SEASONABLE SPORTS.

A Peep Into the World of Base Ball, Racing, of Bowling and Athletic Sports Generally.

FOOTBALL.

THE McGILL OUTLOOK.

MONTREAL, Sept. 21.—At four o'clock yesterday afternoon McGill turned out in a body to see and speculate as to the chances of the McGill football team. Fully as many men turned out to practice Wednesday as on Thursday, in spite of the strenuous arts and science rises early in the day. It is gratifying to see how many new men are turning out to practice, but there is an incentive for them in the shape of such an able exponent of the gam as Coach Hamilton.

Among the promising new material may be mentioned A. E. Black at half, whose sprinting aided McGill in defeating Toronto last year at the intercollegiate track meet in that cit Roberts, a freshman from the Ottawa Collegiate Institute, who wa tried at half, has a brother playin with the famous Rough Riders. Othe new men on the field were Malcolm Morrell, Frith, Gaghtred and Hastings.

Of the senior men, Ballantyne,wh is talked of for centre half; Bates Winslow and Pare were out. A new comer, well known to all footba enthusiasts was big "Billy" Lee,who played senior McGill several years ago, and has returned to college to complete his course.

Gilmour and Derrom are good husky boys, and should give a good account of themselves. Allingham Haultain, Ellis, MacNaughton an Carruthers also turned out.

Art Reid ann Kendall, of the seniors will play, and probably John son and Cox. Schlater, who was th mainstay of the team that won th Wood cup last year, has been oblige to leave college because of his father's death. McGill's many losse in football this year throug graduation are part alleviated b 'Varsity:s great loss. Southam,wh was such a tower of strength o 'Varsity's back line, has graduated and will Rear Toronto colors n longer.

'VARSITY'S PROSPECTS.

Toronto University will hold thei first practice on Monday. Thoug later than the other colleges i commencing, 'Varsity will practic with redoubled energy to make u for lost time, and with better luc than last year will make '06 champions step pretty lively. Among th many players expected back are th two Kennedys, Moon Lee, Kells Hall, Munroe, Nasmith, Bickford, Laile Powers, Thones, Park, Pearson and McGinnis the speedy half-bacl of '0 champions, and to add to this th many enthusiasts from the prepara tory schools, 'Varsity will not have such a mean aggregation after all.

FOOTBALL HAS COME AGAIN.

With a swirl and a whirl and a great big crush,
And the fiendish cry of glee,
With the three half-backs lined for the rush,
And the crowd on the side in a breathless hush,
And the whistle of the referee.

Biff, bang, and the ball is off once more,
There's Biceps, of McGill,
The football chap that the girls adore,
And they shriek and applaud, and the students roar
For the brave boy from the hill.

By jove, there comes a big chap,and He collars Biceps low,
And thirteen men to beat the band
Climb up on top hand over hand,
With Biceps down below.

The bleachers scream and the grand stand cheers,
But the players saw no joke,
The sad truth justified their fears,
And the crowd knelt down dissolved fears
(For the late of the ball was broke.)

BASE BALL.

SPORTING COMMENT.

A feature of the big league season ow drawing to a close has been the umber of youngsters that have made places for themselves at the expense of veterans. Seldom before have so many minor league stars fulfilled the predictions made of them and clinched a job on a big league combination. Big Jack McLean is without doubt the find of the season in the catching department, his hitting and fielding have shown him to be a coming front rank star. Johnson, of Washington, the Idaho wonder,has shown that the claims made of him were not untrue. In the box, Nap Rucker, the Georgia "cracker" and Bell have done excellent work for the Brooklyn nine throughout the season. Liebhart and Berger, of Cleveland, McGlynn and Fromme, of the St. Louis Nationals, Pruitt, of the Boston Americans and Boultes, of the Boston Nationals, have also made names for themselves in the pitching line in their first major league season. In the infield several high class men have been brought out. Look at Downs, who has replaced Fritz Shaefer on the Tigers second bag and has been one of the season's sensations. Knabe has replaced old Joe Gleason on the middle cusion for the Phillies. Wagner, a brother of the great Hans, has driven Freddie Parent from shortstop to the outfield. Nichols has shown himself to be worth while by crowding Monte Cross out of the Athletics' onfield. Unglab, although in the big leagues before, never played his present position at first base. Doyle has taken Tommy Corcoran's place on the Giants, Grant has driven Courtney off the Phillies' third cushion. Besides these there are many who have caught a place, but have not made the name that those mentioned have acquired for themselves. In the out. field Henchman and Birmingham, of Cleveland, have been the first 'finds.' But Milan, of Washington, Sullivan, of Boston, Mitchell, of Cincinatti and several others, have done well. Besides this great array there are a few who have returned for a second time to the majors and who are finding their second wind.

(Jack McLean referred to above,at one time played with the Fredericton Tartars.)

MR. ARCHIBALD DEFENDS GOVERNMENT PAROLE SYSTEM.

There Has Been No Necessity for Complaints that Have Been Made.

OTTAWA, Ont., Sept. 23.—There has recently been some criticism of the Justice Department because persons who some time ago were sentenced for various offences have been making their appearance in the communities which knew them before. A good deal of warmth has characterized the criticism of some persons who entertain the idea that penitentiary treatment is wholly punitive and lose sight of the fact that it is also as a means for bringing about a reform.

Mr. W. H. P. Archibald, patrol officer of the Dominion, declared that the "patrol system is the greatest humanitarian reform movement ever organized for the correction of men who have gone wrong. The system is administered in Canada with great care and impartiality.

"During the eight years the patrol system has been in operation over 1,600 men have been released on parole, and over 1,000 have completed their parole. Of the 1,600 only 33, or barely 2 per cent. have returned to a life of crime. Only 87 have had their parole cancelled for not complying with the conditions, such as reporting once a month to the authorities. If one prisoner goes wrong on parole the fact is heralded abroad. The attention of the country is directed to him rather than to the hundreds who are being reformed under the parole system.

"Roughly speaking between 10 and 11 per cent. of convicts are released on parole. If we were to release all the prisoners that desired to be paroled, our prisons and penitentiaries would soon be empty. We have, therefore to exercise discretion and release the most worthy prisoners.

"Before a prisoner is released, his conduct in the penitentiary, the length of time he serves, from one-half to two-thirds of his time. He must serve at least one-third of his sentence before he can be released, must be good, and his past record is also considered.

"I suppose there are some classes of criminals which are not released under any consideration?"

"Yes, we do not release those who have committed serious offences against the community or against the person. There is no cause for alarm."

Said Mr. Archibals in conclusion: "One man going astray does not prevent the parole system from proving most beneficial to the law abiding citizens."

FITS YOUR CASE EXACTLY.

You know how you feel—blue, sickly and heavy. Each morning you waken in a dull "dopy" condition and wish it were night again. Your liver is wrong and needs fixing with Dr. Hamilton's Pills; they do cure all liver ills. At once the system is relieved of poisons, blood is enriched and purified, appetite increases and digestion picks up. Health and vigor return because Dr. Hamilton's Pills make the body proof against weakness and disease. For your liver your kidneys, your stomach, for the sake of your looks and feelings, try Dr. Hamilton's Pills, 25c. per box at any dealers.

The city takes $127,000 debentures to the Bank of Nova Scotia, and receives cash for them to the amount of $107,050, a sacrifice of $19,050, on which we shall have to pay interest at the rate of 4 per cent. for the next forty years, as well as 4 per cent. on the amount netted from the sale. If the local government made a deal of that kind, what would the mayor and his newspaper organ think and sa about it?

"D & A" Corsets

Modelled upon scientific principles a series of curves of grace and elegance is comprised in every pair of D. & A. Corsets.

You can buy a "D. & A." at various intermediate prices ranging from $1.00,to $6.00.

Are Fashionable Models. 3-07

- BUY - HIGHLAND MARY

Several months ago we offered Two Million Five Hundred Thousand shares of Blue Bell at 10 cents per share. It was quickly over-subscribed, and thousands of dollars were returned to disappointed applicants. Soon after we placed Lucky Boys upon the market, and offered One Million Shares at 6 cents per share. Applications were received for three times the amount offered, and we were again compelled to disappoint many clients.

The fortunate purchasers of Blue Bell and Lucky Boys have already witnessed an advance in these shares of fifteen times the purchase price of Lucky Boys and ten times the purchase price of Blue Bell. These advances are insignificant, however, in comparison to the advances that are still to take place in these shares. We are in close touch with the development, and are advised by our engineers that there are now thousands of tons of rich ore in sight amounting to millions of dollars. We strongly advise every shareholder of Blue Bell and Lucky Boys to keep what they have. Within the next year or so ten times the present value will be reached.

Gold Mines Limited, OF Larder Lake AT 10 Cents Per Share

Why have the investing public so eagerly subscribed for the flotations recommended by Law & Co., Limited?

The answer is this: Law & Co., Limited, have established themselves with the investing public as to their Responsibility, Reliability and Trustworthiness. They have not abused the confidence placed in them by investors. They will not offer a single share to the public unless they have first made exhaustive and thorough examinations of the properties involved through their own engineers and assayers. The properties must be first-class mining properties—not prospects. The titles must be perfect and clear of indebtedness. They do not mislead the public by misleading statements. The public appreciate Truth, Frankness and Fairness.

Never in the history of mining has such an opportunity for making money been presented as is now offered in the Larder Lake gold district, and especially in the wonderful Highland Mary properties.

Put your money in The Highland Mary Gold Mines, Limited. One of the greatest opportunities that have ever been offered for investment in a gold mining company. The Larder Lake district will be the wonder of the world, and Highland Mary is in the heart of it.

Miners and prospectors from all parts of the world are flocking to Larder Lake. Mining men with millions at their disposal are sending their representatives and mining engineers into the field, and are rapidly snapping up everything that can be purchased.

The time for investors to get in on the rock bottom is **NOW—THE PRESENT TIME.**

The opportunity offered in Highland Mary will probably never occur again in this district. Investors should accept this opportunity and buy in one of the greatest mining companies that will be known in this new Eldorado at the present rock-bottom prices of 10 cents per share.

We have gone to great expense, and have used every method available to learn and know the exact situation in the Larder Lake district. We have sent a number of reliable mining men in different directions and to different locations. We have established our own assaying office on the ground at Larder Lake, putting in charge of it mining engineers of known ability and reputation. We have not taken over a single claim that has not shown actual merit; that is to say, with free, visible gold in quantities most remarkable. We are informed by our engineers that there has never been a gold district known that has shown the wonderful width of quartz veins containing free, visible gold as now actually exists in the Larder Lake district. We have quartz veins assaying gold from $200 to as high as $42,000 to the ton, that vary in width from 6 feet to 150 feet.

The Highland Mary properties consist of 1,200 acres, being 30 well-selected 40-acre gold claims, undoubtedly and unquestionably the choicest of the district at the present time.

Now, we want to make this comparison. In the gold fields of Nevada, where the gold camps have gained renowned reputation—in camps as well known as Tonopah, Goldfield, Wonder, Searchlight—and other camps where millions upon millions have been made from claims varying in size from 10 to 20 acres. Just think of it! Ten or twenty acres running into values as high as from $40,000,000 to $50,000,000 each. Mining men we have in the Larder Lake district who are well acquainted with the Nevada camps claim that the Larder Lake district is so far ahead of the mining camps in Nevada that there is no comparison whatever. Even the Rand in Africa, it is believed, will not come up to the wonderful gold district of Larder Lake.

We have received in our office in the past week many samples taken from every claim owned by the Highland Mary Company. Out of these we have had a great number of assays made by our own assayer on the ground. These assays run all the way around $200—the lowest—to $20,000—the highest. Our assayers on the ground, of course, cannot obtain as high assays as in laboratories in Toronto, where we have obtained the highest assays, running from $27,000 to $42,000 to the ton. Therefore, it is safe for us to estimate that the assays made by our own engineers on the ground are considerably under what we would actually receive were the stamp mills that the Company will install on the property in actual operation, together with the cyaniting process, by the use of which every particle of gold produced will be saved.

Could every investor come to our office and see the wonderful quartz samples, with gold showing in every portion, they would need no further urging or any further argument to convince them what Larder Lake is and what it is bound to be.

Investors who do not take advantage of this wonderful opportunity will, in a year from to-day, see and realize the great opportunities that they had to invest their money with great profit. We are in a position to judge, and we feel that we are judging rightly when we say to these investors: "Put your money into Highland Mary now. Every hundred dollars that you invest at the present time will, in a year from to-day, bring you many times that amount." This may seem to be a broad assertion, but consider well the great amount of territory, and consider well the millions that are made from properties consisting of but 10 to 20 acres of territory that never showed as rich as Highland Mary properties do to-day. It will only take a few months to place this property on a very big dividend-paying basis. Here is a legitimate opportunity for investors to make a real profit of 100 per cent on your money by and through an early advance to $1.00. The Highland Mary shares will be selling in the open market at $2.00 in the near future, and it will not be long before investors will look back and realize how really cheap Highland Mary stock was at 10 cents. Such a chance to realize enormous returns on your money could seldom be possible except through the medium of legitimate mining investments, and through and by the discovery of such wonderful gold districts as Larder Lake. Remember, these opportunities will only present themselves once in a lifetime. This is the accepted time—this is the golden opportunity. The conditions surrounding the Highland Mary **GUARANTEE** to investors not only big profits, but also absolute safety. We have a property aggregating 1,200 acres in these wonderful Larder Lake gold fields—the new Eldorado—every acre of which is as rich in gold as the Rand or the famous gold districts of Nevada where millions upon millions are being taken out. The Larder Lake gold district will be familiar to every schoolboy almost the world over within a year or two. The titles are clear—there are no encumbrances whatever—not a dollar of indebtedness. To us there is not one single element of uncertainty as to the outcome. Investors at the present price of shares—ten cents—will realize the most wonderful profits that have ever been known in any mining district in the world.

We feel so positive regarding this, as we have had every reason to make us believe so. Our own engineers, whom we know, and our own prospectors and miners, with years of experience, whom we have every confidence in, demonstrate to us these facts. We have no other method of demonstrating to the investing public than through our advertisements, which we endeavor to make honest and straightforward. We are investing our own money, and are not advising the investing public to do anything that we are not doing ourselves.

We want to state further and impress upon our clients and the investing public that those of you who join us in this proposition should understand that we are also in this proposition with you. We are backing our faith with our money, and we are asking you to join us in this proposition, which we find after thorough and exhaustive investigation to be an absolutely secure and safe investment, and one that will yield returns that will make unprecedented profits for all concerned. We have no fear whatever regarding our investment, and we wish to make it clear to you that WE cannot take a dollar of profit out of this proposition as offered to you in the Highland Mary Company unless you, yourselves, receive the same returns in proportion to your interests therein. We say to you we are offering you one of the fairest, squarest and most honorable propositions that could be presented.

We pride ourselves upon the enviable reputation and standing we have earned and established with the investing public throughout Canada and the United States as brokers and financial agents. We are endeavoring to further build up, instead of tearing down, this reputation, which could only have been established by legitimate business methods. We would not make the strong assertions as to the Highland Mary properties and investment therein, in these advertisements, were we not satisfied beyond any question as to the ultimate outcome of the investment which we herein advise.

It hardly seems necessary at this time, but we are glad that we are able to refer any investor to any bank, financial institution or commercial agencies in the City of Toronto or throughout Canada and the United States as to our standing and reliability.

We wish to state further that every recommendation or assertion made in any of our advertisements or letters of advice **WILL BE STRICTLY CARRIED OUT**, and that any investor may invest his money with the full assurance that his money will be placed for the purposes and in the manner indicated, and that **LAW & COMPANY** will fulfill their pledges in every way.

We wish to express our appreciation to the many investors who have shown their confidence in our recommendations, and we desire again to pledge loyalty to their interests, having no fear whatever as to the future, knowing full well that it will demonstrate that their confidence in us has not been misplaced.
