

SEASONABLE SPORTS.

A Peep Into the World of Base Ball, Racing, of Bowling and Athletic Sports Generally.

BASE BALL.

BASEBALL GOSSIP FOR FANS.

Larry Quinlan, the ex-Montreal short-stop, is doing some fine stunts in the fielding line for Louisville, and is hitting around the 250 mark. Although Louisville is less than a hundred and eighty points behind the leaders, Columbus.

McMahon, who played a brief engagement at third for the Royals last season, was with Roanoke, Va. League team this year, but lately jumped them and is now playing independent ball.

Doc. Moriarty, who pitched some seasons ago for Burnham's Sailors, and who in the winter months puts in his time at Montreal studying to be a veterinary surgeon, was sold during the past season to Gantel's Grand Rapids team for five hundred dollars. He refused to do more for a salary of three hundred and fifty dollars per month and is working at his newly acquired profession.

Bob Wood, the catcher who was at one time thought to be one of the best and brainiest of catchers, who was released a short time ago by manager Joe Kelly, has signed a contract to catch for the Little Rock Arkansas Club. Sinclair McKay, Montreal's old time ground keeper, is doing the same stunt at Little Rock, and they unite in saying it is the best kept ground in the league.

Lave Cross, the veteran third baseman, who starred for many years in Connie Mack's Athletic team, and was a second baseman second to none in the country and who was released to Washington last season, has again taken up the game since being handed his release by Cantillon a short time ago, having signed with the New Orleans team of the Southern League. Delahanty takes his place at Washington.

Billy Luyster, who is an ex-Montreal twirler, had a piece of discipline handed out to him by Manager Clarkin, of the Hartford, Conn., team of which he is a member for pitching ball for an independent team on Sunday without leave. He was suspended for one month without pay.

Joe Quest, the old time second baseman of the famous Chicago White Stockings, under Anson's management twenty five years ago, is dying of consumption. He was one of the greatest players of that day, and by many it was thought that Anson, Quest, Williamson and Burns were the peers of any infield ever put together in one team. Quest was a great favorite among the youngsters, as the late Mike Kelly, and his catching of a fly ball with his hands behind his back was always uproariously applauded.

Ruhland, Montreal's third baseman, at present playing the same position for the Norfolk Virginia

League team, is up against the president of the league, Jake Wells, for assaulting, Umpire Stanton, and it is liable to go hard with him.

Jerry Nops, who helped Baltimore to win the American pennant three times in succession, and who later drifted to the Eastern League, where he did good work for several seasons appears to be in the decline, re-with Bill Nance, another old-timer, having been released by the Trenton Tri-State League management.

CRICKET.

SPORTS IN ENGLAND.

The most sensational finish of the present cricket season was witnessed at Catford when the South Africans beat Kent. In the early stages of the game it looked good odds on last year's champion county winning with ease, and, indeed, it was only on the very last day of the match that the aspect of the game changed, and became intensely interesting. After following on and facing a deficiency of 178, the Colonials, after once more beginning badly, gave a rare exhibition of batting and instead of being behind, set Kent the uncomfortable task of getting 104 runs to win on a wicket that was breaking up.

This total the English champions failed to make and amidst a scene of wild excitement the South Africans won by a couple of runs. This leaves the visitors with an unblemished record and will greatly increase the interest in the test matches, the first of which will commence at Lord's on Monday.

THE TURF.

SOME INLAND HORSES.

Charlottetown Patriot: The Charlottetown Trotting park has been put into good shape for training purposes. It has been covered over with top soil, which makes the footing springy and elastic. Trainer Fred Cameron will move his horses to the park this week, where they will occupy the new barn on the upper turn built for Mr. F. Heartz. This barn has accommodation for ten horses, has hay and grain room, also a sleeping room for caretakers. This season Mr. Cameron will train the stallion Dreamworld Towerman, by Beau Bells, 2.16 the richly bred two-year-old trotter, George Crescens, by Crescens, 2.02; the four year old mare Prulera, 2.31; by Rubinstine, 2.05; the three-year-old trotter, Tom Trim, by Parkside, 2.22, which he marked in 2.49 at Halifax as a two-year-old; Mabel T., 2.40; by Parkwood, and the green four-year-old pacer Harry H., by Parkwood, owned by Fenton Higgins. This colt made a splendid showing at Summerside on Dominion Day by winning the race against aged horses and going a half mile in the fast time of 1.08. He certainly looks like a 2.20 pacer, and one that is well worth watching.

READY ON THE SHELF

That's where you'll find "Nerviline" in every well regulated household. So pleasant to take that even little children will cry for it. So certain to cure coughs, sudden colds and tight chest that thousands of bottles are used every day. Poison's Nerviline does prevent illness, it does ease pain and inflammation, and by being handy will save worry and keep down the doctor bills. Large bottles sold for a quarter at all dealers, at all dealers.

Laughter as a Muscle Maker.

Laughter is a good, healthy, muscle making, lung developing exercise, and it is as good for girls as boys. And humor can be cultivated in a girl's mind without any abatement of the dignity and modesty and charm of her womanhood—not the unpleasant and constant frivolity evidenced in "smart" speech or quickness of repartee, but the humor that looks at the world with a twinkle in the eye and sees its absurdities, its smallness and its fun, says Woman's Life. It should be part of every woman's mental equipment, for women are called upon to bear many of life's small worries as well as its greater ones. The bringing up of children, the care of servants and the many social duties that become a burden are all made easy and possible to put up with by the woman with an unflinching sense of humor and of the bright side of life.

To Clean Feather Pillows.

Feather pillows may be freshened and the feathers made light by placing them out of doors in a clean spot during a hard rain. Let them be thoroughly wet and then hang in a warm place to dry. Spots on the pillow cover may be removed with a paste of water and fuller's earth.

Another way to clean the feathers is to place them in a cheesecloth bag and wash them in warm soapy water, followed by several rinsings in clear water. Feathers should never be placed in the sun.

CONSTIPATION

For constipation there is nothing quite so nice as Chamberlain's Stomach and Liver Tablets. They always produce a pleasant movement of the bowels without and disagreeable effect. Price 25 cents. Samples free at all dealers.

BEST MEDICINE IN THE WORLD FOR COLIC AND DIARRHOEA.

"I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skirum, Ala. I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until this week, when I had a very severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy and this morning I feel like a new man." For sale by all druggists.

TIMOTHY AND CLOVER SEED

AT

G. T. WHELPLEY'S

Timothy Seed, Red Alsike and Long Late Clover Seed.

A Large Variety of Garden Seeds, Potato Onions, and Onion Sets, all fresh new seeds.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most obstinate and fatal diseases, if we would properly investigate them; and in confirmation of this conviction, he points with pride to the almost marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach, tonic, liver, purgative, heart tonic and regulator, and blood cleanser known to medical science. Dyspepsia or indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action. The reason why it cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of unimpeachable testimonials contributed by grateful patients who have been cured of catarrh of the bladder, irregular periods, irregularities, prolapsus and other displacements caused by weakness, ulceration of uterus and kindred affections, often after many other advertised medicines, and physicians had failed.

Both the above mentioned medicines are wholly made up from the glyceric extracts of native medicinal roots. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each bottle-wrapper.

In the Wild East.

The courtesies of journalism in Nova Scotia are pre-eminent. Thus we find The Glasgow Chronicle referring to The Pictou Standard in these endearing terms. "A friend, who is not careful as to what he reads, tells us that The Standard's zoological specimen of the musteline carnivores of the genus Mephitis and allied genera, the variety known as Mephitis Americana or common skunk, is again on the rampage. This is the time of year they generally make their appearance from the hiding places under old barns, and should be chased back with a shotgun if necessary; they are a menace to the public health."

A Better Sign.

Then let the crows lift its head, The bluebird have its fun; I'll watch the maple tree instead When sap begins to run.

The Vernacular.

Ascum—Does he own an automobile? Tellum—No, but he can talk it.

TAKE THE POSTMASTER'S WORD FOR IT.

Mr. F. M. Hamilton, postmaster at Cherryvale, Ind., keeps also a stock of general merchandise and patent medicines. He says: "Chamberlain's Colic, Cholera and Diarrhoea Remedy is standard here in its line. It never fails to give satisfaction and we could hardly afford to be without it." For sale by all dealers.

THE CANADIAN DISPENSARY, CINCINNATI, O., U.S.A.

A Legacy and a Title.

Many times did the German emperor press the title of prince upon Herr von Bulow before the latter would accept. The statesman wanted the title, but could not afford to live up to it. Of this the kaiser knew nothing, of course. At length, about eighteen months ago, a relative of Von Bulow died, leaving him \$1,250,000. A few days later he showed the kaiser a legal notification of his good fortune. The monarch granted, "So that was the reason, my prince," he said, laying stress on the title. "Why did you not say so before?"
