

A LOVE VENDETTA

Terrible Vengeance of Rejected Suitor at Fondi

ROME, Sept. 24.—The details of a love vendetta at Fondi, in the province of Caserta, have just been received here. The crime stands out as one of the most diabolical in the criminal annals of modern Italy, and beside it even the barbaric excesses of the middle ages seem curiously mild and commonplace.

Driade Dancona, who was considered among the prettiest maidens of Fondi, had been for a couple of years annoyed by the attentions of a shepherd, Vincenzo de Silvestro, aged 22, with whom her relatives induced her to have nothing to do, as he was a fellow of bad repute, and had already served a few months in prison for thieving.

About a year ago he attacked the girl while on her way home at night. For this he was sentenced to an imprisonment of ten months. The prosecution was brought about by the girl's family.

For this reason de Silvestro vowed

to kill her and exterminate the whole family. Soon after his release he went forth to a thatched hut where the girl was passing the night in company with an aged aunt, her thirteen-year-old cousin, and her thirteen-year-old sister, aged 11. Having fastened and blocked the two available exits to the hut, he piled straw against the wall, saturated it with oil, and set the mass on fire. In this business he was aided by an ex-criminal youth named Bellone. Both guarded the exits with loaded guns until the cries of the victims were stifled in death. But the criminal exploits of de Silvestro did not stop here. Fearful, lest a farmer living a few hundred yards away might have witnessed his work, and denounce him and Bellone to the police, de Silvestro and his associate sauntered up to his house and called him to come out on an urgent errand. The poor man, unsuspecting, came out in his night clothes, and was shot dead.

CANADA'S GROWING TIME.

Great Strides this Country is Making Under Wise Liberal Government.

OTTAWA, Ont., Sept. 25.—Commissioners Blue, of the Census and Statistics branch department of agriculture read a paper at yesterday's meeting of the Manufacturers' association, Toronto on "Some illustrations of the growth of Canada in the 20th century."

He points out that Canada's foreign trade the last year of the 19th century was \$336,018,000 and in the sixth year of the present century it had reached \$501,800,000.

The assets of chartered banks in six years have nearly doubled.

The amount at the credit of depositors in chartered and savings banks last year was \$667,806,000 or \$309,590,000 more than in 1900.

The same expansion is seen in railways, both steam and electric.

Mr. Blue quotes the recent census of the two new provinces to show their rapid growth, which was of particular interest to members of the association.

In 14 cities and towns of the Dominion there was an increase of 58 per cent for five years, ending 1905.

In conclusion Mr. Blue said "while it will not be claimed that the older provinces are growing at the same rate as the west, no doubt that all parts of the country have prospered in their varied industries, and there is no limit to the greatness to which Canada may attain before the present century closes."

WANT ORIENTALS EXCLUDED

People of British Columbia Petitioning for Legislation

VANCOUVER, B. C., Sept. 24.—A petition numerously signed by residents of this province, and endorsed by the Miners' Unions, will be forwarded to Sir Wilfrid Laurier, pointing out that there are 30,000 Orientals in this province, that the existence of Canada is threatened by the influx of non-assimilable races, and praying that regardless of foreign countries, and all sentimental con-

siderations, the government immediately pass such legislation as may be requisite to ensure the absolute exclusion of Orientals from the Dominion of Canada.

There was a meeting of the Anti-Asiatic League last night, when R. G. Macpherson, M. P. spoke.

The league numbers over two thousand members, including three Vancouver members of the local legislature.

ECZEMA

Skin Itches Intensely.
Becomes Hard, Cracks,
Bleeding Sores Develop,
Pus is Discharged.

The prevalence of Eczema is due in every case to the presence of humors and poisonous acids in the blood. These poisons come from fermentation of undigested food in the upper bowel or from discharge of fecal matter in the lower bowel.

It is a waste of time to employ ointment in the blood.

Rich, pure blood will bring new life to the skin—will restore beauty and richness of complexion.

Ferrozone is the best treatment.

It acts on the blood instantly, acts with a purifying healing effect—neutralizes the acids—destroys the poisons—drives every humor from the blood.

So rich and nourishing does Ferrozone make the blood so cool and healthy, that the sores are healed—itchiness is soothed away—every trace of eczema poison removed.

If Ferrozone won't cure thee nothing will—in all blood disorders its effect is instant—cure guaranteed. Try Ferrozone, thousands it has cured—will cure you too. In 50c boxes at all dealers.

FIFTY YEARS IN ANGLICAN MINISTRY.

Bishop Hamilton, of Ottawa Was Consecrated in Fredericton Cathedral.

OTTAWA, Ont., Sept. 23.—The Right Rev. Charles Hamilton, Bishop of Ottawa, celebrated the fiftieth anniversary of his entrance into holy orders on Saturday, he having been ordained deacon in 1857 by the late Bishop Mountain, of Quebec.

The esteemed prelate was born in Hawkesbury, Ont., on January 3, 1834. His father, Lieut.-Col. the Hon. George Hamilton, was the founder of the Hawkesbury Lumber Mills. The son, Charles, was educated at University College, Oxford, from which he received his degree of B. A. in 1856, and his M. A. in 1859.

He received the degree of D. D. from Bishop's College, Lennoxville, in 1885, and D.C.L. from Trinity College, Toronto, the same year. On September 21, 1857, St. Matthew's Day, he was ordained deacon and the following year was inducted as priest by the same prelate. During the year 1857 he acted as curate at the Quebec Cathedral, and from 1858 to 1864 was incumbent at St. Peter's, Quebec. From 1866 to 1885, Rev. Mr. Hamilton was rector of St. Matthew's church in the ancient capital, and in 1882 became chairman of the Provincial Synod.

Elected bishop of the diocese of Niagara, he was consecrated May 1, 1885, in Fredericton Cathedral by the late Dr. Medley. In 1896 his lordship was translated, by election to the diocese of Ottawa, in which he was duly installed on May 1, 1896. He married in 1862, Frances Louisa Hume, daughter of the late Deputy-Commissioner-General Hume.

DROVE HIM INSANE.

Indiana Man Impersonated the Two Characters of Dr. Jekyll and Mr. Hyde Until They Became Part of Himself.

RICHMOND, Ind., Sept. 24.—When Albert Deaver, for many years a well known man of Henry county, was admitted to the insane asylum here this morning the authorities declared it was the strangest case that had ever come under the observation. Deaver has been for months a veritable Dr. Jekyll and Mr. Hyde, and his transformations have been so marked that friends determined to put him under restraint lest he should do himself

Safest Medicine for Women's Complaints

Women certainly do neglect themselves. They work too hard—over-tax their strength—and then wonder why they suffer with diseases peculiar to their sex.

Most cases of female trouble start when the bowels become inactive—the kidneys strained—and the skin not cared for. Poisons, which should leave the system by these organs, are taken up by the blood and inflame the delicate female organs.

Fruit-a-tives

OR (FRUIT LIVER TABLETS.)

remove the CAUSE of these diseases. "Fruit-a-tives" sweeten the stomach—make the bowels move regularly every day—strengthen the kidneys—improve the action of the skin—and thus purify the blood.

"Fruit-a-tives" take away those distressing headaches, backaches and bearing-down pains, and make women well and strong. "Fruit-a-tives" are fruit juices, intensified, with tonics and antiseptics added. See a box—4 for \$2.50. At all druggists—or from Fruit-a-tives Limited, Ottawa.

and others harm.

Three years ago Deaver attended a theatre where the Dr. Jekyll and Mr. Hyde play was rendered, and he was so much impressed by it that he began soon after to act the two parts. He had been educated at Depauw University, was a man of strong powers as a linguist and for a while gave his friends much amusement by the dual role of the two opposite characters.

His companions noticed after a time a marked change in his demeanor, and it soon began to dawn upon them that Deaver was really the opposite character which he had begun to impersonate in a spirit of fun.

At first the change from one to the other was accomplished very quickly and apparently without great mental effort but there seemed to his friends long periods between normal and assumed conditions and a greater struggle each time to resume the normal. Protests proved of no avail, for he continued to indulge the dual role, and what he had at first accomplished with effort became apparently involuntary. Ten days ago he lapsed in the character of Mr. Hyde and is unable or unwilling to release himself from a character which has such a strange fascination for him.

Deaver is not violent, but is remarkably nervous and restless and walks and talks almost constantly. Friends hope that rest and restraint will work a cure, but physicians who examined him at the request of the Lunacy Commission give little hope of recovery.

ATTACK OF DIARRHOEA CURED BY ONE DOSE OF CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.

I was so weak from an attack of diarrhoea that I could scarcely attend to my duties, when I took a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It cured me entirely and I had been taking other medicine for nine days without relief. I heartily recommend this remedy as being the best to my knowledge for bowel complaints.—R. G. MUST MIND THEIR H'S.

Trouble For Cockney Guards on London's Tube.

LONDON, Sept. 24.—The manager of one of London's tube railways has entered upon a campaign which has no parallel save in President Roosevelt's attempt to reform the spelling of the English language.

The guards have been informed that they must pay due attention to the aspirate in names of stations they have to announce. For instance they have had their attention called to the fact that "Ighgate" and "Amptstead" do not exist on their route, and have been advised that they must make an effort, no matter at what risk to their vocal organs, to sound the elusive "H." Some passengers have found a good deal of amusement in noting the strenuous endeavors of the guards to wrestle with the "H" difficulty, which to most Cockneys their training has made almost insuperable.

PROSPECTIVE WEDDINGS

Two Well Known U. N. B. Grads to Enter Matrimonial Bonds.

Mr. Fred G. Goodspeed, assistant engineer in the Dominion Public Works department, St. John, left this morning for Berwick, N. S., where on Thursday afternoon at five o'clock he will wed Miss Lalla R. Cogswell, daughter of Maynard Cogswell of that place.

Mr. Goodspeed, who is a son of Mr. Luther Goodspeed of Penniac, graduated in arts from Acadia College, Wolfville, in 1902, and in engineering from the University of New Brunswick in 1904. Miss Cogswell is also a graduate of Acadia, having taken her B. A. degree in 1905.

The marriage will take place on Thursday at St. Mathew's church, Westmount, Montreal, of Rev. W. O. Raymond, jr., for the last two years rector at McAdam, and Miss Florence Josephine Gillespie, of Toronto. After a short visit to Ottawa, Niagara and other places in Ontario, the young people will make their home at Ann Arbor, where Rev. Mr. Raymond has accepted the position of assistant to Rev. Dr. Tatcock, rector to St. Ann's church.

The marriage of Miss Eliza Belle, daughter of David Richards, of Campbellton, to Malcolm P. Moores, of Moores Bros., will take place on October 1st, at the residence of David Richards, Frogmore, Campbellton.

The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of the above symptoms and conditions, as attested by the writings of leading teachers and practitioners of all the several schools of medical practice, have been skillfully and harmoniously combined in Dr. Pierce's Golden Medical Discovery. That this is absolutely true will be readily proven to your satisfaction if you will but mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.
