James A. Pond, while driving to Boiestown the other day, met with quite a serious accident. While turning out for a team, his horse became frightened and Mr. Pond could not handle the horse. She kicked and broke the dasher. Mr. Pond's sleigh got a very bad shaking up, but the driver came out all right.

At the residence of Mr. and Mrs. James A. Pond on Thursday evening, March 8th, a supper was given in the honor of Members of Friends of Bloomfield Ridge and Boiestown. Music and games were indulged in and all seemed to enjoy themselves.

Miss Nellie M. MacLeod presided at the organ, assisted by Miss Annie R. MacRae.

A surprise party was held at the Boies brothers on Wednesday evening. Rev. J. E. E. Thrope will preach here on Sunday at three o'clock.

Postmaster John M. Parker is quite ill at his home with la grippe.

Miss Isabelle R. Spencer, who has been clerking in Jas. A. Pond's store for over two years, is home on her vacation.

Miss Ella M. Smith has accepted a position at Duffy's Hotel as waitress.

Miss Minnie C. MacLellan attended tea at Miss Smith's.

Our Bloomfield Ridge correspondent is glad to report that Mr. Wesley T. Hinchey has recovered from an attack of la grippe.

Mr. Walter A. Calhoun has purchased a handsome new sleigh from an agent at Boiestown last week.

Misses Nellie MacLeod and Annie R. MacRae and Jessie C. Smith and Mr. Arthur L. Boies were the guests of Mr. and Mrs. Andrew Calhoun on March 10th.

A pie social and fancy sale is to be held at Bloomfield Ridge on Wednesday, March 20. Ladies bring pies and gents bring cash.

A surprise party was held at the residence of Mr. and Mrs. James MacLellan on Saturday, March 9th, and music and games etc., were enjoyed.

Miss Lynda MacLellan spent Sunday at her home.

Quite a number of our young friends attended the supper at Mr. James A. Pond's Hotel on Thursday evening, the 7th.

Mr. and Mrs. Frank E. Calhoun are receiving the congratulations of their friends over the arrival of a bouncing boy at their home on Wednesday evening, March 6th.

Mr. James C. Spencer spent Friday and Saturday at Marysville.

Ex-Coun. J. Hinchey drove to Boiestown with a fancy driver and cutter one day last week.

Mr. H. H. Gunter has a number of teams hauling at Rocky Brook for another year.

Mr. Tennyson A. MacDonald of Campbell is the guest of a friend on Friday evening, March 8th.

Mr. Harry A. Bruce of Hayesville, spent a day outing at Bloomfield Ridge.

We are glad to see our old friend Mr. Alex. J. Norrad around again.

Mr. Jas. E. Snow, who has been out working in Springhill, Maine, for many years, is home on Saturday. He is looking hale and hearty.

Mrs. George A. Robinson of Gibson is visiting her parents, Mr. and Mrs. W. G. Calhoun.

The MacLellan Bros. have finished lumbering on Monday, March 11th.

Mrs. James E. Robinson of Pleasant Ridge, is visiting friends at Gordonvale.

Our esteemed teacher, Miss Annie R. MacRae, expects her father and mother, Mr. and Mrs. J. E. MacRae, of Black River, to spend their Easter holidays at Bloomfield Ridge.

Another surprise party was held at the residence of Mr. and Mrs. William J. Smith on Monday, March 11th.

We hear the sound of wedding bells in the far distance.

There will be a pie social and fancy sale held in the Bloomfield Ridge hall on Monday evening, March 18th.

All are invited to attend, and a good time is expected. Come one, come all and enjoy a good evening. Ladies, bring pies and gents bring your cash. Music will be furnished by Palmer Bros.

JUMPING WITH NERVE PAIN.

That's how you feel with neuralgia. But why lie awake at night, grumble or complain—get busy with a bottle of Nervine. It does act like magic, seeks out the pain and destroys it. Harmless and certain—instant in effect, nothing is so popular as Nervine for aches and pains of all kinds. Try it for lumbago, test it in rheumatism, prove it in neuralgia, pleurisy or colds. You'll soon acknowledge that Palmer's Nervine acts them all. Sold everywhere in large 25c. bottles.
