IMPORTANT BILL.

Measure which was Discussed in the U. N. B. Mock Parliament Saturday Night.

An Act to Reorganize Student Society in the City of Fredericton on a Modern and Progressive Basis.

Sec. A. Student society in the city of Fredericton shall consist of three classes, students of the University of N. B., Normalites, and others. Persons of the first and third or second and third classes may board in the same house, but first and second never.

Sub-sec. 1. Any person who is at the same time a student of the University and a Normalite shall be considered on all public occasions as a Normalite, and shall be entitled to all due privileges as such.

Sec. 2. Students of the University shall be divided into two classes, Coeds and others. These two classes must not stay in the same house except on Sunday nights, when they may stay till ten o'clock.

Sub-sec. 1. The regulation in the above section shall not apply to the house known as the "Old Ladies Home."

Sec. 3. All houses in which students of the University board shall be provided with telephones, and all houses where Coeds board which have not a phone at the time of the passing of this act shall have one put in at once.

Sec. 4. No person shall use the phone to convey an invitation intended to deceive, nor shall a Coed in telephoning to any person represent herself as another, thereby causing confusion and disastrous results.

Sec. 5. The boarders in every house shall elect a dean and subdean, whose duties shall be to keep the parlor lamp filled and to supply the house with papers, such as the Monthly, Normal Light, Butler's Journal, War Cry, and in the case of the Old Ladies' Home with all magazines taken by the College Literary and Debating Society.

Sec. 6. All amusements shall be under the control of a commission, which shall have power to enquire into all forms of entertainment, and forbid such as tend to flirtation and holding of hands.

Sec. 7. There shall be an annual function to be known as the Con, to be conducted by the students of the University and Normalites together. The program shall consist of a short musical program and seven topics, and the event shall take place on the second fine night after the first full moon in February.

Sec. 8. After the passage of this act all churches shall be amalgamated into one on Sunday evenings, but each church shall hold a separate social once a fortnight, to which all students of the University and all Normalites shall be invited.

Sec. 3. A curfew law shall be established at once, under which no student shall rise before 8.30 a. m., nor shall any person study after 9 p. m., or between meals, nor shall any one retire before twelve except during exams, when all may stay up till two.

Sec. 10. Any student who plays poker, dances, keeps late hours or uses tobacco in any shape or form shall be regarded as an outcase from society, and shall not be recognized by any other student.

The Girl Who Earns Her Living.

One of the marvellous developments of modern life is the advent of woman as a co-laborer with man throughout the entire industrial field.

It follows then that woman must adapt herself to new conditions. But this can't be done in one generation, nor in ten. In consequence she lives in an environment of unhygienic conditions, unsuited to her temperament and constitution.

The incessant strain upon her nervous system by reason of the new vocations she has taken up, strikes at the very foundation of her physical stability.

Work becomes worry, and this means destruction to the nervous system.

Very complex in her physical relations to life, disease early seizes upon the woman who works, and she must therefore guard jealously anything that would tend to destroy her vitality or health.

Probably nothing is of more service than Dr. Hamilton's Pills, and every girl and woman can employ this grand remedy with gratifying results.

As a system tonic and blood renovator, no treatment gives such results.

For maintaining good digestion, healthy appetite and the proper performance of the duties of the liver and kidneys, it is impossible to equal Dr. Hamilton's Pills.

Dusky, sallow complexion is changed to a healthy, ruddy glow, which proves that Dr. Hamilton's Pills circulate blood that is rich and nourishing.

Weak organs are filled with new life and vitality; weakness, irregularities and the common ills are prevented, and this means much to thos who have lived in that half-sick, half-well condition that seems so hard to overcome.

When you feel poorly, when the head aches, back feels lame, aend a drowsy, tired feeling creeps through you—that's what tells of the need of Dr. Hamilron's Pills; try them.

Sold in yellow boxes, 25c. each or five for $1.00, at all dealers, and satisfaction guaranteed.

THE THAW TRIAL.

Messrs. Harry Allen and Adam Moore, the well known guides, who returned on Friday from New York, stated that it was the general impression around that city that the Thaw trial will end in another week, and that Thaw will be acquitted. People whom they met around Madison Square garden, where the shooting took place, seemed to unite in the opinion that Stanford White was a scoundrel of the deepest die and deserved his fate.

A STOREHOUSE FOR POISONS.

You may not think so, but that's what you become when the kidneys are affected. These organs cleanse the body; they are the filters that remove from the blood the waste matter that acts like deadly poison on the vitality and health of the system. Dr. Hamilton's Pills stimulate the kidneys, expel fermenting matter from the bowels, restore the liver and stimulate all excretory and secretory organs. This enables the blood to quickly replenish itself and establishes perfect health. No medicine does such lasting good as Dr. Hamilton's Mandrake and Butternut Pills, 25c. at all dealers.

When you want to find a vacancy take an X ray machine and look into the heads of some people.

All Around the Clock.

"Grandpa says his stay in the mountains last summer did him no good. His room was right off the piazza, and people made love under his window until all hours."

"But couldn't he sleep after the lovers went to bed?"

"No; as soon as the lovers went to bed the children got up."

'Twas Ever Thus.

"I suppose you have found," said the plain citizen, "that every man has his price."

"Yes," replied the lobbyist, "except the man who is worth buying."—Philadelphia Press.

The Golfer.

Bertie (to caddie, searching for lost ball)—What are you looking there for? Why, I must have driven it fifty yards farther! Diplomatic Caddie—But sometimes they hit a stone, sir, and bounce back a terrible distance.

DO NOT CROWD THE SEASON.

The first warm days of spring bring with them a desire to get out and enjoy the exhilirating air and sunshine. Children that have been housed up all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their flannels. Then a cold wave comes and people say that grip is epidemic. Colds at this season are even more dangerous than in mid-winter, as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It always cures, and we have never known a cold to result in pneumonia when it was used. It is pleasant and safe to take. Children like it. For sale by all druggists.

His Opposite.

Jenkins—I am told that the happiest marriages are between people who are exactly opposite in every respect to each other, so I am looking for a young lady of that sort, don't you know. Miss Pert—Then you have come to the right place. Come to the other side of the room, and I'll introduce you to a bright, intelligent, well educated girl.

Deceived.

"I want to get a divorce from my wife."

"On what ground?"

"Well, I don't know the legal term for it, but she didn't tell me before I married her that she was an elocutionist."

The Cause.

Theater Goer—The love scene in your play isn't half so natural as it used to be last season. The same people do it too. Manager—Yes, but the lovers were married a few months ago.

Hard to Understand.

Bibbs — Some people get everything they go after. Gibbs—Yes, and others don't seem to get what's coming to them.—Smart Set.

HELPS MEN TO WORK HARD.

That's what Ferrozone does; it supplies the additional strength that enables a man to maintain health under difficulties. "Last spring I was so completely fagged out I could not work" writes J. W. McNichol of Turnbull, Man. "In the morning I was tired—limbs ached all over. Had no appetite, was sleepless, nervous, and unhappy. Ferrozone put new life into me. Now I eat heartily, nerves are strong. I sleep well. I know the joy of health." It's by supplying nourishment and good blood that Ferrozone builds up; try it—50c. per box at all dealers.

A COMBINATION LINGERIE GARMENT

One-piece and combination garments are much sought by particular women because they reduce the number of garments and the consequent bulkiness to the lowest possible point Very dainty effects are being realized in muslin underwear o, this sort and the combination corset cover and drawers shown need no commendation. Svelt effects are sought by all women of fashion and a great assistance toward the accomplishment of this is the wearing of these one-piece garments. The corset cover closes in front and is attached to the drawers portion by a ribbon-run beading. The drawers are open in style and increase in flare as they approach the knee. They may be in regulation or garter length and will be found very simple to make. Muslin, lawn or nainsook may serve as material of which 2⅞ yards 36 inch wide are needed for the medium size.

6826.—sizes, 32, 34, 36, 38, 40 and 42 inches bust measure.

The price of this pattern is 10c.

To the Fredericton Herald:

Please send the above mentioned pattern, as per directions given below, to

Name... ....

No..... ....Street... .....

To..... ... .Province .....

Measurement—Waist..... Bust ... .

CAUTION.—Be careful to send size of pattern wanted. When the pattern is bust measure you need only mark 32, 34, or whatever it may be, When in waist measure, 22, 23, 26, or whatever it may be. If a skirt, give waist and length measure. When miss' or child's pattern write only the figure representing the age. It is not necessary to write "inches" or "years." Patterns cannot reach you in less than three or four days from the date of order. The price of each pattern is 10 cents in cash or postal order or stamps.

CHAMBERLAIN'S COUGH REMEDY IS BOTH AGREEABLE AND EFFECTIVE.

Chamberlain's Cough Remedy has no superior for coughs, colds and croup, and the fact that it is pleasant to take and contains nothing in any way injurious has made it a favorite with mothers. Mr. W. S. Polham, a merchant of Kirksville, Iowa, says: "For more than twenty years Chamberlain's Cough Remedy has been my leading remedy for all throat troubles. It is especially successful in cases of croup. Children like it and customers who have used it will not take any other." For sale by all druggists.

Cipher Price Marks.

"The cipher price mark, the tag not marked '1.75,' but 'P17CDG,' is getting to be a thing of the past," said a jeweler. "The public mistrusts it. There is nothing that wins the confidence of the public like a price mark in big, plain figures. Most cipher price marks are easily read. They have for their key, as a rule, the sentence 'I push trade.' The 'I' is 1, the 'p' 2, the 'u' 3, and so on down to the 'e,' which stands for 0. Thus '$2.75' in cipher would be '$p r. h.' Ciphers are useful for firms that give long credit, for such firms must naturally ask more from a six months' customer than a spot cash one. But they are very unpopular things. They arouse universal mistrust."—New Orleans Times-Democrat.

WOMEN WHO WEAR WELL

It is astonishing how great a change a few years of married life will make in the appearance and disposition of many women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage. Many neglect to deal with the unpleasant drains which are often consequent on marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness. As surely as the general health suffers when there is derangement of the health of the delicate womanly organs so surely when these organ are established in health the face and form at once witness to the face in renewed comeliness. Half a million women and more have found health and happiness in the use of Dr. Pierce's Favotite Prescription. It makes weak women strong and sick women well. Ingredients on label.

Big Royal Appointment.

More than 1,200 tradesmen appeared in the New Year's Gazette—not in the uncomfortable part of it, but in a section which tells them that they are entitled to use the royal arms over their shop fronts.

Their warrants, however, as royal tradesmen do not carry the right to fly the Royal Standard.

They are of all sorts and descriptions—butchers, bakers and candlestick-makers, and, moreover, chimney sweepers, heraldic painters, sword cutlers, interior decorators, gold lace men, geographers, bagpipe makers, bridecake makers, purveyors of turtle, and—inspite of the horrible example of Henry I.—there is a maker of lamprey pies.

There are hat makers and confectioners at Marienbad and Homburg, bootmakers, chemists, and steel pen makers, rose growers, tobacconists, and fruiterers all over the country, and in India and Malta; purveyors of lavender water at Plymouth and Wallington, and even a "contractor of fat" and of "billet wood."

There is a maker of yachting shoes and a manufacturer of tweed, tartan, and Highland cloaks.

Mean.

A lady was reproaching a bachelor friend for never having married when her husband, a little bored perhaps, said gruffly:

"He says he could have cut me out and married you if he had wanted to."

The lady started.

"Indeed!" she cried. "Why didn't he do it, then?"

"He says he owed me a grudge," the husband explained, with a chuckle.

New York's Chamber of Commerce.

New York city has the oldest commercial corporation in the United States, the chamber of commerce, organized May 5, 1768, in historic Fraunce's tavern, where Washington had his headquarters and where he bid farewell to his officers after the Revolution.

Cats' Fur.

Cats' fur has no oily substance in it and consequently is more easily wetted through than that of most other animals.

Panama Jungle Animals.

Among the animals in the Panama jungles and swamps are deer, wild hogs, turkeys, pigeons, partridges, woodcock, rabbits, tapirs, monkeys, pumas, leopards, as well as some tigers and lions.
