THE HERALD OFFICE

MOST HATED LANDLORD.

Lord Clanricarde Denounces Evicted Tenants Bill.

LONDON, August 8.—After a long and uninteresting debate in which the leaders of the opposition indicated their intention of amending the measure in committee, the evicted Irish tenants bill passed its second reading in the House of Lords today.

A dramatic incident of the debate was the appearance of Lord Clanricarde, the most hated landlord in Ireland, who with bent and shrunken frame, outstretched shrivelled fingers, and in a voice now shrill, now husky with passion, denounced the bill in unmeasured terms as the "apotheosis of robbery." In the midst of his diatribe the aged Earl occasionally took a phial from his pocket and sipped the contents. Every member of the house turned to watch the speaker, but his speech was received in chilly silence.

LONGWOOD TOURNAMENT.

BOSTON, Mass., August 8.—The sensational of yesterday on the Longwood tennis grounds, for the Longwood championship was the defeat of W. J. Clothier, of Philadelphia, National champion by F. C. Colston, of Baltimore, a few years

ago champion. Another surprise was the narrow escape from defeat which R. D. Little, of New York, experienced at the hands of H. L. Westfall, of New York. W. C. Grant, of New York, easily disposed of C. B. Neel, of Chicago; R. Leroy, of New York, won his match handily with C. M. Bull, jr., of Brooklyn, and R. C. Seaver, the Massachusetts champion, defeated R. H. Palmer, of New York. The results of the play in the eastern doubles were as expected, B. Wright and N. D. Little won the prettiest match of this event. Larned and Clothier had little trouble in disposing of F. C. Colston and F. Q. Sullerway and A. S. Dabney and R. S. Lovering defeated R. Leonard and G. P. Gardner, jr. The match between M. D. and H. H. Whitman and C. F. and H. Johnston, which had been stopped by darkness the night before, when the sets stood two all, was replayed entirely in the afternoon, and resulted in a five set win for the Johnston pair.

Henry Heine's wife was a woman of extreme beauty, but of low descent and no education, and frequently irritated the poet to exasperation by violent scenes. He was challenged one day to a duel, and on the evening before wrote out his will as follows: "I herewith bequeath everything I possess to Matilda, my wife, on condition that she marry again. I would like to think that there will be at least one man who will regret me."

But, although she did become a widow, she never married again, surviving him for twenty-seven years.

ASSAULT ON DAYTON GIRL.

She Was Killed and Her Escort Fatally Wounded by Unknown Man.

DAYTON, O., 10.—Anna Markowitz, eighteen years old, is dead and Abe Cohen, a traveling salesman of Chicago, is dying at the hospital as the result of an assault made upon them in McCabe's Park, near the National Soldier's Home, last night. The police have been unable to find a clue as to their assailants. They believe the deeds were committed by a Jewell-Hyde sort of a man, who is of good appearance in daily life, but occasionally lapses into a boaster.

Cohen and Anna Markowitz and her sixteen-year-old sister Bertha were returning home from a walk, when several shots were fired at them. Two bullets struck Cohen and he fell mortally wounded. At this moment a strong, heavy-set man rushed from the shrubbery and grabbed Anna Markowitz by the throat and dragged her about fifty yards from the road into the shrubbery. Bertha Markowitz screamed and ran through the park until she swooned and fell unconscious.

Detectives Kirby and Johns, attracted by the shooting, found Cohen bleeding. Then they found the dead body of Anna Markowitz. Her clothing was torn and her body scratched and bleeding. The prints of strong, blunt fingers were on her throat, and it was plain that she had been strangled to death. The parks, pleasure resorts and lanes in the immediate vicinity were searched in vain for the murderer.

Bertha and younger brother, were taken to jail. Bertha says that the man who grabbed her sister was not her brother.

The theory that Cohen was shot by one of the Markowitz boys apparently was exploded to-night by the report of three physicians who held an autopsy upon the body of Anna. They reported that the dead girl has been assaulted and terribly mutilated. The brothers and Miss Bertha were taken to the hospital to have Cohen look at the brothers. Cohen is very weak and could not identify either of the young men.

TENACIOUS FORM OF SYSTEM-ATIC CATARRH.

Not an easy thing to cure, and a remedy that makes good deserves the credit. Catarrh cured Chas. H. Webb of Woodstock, N. B., who writes: "For a number of years I was troubled with systematic catarrh. It was a very tenacious form of the disease and nothing helped. I used Catarrhazone and got relief. To build up my system I used Ferrozone. This catarrh and keep it out. Two sizes, 25c and \$1.00 at all dealers, sold under guarantee of satisfaction. They cured me." Your case may be chronic but Catarrhazone will drive out catarrh and keep it out. Two sizes, 25c and \$1.00 at all dealers, sold under guarantee of satisfaction.

Old Fogg's—In this natural history, Thomas, it states that a thrush feeds its young no fewer than two hundred and six times a day. What have you to say to that?

Thomas—Wish I was a young thrush.

THE LARDER LAKE EXPLORATION & DEVELOPMENT CO.

CAPITAL, 500,000 SHARES—PAR VALUE \$1.00 PER SHARE
FULLY PAID AND NON-ASSESSABLE

15c

First Allotment of 50,000 Shares at Fifteen Cents per Share

15c

Our option on this small block of Underwriters' Stock expires August 6, 1907. Subscriptions post-marked at later date will be returned.

Do you realize that investments of a hundred or a thousand will grow rapidly into hundreds and thousands and millions of dollars? The over-conservative and skeptical wildsmile—they will laugh at these predictions, some will even consider this a joke—but remember COBALT, if you please, two or three years ago? Then it was a "vision," it was a "dream," "a flash in the pan," "a bubble," "somebody was "crazy," but now it is different. Those crazy men are now classed among the smartest and keenest business men of the day. The actual value of a few mines are worth at the present date more than one hundred millions of dollars. These are facts.

In presenting this investment for subscription we appeal to the good judgment of sensible persons as to its merit.

It embodies, we believe, a correct method for developing and establishing successful and paying mining enterprises.

We desire first of all, to conduct a successful mine development. We intend this to be done in a way that will be absolutely fair and honest, and bring the largest profit possible to those who co-operate with us.

We therefore desire this proposition to be well understood by investors. We wish it to be known just how we propose to develop, establish and operate dividend paying mining companies by and through this investment.

THE PLAN—The plan involved in this proposition is that of uniting or consolidating the investments of a limited number of persons into one sum, and under one management, to be used in acquiring and developing mining properties in this wonderful region.

THE PRINCIPLE involved in this investment, we believe, is one of absolute fairness to all interested. The "promotion interest," common to all mining companies, and which is the great unfair feature to investors who put their money into stocks of these companies and whose money develops and makes the mine, if a mine is developed—does not exist in this proposition. There is no "promotion interest" There is no "promotion interest" bought and paid for by the investors.

In this proposition the investors and all the investors become promoters. They take the "promotion interest" and all the interest. They own the whole enterprise. No matter how large or small the investment—all stand on an equal basis. Our field of operation is probably one of the greatest and without doubt the richest mineralized region in the world.

For its basis, upon which we will establish and build up several great producing, paying mining companies, we will exploit and develop in a mining like and careful manner extensive

mining properties now known to us, and other properties which we may acquire for the mutual benefit of all investors in the company.

SUBSIDIARY COMPANIES.—The Larder Lake Exploration and Development Company will incorporate a series, not to exceed five, of subsidiary mining companies upon only the real proven properties acquired.

In each and every subsidiary company incorporated, whether mining, milling, smelting, water power or electric light, the Exploration Company will take over 90 per cent. of the capital stock of each company so incorporated, and will put 10 per cent. of the capital stock of each company in its treasury. It will probably never become necessary to sell any of this treasury stock.

Out of the total capital stock of each subsidiary company, the Exploration Company will retain 50 per cent as its "Holding Stock." This will always control the company. It will take and hold 40 per cent. for the mutual benefit of all stockholders in the Exploration Company. This 40 per cent. will be known as the "Selling Stock," and as a market is created, it will be sold, and the proceeds received will be distributed pro rata to the stockholders in the Exploration Company, as their interests may appear.

The stock of the subsidiary companies will be listed on the New York Curb and Mining Exchanges of the country and started at 50 cents a share, where it can be bought and sold according to the daily market quotations. This will afford a channel by which stockholders can sell the 40 per cent. "Selling Stock" from time to time, if they wish.

PROPERTIES—Many different mining properties will be acquired and developed as stock in the Exploration Company is subscribed for. All properties will be described, and reports submitted regarding same, as soon and as often as they can be examined by the engineers.

The mining properties which will be acquired for this proposition will be

located in the gold and silver belt, extending from the Montreal River through Northern Ontario, eastward into Quebec, and will include properties in the Lady Evelyn District, the new Montreal River Silver District, Cobalt District, and the gold districts around Round Lake, Larder Lake, Lake Abitibi, and in the great undeveloped mineralized section of Quebec lying just east of Larder Lake and extending northward to Lake Abitibi.

We shall try and make every dollar count, and make as few mistakes as possible. We hope to create such an interest in this enterprise with investors that will result in extensive and widespread co-operation.

Under this plan no one can truthfully say that it is not a great mining investment. We want every investor to feel a personal interest in this mine development. The investors in this company will own this enterprise, and we want them to co-operate with us and our associates to make it a great success.

We are now organizing THE LARDER LAKE EXPLORATION AND DEVELOPMENT COMPANY, with what we consider sufficient capital (\$500,000). We now have options on and propose to acquire five distinct and separate properties which will be incorporated at \$100,000 each (100,000 shares—par value \$1.00). The Exploration Company will at all times hold a controlling interest in each of these companies, so that sixty per cent. of the dividends earned and declared will be paid into the treasury of the parent company, and the other forty per cent. distributed among the stockholders on record. This, in our opinion, will enable us to pay dividends and large ones in the very near future.

The board of directors in The Larder Lake Exploration and Development Company will be composed only of engineers of national repute, setting a precedent in this line—Mr. Robert Morton will be president, which fact in itself guarantees conservative and able management.

Investors have been pouring their

money into over-capitalized mining companies, they have been plunging about wildly in the hope of some day "striking it rich" never stopping to think for an instant that the greater part of their money never reaches the ground, as a rule, seventy-five per cent. of the money invested in stock schemes goes into the broker's hands. He pays his salesmen 20 to 50 per cent. on every dollar turned in, he must get his own commission, and engineers must be paid.

We never have had associated with us a stock salesman, we require no commission, and our engineers will be our directors, so that every dollar invested with us on this proposition will be honestly used in the purchasing and development of the different properties.

We are now offering for subscription the first allotment of stock in The Larder Lake Exploration and Development Company—every one hundred shares entitles the holder to forty shares of stock in each of the subsidiary companies to be incorporated, making in all 200 shares of stock in five different companies, which, as soon as development work is started and dividends announced, will make the stock of the Larder Lake Exploration and Development Company almost invaluable. This first allotment of only 50,000 shares (\$1.00 par value) will probably be largely over-subscribed in a few days.

The next allotment will be put out September, 25th, 1907, at 75 cents per share or higher.

This price (15c) will positively be withdrawn August 6, 1907. If this allotment is over-subscribed remittances will be promptly returned. Checks, drafts and money orders must accompany all applications and be made payable to the financial agents.

Interim certificates will be promptly returned to subscribers. The stock certificates of the company representing the shares purchased will be issued and delivered as soon as allotment can be made, after the 6th of August, to all subscribers who purchase at the first underwriting price prior to that date.

Don't wait! Be wise! Act now! NOW IS THE TIME! Here is an opportunity that exceeds that which you had two or three years ago at Cobalt. Perhaps you will say as you did then, "How do we know they have got any silver up there?" Perhaps you say now: "How do you know there is any gold at Larder Lake?"
