7.30 to 10 p. m.—Band Concert on the enclosed grounds by 71st Regt. Band.

The city is fairly alive with visitors today and the beautiful weather which prevails ensures a record breaking attendance at the exhibition. The St. John train brought a big crowd and about four hundred persons came in by a special train on the Gibson Branch from Presque Isle Woodstock, and other northern points. Judging of the Holstein cattle was finished this morning. Mr. C. H. Giles of Kingsclear captured five first prizes on Holstein cattle, and Logan Bros. and Mr. Harding of Welsford took most of the remainder. A. A. Treadwell of Mauderville secured first prize on his Clydesdale stallion, Lord Roberts.

Tuesday was another big day at the Fredericton Exhibition, the paid admissions for the day running very close to the four thousand mark. The weather of the forenoon no doubt interfered somewhat with the attendance although the total was only a few hundred shy of the second day's attendance at the last exhibition. A very large proportion of those who attended yesterday were from outside the city, and it goes without saying that all were surprised and delighted with the high character of the exhibition. It seems to be the universal opinion that it is the greatest exhibition in every respect ever held in the province of New Brunswick.

The live stock display is something remarkable, and elicits much favorable comment from visitors. Not only in the display an unusually large one, but the very best breeds are

represented, and represented too by as fine specimens as can be seen in Canada. It is not too much to say that the Herefords, Jerseys, Ayrshires and Shorthorns being shown here would be sure of a big share of the prize money at any exhibition on this continent. Another remarkable feature in connection with the exhibition is the poultry and pet show. Such a large number of high class fowls were never before seen under one roof in New Brunswick. They seem to have been specially prepared for exhibition purposes, and make a very fine showing. Mr. A. D. Thomas of Fredericton is in charge of this department and is receiving many congratulations on the efficient manner in which he has housed and looked after his extensive flock.

FINE SPECIAL ATTRACTIONS.

The special attractions are away ahead of anything ever before shown in this part of the country, and win praise from all who see them. The whole program was carried out yesterday for the first time, and fulfilled the expectations of the management as well as the general public. The flying Dordens gave two free performances on the grounds, and certainly sustained their reputation as the greatest aerial gymnasts in the world. Miss Delores Vallecita and her performing leopards gave two free exhibitions on the grounds yesterday in the presence of hundreds of people. The animals were shown in a large steel cage set on a raised platform in rear of the main building. There are six animals in the lot and they display remarkable docility and intelligence. Miss Vallecita goes right in among them and seem to have them under complete subjection. This is certainly one of the greatest features in connection with the exhibition and should be seen by everybody. The amusement hall was crowded at both afternoon and evening performances yesterday, and it goes without saying that the people were well pleased with the program offered. Herbert's educated dogs, are something wonderful and eclipse anything of the kind ever seen here. The claim that they do everything but talk is not an exaggeration. There are about fifteen dogs in the lot and every one has a part to perform in their entertainment. This is bound to prove the most attractions in connection with the exhibition. The Golden Gate Quintette is another star attraction, at the amusement hall and will give two performances daily. They are comedians and dancers of a high order, and never fail to make a hit. The moving pictures are as good as the best ever seen here and the Royal Tokio Japanese troupe continue to excite wonder and admiration.

THE PRIZE LIST.
