A LAW.

To regulate the Use of the Common Sewers of the City of Fredericton and to Establish the Rates to be Charged Therefor.

BE IT ENACTED by the (L. S.) Mayor, Aldermen and Commonality of the City of Fredericton as follows:

(Sgd.) H. F. McLeod, Mayor.

1. The City Engineer, under the direction of the City Council, shall have the general supervision and inspection of the construction and maintenance of all common sewers built or owned by the City, and of all connections of particular sewers built and constructed under the provisions of this law. The Engineer shall cause accurate plans thereof to be made, representing the location, depth and material, with a section plan of each sewer, indicating the size, shape, thickness and construction and shall cause to be shown upon said plan all existing connections of said sewers and all other connections as they are made.

2. All applications for the construction of particular sewers, and their entrances into the common sewers, and for permits to enter the same, shall be in such form as the City Council shall prescribe, and be filed with the City Engineer. All that portion of any particular sewer laid within the limits of any public street, square, and alley-way of the City of Fredericton, and its entrance into the common sewer, shall be constructed, maintained and kept in repair by the City Corporation, and shall be the property of the City and the cost thereof shall be paid by the owner of the estate connecting, before the same is used or house connections made therewith. The cost of all repairs, or removal of stoppages, made upon any particular sewer, shall be paid by the owner of the estate connecting.

3. No work of laying a particular sewer shall be commenced or allowed to continue unless and until the deposit hereinafter required shall have been paid to the City Treasurer and a permit in Form "A" prescribed in schedule hereto, shall have been issued by the City.

4. Applications for permits to connect any particular sewer with a common sewer shall be made in writing signed by the owner or owners of the property to be connected, according to Form "B" of the Schedule hereto. At the time of making such application the applicant shall deposit with the City Treasurer an amount equal to the estimated cost of making the required connection, in no case less than TEN (\$10.) dollars, and no permit shall be issued until the amount of the required deposit has been paid. This deposit shall be credited to the cost of installation, and should such cost of installation exceed the deposit, the applicant will be required to pay the difference to the City Treasurer, together with the amount of his sewer rate for the then current half-year before the same is used or house connections made therewith. In case the deposit should exceed the cost of installation and rental, the surplus shall be refunded by the city treasurer to the applicant.

5. Every particular sewer shall be of such size and laid at such grade as the City Engineer or his assistant shall direct.

6. The City Engineer, or other person appointed by the City Council for such purpose, shall have the right at all reasonable hours to enter the premises and inspect any particular sewer and its connections and plumbing.

7. The inside of every particular sewer, after it is laid shall be smooth and clean throughout its entire length and all work and plumbing on same must be done to the satisfaction of the City Engineer.

8. When any change in direction is made in the pipe, either in horizontal or vertical direction special bends shall be used.

9. No live exhaust or waste steam or blow off, or drip pipe from any steam boiler, waste from acetylene or other illuminating gas plant, or any drainage shall be discharged directly into any common sewer or any particular sewer or house drain, connected therewith.

10. No permit to connect with the common sewers shall be issued to any manufacturing establishment until the owner or owners, shall have fulfilled any special requirement recommended by the City Engineer.

11. No person shall throw into any sewer or drain, inlet, manhole or catch-basin, any earth, dirt, stones, bricks, saw-dust, ashes, cinders, shavings, hair, grease, oyster, clam or lobster shells or any other substances detrimental to the sewers or the use thereof.

12. Every particular sewer, which shall enter into any common sewer, shall be built of such materials, dimensions and description, with such grade and in such manner as City Engineer shall direct.

13. Every person owning or occupying property situate on any street along which there is a common sewer shall make immediate connection with the same within such time as the City Engineer, shall direct, by a written notice served on such person by delivery of the same personally, or by leaving same on the premises. In case any person shall neglect or refuse to comply with the terms of such notice the City Council may order such sewer connection to be made and the expenses of same shall be a lien upon the property so connected and may be recovered from the owner by suit in any court of competent jurisdiction.

14. Any person convicted of a breach of any of the provisions of this by-law, shall forfeit and pay, at the discretion of the convicting magistrate, a penalty not exceeding FIFTY DOLLARS and costs for each offence.

15. Every person or owner who connects his particular sewer with a common sewer shall pay for the use of such common sewer, an annual rent, to be fixed by the City Council. Such rental shall be paid semi-annually on the first day of May and the first day of November in each year,

at the same time the water rates are now payable, and no water permit shall be issued upon any premises having sewer connection unless the sewer rental has been paid. Unless the water rates and sewer rental are paid within sixty days after the time hereinbefore mentioned, it shall be the duty of the engineer to cause the water to be shut off such premises. In any case where the water supply has been shut off for non-payment of water rates or sewer rental, or both, the sum of three dollars will be charged for turning on the water and inspecting the water and sewer connection.

The following shall be the rentals to be charged for the use of the common sewers, to be paid semi-annually in advance on the first day of May and the first day of November as aforesaid:

SCHEDULE FOR SEWER RENTALS.

One kitchen sink in dwelling.....12.00
One kitchen sink and one bath room, (to include wash bowl, seat and tub) in dwelling.....4.00
Each additional bath.....2.00
Each " closet.....2.00
Each slop sink.....2.00
Each additional urinal.....1.00
Each " wash bowl.....1.00
Each " sink......50

Hotels, boarding houses, etc., shall pay the same as for family rentals, in addition shall pay a fixed sum of twenty-five cents per bed.

All government buildings, federal and provincial, one half the amount of the water rates.

Buildings occupied as stores, or offices, or for other business or commercial purposes, when not otherwise specified, an amount equal to the water rates.

School buildings and churches, one half the amount of the water rates.

Manufacturing establishments, when discharge is properly protected to the satisfaction of the engineer, employing fifty persons or less, ten dollars; for each additional 25 or less two dollars.

Steam laundries, when discharge is properly protected to satisfaction of engineer, fifteen dollars.

In no case shall the minimum rental be less than two dollars.

Form A.
FREDERICTON SEWERAGE SYSTEM.

Received from.....Street, the sum of.....Dollars the estimated cost of making connection from said premises to common sewer. The above payment is received and this permit issued, subject to the regulations and by-laws of the city of Fredericton.

City Treasurer

Form B.

APPLICATION FOR A PARTICULAR SEWER OR HOUSE DRAIN.

To the Mayor and Aldermen and Commonality of the City of Fredericton:

The undersigned, being owner of the estate requests that a private sewer be laid from the.....at No.....Street, and that the same may be connected with the.....street sewer, and that.....may be allowed the use of such sewer for the purpose of disposing of the sewerage of said.....

And the undersigned agree to pay to the said city before connecting said.....with the said particular sewer, all of the cost of said sewer, including labor and materials or any other expense incurred necessary for the proper construction of said sewer.

And the undersigned further agree to strictly conform to the laws and ordinances relating to sewers and to the rules and regulations that are now in force or may be hereinafter adopted in relation thereto and also to the plumbing laws and ordinances so far as they relate thereto.

And the undersigned further agree that no claim for damages which may be occasioned to such estate, or any property thereon in any manner, by the construction, use or existence of such particular sewer or connection, shall be made against the city of Fredericton.

And the undersigned further agree that the said city engineer and other parties authorized by the city shall have access at all reasonable hours, to the said premises, to see that all laws, ordinances and rules relating to the sewer are complied with.

(Signature).....
(Address).....

Passed and enacted this fifth day of July, A. D., 1907.

J. W. McCREADY,
City Clerk

CITY OF FREDERICTON, S. S.:

I, James W. McCreedy, city clerk of the city of Fredericton, in the province of New Brunswick, do hereby certify, that the foregoing pages, numbered from one to nine, both inclusive, contain a correct copy of a by-law passed and enacted by the city of Fredericton on the fifth day of July instant, under authority of 59 Victoria, Chapter 52, Section 15 (1895), the same having been compared by me with the original law so passed and on file in my office.

In witness whereof I have hereunto set my hand and affixed the corporate seal of said city this tenth day of July, A. D., 1907.

JAMES W. McCREADY,
City Clerk.

July 19th

Hon. Mr. Emerson seems to have won the first round in the campaign against his detractors.

SIR WILFRID LAURIER,

Premier of Canada, Awarded an Enthusiastic Reception at Quebec Thursday Night on his Return from Europe.

WOLVES RAVAGING PEACE VALLEY.

In One District Settlers Have Lost \$25,000 Worth of Horses Through Them.

Edmonton, Alta., July 18.—James K. Cornwall has returned from a two months' trip to the northern country beyond Athabasca Landing. Mr. Cornwall was on a trip along the proposed route of the Edmonton and Fort McMurray Railway line, for the purpose of studying the topographical features of the route and prospecting for the timber and ballast. He says there are no engineering difficulties to contend with in projecting the road and that all the material except the steel can be obtained at convenient and accessible distances along the entire route. The portion of the country traversed was

thence across the country to Athabasca Landing. Mr. Cornwall states that the wolves are causing a terrible loss among the settlers of the Upper Peace River District. At Dunvegan and Fort St. John \$25,000 worth of horses have been killed by the wolves. Mr. Cornwall says that something drastic must be done at once to save the live stock of the district. The fur catch, says Mr. Cornwall, was not large this year, owing to the fact that the lynx and rabbits are scarce, a circumstance that occurs in regular circles.

TOOK MONKEY TO TEA.

Baroness Montardi Startled Guests At Carlton Hotel.

London, July 18.—Baroness Montardi appeared in the Palm Court of the Carlton Hotel at tea time yesterday with a tiny monkey couched snugly in a small and beautifully embroidered silk pouch suspended from her right shoulder.

Attention was almost immediately aroused at the unusual sight by an excited lady sitting nearby, who indignantly burst forth to the waiter: "If that lady is bringing a rat to this hotel to tea I am going to leave."

A minute later the little monkey came out of the pouch and attempted to climb to the top of a cafe, which it promptly tumbled over, spilling the contents over the table. The perplexed waiter now made an investigation and at once explained to the indignant customer that the pet was a monkey, and not a rat.

THE DOCTOR AWAY FROM HOME WHEN MOST NEEDED.

People are often very much disappointed to find that the family physician is away from home when they most need his services. Diseases like cramps, colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured of a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by all dealers.

SCREAMED FOR HER CHILD.

Judge Hosmer Affected by the Scene.

Detroit, Mich., July 15.—Screaming wildly that her husband was not a fit person to have her child, Mrs. Margaret Robinson, made such a scene in the corridors of the county building this morning that Judge Hosmer held an informal court in the hall and modified a previous order he had made directing that the woman's pretty three-year-old child be taken away from her. The husband, William Robinson, a farmer, living in Elmstead, Ont., had just been given the custody of the child after testifying that his wife, during two weeks ago, taking the baby with her. When the court had given his decision an attempt was made to all dealers.

take the child from the woman's arms, but her screams made the corridors ring. Attorneys Bulkeley and Paddock appealed to the Judge to investigate the case further. Judge Hosmer directed that the little one be sent to the shelter home pending an investigation. Robinson broke down and cried. He claimed his wife had left him several times before and that he had taken her back each time.

LOSS OF APPETITE AND ENERGY.

Singly they are a worry—combined they become a burden, feeling that waste has been immensely greater than the body's power to rebuild. The first need is to reconstruct the blood, make good the deficiency of red cells. Ferrozone improves digestion, makes blood, the kind that nourishes and rebuilds. Quickly the nervous system responds to the new power supplied by Ferrozone. Strength returns, ambition revives, energy and endurance give the system just what it needs to maintain the balance of health. No tonic better than Ferrozone, 50c. per box at all dealers.

Four Bad Snakes.

Snakes are much maligned creatures, although they are, for the most part, of considerable value to man, as they live almost entirely on insects and the small rodents that are injurious to crops. Of all the snakes that inhabit North America there are really only four that are dangerous. These are the copperhead, the moccasin, the rattlesnake and a little snake of southern Georgia and Florida known as the coral snake. Of course there are a number of different species of the rattler (about thirty), but they inhabit different parts of the country and are all to be known from the fact that they "rattle" when approached. All the rest of our snakes are absolutely harmless, and their bite is to be less feared than that of a mosquito.—Scrap Book.

BAD BURN QUICKLY HEALED.

"I am so delighted with what Chamberlain's Salve has done for me that I feel bound to write and tell you so," says Mrs. Robert Mytton, 457 John St., Hamilton, Ontario. "My little daughter had a bad burn on her knee. I applied Chamberlain's Salve and it healed beautifully. This salve allays the pain of a burn almost instantly. It is for sale by almost all dealers."
