OUT ON STRIKE.

The employees of the cutting room of the Mart Boot and Shoe Company's factory went out on strike yesterday for an increase of pay. One of the directors of the company spoken to this morning in reference to the matter, said he thought a settlement would be arrived at.

of his spiritual ministrations on their behalf.

DOING GOOD WORK.

Corporal Etienne has been at work with a hoe removing the weeds and couch grass from the driveway and walks in the officers' square. He is determined that the square shall continue to be one of the beauty spots of the city. The parliament square is not looking quite as well this season as in former years, and a little more well directed work in that vicinity would be productive of good results.

DECLINE TO SELL.

The Misses O'Dell of Halifax, owners of the O'Dell property, have notified the civic authorities that they are unwilling to sell the right of way for a railway siding through their property to the Aberdeen Mill. OLIVES.

A large consignment of Manzanilla Queen and Club House Olives just received at Whelpley's.

A Woman's Smile.

It is just as easy to face the world and its people with a smile as with a frown. The cheery woman finds that she can be a comfort to others and do good service in various helpful ways, social, personal and charitable. Mothers soon learn that she is one of their faithful aids. The little children love her, as she enters into their amusements and sympathizes with their small griefs. Young men and maidens confide their petty secrets to her discretion, and older people enjoy the delicate attentions she delights to bestow.

Sleep While You Can.

Some have the gift of sleep, and others haven't.

The secret of more than one notable instance of beautiful mothers and grandmothers is acknowledged to be due directly to the power of sleep, to take a quiet little nap at any time of the day when a busy afternoon or long evening is before them.

It really seems, then, one of the clearest attainments open to the eternal feminine, this capacity of capturing forty winks whenever she pleases.

BIG CRICKET MATCH.

The members of the Fredericton Cricket Club are looking forward with great interest to the proposed visit of Mr. Thompson's Boston cricketers to the city on August 1st. At a meeting of the club last evening it was decided to have the match pulled off at Scully's Grove, the Officers' Square not being suitable on account of the close proximity of plate glass windows. It will be an all day match and at noon luncheon will be served on the grounds. Arrangements are being made to hold an informal dance at the Riegling and Boating Club house in the evening in honor of the visitors. The Fredericton club has the material for a first class eleven and they will undoubtedly put up a stiff game with the visitors.

LOST AND FOUND.

A Marysville lady, travelling through the city a few days ago, on her way to Maine, had the misfortune to lose a dress suit case containing a new spring hat and some clothing. She notified Police Magistrate Marsh of her loss by telephone from Fredericton, and he placed the matter in the hands of a Policeman King. The latter paid a visit to the railway station, found the suit case, and handed it over to the police magistrate, who now has it in his possession awaiting instructions from the owner.

Look into Space.

A young man whose eyes had been troubling him consulted a New York oculist. "What you want to do," said the specialist, "is to take a trip every day on the ferry or in New Jersey, Long Island—any place where you can see long distances. Look up and down the river, across fields or, if the worst comes to the worst, go on the top of a skyscraper and scan the horizon from that point. The idea is to get distance. You use your eyes a great deal and always at close range. You can't use them any other way in town. Even when not reading or writing the vision is limited by small rooms and narrow streets. No matter in what direction you look, there is a blank wall not far away to shut off sight."
