A LAW.

To regulate the Use of the Common Sewers of the City of Fredericton and to Establish the Rates to be Charged Therefor.

BE IT ENACTED by the Mayor, Aldermen and Commonality of the City of Fredericton as follows:

(Sgd.) H. F. McLeod, Mayor.

1. The City Engineer, under the direction of the City Council, shall have the general supervision and inspection of the construction and maintenance of all common sewers built or owned by the City, and of all connections of particular sewers built and constructed under the provisions of this law. The Engineer shall cause accurate plans thereof to be made, representing the location, depth and material, with a section plan of each sewer, indicating the size, shape, thickness and construction and shall cause to be shown upon said plan all existing connections of said sewers and all other connections as they are made.

2. All applications for the construction of particular sewers, and their entrances into the common sewers, and for permits to enter the same, shall be in such form as the City Council shall prescribe, and be filed with the City Engineer. All that portion of any particular sewer laid within the limits of any public street, square and alley-way of the City of Fredericton, and its entrance into the common sewer, shall be constructed, maintained and kept in repair by the City Corporation, and shall be the property of the City and the cost thereof shall be paid by the owner of the estate connecting, before the same is used or house connections made therewith. The cost of all repairs, or removal of stoppages, made upon any particular sewer, shall be paid by the owner of the estate connecting.

3. No work of laying a particular sewer shall be commenced or allowed to continue unless and until the deposit hereinafter required shall have been paid to the City Treasurer, and a permit in Form "A" prescribed in schedule hereto, shall have been issued by the City.

4. Applications for permits to connect any particular sewer with a common sewer shall be made in writing signed by the owner or owners of the property to be connected, according to Form "B" of the Schedule hereto. At the time of making such application the applicant shall deposit with the City Treasurer an amount equal to the estimated cost of making the required connection, in no case less than TEN (\$10) dollars, and no permit shall be issued until the amount of the required deposit has been paid. This deposit shall be credited to the cost of installation and should such cost of installation exceed the deposit, the applicant will be required to pay the difference to the City Treasurer, together with the amount of his sewer rate for the then current half-year before the same is used or house connections made therewith. In case the deposit should exceed the cost of installation and rental, the surplus shall be refunded by the city treasurer to the applicant.

5. Every particular sewer shall be of such size and laid at such grade as the City Engineer or his assistant shall direct.

6. The City Engineer, or other person appointed by the City Council for such purpose, shall have the right at all reasonable hours to enter the premises and inspect any particular sewer and its connections and plumbing.

7. The inside of every particular sewer, after it is laid shall be smooth and clean throughout its entire length and all work and plumbing on same must be done to the satisfaction of the City Engineer.

8. When any change in direction is made in the pipe, either in horizontal or vertical direction special bends shall be used.

9. No live exhaust or waste steam or blow off, or drip pipe from any steam boiler, waste from acetylene or other illuminating gas plant, or any drainage shall be discharged directly into any common sewer or any particular sewer or house drain, connected therewith.

10. No permit to connect with the common sewers shall be issued to any manufacturing establishment until the owner or owners, shall have fulfilled any special requirement recommended by the City Engineer.

11. No person shall throw into any sewer or drain, inlet, manhole or catch-basin, any earth, dirt, stones, bricks, saw-dust, ashes, cinders, shavings, hair, grease, oyster, clam or lobster shells or any other substance detrimental to the sewers or the use thereof.

12. Every particular sewer, which shall enter into any common sewer, shall be built of such materials, dimensions and description, with such grade and in such manner as the City Engineer shall direct.

13. Every person owning or occupying property situate on any street along which there is a common sewer shall make immediate connection with the same within such time as the City Engineer, shall direct, by a written notice served on such person by delivery of the same personally, or by leaving same on the premises. In case any person shall neglect or refuse to comply with the terms of such notice the City Council may order such sewer connection to be made and the expenses of same shall be a lien upon the property so connected and may be recovered from the owner by suit in any court of competent jurisdiction.

14. Any person convicted of a breach of any of the provisions of this by-law, shall forfeit and pay, at the discretion of the convicting magistrate, a penalty not exceeding FIFTY DOLLARS and costs for each offence.

15. Every person or owner who connects his particular sewer with a common sewer shall pay for the use of such common sewer, an annual rent, to be fixed by the City Council. Such rental shall be paid semi-annually on the first day of May and the first day of November in each year,

at the same time the water rates are now payable, and no water permit shall be issued upon any premises having sewer connection unless the sewer rental has been paid. Unless the water rates and sewer rental are paid within sixty days after the time hereinbefore mentioned, it shall be the duty of the engineer to cause the water to be shut off such premises. In any case where the water supply has been shut off for non-payment of water rates or sewer rental, or both, the sum of three dollars will be charged for turning on the water and inspecting the water and sewer connection.

The following shall be the rentals to be charged for the use of the common sewers, to be paid semi-annually in advance on the first day of May and the first day of November as aforesaid:

SCHEDULE FOR SEWER RENTALS.

One kitchen sink in dwelling.....\$2.00
One kitchen sink and one bath room, (to include wash bowl, seat and tub) in dwelling..... 4.00
Each additional bath..... 2.00
Each closet..... 2.00
Each slop sink..... 2.00
Each additional urinal..... 1.00
Each wash bowl..... 1.00
Each sink..... .50

Hotels, boarding houses, etc., shall pay the same as for family rates and in addition shall pay a fixed sum of twenty-five cents per bed.

All government buildings, federal and provincial, one half the amount of the water rates.

Buildings occupied as stores, or offices, or for other business or commercial purposes, when not otherwise specified, an amount equal to the water rates.

School buildings and churches, one half the amount of the water rates.

Manufacturing establishments, when discharge is properly protected to the satisfaction of the engineer, employing fifty persons or less, ten dollars; for each additional 25 or less two dollars.

Steam laundries, when discharge is properly protected to satisfaction of engineer, fifteen dollars.

In no case shall the minimum rental be less than two dollars.

Form A. FREDERICTON SEWERAGE SYSTEM.

Received from..... street, the sum of..... Dollars the estimated cost of making connection from said premises to common sewer. The above payment is received and this permit is issued, subject to the regulations and by-laws of the city of Fredericton.

..... City Treasurer

Form B. APPLICATION FOR A PARTICULAR SEWER OR HOUSE DRAIN.

To the Mayor and Aldermen and Commonality of the City of Fredericton:

The undersigned, being owner of the estate requests that a private sewer be laid from the..... at No..... street, and that the same may be connected with the..... street sewer, and that..... may be allowed the use of such sewer for the purpose of disposing of the sewerage of said.....

And the undersigned agree to pay to the said city before connecting said..... with the said particular sewer, all of the cost of said sewer, including labor and materials or any other expense incurred necessary for the proper construction of said sewer.

And the undersigned further agree to strictly conform to the laws and ordinances relating to sewers and to the rules and regulations that are adopted in relation thereto and also to the plumbing laws and ordinances so far as they relate thereto.

And the undersigned further agree that no claim for damages which may be occasioned to such estate, or any property thereon in any manner, by such construction, use or existence of such particular sewer or connection, shall be made against the city of Fredericton.

And the undersigned further agree that the said city engineer and other parties authorized by the city shall have access at all reasonable hours, to the said premises, to see that all laws, ordinances and rules relating to the sewer are complied with.

(Signature).....

(Address).....

Passed and enacted this fifth day of July, A. D., 1907.

J. W. MCCREADY, City Clerk

CITY OF FREDERICTON, S. S.:

I, James W. McCready, city clerk of the city of Fredericton, in the province of New Brunswick, do hereby certify, that the foregoing pages, numbered from one to nine, both inclusive, contain a correct copy of a by-law passed and enacted by the city of Fredericton on the fifth day of July instant, under authority of 59 Victoria, Chapter 52, Section 15 (1896), the same having been compared by me with the original law passed and on file in my office.

In witness whereof I have hereto set my hand and affixed the corporate seal of said city this tenth day of July, A. D., 1907.

JAMES W. MCCREADY, City Clerk.

Hon. Mr. Emmerson seems to have won the first round in the campaign against his detractors.

PRIVATE SMITH'S DEATH.

Particulars of the Drowning of a Fredericton Man at Petewawa.

Letters received in this city concerning the late Private Charles Smith, of the R.C.R., who met his death by drowning at Camp Petewawa on Friday last, contain additional particulars of the sad affair.

It appears that he and Sergt. Rushton were assisting several engineers to build a bridge across the river and Smith went after a rope which was on the opposite shore. He tied the rope in a slip knot around his body and started to swim back. When in about the centre of the river the rope in same manner got caught on a sunken snag and as the current was very swift at that point he was immediately swept below the surface.

Sergt. Rushton and Quarter-Master Sergeant Lavole were soon on the spot and dived for the body, which they recovered shortly afterwards.

A physician, who was called, pronounced death to have been due to suffocation, the rope having worked its way to his neck and strangled the unfortunate young man.

Private Smith was a good swimmer and had it not been for the rope, which he endeavored to bring across the river, would undoubtedly have been still living.

The funeral of the unfortunate young man took place on the arrival of the noon train yesterday afternoon, his late comrades acting as pall-bearers. Interment was made at Forest Hill.

MARYSVILLE NEWS.

Mr. and Mrs. Hervey, on their return from their wedding journey spent a few days in town. On Saturday evening they were at home to their friends. They expect to leave Monday for Montreal en route to their new home in Quebec.

Mr. Harold Gilbert and Miss Margaret of Schenectady, N. Y., are the guests of Mrs. James Gibson.

Professor Christolm and Master John have returned from a trip to Boston.

Miss Lou Fisher of Schenectady, N. Y., who has been the guest of Dr. and Mrs. Fisher, the past few days leaves on Tuesday for Bar Harbor, Me.

Miss Mayme Gibson leaves on Wednesday for St. John.

Miss Florence Tapley has returned from a trip down river.

Mr. J. Thompson of St. John and Miss Jonett of Fredericton were in town Friday afternoon the guests of Mrs. E. Miles Merritt.

Master Harrison Eno has returned from a short holiday trip.

Mrs. James Inch returned home on Saturday from Victoria Hospital, much improved in health.

Mrs. George Foster is spending a few days in St. John.

Miss Kirk, superintendent of nurses in Victoria Hospital, spent Sunday in town, the guest of Miss Belle Likely.

There was a baseball game last Saturday evening on baseball hill between the St. Mary's Stars and the Marysville "Vics." resulting in an other victory for the home team, the score being four to two. Mack Denison and William Boyce were the battery for Marysville and Fred Robinson played second base, it being his first appearance on the diamond this season. Both he and Denison played an excellent game. Boone and Hughes were the battery for St. Marys.

A large number went to Penniac Saturday evening to the strawberry festival at that place under the auspices of the union church. A jolly good time was spent by all.

Mrs. Henry Bailey and son, of Gibson, were the guests of Mrs. Alex. Gibson on Friday.

over-burdened. Among the pleasant

Woman is often referred to by man as "doubling his joys and halving his sorrows." That may be complimentary but it would seem to be rather hard on the woman. For in plain terms it means that where things are going well with the man his wife makes them go better. But when things are going ill with him, he expects the wife to share half his burden. And there is more truth than poetry in this presentation of masculine selfishness. Men don't appreciate the fact that the strain of motherhood alone is a burden bigger than all the loads that rest upon male shoulders. They see the wife grow thin, pale and nervous and worn without a thought that she is letters received by Dr. Pierce are those from husbands who have waked up before it was too late to the crushing burdens laid upon the wife, and in the search for help have found in Dr. Pierce's Favorite Prescription a restorative which has given back to the mother the health of the maiden and the maiden's happiness. "Favorite Prescription" always helps, and almost always cures. It has perfectly cured ninety-eight out of every hundred women who have used it when afflicted with diseases peculiar to women.

HYMNS PROPER TO THE DAY.

(London Telegraph)

It was Archbishop Temple who complained that when he stayed with a parson "they always gave me 'The Church's One Foundation' and cold chicken, and I hate them both." A bishop of a more sentimental turn was recently staying with one of his country clergy. About breakfast hour he heard the strains of "Rock of Ages" sounding through the house. At the breakfast table he remarked how sweetly the hymn sounded. Then said the vicar's small boy, "That was cook." The bishop expressed pleasure at the melodies of the cook. "She always sings 'Rock of Ages' to boil the eggs," said the child; "three verses for soft-boiled; five for hard."

LAWYER ASSAULTED.

Form P. E. Island Premier Struck by an Enraged Witness in Court

VICTORIA, B. C., July 20.—Angered because of the cross-examination to which he was subjected, in court, Walter H. Stewart, of Cobble Hill, laid in wait for Hon. Fred Peters, K. C., former premier of Prince Edward Island, at the adjournment of the proceedings in the libel action being tried in the civil sittings of the supreme court last week and made a violent attack on the lawyer, in the face, but the blow was a glancing one and did little damage. Bystanders interfered and Stewart was taken in charge by the officers. He was escorted back into court where he was severely censured by Chief Justice Hunter for his exhibition of temper and fined twenty dollars for contempt and bound in a bond of two hundred and fifty dollars to preserve the peace for one year.

The assault was only one of several unusual incidents during the trial of the suit for five hundred dollars damages for libel brought by Major MacFarlane against P. W. Garnett.

BASE BALL.

The baseball writer who follows the wishes of the average fan will be criticising the ball team which represents his city whenever they lose a few games. The ball fan is a fickle individual. Though he may advocate the release, yes, the banishment, of every player of his pet team after they lose a few games he is usually the first one to take their part when things are coming their way.

There is no reason for "knocking" a poor ball club. Bone headed plays should be criticised, but more harm than good is done by jumping on a few ball players who are willing to do their best, but lack the ability.

Nothing is to be gained by such policy. If a ball team is "rotten," excuse the term, the public does not have to be told about it. Its work shaws for its self and there is less chance of improving it if the hammers are wielded than if it is allowed to go its own way, so long as there is reason for believing that the players are putting forth their best efforts.—Washington Post.

ROGER BRESNAHAN'S OUTFIT.

Now that Roger Bresnahan has almost completely recovered from his recent injury it is safe to figure without offense what additions will be made to his previous extensive outfit. Some critics are of the opinion that in addition to his shinpads he will wear a head-gear, a nose guard and a chin strap. This improvement, taken with his catcher's chest protector and padded trousers, will leave him only lacking a horn.

OLD CY YOUNG SURVIVES.

Many critics of the game are tumbling to the fact that Chesbro, the once mighty, is no more. John B. Foster says in the New York Telegram: "Chesbro has yet to show that he is the great pitcher he was a few years ago; Kitson made good, in the first game he pitched for the Yankees, but since that his work has not been up to the standard. As to the other twiflers, they will have to show up much better than they have to convince New York fans that they are strong enough for major league company." They come and they go, and yet Big Cy is the daddy of them all. He goes on and on and on and strikes 'em out or makes 'em fly. He certainly earns all he can get and a good deal more. Matty is no longer the "it" in baseball pitching.—Washington Star.

MANITOBA SUICIDE.

Victim Could Not Live up to Church Standards and Took His Own Life.

ST. JEAN BAPTISTE, Man., July 22.—(Special)—O. Vangerian, a Belgian, committed suicide by shooting himself through the head near this village on Saturday.

He left a note saying that as he could not live up to the standards of the Roman Catholic Church, he had decided to take his life.

Pilgrims For Mecca.

The largest caravan of pilgrims for Mecca starts from Constantinople, with Damascus for its destination. On reaching this place it generally comprises 40,000 people. The second largest caravan goes from Cairo.

On Tick.

"The original of the phrase "on tick," meaning credit, was "on ticket," the idea being that articles bought and not paid for at the time had to be noted on a ticket.

Pines and Oaks.

The most scientific forester in Europe says that the oldest trees in northern Europe are the pines of Norway and Sweden and that these are not known to live more than 570 years. Germany's oldest oaks lived only a little more than 300 years.

Red Sea Heat.

The heat near the Red sea is no myth. The temperature rarely falls below 75 degrees. In June and July the average night and day is 90 degrees.
