

HOUSEHOLD HINTS.

Some Interesting Information for Busy Housewives.

RECIPES

The following tested recipes have kindly been contributed by a reader of this department.

COCOA CAKES.

One-half cup butter, one cup sugar, three eggs, one teaspoonful vanilla, three quarters of a cup of milk, six level tablespoonfuls cocoa, two level teaspoonfuls baking powder, and one and one-half or two cups sifted pastry flour. Cream the butter, slice in the sugar gradually, add the unbeaten eggs and beat altogether until very creamy. Sift together one-half cup of powder; use this flour first, then alternate the milk and remaining flour, using enough to make mixture stiff enough to drop from the spoon; add vanilla and beat until very smooth. Then make in loaf and bake in moderately hot oven 35 or 40 minutes.

COCOA ICING.

Four teaspoonfuls cocoa, two tablespoonfuls cold water, three tablespoonfuls hot water, one-half teaspoonful vanilla, about one and three-quarters cups confectioner's sugar. Put the cocoa in a small saucepan; add the cold water and stir until perfectly smooth; then the hot water, and cook for one or two minutes; add vanilla and a speck of salt then sift enough to spread nicely. Beat until smooth and glossy and free from lumps; if too thick add cold water; if not thick enough, add more sugar.

RASBERRY CAKE.

One half cup of butter, one cup sugar two tablespoonfuls milk, two eggs, one cup canned raspberries, two cups flour, one teaspoon soda (large), one-half teaspoon cream tartar (small), soda and cream tartar in flour, and sift twice.

NUT CAKE.

One cup sugar, one-half cup butter, one-half cup milk, two cups pastry flour, two eggs, one cup chopped raisins, one cup chopped nuts, one teaspoon cream tartar, one-half teaspoon soda. Beat the butter to a cream, add sugar gradually, and when light the eggs well beaten, then the milk and the flour, in which the soda and cream of tartar have been thoroughly mixed. Mix quickly and add the raisins and nuts. Bake in rather deep sheets, in a moderate oven for over thirty-five minutes. Frost if you like.

DELICIOUS ROLLS.

Put two tablespoonfuls butter and one tablespoon lard into one pint milk. Let come to the boiling point. Sift into a mixing bowl one pint flour, add to it one tablespoon sugar, and a little salt. When the milk has cooled to lukewarm, stir it into the prepared flour, add the yeast cake dissolved in lukewarm water, and mix well, adding enough flour to make the mixture into a soft dough. Let rise overnight; cut down several times. Three hours before they are required form into long slender rolls. Lay in a greased pan, let rise to double their size, brush over the top with milk, and bake.

GINGERBREAD.

One-half cup butter, sifted with hot

NOT A MAN IN THE TOWN.

Kerisova, Hungary, Paradise For WOMAN SUFFRAGISTS.

BUDAPEST, July 26.—The lure of the United States and Canada as lands of opportunity and wealth to the people of Hungary has brought about a curious state of affairs in the village of Kerisova, near Lugos, that at the last census had a population of 3,500 souls. One by one the male residents of Kerisova felt the call across the water, and they emigrated in batches until such time as the Mayor was the only adult male to remain in the village. Finally, he, also, succumbed to the reports of good wages and golden chances in America sent back by his fellow-townsmen, and packing his trunk he made his way to the emigrant ship at Fiume.

As a result of this exodus of males the women of Kerisova have just elected a young woman to the position of Mayor, and other female residents have been elected to fill the remainder of the municipal offices. The statutes in Hungary provide that no female shall hold public office, and according to the letter of the law the presence of women in office is illegal.

TAKE THE POSTMASTER'S WORD FOR IT.

Mr. F. M. Hamilton, postmaster at Cherryvale, Ind., keeps also a stock of general merchandise and patent medicines. He says: "Chamberlain's Colic, Cholera and Diarrhoea Remedy is standard here in its line. It never fails to give satisfaction and we could hardly afford to be without it." For sale by all dealers.

OCEAN SHOOTING FIRE.

Phenomenon Reported From Tonga Islands.

LONDON, July 25.—A remarkable phenomenon is reported from Sydney in a despatch to The Daily Mail. Advice from the Tonga Islands, dated July 5 state that seven distinct columns of fire, smoke, steam and black pumice stone, all within an area of two miles, have been visible

water, two-thirds cup of molasses filled with sugar, one teaspoon soda, one tablespoon ginger, one egg, and two cups flour.

HEALTH AND BEAUTY.

Sage tea is a good hair grower and one that will darken the hair slightly. It should not be used on blonde locks. Make a strong brew of the dried leaves, strain the liquid carefully through muslin and to each pint add two tablespoonfuls of alcohol. Rub this into the scalp every night, using the finger tips or a small clean brush for the purpose.

When the skin has become rough and tanned from winds, try this simple whitener, an oatmeal lotion: Take two tablespoonfuls of oatmeal, adding a quart of water, and boil for ten minutes. Cool and strain, and to the liquid add the juice of one lemon and a dessertspoonful of alcohol. Wash the face in this, or rather apply it with a cloth, not wiping it all away.

To cure a headache take a quantity of black pepper and put in a handkerchief, fold the handkerchief so that the grains cannot fall out; saturate the whole thing with camphor; bind this plaster on the head and lie down; when the handkerchief becomes dry, saturate again with camphor; in a very few minutes the headache will be relieved and the patient will be asleep.

Hands that perspire can be treated by adding a little spirits of camphor to the warm water in which the hands are washed. If the trouble is too great to be alleviated by this simple method, try the more strenuous one of using this remedy twice a day: Mix two drams of oxide of zinc, two drams of boric acid, four drams of lycopodium, one ounce of starch and a half-pound of powderedorris root, and rub it over the hands.

NEEDLEWORK NOTES

Mercerized cotton will wear much longer than ordinary darning cotton when used for mending.

When eyelets have one end round and the other pointed, punch the round end with a stiletto, then cut to the end of the point. This gives a much better shape than cutting the whole length.

A pretty dresser or sideboard cover can be made from brown linen, the ends embroidered in scallops, with white embroidery cotton, and a monogram or initial worked on one end. The sides may be hemstitched.

In putting ruffles or other trimmings on underwear, sew the seam on the right side. Stitch a tuck across just wide enough to cover seam, then stitch the edge of the tuck down over the seam and you have a very neat finish.

A piece of tin about nine by eighteen inches in size is better than a board to use when basting plaits, folds or lace insertion to sheer material, as the needle slips over it more easily. Such a piece of tin is very handy for use when stamping patterns.

for a fortnight from Tongatabu, the largest island of the group. The columns which appear to arise from veritable holes in the sea, are estimated to be 250 feet in height. The ocean is very deep at this spot.

There is a continuous roar and frequent explosions occur, pumice being thrown out to the island of Nukualofa, thirty miles distant. The Tongan Government Gazette reports that land is forming round the scene of the eruption, and it is believed that a new island is in course of formation.

BEST MEDICINE IN THE WORLD FOR COLIC AND DIARRHOEA.

"I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skrum, Ala. I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until this week, when I had a very severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy and this morning I feel like a new man." For sale by all druggists.

The editor of The Moncton Times, taking his cue from the Tory falsehood factory in Fredericton, declares that the government horses are "a mean looking lot," and yet the Times editor has never seen the animals, and probably wouldn't know a good horse if he met it. Excellent judges of horseflesh declare the importation the best ever brought to New Brunswick, and the public will accept their verdict in preference to the lying statements of the Tory editors.

DO YOU FEEL THE PINCH?

Not of poverty, but of corns, aching corns, that can be cured by Putnam's Corn Extractor? Don't suffer use "Putnam's"—sold everywhere in 25c bottles.

SENT UP FOR TRIAL.

Charlottetown Lawyer Must Face Serious Charges Preferred Against Him.

CHARLOTTETOWN, July 29.—The preliminary examination of E. O. Brown, charged with forgery, before the stipendiary magistrate of Charlottetown, drew a large crowd to the police court Saturday.

Brown is a young barrister, hitherto regarded as a rather clever and rising member of his profession. The charge is obtaining money from the Misses Stumper, of this city, for a forged note of hand bearing the name of a deceased person.

After hearing the evidence, the magistrate remanded Brown to stand trial at the supreme court.

Immediately after hearing the first charge, another charge was read in court, made by the manager of the local branch of the Royal Bank of Canada, and specifying that the accused had presented for payment a forged note of hand bearing the name of Alexander Martin, M. P., for Queens County. Postponement of the hearing of this charge was allowed on request of the prisoner's counsel. These two charges are the only ones upon which action has been so far taken in a case which has furnished the greatest sensation in this line that Charlottetown has ever experienced.

Brown is a native of Little York, a settlement nine miles from Charlottetown, and of a most respectable family, how far his operations have extended is not known, but people who have been engaged in business relations with Brown and had entrusted money to him, on turning to their securities found them to be of no value.

Brown is thirty-three years old and was a distinguished student at the Prince of Wales College and at McGill University. For his family and his brother, H. H. Brown, merchant, of Charlottetown, there is much sympathy felt.

DOCTORS CHANGE THEIR MATHS.

Years ago they fought catarrh by internal dosing. They saw this ruined the stomach and changed to the ozonated air cure better known as "Catarrhzone."

It goes to the source of the disease; it destroys the causes that maintain catarrh and even in the worst cases permanent cure is guaranteed. Failure with Catarrhzone is impossible. Antiseptic, healing and far-reaching, it's bound to cure every time. Endorsed by more than twenty thousand physicians in America alone and sold in 25c. and \$1.10 sizes by all dealers.

"Gimme a dime for the newboys' dinner," a boy asked as he shoved a dirty hand in front of a man at Tenth and Main streets.

"I haven't seen anything in the papers about a newboys' dinner," the man said. "When does it take place?"

"Just as soon as you give me the dime and I can get to a lunch counter," the boy said. He got the dime.—Kansas City Star.

WILSON'S FLY PADS
Kill them all. No dead flies lying about when used as directed.

SOLD BY DRUGGISTS, GROCERS AND GENERAL STORES
10c. per packet, or 3 packets for 25c. Will last a whole season.

TIMOTHY AND CLOVER SEED AT

G. T. WHELPLEY'S

Timothy Seed, Red Alsike and Long Late Clover Seed.

A Large Variety of Garden Seeds, Potato Onions, and Onion Setts, all fresh new seeds.

The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Doctor Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicine, from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead. Dr. Pierce's Great Thousand-page Illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 31 one-cent stamps, or cloth-bound for 50 stamps. Address Dr. Pierce as above.

WINNIPEG'S BOULEVARDS.

Big Street Improvements Made in Prairie City During Year.

Winnipeg is proud of its parks and boulevards, of which there are a great many. All the urban parks are now practically beyond the stage of primary improvements and expenditures on these in future will be chiefly for maintenance. In Assiniboine Park temporary shelters have been built for the animals, which include nine buffaloes, two moose, two jumping deer, one elk, three bears and three eagles.

The boulevards maintained during the past year have a total frontage of over 60 miles. The average rate of maintenance is less than five cents per front foot, which is fully 50 per cent. below the average rate of last year.

Cost of Construction. This year boulevards were constructed on 24 streets, having an aggregate frontage of over twelve miles. The average cost of this work per front foot was slightly over 32 cents, which is considerably higher than last year. This is accounted for in the fact that the boulevards laid down this year are of a greater width than those put down last year. The average cost, per yard, was less than 15 cents, or nearly 50 per cent. less per yard than the average cost last year. Of the 12 miles laid down about two and a half were seeded, while the balance was sodded. Experience gained in the past shows that the seeding produces a boulevard superior in every way to the boulevard that is sodded, while there is very little difference in the cost. And while it might be ill-advised to seed some streets in preference to sodding them, yet each year sod is becoming more difficult to obtain and the quality inferior, so that it is only a natural consequence and a question of time when all boulevards, for the most part, will be seeded.

Miles of Trees.

The properties benefitted by tree planting extended over seven streets, with a total frontage of about three miles. The average cost of the work was less than one and three-fifths cents per foot frontage. Great care is exercised in the planting and handling of trees—the percentage of replacing was much lower than in any other previous year. Following the custom established some years ago flowers from the parks were sent from time to time to the hospitals and the various other charitable institutions throughout the city.

Wood's Phospholine.
The Great English Remedy. Famed for invigorating the nervous system, making new blood in old veins. Cures Nervous Debility, Mental and Sexual Weakness, Emissions, Spermatophoria, and Effects of Abuse or Excesses. Price \$1 per box, six for \$5. One will please, per will cure.
