Is your baby thin, weak, fretful?

Make him a *Scott's Emulsion* baby.

Scott's Emulsion is Cod Liver Oil
and Hypophosphites prepared so that it is
easily digested by little folks.

Consequently the baby that is fed on
Scott's Emulsion is a sturdy, rosy-
cheeked little fellow full of health and vigor.

ALL DRUGGISTS; 50c. AND \$1.00.

BRONCHITIS
CAN BE CUREDDr. Wood's Norway Pine Syrup
Will Do It.

Bronchitis is generally the result of a
cold caused by inclement weather or ex-
posure to wet, and is a very dangerous in-
flammatory affection of the bronchial tubes.
The symptoms are tightness across the
chest, sharp pains and difficulty in breath-
ing, and a secretion of thick phlegm, at first
white, but later of a greenish or yellowish
color.

Neglected Bronchitis is one of the most
general causes of consumption, so care is at
once by the use of

Dr. Wood's Norway Pine
Syrup

Mrs. S. Fidler, Linton's, N.B., writes:
"I feel it my duty to let you know of my ex-
perience with Dr. Wood's Norway Pine
Syrup. My little girl was very low with
Bronchitis and our doctor did all in his
power for her, but could only give her relief
for a short time. My husband saw your
medicine advertised, and immediately pro-
cured three bottles. I never saw anything
give so much relief in so short a time. It
stopped the annoying cough at night and she
is now perfectly cured. I am so glad I can
hardly express my gratitude for what Dr.
Wood's Norway Pine Syrup has done for
us."

Price 25 cents at all dealers.

ODDITIES IN GRAVES.

A Woman Who, Born, Living and Dy-
ing Cross, Was Buried Cross.

There is a curious old gravestone in
Prestbury churchyard which records the
fact that one woman at least in
England died a bachelor. Her name
was Sarah Pickford, and the stone
gravely informs the reader she was
there interred "August ye 17, Anno
Dom. 1703, and died a Bachelor in the
48th year of her age."

A stone in Westminster abbey re-
cords the interment there of George
Graham, who was the only workman
that received the honor of being buried
in Westminster abbey. He was a sci-
entific instrument maker, who in 1700
invented the deadbeat escapement in
clocks. His funeral was attended by
the Royal Society in a body.

In East Ham churchyard there is a
tombstone placed crossways. The woman
interred is said to have been born
cross, lived cross, married a Mr. Cross
and died cross. Her dying request was
to be buried cross, and this was car-
ried out.

As to more ancient graves, that of
Noah is reported to be in the small
town of Nakhichevan, near the foot
of Mount Ararat, and is sixty feet in
length. Another tradition says that the
grave is merely a niche in the wall of
an abandoned fortress.—London Chron-
icle.

ROBUST DOUGH ROLLERS.

Work in a Pie Factory is on the
scale of Athletics.

To properly describe the processes of
baking pumpkin pies would require one
skilled in the technicalities of the art.
This is the way it looks to a mere man:
First, the coarse yellow rind is removed,
and then the pumpkin is cut open
and the seeds taken out, after which
the two halves are thoroughly washed.
Then a husky lad takes a sort of cleav-
er and cuts the pumpkin into large
pieces, which are fed into a steam
chopping machine and reduced to small
fragments. These are placed in a huge
copper boiler capable of holding per-
haps twenty-five gallons. After the
boiling has been completed a pasty
mixture of eggs, milk, sugar, cinnamon
and other spices and condiments is
added and well stirred in, and then the
yellow mass is ready to be filled into
the skeleton pies. The crust is pre-
pared in another department, where
the dough is mixed, rolled and placed
in the pans ready to receive the fill-
ing. If any one thinks that pie-making
is an easy and effeminate employment
he should visit a pie bakery and in-
spect the muscles developed on the
arms of expert pie crust mixers and
rollers. They would be creditable to a
trained athlete and would put many a
mill worker and blacksmith to the
blush. Finally the pies are placed on
racks and shoved into huge ovens that
resemble nothing else so much as the
kilns used for burning brick. These
kilns are constructed in any size de-
sired, with a capacity of anywhere
from fifty up to several hundred at a
time, while they can be refilled every
half hour or less.

PECULIAR EYES.

The Organs of Sight of the Spider
and the Snail.

The next time you catch a spider try
to find the eight shiny little eyes at the
anterior end, some above and some put
under the edge of what we may imag-
ine to be its forehead. To examine
these parts to the best advantage hold
the spider in tweezers, or it may be
better to use a spider killed by being
dropped into a bottle of diluted alcohol.
These eight eyes vary in arrangement
and in relative size in various species
of spiders—in some they may be ar-
ranged in two rows, in other in three;
some may be very small and others
large and prominent, and so on—but
they are, rather poor eyes, near-
sighted, looking in several directions at
once, and the spider, which can never
shut any of them, is sure to see every-
thing that approaches unless it is
asleep, in which case the sight is dead.

For some purposes it may be conven-
ient to have eyes that roll up and dis-
appear at the approach of danger. And
these are exactly what the snail has,
situated at the end of two long and
sensitive palpi, or feelers. When all is
quiet their owner extends these organs,
and you can see at their tips small
round knobs upon which the eyes are
placed. But if you touch one of the
palpi or even feel the snail a little the
eyes begin to back into these feelers
as the tip of a glove finger may be
turned in, and they no longer see any
danger that may be lurking at hand.

Dangers of the Revenue Service.

The officers of the internal revenue
service make little fuss over their ac-
complishments. The world scarcely
hears of them unless they have had a
desperate hand to hand fight with
mountain desperadoes which has re-
sulted in the death of several of their
number. But day after day and night
after night they go about their work
calmly, quietly, in constant danger of
death from a shot from some ambush-
ed moonshiner or blockader. Yet these
men are an absolute necessity for the
safeguarding of the country's interests,
and they deserve much credit for their
hard task, scarcely appreciated by the
great mass of the people.—David A.
Gates in Metropolitan Magazine.

When the Wire Tires.

"Messages," said a telegraph opera-
tor, "always slide over the wires bet-
ter on Monday than on any other day.
The wires, you see, have profited by
their Sunday rest. It is a fact that in-
animate as well as animate things get
tired and need a vacation occasionally.
You know how true this is of razors,
automobiles, of locomotives, and it is
just as true of telegraph wires. A wire
after its Sunday rest gives a quicker,
a fuller and a more delicate transmis-
sion. It is like a piano that has just
been tuned."

To put the brake on the wagon go-
ing down the hill is a help to the
horse, when the wagon is heavily
loaded wagon going up hill? If he
did, his sensible horses would prob-
ably balk. Many a man is in the
condition of pulling a load up hill
with the brake set against him. When
his stomach is out of order, and the
allied organs of digestion and nutri-
tion impaired in their functions, a
friction is set up which has to be
overcome in addition to the perform-
ance of daily duties. A foul stomach
makes a foggy brain and the man
with a disordered stomach has often
to grope his way through the day's
business like a man in a fog. He
forgets appointments. Problems
seem presented to his mind "wrong
end to." This condition is entirely
remedied by the use of Dr. Pierce's
Golden Medical Discovery. It puts
the stomach and digestive and nutri-
tive system into a condition of per-
fect health, and gives a clean brain,
a steady hand and a light step to
the day's duties. Dr. Pierce's medi-
cines do not contain alcohol or other
injurious ingredients; they are not
"patent medicines" because their in-
gredients are printed on the label of
each bottle.
HOW TO TEST
YOUR KIDNEYS

If any of your family have been
troubled with kidney disease make a
test of the urine and satisfy your-
self whether you need a good remedy
before the disease has caused serious
complications.

Tomorrow morning put some urine
in a glass or bottle and let it stand
for twenty-four hours.

If it shows particles of germs float-
ing about, is milky, or cloudy, or
contains a reddish sediment, then
your kidneys are diseased.

Commence at once to take Ferro-
zone to arrest these unnatural con-
ditions.

Ferrozone is especially intended
for the immediate relief and cure of
kidney and bladder troubles and its
health-giving properties are felt
at once in new blood healthy circula-
tion, and strengthening of the
system.

Ferrozone quickly corrects urinal
disorders, headache and pain in the
back improves the appetite, dig-
ests the food, makes it nourish the
nerves, makes them strong and en-
during, and fits one for lots of hard
work.

Don't be misled by cheap, so-
called kidney cures offered by dealers
for the sake of extra profits. There
is only one safe and reliable specific for
Kidney, Bladder, Liver and Urinal
troubles, and its name is Ferro-
zone.

Refuse point blank to accept a sub-
stitute, and insist on your drug
gist supplying "Ferrozone," price
50c. per box at all dealers.

BLOOMFIELD.

Feb. 16.—Our little village has
somewhat revived from the lethargy
which has held it in bond for so long a
time. Parties, drives and quiltings
are the order of the day.

Mrs. L. G. Allan gave a party in
honor of her mother, Mrs. Patch,
and brother, Eddie, of Campbell.
Dancing and games were indulged in
till the wee sma' hours of the morn-
ing.

J. S. Fairley has returned home
after a pleasant visit to friends at
Chatham.

The Norrad Bros. were very much
startled while at work the other day
by the loud cries of their father for
help. Hastening to his assistance,
they found that while topping off a
den, he had fallen in a huge bear
tree. They succeeded in extracting
him after much difficulty. On explor-
ing the cavity they found a large
bear dead.

Owing to the severity of the weather
the water pipes on Water street
have frozen, overflowing the street
and making it almost impassable.

Ernest Fairley gave the young peo-
ple of this place a straw ride on
Saturday, with his beautiful black
pacer. The crowd, to his father's
lumber camp on Porter Brook, where
they were heartily welcomed by the
cook, Justie Fairley, who set before
them an appetizing dinner, to which
they did ample justice. They return-
ed home shortly after reporting a
splendid time. Mrs. F. H. McElw-
er of Boiestown, chaperoned the party.

Orlow Brown entertained a number
of her friends Tuesday evening at a
musical. Willard Norrad, our young
violinist, rendered some beautiful
selections in his usual pie style.

A pet poodle belonging to a prom-
inent lumberman on Water street
was furiously attacked by two bul-
dogs belonging to a lady nearby. The
poor poodle would have soon been
torn to pieces, but a new actor ap-
peared on the scene armed with a
corn broom, who soon put the of-
fenders to flight.

Estelle J. Fairley left on Thursday
for Fredericton, on a well earned va-
cation. Her place as organist will
be filled by Mrs. Alex. McDonald.

Helen Carson expects to leave for
home in a few days. She will be
very much missed. Bertie Norrad
will accompany her to the city.

Our I. O. G. T. lodge still keeps up
its usual meetings on Waterloo Row,
in spite of wind and weather. Al-
though few in number they are
staunch members. John Hunter still
holds the responsible position of
treasurer, to which he was elected
at the organization of the lodge.

Mrs. Willford Norrad lost several
valuable Plymouth Rock hens the oth-
er day. But what was Mrs. Norrad's
loss was Tribby's gain.

Evelyn Fairley is able to be out
again after a severe attack of conges-
tion.

J. V. Norrad has accepted the po-
sition of traveling salesman for
Hunter and Wilson.

Robt. McKay, who has been running
a poultry farm for the past few
years, has gone out of the business.

"Regular Practitioner—No Result!"
—Mrs. Annie C. Chestnut, of Whitty,
was for months a rheumatic victim,
but South American Rheumatic Cure
changed the song from "despair" to
"joy." She says: "I suffered untold
misery from rheumatism—doctors
medicine did me no good—two bottles
of South American Rheumatic Cure
cured me—relief two hours after the
first dose."—50.

"Say, paw, what does it mean to
live to a ripe old age?"

"When a rich man gets to be eigh-
ty, my son, he is at a ripe old age.
A poor man is merely old and de-
crepit."—Milwaukee Sentinel.

The small boy entered the shoe
store and appeared to be bewildered.
"What will you have, my son?"
asked the clerk.

"I—I have forgotten what I was
sent for," replied the boy, bashfully,
"but—but it is something we have at
home every time ma goes into the
kitchen while the cook is there."

The clerk smiled knowingly.

"Oh, I see. You want spats."
"Yes, that's it, mister," replied
the lad, his face brightening. "I
came after a pair of spats."—Chi-
cago News.

NEVER SLIT YOUR BOOTS.

No substitute has ever been devised
that gives the quick, painless results
of Putnam's Corn Extractor. For
fifty years its success has been un-
equalled. For safety and through
cure use "Putnam's" only.

LOWER POKIOK.

Feb. 14.—Mrs. William McGinn and
daughter spent one day last week at
Mrs. Andrew Parker's.

Mr. Frank Scott had the misfor-
tune to lose a valuable short-horn
bull in Mr. Nichol's spring.

We are glad to hear that our old
sexton is going to take charge of the
church for another year.

Mr. Sandy McGirr has returned
home from the lumber woods. We are
very glad to see his smiling face
once more.

Mr. Bertie Fraser, the butcher,
passed through here today.

Mr. Herbert Lyons of Fredericton
is visiting friends in this place.

Mr. E. Nichol is busily engaged
getting out wood.

Mr. Frank Scott is doing a rushing
business in the lumber woods, Poki-
ok. He has a crew of over ninety
men at work.

Fred Scott is taking care of Mr.
Wm. Fraser's barn this winter, and
going to school.

Mr. Frank Scott has got William
Duncan for his blacksmith in the lum-
ber woods.

Mr. Johnnie King has bought a
pacer from Frank Scott.

Mr. Andrew Parker is doing a
rushing business in the lumber woods
this winter. He has a crew of forty
men.

Mr. Sandy McGirr is busily en-
gaged cutting wood for the cooking
stove.

We are glad to hear that Mr.
Stewart King is able to return to the
lumber woods after being laid up
with a cut foot.

Most of our young men are going to
school this winter.

Mr. Frank Scott has purchased a
farm in Stanley, and expects to move
there next July.

GRANITE HILL.

Feb. 6.—Some of the young people
of this place attended the party at
George Cronkite's Nackawick, and a
very pleasant time was spent by all.

Amrose and James Hagerman,
who have been working for Hager-
man at Lexpreau, have returned
home.

The many friends of Mrs. C. Hal-
lett, will be sorry to hear of her
serious illness. She is at present at
the Victoria hospital for treatment.

Wesley Sinnott of Millville, spent
Sunday night with relatives here.

Edwin Parent, who has been in
poor health for the past few weeks,
we are glad to say is feeling much
better.

Mrs. Clifford Lint of Pokio, has
been spending a few days with her
parents, Mr. and Mrs. Isaac Hager-
man.

Cap. Stackhouse has gone to Kes-
wick Ridge for the remainder of the
winter.

Frank and Agnes Miller of Grand
View, spent a few days at their un-
cle's, J. C. Morrison.

Lee Parent, who has been working
in the Maine lumber woods since
early fall, has returned home.

On Monday night the young folk in
this vicinity spent a merry evening
at the home of Mr. J. C. Morrison.
Music and dancing were indulged in
until a late hour.

EASY TO RETAIN HEALTH.
Most important of all is proper
attention to the bowels. Avoid con-
stipation in the health-killer of to-
day. Harsh, gripping medicines are
ruthless—beware of it. Best results
follow a truly vegetable remedy like
Dr. Hamilton's Pills of Mandrake
and Butternut which not only relieve
costiveness in one night but cures the
cause of the trouble, and prevents its
return. No distress or inconvenience
attends the use of Dr. Hamilton's
Pills which are world famous for
their mildness and efficiency. Sold
everywhere, 25c. per box.

TRIAL MARRIAGES.

2 Queer Old Custom That Existed
For Ages in Scotland.

"Handfasting" was a custom that ex-
isted for ages in Scotland. The
contracting parties met at the annual
fairs in their several districts. There
young men chose the maids who best
pleased them. They joined hands and
by that act became man and wife until
the corresponding day of the following
year. If the love and fortunes of the
pairs had prospered during the year,
on the anniversary of their meeting
they were legally married by the
priest; if all had not been well, then
they parted.

The practice is supposed to have
arisen from the scarcity of clergy. If
the pair decided to the end of the
twelvemonth, the bride was at lib-
erty to marry another man, her ap-
prenticeship to matrimony not carry-
ing with it any reproach to her. Such
marriages were by custom made legal.
Any issue resulting from the union
would in the case of a second marriage
be taken by the father and rank as
heir after the children of the marriage
which lasted for life.

Many weddings were unmade at the
end of the year, but it was dangerous
if the initiative were taken by the
man who had wedded the kinswoman
of a chief. When a Macdonald of
Sleat availed himself of his right to
send back the sister of a Macleod of
Dungaven, the latter resented it as an
indignity. "He had no bonfire to cele-
brate his wedding, but he shall have
one to solemnize his divorce," Macleod
swore. He kept his word, and a terri-
ble vendetta between the clans re-
sulted.

IS YOUR TROUBLE INDIGES-
TION?

Then probably you know the evils
of distention, fermentation and irri-
tation that accompany digestive
troubles. Next important is to
know how promptly Nervine cures.
Quick as wink it relieves bloating and
feeling of fullness, puts the entire di-
gestive apparatus in perfect order,
makes you feel fit and fine all over.
For internal pain, Polson's Nervine
surpasses every known remedy. Keep
of comfort in the hour of emergency.
Large bottles for 25c. at all dealers.
It is in the house always, it's a source
