

G. T. P. CONSTRUCTION.

Contract Let for Moncton-Chipman Section. Work to Commence at Once.

It is understood that the work of constructing the Moncton-Chipman section of the Grand Trunk Pacific has been sub-let by the Grand Trunk Pacific Construction Company to James H. Corbett, the big Pennsylvania contractor, and that Mr. Corbett will commence the work in a few days.

On Saturday Mr. Corbett accompanied by Mr. J. M. Floesh, engineer, Mr. Hunter, manager of the Central Railway, Hon. L. P. Farris, McManus Bros., and H. M. Balkan, C. E., visited Chipman and looked over the situation for getting in supplies and starting the work. Mr. Corbett expressed himself as much pleased with the prospect, and stated that he would commence work in a very few days. The party left by special train at five o'clock of the same afternoon, Mr. Corbett going to Moncton to look after other matters in

connection with the work, while the other gentlemen returned to their respective homes.

McManus Bros., who have the contract for building the first eight miles east of Chipman, and who were with the party on Saturday, have already started work on their section, and will rush the work along as rapidly as possible.

During the time of construction Chipman will be the headquarters for the western part of the Moncton section, and this town is already making preparations to supply the large number of men who will be required for the construction work. Shacks have been built during the summer months, all along the proposed line between Moncton and Chipman, and everything points to the speedy conclusion of the work on that section.

SIR WILFRID MAKES ANSWER

Japanese Treaty Not to be Lightly Terminated Vancouver Troubles Not Entirely Due to Japanese

OTTAWA, Sept. 22.—The following telegram was sent to Winnipeg on Saturday by Sir Wilfrid Laurier to Alphonse Verville, M. P., President of the Dominion Trades and Labor Council, in reply to a resolution forwarded to the Government asking that steps be taken at once to terminate the treaty with Japan:

"I have given due consideration to your request, that immediate steps be taken to terminate the treaty with Japan. I would observe that this treaty when brought into existence, some fifteen years ago, did not apply to Canada, and that some few years ago, in response to the repeated expressions of public opinion and with a view of affording to Canadian producers an opportunity of taking their share of the growing Japanese trade, the Canadian Government became a party to this treaty, and that it was unanimously ratified by the Canadian Parliament. The treaty has proved of great advantage, as our trade with Japan under it has considerably increased. You base your appeal for denunciation of the treaty on the allegation that a crisis has arisen in British Columbia by reason of the unprecedented influx of Japanese. Whilst it is true that most regrettable incidents have lately occurred in Vancouver, there seems reason to doubt that the cause was the influx of Japanese, as I am in possession of a telegram from the Mayor of Vancouver, which has been rendered public, which expressly avers that the disturbances were directed against Asiatics generally, rather than against the Japanese. Under such circumstances any precipitate action might be regrettable, and before committing themselves to such a course the

Government think they should carefully inquire into the causes which within the recent past have caused a greater influx to our shores than previously of Oriental people."

(Signed) Wilfrid Laurier.

BRITISH COMMENT.

LONDON, Sept. 22.—Sir Wilfrid Laurier's letter to the Labor Congress on the Asiatic question has been published fully here. The News comments on it as a "loyal and careful document, which once more assures us that the Dominion Government will do everything in its power to prevent a recurrence of the outrages which lately disgraced the Pacific Coast." The News at the same time sounds a grave note. "Unless we are prepared to surrender the economic future of the Pacific Coast altogether, it is obvious that immigration must be restricted, and the duty of avoiding the growth of an appalling race feud points in the same direction." It adds that if the white races cannot spare men to people the Pacific slope, and if a feud continues to stir the resentment of the Japanese, the time may come when no alliance in the world will avail to avert a struggle for possession of the tempting, undeveloped territory.

The Morning Post's London Japanese correspondent warmly approves of the Canadian Premier's letter, saying that the inquiry promised by Sir Wilfrid will be welcomed by Japan, because it will be found that the actual number of Japanese added by immigration to the population of Vancouver is not excessive, the bulk of the immigrants going to other places.

REVENGE PROMPTED REVOLTING MURDER.

Eppisio Arcara Stabbed Nineteen Times and the Body Horribly Mutilated: Few Clues to Perpetrator of Deed.

NEW YORK, Sept. 24.—Eppisio Arcara, proprietor of an East Side ladies' skirt factory, whose love affairs had been the gossip of his thirty men and women employees, was done to death in his factory yesterday and the body subjected to revolting treatment.

His enemy, not satisfied after inflicting nineteen stiletto wounds, any one or two of which would have caused death, slashed the lower limbs and removed vital organs.

The police clue is too clearly defined prints of a thumb and forefinger on the jamb of the factory door. It is possible also that missing organs as well as the stiletto with which the job was clearly done, may be discovered, but no traces of these have yet been found. Arcara's bookkeeper have been detained by the police. From these and other employees something in the man's life may show a motive, it is expected.

Arcara was in the habit of going along to his factory on East 107th street Sundays to play the week's work. An employe dropping in the place yesterday found him dead on the floor of his office. There were nineteen stab wounds in his breast, seven near the heart, while the subsequent mutilation was frightful, according to the coroner's physician.

When Arcara's wife died a year ago she left three children. Soon afterwards Arcara went on to Palermo and married his wife's sister. Of the many stories told, the police one was to the effect that the shirt man was engaged to a girl here, but was induced by his family to marry the woman in Italy. They also learned that a woman known only as "Vita," who had been Arcara's forelady for years, suddenly left his employ after the second marriage.

Arcara's bookkeeper is one Castagno and his foreman Francesco Stilotto. The police say that the direct motive was unquestionably revenge.

HAD TETTER FOR 60 YEARS.

I have suffered with tetter for thirty years and have tried almost countless remedies with little, if any relief. Three boxes of Chamberlain's Salve cured me. It was a torture. panied by sharp lightning, visited part of Schuykill county late yesterday, with the result that four persons were fatally injured, seven seriously hurt, and half a hundred others were wounded by the falling of a grand stand at Heggins, near here.

The accident happened at the County Fair of the Heggins Grange during a baseball game. The grand stand was packed to its capacity. During the game rain started to fall, and many of the spectators sought shelter under the stand. A funnel-shaped cloud was seen coming from the west, travelling with great speed, and without warning struck the stand and crashed it, burying more than a hundred persons in the ruins. When reached by rescuers it was found that more than half of them had been injured.

In Pottsville a bolt of lightning struck a tree in the centre of a field where several hundred persons had gathered to witness a shooting match. About a dozen persons were rendered unconscious. Three had part of their hair burned from their heads and are in a serious condition.

Relieved Many Here

Prepare it at Home by Shaking Ingredients Well in a Bottle.

What will appear very interesting to many people, here is the article taken from a prominent health journal, giving a simple prescription as formulated by a noted authority, who claims that he has found a positive remedy to cure almost any case of backache or kidney or bladder derangement, in the following simple prescription, if taken before the usage of Bright's disease:

Fluid Extract, Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

A well-known local druggist, when asked regarding this prescription, stated that the ingredients are all harmless, and can be obtained at a small cost from any good prescription pharmacy. He further stated that while this prescription is often prescribed in rheumatic afflictions with splendid results, he could see no reason why it would not be a splendid remedy for kidney and urinary troubles and backache, as it has a peculiar action upon the entire kidney structure, cleansing these most important organs and helping them to sift and filter from the blood the foul acids and waste matter, which cause sickness and suffering. Those who suffer can make no mistake in giving it a trial.

AUTO DROVE HIM MAD.

Frequent Repairs Worried Ithaca Man Constantly.

ITHACA, Sept. 24.—Driven insane his friends say, by worry over the frequent repairs necessary to his automobile, John J. McGowan, a wealthy Ithacan, committed suicide by shooting himself in the head while sitting in the automobile last night. Mr. McGowan was 43 years of age and single, and his friends say that his mind has been effected for some time and that he has been constantly brooding over the many accidents and breakdowns of his automobile.

LAME BACK.

This is an ailment for which Chamberlain's Pain Balm has proven especially valuable. In almost every instance it affords prompt and permanent relief. Mr. Luke LaGrange of Orange, Mich., says of it: "After using a plaster and other medicines for about three weeks for a bad lame back, I purchased a bottle of Chamberlain's Pain Balm, and two applications effected a cure." For sale by all dealers.

A striking example of presence of mind had just occurred in the history lesson, and the teacher considered it an opportune moment for insulating upon her class the many advantages of resourcefulness.

"Now children," she said "suppose a tiger were to seize one of you in its hungry jaws and carry you off into the jungle, what would you do?"

No reply.

"You tell me Tommy," she continued, pointing to one of the brightest youngsters.

Tommy hesitated.

"Come Tommy," she said "Would you cry for help?"

"No, ma'am," said he. Mother says little boys shouldn't speak at meal times." —Answers.
