Miss Morgan, YORK STREET

THE MAIL ROBBERY.

NORTH SYDNEY, Oct. 16.—With \$2,955, two watches and a diamond ring in his possession, John S. MacDonald was arrested at Summerside (P. E. I.) yesterday afternoon charged with having committed the robbery of a post office bag at North Sydney containing \$300,500 and four registered letters.

The arrest was made by Postmaster Whear, of Charlottetown, assisted by Detective Bradley, of the same place. The prisoner was visiting his parents, who live near Summerside, and was totally unaware of the officers were after him. He took his arrest coolly and showed not the slightest resistance.

MacDonald was taken to Charlottetown by the afternoon train, and will be taken to North Sydney to-day. The preliminary hearing will commence Thursday. The maximum penalty for mail robbery is life imprisonment.

MacDonald was formerly manager of the Enterprise newspaper at North Sydney.

BARRETT'S

THE FILTRATION PLANT.

A Test Being Made Under the Direction of Engineer Barbour.

A thorough test of the water works filtration plant is being made this week under the direction of Engineer Barbour and a representative of the Allis-Chalmers Bullock Company and Continental Jewell Filtration Company. If the plant is found to be up to the standard it will be taken over by the city.

The high duty pump which cost something over \$15,000 was tested for fire purposes at noon today and appeared to work satisfactorily, although in some respects it does not quite come up to the company's guarantee. Ten lines of hose were attached to hydrants along Queen street and all were put into use at one time. A pressure of eighty pounds was maintained, and any one of the ten streams could easily have been sent over the top of the highest building in the city. The ten lines of hose used up water at the rate of three thousand gallons a minute, and were kept going for half an hour.

Chief Butler and Assistant Chief Clark assisted by a number of firemen, looked after the hydrants. The big engine was tested with coal supplied especially for the occasion by Mr. P. Farrell, as the Grand Lake coal ordinarily used at the pumping station does not quite come up to the standard for experimental purposes. It is probable that in future a supply of Nova Scotia coal will be kept at the pumping station for use in case of urgency.

WILL NOT REBUILD.

Sunbury Grand Jury Recommend that Court House Be Repaired.

His Honor Judge McLeod presided at the October term of the Sunbury Circuit Court which opened at Burton on Tuesday morning. Grand and petit jurors were in attendance, but there was no business to lay before them.

After the grand jurors had been sworn they retired and elected Coun. Albry Grass to the position of foreman. His Honor's address to the grand jury was very brief. He congratulated them on the absence of crime in the county and said that they had the right to make a presentment on any matter which they believed to be for the public welfare.

The grand jury spent some time in deliberation reported through Foreman Grass. They did not deem it advisable for the county to engage in the construction of a new court house, as recommended by a previous grand jury, but instead have extensive repairs made on the present structure.

His Honor in discharging the grand jurors remarked that he thought it would be far more profitable for the county to build a new court house than to undertake to repair the present one. The court then adjourned sine die.

MARCONI WIRELESS

Formal Opening of Morien Station in Cape Breton Tomorrow Will be Private.

SYDNEY, October 16.—(Special.)—All invitations that have been sent out to newspaper and personal friends by me asking them to be present at the opening of the wireless station at Morien, Thursday, October 17th, have been cancelled, owing to the fact that one of the experts, Mr. Hankey, is dying.

The opening, however, will take place, as arranged at 2 p. m. This will be absolutely private. We could not, under the circumstances, make the affair a social gathering.

The above was given your correspondent today by Signor Marconi.

DIED IN IRELAND.

Mr. J. A. McKinnon, of this city, is in receipt of a cablegram announcing the death at Belfast, Ireland, a short time ago, of his wife's sister, Mrs. Whiteside, wife of Rev. Mr. Whiteside, a Presbyterian clergyman, at one time stationed in New Brunswick. She was formerly a Miss Flewelling, and belonged to Hampton, Kings county.

FOOTBALL GAME

The Rothesay football team arrived here by last evening's train and are playing a match with the Fredericton High School team on the college field this afternoon.

The St. Joseph's College team and the U. N. B. play on the college field at 3.45 p. m. tomorrow, and Mount Allison will be here Thanksgiving day Oct. 31.

Teacher—Willie, why don't you keep your hair combed?
Willie—Cause I ain't got no comb.

Teacher—Why don't you ask your mamma to buy you one?
Willie—Cause then I'd have ter keep my hair combed.—Judge.

"The laddy hasn't the money now," said Delia, "but ye kin have the ice an' shell pay ye on Saturday."

"But," protested the new iceman, "sposin' she ain't got the money then?"
"Well, if she ain't ye kin take yer ice back."—Philadelphia Press.

"And do you think meat is likely to make people ill?" said the man who studies diet.

"Certainly," said the professor. "If it doesn't get you any other way, it will keep you worried half to death about the cost of it."—Washington.
