WE HAVE THE PROPER THINGS FOR SALE AT

THE HERALD OFFICE

An Insulting Landlord.
"These stairs are rather narrow," said the lady who was looking through the flat, "and as we have a baby!"
"A baby!" exclaimed the agent. "Then there's no use considering the matter any further. Children are not allowed in this building. I thought you understood that."
"Sir! You are insulting. I was about to say that we have a baby grand piano. I desire to have you understand that we move in the best circles."—New York Herald.

The Essential Consideration.
"Do you think there is any use in trying to convince people of the correctness of your arguments?"
"It isn't necessary," replied the born orator. "They do not care for the correctness of my arguments as much as for the eloquence with which I present them."—Washington Star.

A Dainty Sandwich.
A very pleasant and healthy variation of the meat, jam, egg or lettuce sandwich can be made with the assistance of the nutritious currant. Take a teaspoonful of currants and rub them in a cloth; then butter rather thickly some thin slices of bread. Cover the buttered bread all over with currants, sift a very little castor sugar over them and make into sandwiches. This satisfying little novelty is wonderfully appreciated and will not fail to delight the children.

To turn out a hot pudding plunge the mold or bag into cold water for thirty seconds. If it is a cold pudding, a jelly or blancmange, dip it for an instant in very hot water. If ice cream refuses to leave a mold after being loosened wrap for an instant around the mold a cloth wrung from boiling hot water.

To clean zinc dip a piece of flannel in paraffin and with it well rub the zinc, which should then be washed with hot water and soap to remove the smell of the oil and polished with a dry cloth.

Doves and Religion.
"One thing I remarked and think worthy of notice is that ever since Noah's dove every religion seems to consider the pigeon as a sacred bird. For example, every mosque swarms with pigeons, and the same exists in most Italian market places. The Hindoo pundits and the old Assyrian empire also have them, while Catholics make it the emblem of the Holy Ghost."
Lady Burton in her account of the Mohammedan mystery play of "Hassan and Hossein" says:
"Then comes the bier with Hossein's corpse and his son sitting upon it sorrowing and embracing him and a beautiful white dove in the corner whose wings are dabbled with blood. The effect upon the excited crowd is awful."
—Life of Sir Richard F. Burton.

man." For sale by all druggists.
CONSTIPATION

For constipation there is nothing quite so nice as Chamberlain's Stomach and Liver Tablets. They always produce a pleasant movement of the bowels without and disagreeable effect. Price, 25 cents. Samples free at all dealers.

WILL KEEP HIS JOKES.

Mark Twain Gets Sixty Cents a Word for Them.

NEW YORK, July 23.—Samuel L. Clemens (Mark Twain) came back to the United States today from England, bringing with him a degree of honor recently conferred upon him by Oxford University, and some brand new jokes.

These, he told the newspaper men, who met him, would keep, because he gets sixty cents a word for them. Mr. Clemens was an arrival late this afternoon on board the steamship Minnatonka from London. Regarding the accounts in the English newspapers of the disappearance of the Ascot Cup on the day of his arrival in England, Mr. Clemens told the reporters laughingly that he had the Ascot

THE BOARDING HOUSE.

Advantages of Its Pacific Influence in Married Life.

"Oh, dear, but this boarding house life is simply awful!" said the sweet young thing as she sipped her hot chocolate at a Chestnut street soda counter in company with an elderly fair companion. "I really don't see how you stand it," she continued in the same plaintive voice. "I am sure I shouldn't if I were happily married, as you are. I would have a house of my own, a cozy little place where there would be just myself and husband, serene and happy in our knowledge of each other's love." The older woman's eyes twinkled, albeit there was a somewhat grim look about the corners of her mouth, as she made reply: "My dear, you are very young and have lots to learn. Some unmarried philosophers on married life tell us that the boarding house is a feeder for the divorce courts and that it breeds discord for married people. Don't you believe them. When you have been married to a mere man as long as I have, you will find that the knowledge that your next room neighbor can hear if your voice is raised in anger and will tell your fellow boarders if you are heard to quarrel will have a valuable deterrent effect on not only yourself, but your lord and master as well, and many a cross word will be stifled in birth rather than have your disagreements published to the household."

Expected.

Landlady—The coffee, I am sorry to say, is exhausted, Mr. Smith. Mr. Smith—Ah, yes, poor thing, I was expecting that. I've noticed that for some time it hasn't been strong.

Arms and the Man.

Winkle—Count Duello is a daring swordsman. Twinkle—Yes; he ran through a cool million without any trouble.

Time's Changes.

"You," said she as she came down the stairs leisurely pulling on her gloves—"you used to say I was worth my weight in gold."

"Well, what if I did?" he asked, looking at his watch for the third time in fifteen minutes.

"And now you don't think I'm worth a wait of two minutes."

"Not so queer. People as has bottles generally has rags."—Washington Herald.

BAD BURN QUICKLY HEALED.

"I am so delighted with what Chamberlain's Salve has done for me that I feel bound to write and tell you so," says Mrs. Robert Mytton, 457 John St., Hamilton, Ontario. "My little daughter had a bad burn on her knee. I applied Chamberlain's Salve and it healed beautifully." This salve allays the pain of a burn almost instantly. It is for sale by all dealers.

Old Fogg—In this natural history, Thomas, it states that a thrush feeds its young no fewer than two hundred and six times a day. What have you to say to that?
Thomas—Wish I was a young thrush.

WHY CHEST COLDS ARE DANGEROUS.

They lead to pleurisy and pneumonia. Follow the advice of W. H. Poowle's Corners, Ont., who says:—"I used to be subject to attacks and although I used most everything nothing relieved quickly till I discovered Nerville. I have used it for just the proper thing. For Lumbago or Neuralgia it's quick as lightning. I cheerfully recommend Nerville." Strongest, cleanest, most pain destroying liniment on earth is Polson's Nerville, 25 cent bottles sold everywhere.

First Allotment of 50,000 Shares at Fifteen Cents per Share

15c

Our option on this small block of Underwriters' Stock expires August 6, 1907. Subscriptions post-marked at later date will be returned.

Do you realize that investments of a hundred or a thousand will grow rapidly into hundreds and thousands and millions of dollars? The over-conservative and skeptical will smile—they will laugh at these predictions, some will even consider this a joke—but remember COBALT, if you please, two or three years ago? Then it was a "vision," it was a "dream," "a flash in the pan," "a bubble," somebody was "crazy," but now it is different. These crazy men are now classed among the martest and keenest business men of the day. The actual value of a few mines are worth at the present date more than one hundred millions of dollars. These are facts.

In presenting this investment for subscription we appeal to the good judgment of sensible persons as to its merit.

It embodies, we believe, a correct method for developing and establishing successful and paying mining enterprises.

We desire first of all, to conduct a successful mine development. We intend this to be done in a way that will be absolutely fair and honest, and bring the largest profit possible to those who co-operate with us.

We therefore desire this proposition to be well understood by investors. We wish it to be known just how to propose to develop, establish and operate dividend paying mining companies by and through this investment.

THE PLAN—The plan involved in this proposition is that of uniting or consolidating the investments of a limited number of persons into one sum, and under one management, to be used in acquiring and developing mining properties in this wonderful region.

THE PRINCIPLE involved in this investment, we believe, is one of absolute fairness to all interested. The "promotion interest," common to all mining companies, and which is the great unfair feature to investors who put their money into stocks of these companies and whose money develops and makes the mine, if a mine is developed—does not exist in this proposition. There is no "promotion interest" set aside, and against the interest bought and paid for by the investors.

In this proposition the investors, become promoters. They take the "promotion interest" and all the interest. They own the whole enterprise. No matter how large or small the investment—all stand on an equal basis. Our field of operation is probably one of the richest mineralized regions in the world.

For its basis, upon which we will establish an build up several great producing, paying mining companies, we will exploit and develop in a mining like and careful manner extensive

mining properties now known to us, and other properties which we may acquire for the mutual benefit of all investors in the company.

SUBSIDIARY COMPANIES.—The Larder Lake Exploration and Development Company will incorporate a series, not to exceed five, of subsidiary mining companies upon only the real proven properties acquired.

In each and every subsidiary company incorporated, whether mining, milling, smelting, water power or electric light, the Exploration Company will take over 90 per cent. of the capital stock of each company so incorporated, and will put 10 per cent. of the capital stock of each company in its treasury. It will probably never become necessary to sell any of this treasury stock.

Out of the total capital stock of each subsidiary company, the Exploration Company will retain 50 per cent as its "Holding Stock." This will always control the company. It will take and hold 40 per cent. for the mutual benefit of all stockholders in the Exploration Company. This 40 per cent. will be known as the "Selling Stock," and as a market is created, it will be sold, and the proceeds received will be distributed pro rata to the stockholders in the Exploration Company, as their interests may appear.

The stock of the subsidiary companies will be listed on the New York Curb and Mining Exchanges of the country and started at 50 cents a share, where it can be bought and sold according to the daily market quotations. This will afford a channel by which stockholders can sell the 40 per cent. "Selling Stock" from time to time, if they wish.

PROPERTIES.—Many different mining properties will be acquired and developed as stock in the Exploration Company is subscribed for. All properties will be described, and reports submitted regarding same, as soon as and as often as they can be examined by the engineers.

The mining properties which will be acquired for this proposition will be

located in the gold and silver belt, extending from the Montreal River through Northern Ontario, eastward into Quebec, and will include properties in the Lady Evelyn District, the new Montreal River Silver District, Cobalt District, and the gold districts around Round Lake, Larder Lake, Lake Abitibi, and in the great undeveloped mineral section of Quebec lying just east of Larder Lake and extending northward to Lake Abitibi.

We shall try and make every dollar count, and make as few mistakes as possible. We hope to create such an interest in this enterprise with investors that will result in extensive and widespread co-operation.

Under this plan no one can truthfully say that it is not a great mining investment. We want every investor to feel a personal interest in this mine development. The investors in this company will own enterprise, and we want them to co-operate with us and our associates to make it a great success.

We are now organizing THE LARDER LAKE EXPLORATION AND DEVELOPMENT COMPANY, with what we consider sufficient capital (\$500,000). We now have options on, and propose to acquire five distinct and separate properties which will be incorporated at \$100,000 each (100,000 shares—par value \$1.00). The Exploration Company will at all times hold a controlling interest in each of these companies, so that sixty per cent. of the dividends earned and declared will be paid into the treasury of the parent company, and the other forty per cent. distributed among the stockholders on record. This, in our opinion, will enable us to pay dividends and large ones in the very near future.

The board of directors in the Larder Lake Exploration and Development Company will be composed only of engineers of national repute, setting a precedent in this line—Mr. Robert Morton will be president, which fact in itself guarantees conservative and able management.

Investors have been pouring their

money into over-capitalized companies, they have been plunging about wildly in the hope of some day "striking it rich" never stopping to think for an instant that the greater part of their money never reaches the ground. As a rule, seventy-five per cent. of the money invested in stock schemes goes into the broker's hands. He pays his salesmen 20 to 50 per cent. on every dollar turned in, he must get his own commission, and engineers must be paid.

We never have had associated with us a stock salesman, we require no commission, and our engineers will be our directors, so that every dollar invested with us on this proposition will be honestly used in the purchasing and development of the different properties.

We are now offering for subscription the first allotment of stock in The Larder Lake Exploration and Development Company. Every one hundred shares entitled the holder to forty shares of stock in each of the subsidiary companies to be incorporated, making in all 200 shares of stock in five different companies, which, as soon as development work is started and dividends announced, will make the stock of the Larder Lake Exploration and Development Company almost invaluable. This first allotment of only 50,000 shares (\$1.00 par value) will probably be largely over-subscribed in a few days. The next allotment will be put out September, 25th, 1907, at 75 cents per share or higher.

This price (15c) will positively be withdrawn August 6, 1907. If this allotment is over-subscribed remittances will be promptly returned. Checks, drafts and money orders must accompany all applications and be made payable to the financial agents.

Interim certificates will be promptly returned to subscribers. The stock certificates of the company representing the shares purchased will be issued and delivered as soon as allotment can be made, after the 6th of August, to all subscribers who purchase at the first underwriting price prior to that date.

Are you going to get in now, in time, at Larder Lake, you can now get in at the ground floor prices on inside properties, making big profits and lots of money, or will you wait three or four months or a year, and then fall all over yourself in an irresistible desire to get in anywhere or at any price?
