ABERDEEN ON FIRE.

Almost a Panic Among Passengers on Well Known River Steamer.

BOAT WAS RUSHED ASHORE AND FLAMES EXTINGUISHED.

St. John, July 16.—(Special)—Fire was discovered on the steamer Aberdeen just below Brown's Flats, while she was making her return trip yesterday afternoon.

The Aberdeen was crowded with passengers, men, women and children. Two of the passengers sitting near the stairway noticed smoke emerging from under the stairway. They immediately raised the alarm

and for a time great excitement prevailed. Captain Perry requested all to keep quiet because they could all be placed in boats if there was any danger.

The Steamer was taken to Brown's Flats/wharf and the fire extinguished.

The cause of the conflagration is unknown but it is presumed that a lighted match or cigar thrown away set fire to some inflammable material.

YOUNG WIFE'S FATE.

Sarnia Girl Had Reason to Regret Her Marriage to an Italian—Eventually Took Her Own Life.

Sarnia, Ont., July 16.—(Special)—The body of a woman found in Lake St. Clair at Port Huron a week ago was identified positively yesterday by her parents as that of a former Sarnia young lady, Miss Ethel Eddy, who last summer married Frank Scarlata, a young Italian.

Miss Eddy was only eighteen years old when married, and the union was a surprise to her friends, but it became tragic by the cruelty of Scarlata.

The young wife clung to her husband, although stories of his cruelty were reported from Parkhill, Ont., and from Chicago, where they lived for a short period.

A few weeks ago Scarlata went to the home of an employee of the Grand Trunk locomotive works in Port Huron and tried to murder him with a razor, as a result of a quarrel over money he had borrowed.

Scarlata was arrested and sent to Ionia reformatory for five years. In the meantime his young wife disappeared, and not until the identification of the body found at Port Huron was it known what had become of her. It is presumed that her mind gave way and she took her own life. Her body was brought to Sarnia today.

FAVORABLE DECISION.

Deputy Minister Butcher Rules that Atlantic, Quebec and Western Railway Must Run Direct to Edmundston

LOCAL GOVERNMENT'S CONTENTION PREVAILS.

Ottawa, July 16.—The adjourned hearing of the Atlantic Quebec & Western Railway Company, supported the application.

After hearing the evidence and arguments Mr. Butler decided against the application, so far as reaching the St. John river at St. Leonards was concerned, and stated that the line must go by a direct route to Edmundston. As to the remainder of the route from Metapedia to the boundary of Victoria county, he took time to consider.

Mr. Reid, M. P., will remain over to join a party which is being arranged for by Solicitor-General Bureau, to meet Sir Wilfrid Laurier on his arrival, below Quebec, Thursday. Premier Robinson and Dr. Pugsley were also invited. The former will probably accept, but the latter was unable to do so, as he is obliged to leave for home tomorrow.

TERRIFIC EXPLOSION.

Nearly a Dozen Officers and Men of American War Ship Killed and Many Others Injured.

Accident Occurred While Ship was Engaged in Target Practice off Boston.

Boston, Mass., July 16.—With eight of her officers and crew dead and several others either dying or suffering from terrible burns received in an explosion of powder in the after superimposed turret, the battleship Georgia steamed slowly up Boston harbor from the target practice ground in Cape Cod Bay late yesterday, and landed her human freight of dead and injured men at the Charlestown navy yard.

With the arrival of the Georgia there became known details of the most terrible naval catastrophe that has ever taken place along the New England coast.

The accident occurred shortly before noon yesterday, while the Georgia's crew were at target practice off Barnstable in Cape Cod Bay.

In some manner, as yet unexplained, two bags of powder became ignited and in the terrific flash that followed the entire turret crew, consisting of three officers and eighteen men, were enveloped in fire and received horrible burns, one officer and five men dying before the ship reached port, and Lieut. Goodrich and a seaman succumbed soon after reaching the hospital.
