A SOURCE

OF COMFORT

A neat, well equipped lavatory is,
without a question, a source of com-
fort to a household. It's one to us
to install such a convenience in your
home—an aid to the toilet, you'd
never abandon after once experienc-
ing its manifold advantages. Where
there's running water you need our
services.

D. J. Shea, FREDERICTON.

LUCY'S BUSY

CORNER

The Style and Quality of Goods
kept at the Corner is so well known
that we feel further reference unneces-
sary. Mens, Youths and Boys, Over-
Coats, Suits, &c., in all styles, Reefers,
Jumpers, Cardigan Jackets, Sweaters,
&c. Gents Furnishing including a
large stock of Stanfield and Penmans
wear. Also Boots, Shoes, Over-
boots, Rubbers, Shoe Packs, &c.

CONVENTION

(Continued from sixth page.)

Fires were caused by lightning in the
country, as it was usually followed
by a heavy rain. He spoke of a forest
fire as being a pretty tough propo-
sition to fight, and unless a favor-
able wind or protracted rain came
men had but little chance to check
its ravages. He regarded prevention
as the best remedy against forest
fires. Passports should be given to
all persons entering the woods dur-
ing the dry season, and look out
towers should be erected for the use
of fire wardens. A sharp watch
should be kept out for fires, and
prompt measures should be available
for their suppression. He thought
the cost of protecting the forests
from fires could very well be divided
between the lumbermen and the gov-
ernment.

Mr. C. E. Lund spoke of the forest
fire law of Westmorland county and
the success attending its operation.
The law, which was passed in 1904,
he described as a good one, and had
so far worked well. It provided for
the appointment of a chief ranger
for the county and a deputy for each
parish, and regulated the setting of
brush fires. He hoped the matter of
forest protection from fire would re-
ceive the careful consideration of the
legislature at the present session.

Mr. W. H. Berry, deputy land sur-
veyor of St. Stephen read an inter-
esting paper on forest protection
which was attentively listened to. He
told of the preventive measures adopt-
ed in his district, and was pleased
to report satisfactory results. He
thought the railways and telephone
companies should co-operate with the
surveyors and wardens, in fighting
fires. Mr. Berry's paper showed
that he had given the subject much
careful thought and he was very
heartily applauded.

Premier Tweedie read a very inter-
esting and practical letter on forest
matters from Mr. Filibert Roth of
the Michigan Forest Commission, who
had been invited to attend the con-
vention. The letter dealt with lum-
bering conditions in the middle west
and gave out some practical sugges-
tions for forestry preservation.

MR. ROBINSON'S PAPER
An interesting paper on forest fire
ranging by Game Warden John Robin-
son was read by the premier. Mr.
Robinson thought that many fires
were caused by careless teamsters
and others setting fires along the sides
of tote roads. Fires were also
started by careless fishermen and
hunters, and he told of one case
where a fire had been caused by
lightning. Mr. Robinson thought
that to prevent forest fires a system
of patrols should be established. Men
of good judgment and character
should be appointed, and paid suffi-
cient salary to enable them to give
their whole time to the work. Mr.
Robinson told of a number of bad
fires on the Miramichi and Dugan-
garn last season and of the successful
fight made against them. He thought
it a good plan to protect beaver as
their dams provided a good supply of
water in the dry season.

Mr. W. B. Snowball moved, seconded
by Mr. David Buckley, the follow-
ing resolution:

"Whereas there is not at present
any institution in our province
prohibiting a forestry course;
and
"Whereas practical men are re-
quired trained in theoretical and
practical knowledge to conserve our
forest wealth.
Therefore resolved, that this con-
vention recommend the government to
provide forestry instructors to give
short course throughout the province
of say 90 days in each district
on the same principle as the dairy
school instructors.

Dr. G. V. Hay expressed approval
of the proposal put forward by Chan-
cellor Jones of the U. N. B. He
spoke of the action of the lumber-
men of the United States in endow-
ing the Yale Forest School to the
extent of \$150,000, and suggested
that perhaps the New Brunswick lum-
bermen might emulate their excellent
example.

Mr. J. Fraser Gregory, on behalf
of the lumbermen's committee, ex-
pressed appreciation of the govern-
ment's action in calling the con-
vention, and he wished to add his
congratulations upon its success.
In regard to what had been said
about the pulp industry at the morn-
ing session, he did not concur. So
far the pulp industry in New Brun-
swick had been very beneficial to the
lawyers, but the stockholders had
got very little out of it. He moved,
seconded by Hon. Allan Ritchie, the
following resolution, which was un-
animously adopted:

"Inasmuch as the survey and ex-
portation of lumber act, as now on
the statute book, is antiquated and
not applicable to the present con-
ditions and methods of carrying on
the lumber business.
Therefore resolved that in the
opinion of this convention a new
act should be prepared without de-
lay and suggest it would be best
to appoint a commission for the pur-
pose."

MORE FIRE PROTECTION.

Mr. Randolph moved, seconded by
Mr. Hutchinson, the following resolu-
tion:

"Inasmuch as in the opinion of your
committee there is at the present
time no adequate system of fire
protection for crown lands in the
Province of New Brunswick.

"Therefore resolved that the gov-
ernment be requested to take prompt
action towards the establishment of
organized Fire Protection, so that
the same may be in operation by
May 1st next."

Mr. Hutchinson spoke of the great
losses occasioned to lumber lands
by fire, especially on North branch of
Rensou and Dugan-garn rivers. On
those two rivers during his recollec-
tion, over one hundred square miles
of land had been burned out. The
same could be said of the Nepisiguit
and Northwest Miramichi rivers.
He regarded agriculture and not for-

estry, as the most important indus-
try of the province. Fire protection
was the most important matter for
the convention to deal with. In re-
gard to his experience, he had been
very fortunate in reference to forest
fires. It was far easier to prevent
a fire than to put one out, to
prevent fires the government will
have to keep the poachers out of
the woods. Keep out the men who
have no business there. There was
no doubt in his mind that the Dun-
garn fire was set by men who
went into the woods to spear sal-
mor.

Hon. Mr. Burchill thought there
should be a provision in the High-
way Act to compel commissioners to
burn up rubbish along the highway
roads.

Mr. Allen Saunders agreed with
the remarks of Mr. Hutchinson and
Mr. Burchill. He thought that wood
men should be appointed as fire
wardens and if they caught men set-
ting fires they should hang them.

Mr. Sumner thought that all guides
should be appointed fire wardens and
should have special instructions in
regard to fires. He had been told
that a fire on one of his limits last
year had been set by sportsmen. This
class as usual were very careful,
but occasionally exceptions to this
rule were found. He thought there
should be a board of commissioners
with authority to investigate all
forest fires. Mr. Sumner thought
the convention would have a very
beneficial effect on the people of the
province.

The Premier in reply to Mr. J.
Kidd Flemming, said that printed no-
tices, containing the fire legislation,
were sent to all fire wardens, seal-
ers, lease holders, etc., with the
instructions to post them.

EXPORT OF PULPWOOD.

Mr. F. M. Anderson moved the fol-
lowing resolution, seconded by Mr.
Hutchinson.

Moved by F. M. Anderson, seconded
by E. Hutchinson.

Inasmuch as this convention is call-
ed to devise methods of conserving
our forests for posterity so as to be
a source of income for all time to
come and
Whereas at the present time large
quantities of logs and pulpwood are
being exported to foreign countries
for manufacture there instead of
within the province, which practice is
destructive to the forest and without
due compensation to the population;
Therefore resolved that in the opin-
ion of this convention the export of
logs and pulpwood should be prohib-
ited.

Premier Tweedie said that the gov-
ernment could not prevent the ex-
portation of pulpwood from lands not
owned by the crown.

Mr. Anderson said that it was the
intention of the resolution that it
should only apply to crown lands.

Ms. Sumner thought the question
should be very carefully considered.
There were sections of the country
where the growth was too heavy and
thick and the trees should be thinned
out, to let the light in. It would
be unfair to those who had capital
invested in the pulp industry to pro-
hibit the cutting of pulpwood on
crown lands.

Mr. Snowball thought it was a
question whether it was advisable for
the province to permit pulpwood cut
on crown lands to be sent to the Uni-
ted States to be manufactured. He
thought the labor should be employ-
ed in our own country as far as pos-
sible. If we did not have sufficient
labor now bring more in and increase
the population and wealth of our pro-
vince.

Mr. Anderson's resolution was put
to the meeting and carried by a vote
of 28 to 6.

A Direct Appeal.

A story is told of a New York car
conductor who had once been in the
ministry and who retained some of his
former ways of speech in his new call-
ing. He had been at the front of the
car collecting fares, and when he re-
turned to his platform a well disposed
person told him that a man had board-
ed the car at Houston street and had
found a place inside. The conductor
stepped inside the doorway and ran his
mild gaze up and down the car, but
could not be sure which of the tightly
packed passengers was the late arrival.

"Will the gentleman who got on at
Houston street please rise?" he asked
calmly.

The gentleman rose involuntarily,
and, with a bow and a "Thank you!"
the conductor continued his fare.

NOTICE OF PROPOSED LEGISLATION.

Notice is hereby given that a Bill
will be presented to the General As-
sembly of New Brunswick, at the
next session, to authorize the Valua-
tors of the County of York to re-
duce the valuation of the Parish of
St. Mary's by the amount of the in-
come of Intercolonial Railway em-
ployees, not liable to taxation,
which was included in the valuation
taken in the year 1905.

Dated January 22nd, 1907.

By order of the County Council.
FRED ST. JOHN BLISS,
Secretary-Treasurer of York
Feb. 5-4181.

NOTICE OF PROPOSED LEGISLATION.

Notice is hereby given that a Bill
will be presented to the General As-
sembly of New Brunswick, at the next
session, to amend "The Municipalities
Act," (Consolidated Statutes 1903,
Chapter 165, Section 13), in so far
as relates to the County of York, so
that the election of County Council-
ors may be held in the month of
September.

Dated Jan. 22nd, 1907.

By Order of the County Council,
FRED ST. JOHN BLISS,
Secretary-Treasurer of York.
Feb. 5-4181.
