

BRITISH WAR AIRSHIP'S FIRST FLIGHT.

Sails 11-2 Miles at Height of 400 Feet--Aerial
Dreadnought--Great Success of the "Nulli
Secundus."

The British war-airship made a successful maiden trip at Aldershot on Tuesday Sept. 10.

It rose 400 or 500 feet in the air. It sailed 1½ miles without alighting.

It went 6 miles an hour against a 9 mile breeze.

It steered admirably. Colonel Templar, one of the Airship's constructors, said: "The ship has earned for itself the title of Second to None, and 'Nulli Secundus' is to be its name."

At eleven o'clock on Tuesday the doors of the great balloon factory at Farnborough-road, Aldershot, swung open. Soon the big, sausage-shaped balloon, 100ft. long and 30ft. in diameter, began slowly to emerge, and in another moment rose shimmering in the sunlight. Around the huge gas-bag were a number of wide bands which, with a netting, held the basket or car hanging beneath. In this car, shaped like a small rowing-boat were the machinery and seats for the passengers.

Colonel Capper, R. E., sat at the helm, and Mr. Samuel F. Cody stood at the engines.

UNION JACK UNFURLED.

After the balloon had been pulled into an adjacent field by twenty men the signal to get ready to start was given. Sandbags were piled in, the two propellers, as a final test, were whirled around at the rate of 1,000 revolutions a minute, and Captain W. A. Hing, R. E., jumped in to join the crew.

Unfurling a Union Jack at the stern, the ship glittering with its white wings and golden colored balloon, began gracefully to ascend. Thousands of people cheered.

Dipping its nose in the wind, it turned towards the east. Presently the propellers began to buzz, and with

a graceful rocking motion the vessel curved through the air.

After going half a mile southward, the course was changed to the west. Now soaring still higher, as more sand bags were tossed overboard, and now dipping toward the earth as the gas was allowed to escape, the vessel kept steadily onward, seemingly under admirable control. But just after skirting over some hills a driving belt attached to the cooling apparatus on the motors broke, and while still in midair the ship for a moment drifted. Colonel Capper then opened the exhaust valve on the gas bag and brought the ship gently to a smooth part of the field. The point was about 300 yards from the balloon shed. A score of the balloon brigade had followed the course on horse and were soon on the spot. In ten minutes more the ship was safely "docked."

SLIGHT MISHAP.

At four o'clock the vessel was again pulled out to the field. Colonel Templar, the expert adviser to the War Office, one of the builders, who had been absent in the morning, helped at the ropes, but did not ascend. Mr. McWade, works foreman, took the place of Captain King as a passenger.

When at a height of 150ft., Colonel Capper gave the usual order to let go, preparatory to an extended trip. The ship had mounted only a few feet higher, with its ropes dangling beneath it, when an attempt was made to turn sharply. Almost instantly the ship turned its prow downward, and with great swiftness shot obliquely toward the earth.

The spectators gasped fearful of the consequences, but the ship, though hitting the ground hard, rebounded, and so lessened the blow. The trials were then ended for the day.

COULDN'T SCARE MONTREAL GIRL.

Miss Bell, 198A Visitation Street, Drove Off Burglar With Revolver.

Montreal Herald: In the early hours of the morning people living in the neighborhood of the corner of Visitation and DeMontigny streets, were roused from their slumbers by the noise of someone discharging a revolver. Five shots were fired in quick succession, windows flew open, heads were thrust out and in a few minutes the locality was in a state of turmoil.

Constable Charlabd of No. 6 police station, lives at 210 Visitation street. He had just come off duty and had his hand upon the handle of the door of his house when he heard the sound of the shots. He rushed down towards DeMontigny street, meeting as he ran a constable from No. 3 station. The two hurried to the spot whence the sounds of the shots came. In the yard in the rear of 198A Visitation street they found the house facing the yard was open and with her head out of the window and a smoking revolver in her hand stood Miss Bell, the occupant of the house.

The constables at once demanded admittance to the house and the door was opened to them. Miss Bell was not in the least nervous. She explained that she was awakened from her sleep about two in the morning by the sound of some one attempting to open the back door. She listened intently and for quite a few minutes heard the man working at the door, which was locked and defied his utmost efforts.

He then tried to lift the window which he could easily reach from the ground. At this stage Miss Bell grabbed hold of a heavy five-chambered revolver, which she kept near her bed and softly opened the door. The man sprang at her and seized her by the throat, but alarmed at the sight of the revolver released his hold and fled.

She slammed the door close again opened the window and fired five times at the ground after the retreating burglar who by this time was clambering over the 6-foot high wall of the yard.

Miss Bell described the man as a medium sized young man but in the dim light could not make out how he was dressed or take note of any distinctive features in connection with his appearance.

The two constables searched the yard and the stables and outbuildings surrounding it, but could find no trace of the nefarious visitant.

FEW WILL ESCAPE.

The torturing aches of corns. Be prepared—the only painless cure is Putnam's Corn Extractor. Fifty years in use and absolutely guaranteed.

TRANSE NOT DEATH.

Welsh Woman Nearly Buried Alive.

There appeared in a South Wales daily newspaper on Thursday Sept. 12 the following advertisement:—

Rees.—On September 11, at Nora-street, Cardiff, Caroline, the beloved wife of Charles Rees, cab proprietor, Funeral Saturday at 2.30 p. m.

But the funeral will not take place for Mrs. Rees is still alive, having very narrowly escaped premature burial. She is unconscious, and apparently in extremis, but she is still living.

Mrs. Rees has been a sufferer from

cancer for many years, and on Wednesday here medical attendant prepared the family for the worst. That evening Mrs. Rees suddenly changed and presented every appearance of having been released from her long sufferings.

When, however, the undertaker visited the house he was startled to learn that the person whose measurements he expected to take was still alive. So certain had the occupants of the house been that death had taken place that a woman was called in on Wednesday evening to lay out the body, and she was preparing to do so when she was asked by the husband to delay the work for a time. It is fortunate that she did so, for close upon midnight the poor woman gave signs of life.

The doctor who is acting as locum tenens for the medical attendant of the family said that when he visited the patient on Wednesday about midday he told Mr. Rees that life was not extinct, but death could not long be delayed. No death certificate had been issued or was asked for.

SHE WAS WILD WITH PAIN.

From Willow Creek, Ont., Miss E. Diegel writes: "A few years ago I was drenched with rain and got lumbago; it was like a steel rod piercing my back. I also had earache and was just wild with pain. I applied bathing soaked with Nerville to my ear and rubbed on Nerville for the lumbago. That rubbing relieved and in a few hours I was well. No other liniment could do this." It's the penetrating power of Nerville that makes it superior to all other liniments. Nothing beats it, 25c. at all dealers.

NOT A CANDIDATE FOR PRESIDENCY.

Wm. Randolph Hearst Says He Would Not Hold Office Except As Matter of Public Duty.

NEW YORK, Sept. 25.—In an interview last night, William Randolph Hearst said:

"I am not a candidate for the Presidency on the Independence League ticket or on any other ticket, and I cannot conceive of any conditions under which I would be willing to become a candidate."

"This determination," he added, "is not because of any feeling of pique or disappointment as the result of the late election. I am well satisfied to be a private citizen and to labor through the league and through the election of others to promote the principals I believe in. I dislike holding office particularly being placed in a position where the sincerity of my principals can be questioned through campaigning for some office that I do not want, and that I would only consent to hold through reasons of public duty, as I would serve on a jury."

HEALTH DEPENDS ON GOOD BLOOD.

Everyone who uses Ferrozone has good color and great vitality. Reason for this is Ferrozone's powers to create nourishing blood. "I was broken down, had no strength, and couldn't eat," writes Mrs. Chas. Benney of Cloyne, Ont. "My nerves were irritable, I was thin-blooded and continually unhappy. I tried Ferrozone. It gave me new energy, force, vim. It brought me strength—made me well." Greatest tonic and re-builder ever known is Ferrozone. Sold everywhere in 50c. boxes.

Life Depends on
Healthy Blood.

IS YOURS RICH AND PURE?

Blood is the soul of life. Check its formation, reduce its quality, lessen its red cells—you at once sap strength and vitality—you peril life itself.

When you strengthen the blood, make it richer in red cells, increase its solid constituents, you supply the materials that rebuild—you furnish that disease-resisting element we call strength.

When you are weak and ailing—When appetite is poor—when mental efforts seem impossible, sleep hard to get, be sure your blood has grown poor and your nervous system in consequence is impaired.

Nothing so quickly stimulates the formation of rich, red blood as Ferrozone.

Ferrozone's action upon the digestive power is immediate—everything you eat is converted into nourishment and building material.

Ferrozone fortifies the action of the kidneys, liver and stomach, increases circulation, and by these means throws into the blood a vast store of material to build up and to strengthen.

Ferrozone by making blood and stimulating vital action, transmits to the debilitated brain cells, exhausted by toil, by anxiety, or by sickness, the strength they need.

The beneficial action of Ferrozone on the brain is transmitted through the nervous system, and all powers of the body are enormously increased.

Ferrozone enables the body to perform all its functions in a moral and natural way, and with an absolute freedom from reaction, which is the most positive assurance that the body is strengthened—not stimulated.

Whether the weakness you suffer is profound or of long standing, whatever the conditions are—if the blood is impaired, if its redness is reduced, if its activity is lessened—Ferrozone is an absolute and rapid remedy.

For any condition of weakness, debility, or ill-health in men, women and children, you can not find so nourishing and strengthening a tonic as Ferrozone; try it, sold everywhere in 50c. boxes.

ATTORNEY GENERAL OF SASKATCHEWAN.

Alphonse E. Turgeon Has Been Sworn in: He will Contest Prince Albert.

REGINA, Sept. 25.—Alphonse E. Turgeon, well known for many years as partner in the firm of Lamont & Turgeon, of Prince Albert, was sworn in last night before Lieutenant-Governor Forget as Attorney-General of the province, to succeed Hon. J. H. Lamont, who was recently appointed to fill the vacancy on the supreme court bench by the Dominion government. As a member of the firm of Lamont and Turgeon, of Prince Albert, Mr. Turgeon was well known in the northern city. Besides succeeding Mr. Lamont as Attorney-General, Mr. Turgeon will likely contest Prince Albert. Mr. Lamont's official seat in the by-election which takes place Oct. 12, the writs for which were issued here yesterday. The by-election in Prince Albert city next month will be to fill the only vacancy in the Saskatchewan legislature.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by druggists, 75 cents. Take Hall's Family Pills for constipation.

THE COMMISSIONERS
OF THE
TRANSCONTINENTAL
RAILWAY

NOTICE

Notice is hereby given that the Commissioners of the Transcontinental Railway have this day filed in the office of the Registry of Deeds for the county of Queens, in the province of New Brunswick, a Plan, Profile, and Book of Reference showing the lands required for the purposes of the Eastern Division of the National Transcontinental Railway covering the right of way from Mileage fifty-six and three quarters westerly from a point near the city of Moncton, N. B., thence westerly to Mileage fifty-eight through the said county of Queens. Owners or occupiers of any of the lands affected are hereby cautioned against the removal or defacing of any stakes, hubs, bench marks, etc., placed on such lands by the Engineers of the said Commissioners.

By Order,
P. E. RYAN, Secretary
the Commissioners of the
Transcontinental Railway.
Dated at Ottawa, this 21st day of
September, 1907.
Sept. 25 del.

A SERVICEABLE APRON.

Whether she possess a bent for art which causes her to spend her out-of-school hours over paint brush and easel, or whether she is simply eager to help her mother in house-wifely pursuits the up-to-date school girl stands equally in need of a cover-all apron. This need not necessarily be an unbecoming garment. On the contrary as shown in the accompanying illustration, it may be quite a picturesque one. The apron sketched may be made in either high or low neck effect, and of any desirable tub fabric. It is fashioned very simply, and is manifestly not adapted to elaborate ornamentation. To develop the medium size 3½ yards of 36 inch material will be required.

4218-4 sizes, 10 to 16 years.
The price of this pattern is 10 c.

To the Fredericton Herald:
Please send the above mentioned pattern, as per directions given below, to

Name...
No...
To...
Measurement—Waist... Bust...

CAUTION.—Be careful to send size of pattern wanted. When the pattern is sent measure you need only mark 32, 34, or whatever it may be. When in waist measure, 22, 23, 26, or whatever it may be. If a skirt, give waist and length measure. When miss' or child's pattern write only the figure representing the age. It is not necessary to write "inches" or "years." Patterns cannot reach you in less than three or four days from the date of order. The price of each pattern is 10 cents in cash or postal order or stamps.

"Yes," said the girl who makes collections. "It is one of the best autographs I have in my collection." "But are you sure it is genuine?" "Positive. I cut it from a telegram that his wife received from him."—Tatler.
