

FOR THE FARMERS.

Government Takes Authority from the Legislature to Spend \$25,000 for Purchase of Pure Bred Mares and Sheep—Hon. Mr. Farris' Explanation.

In the legislature Tuesday Hon. L. P. Farris committed the government bill to provide for the importation of horses and sheep.

Hon. Mr. Farris explained that the bill was in fulfillment of the promise contained in the speech from the throne. There was great need of some more horses of the heavy draught type in the province, and with a view to supply this it was proposed to import a number of high class mares, which would be sold and distributed among the farmers throughout the province. It also provided for the importation of sheep, which it was generally admitted was necessary.

Mr. Flemming said the bill required very careful consideration. On previous occasions the government had made similar importations which had evoked a great deal of criticism, sometimes without reason, sometimes with, and the question of any further importation should be approached with very great caution. There were numbers of farmers in the province engaged in producing pure bred stock to be got in the province, and he saw no urgent necessity for importing any from outside sources. He would like to see some encouragement given to agricultural societies to import for themselves. There were a lot of such societies in the province comprising a number of progressive and up to date farmers, and their opinion of their own requirements should be the best evidence. He would like to see grants made to these societies for the purpose. Let the government give dollar for dollar what the societies were prepared to give themselves, and thus allow the societies to import what stock they thought best.

This plan he thought would result in the bringing in of a large amount of pure bred stock into the province.

He said the farmers' exact needs. Hon. Mr. Pugsley said that the bill simply carried out the statement made in the speech from the throne, which seemed to have met with approval in the press and elsewhere throughout the province. There was an admitted need for heavy draught horses, and it was proposed by the aid of the money raised under the provisions of the bill to import about fifty well bred mares. He did not anticipate making any loss on the transaction, as on account of the very large demand for such classes of horses they would sell readily for at least what they cost. With regard to sheep there could be no doubt it was highly desirable to encourage sheep breeding. Large flocks had been kept in the past which from various causes had been allowed to die out and it was necessary to increase the number of them again now. The province was pre-eminently adapted for sheep raising and the country undoubtedly would welcome the departure they contemplated making. The Hon. Gentleman who has just spoken said that the Govt. had been subjected to considerable criticism such must always be the case. The only to avoid such criticism was to sit down and do nothing and the Govt. that did that would not have much to criticize. This Govt. did not propose to adopt that course but intended to go on their way and do the best they could.

Mr. Smith enquired under what terms the Govt. proposed to dispose of the animals so imported. Hon. Mr. Farris said they would be sold by Public auction in two or three places in the province so that the farmers and members of the Agricultural society could come in and inspect the animals and buy if they thought fit. The only restriction would be that they must be kept in the province. After some further discussion the Bill was agreed to.

After some further discussion the Bill was agreed to.

CAMPBELLVILLE-ROSSVILLE

March 16.—Not seeing any news from this locality of late, I will try to follow a few movements of the people during the past week.

Owing to the bad condition of the roads there is not much stir just at present.

Mrs. A. H. Schriver, formerly of Rossville, who has been sick at Portland hospital for some days, we are glad to hear has recovered considerably, and has been removed to her home at Eagle Lake. Much anxiety has been felt for her recovery among her wide circle of friends in this place, as she is a very highly esteemed young lady.

Most of our young men have returned home after having been absent during the winter, they all show signs of good care.

Mr. Samuel Draper of Temperance Hill, has been spending a few days with friends at Rossville.

A party was given by Mrs. M. Dunham, on Monday evening, there was a large crowd present, several from Southampton and also from Rossville, a very pleasant evening was spent by all. There were several games in which all were much interested, refreshments were passed and at a late hour all returned to their homes.

Mr. A. Cronkite spent one day last week with friends at Rossville. He seems favourably impressed.

Mr. T. Munro and party are still looking log at Woodman's mill, he reports business good.

Mr. Ross Woodman has returned home after having spent the winter with his sister, who lives in Worcester, Mass., he is well pleased with his trip.

Mr. Edgar Cronkite is still working at the Hawkshaw bridge, he boards somewhere on this side of the river near the Creek.

Mr. Harry Morrison has charge of the telephone line at Nackawick, the wire seems to need the most attention on the steep hill near G. A. Cronkite's.

Mr. H. D. Stairs of Rossville Corner, has purchased a steam outfit and intends running a barrel hoop and bicycle factory.

Mr. Gordon Stairs has returned home after spending the winter with friends at Maple Ridge.

Mr. H. Schriver has charge of that section of the road commonly known as H. Stairs Hill, the remaining part is still in charge of the former superintendent.

Miss Laura Munro of Portland, Me. is visiting her sister, Mrs. William Baylis.

The Bridge school is in charge of and successfully managed by Miss L. Trail.

A CORDIAL INVITATION TO DISEASE.

This is an apt description of constipation. It's an unnatural condition to begin with, and it's more because it brings about blood deterioration, interferes with digestion, renders you susceptible to infectious diseases and causes anaemia. Not so much a purgative as a natural stimulant to the bowels is what you need. You get it in Dr. Hamilton's Pills which increase liver activity, restore the bowels to perfect action and positively cure constipation and its attendant evils. Insist on having only Dr. Hamilton's Pills of Mandrake and Butternut, 25c. per box at all dealers.

A USEFUL KIMONO FOR A GIRL

The young girl appreciates the value of a useful kimono quite as much as older women, and here is shown a pretty model for such. The yoke is in deep pointed outline and supports the full skirt portion. The choice of two sleeves is given, the flowing kimono sleeve and the bishop sleeve with its trim cuff. The kimono may be in full length or sack length as desired. The fabrics are most practical for these negligees though the light weight cloths and silks are much used. The medium size calls for 3 1/2 yards of 44-inch material for the long gown and 1 1/2 for the sack style.

4092—7 sizes, 4 to 16 years. The price of this pattern is ten cents.

To the Fredericton Herald:

Please send the above mentioned pattern, as per directions given below, to

Name.....

No.....Street.....

To.....Province.....

Measurement—Waist..... Bust

CAUTION.—Be careful to send size of pattern wanted. When the pattern is bust measure you need only mark 32, 34, or whatever it may be. When in waist measure, 22, 24, 26, or whatever it may be. If a skirt, give waist and length measure. When miss' or child's pattern write only the figure representing the age. It is not necessary to write "inches" or "years." Patterns cannot reach you in less than three or four days from the date of order. The price of each pattern is 10 cents in cash or postal order or stamps.

WHISKY MEDICINES.

The temperance press is emphasizing the danger to the home in the use of "medicines" which are loaded with whisky or alcohol. In this respect, as well as in the remarkable character of their cures, Dr. Pierce's medicines differ from other preparations. Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, indigestion, biliousness and bowel derangements, and "Favorite Prescription" for women's derangements and weakness, contain no alcohol. Their full ingredients are printed on the bottle wrappers, therefore they are not secret or patent medicines. Write to Dr. R. V. Pierce, Buffalo, N. Y., for free booklet giving list of medicinal roots from which these remedies are extracted by the use of triple-refined glycerine, also the eminent medical writers who recommend their ingredients for the cure of the diseases for which these medicines are advised.

LOWER HAINSVILLE.

March 17.—The men are hustling for their logs to Burnside. Mr. Aaron Price has put a shingle machine in his lath mill to make both lath and shingles this season. Mr. Perley Haines has been visiting his relatives here.

Mrs. Charles Wiggins was visiting at Mr. James Patterson's last week.

Mrs. William Haines, Mrs. Robert Haines and Mrs. Eliza Woodworth, are on the sick list.

Mrs. Charles Slocum is very much improved and able to be out again.

Mr. John Elliot, who went to the city on business, has returned and moved to James Reynolds's for a time.

Our popular merchant, Mr. E. N. Reynolds has arrived home from St. John, where he has been purchasing supplies for his spring trade. Mr. and Mrs. Walter Allen of Tripp Settlement, are visiting friends in this place.

IT ACTUALLY DESTROYS THE CAUSE.

That's why catarrh is invariably cured by inhaling "Catarrhozone." The healing vapor spreads to every part of the breathing organs. Germs infecting the tissues of the nose, throat and lungs are killed. Nothing is left to cause inflammation. Spots that are sore are healed. Discharge is cleared away and catarrh becomes something of the past. Use "Catarrhozone" and your recovery is guaranteed. Two sizes, 25c. and \$1.00 at all dealers.

Friend (to draper in his shop)—I noticed that all your assistants are dressed in black.

"I choose them purposely. They are most useful for keeping a watch on people. My customers never know on which side they are looking."

MALE VISITORS.

Girls Should Be Careful Before Inviting Men to Call.

It almost goes without saying that in the matter of receiving calls from young men very young girls must be guided entirely by the wishes of their parents. Girls going to school are not supposed to receive any special attention from either men or boys and are not usually permitted by their parents to receive calls from their boy friends in the evening unless perhaps upon the night preceding the school holiday, when they may see several of their young friends, girls and boys together, but rarely a boy alone.

For older girls there are really no set rules as to how and when they may invite men to call upon them. Much depends upon the manner and place of meeting. A girl does not usually ask a man whom she meets casually for the first time to call upon her. She finds it a better and safer plan to wait until she has met him several times, knows him a bit better and has decided whether or not she would care to include him among her friends. She thus avoids the possibility of placing herself in an awkward position later by being obliged to discontinue his acquaintance. Giving pain in any way is always to be avoided as bad form and showing lack of nice feeling.

On the other hand, if she meets a man at the home of some well known friends and he shows her special courtesy, such, for instance, as accompanying her to her home after the entertainment, and she realizes by his manner and apparent interest that he would like to continue her acquaintance, she may, if she finds him agreeable, invite him to call upon her or say when she is thanking him for his attention that she hopes to see him again. If he really wishes to call upon her he will undoubtedly then say so, and if he asks when she will be at home she may tell him when she is usually at home or designate, if he wishes it, a certain time. In the instance of a man and girl being introduced by mutual friends who have specially arranged the meeting through compliment alone to this man and girl, the girl should invite the man to call upon her.

Men usually call between 8 and 9 o'clock when they are making evening calls and should never remain later than 10 o'clock or, at very latest, half past 10.—Pittsburg Press.

MAILS CLOSING.

In effect, October 1, 1906.

6 a.m.—For St. John, etc., St. Stephen and Charlotte Co., Carleton, Victoria and Madawaska Counties, and United States.

7:00 a.m.—Woodstock and Gibson Branch Stations, daily.
