

THE HALIFAX RACES.

List of Horses Who Won Money at the Big Meet.

HALIFAX, N. S., October 4.—The money paid in premiums for the seven days' racing at the provincial exhibition track amounts to \$8,511. The entrance fees aggregated \$5,300. The Halifax Breweries' purses were \$1,200, less the entrance fees making the net cost to the commission of the exhibition racing about \$2,300. The biggest winner was the Springhill Stables, which took \$1,340, the second largest winner being Frank Boutilier, and the third Gallagher Brothers, of Woodstock. The statement in detail follows:

Highland Mary

is meeting with great favor with investors—More than 250,000 shares sold first eight days of sale, and applications increasing daily.

A GOOD INVESTMENT, NOT A GAMBLE.

Forty-nine men out of every fifty who make a practice of buying and selling speculative stocks lose their money. The man who watches the stock market quotations from day to day, and buys when he thinks they are going to advance, and sells when he thinks they are about to go down, is simply gambling with his money. He may win once in a while, but will oftener lose, and eventually become penniless, with no established or settled income.

Don't gamble. Don't try to get rich in a day. If you would create an income that would be permanent, so that some day you may take life easier, be an investor. Invest your money, do not gamble it away. Place your money in something good, that is sure to bring you an income. The shares of the Highland Mary Gold Mines of Larder Lake are this kind of an investment. It is an investment that will bring you an income. Buy the shares now at 10c per share, before the big advance that is sure to take place. Buy the shares now, and keep them, and don't think of parting with them. Some day they will be worth many times what you can buy them for now, and that day is not so very far away. Its worth value will not be fictitious either, but will be based upon actual earning and dividends therefrom. We firmly believe that the dividends on each and every share of the Highland Mary will within one year equal or exceed

10 CENTS PER SHARE

the price it can be bought for to-day. We firmly believe that within five years the yearly dividends on Highland Mary will equal or exceed \$1.00 per share.

This is the kind of an investment we feel justified in advising our friends and clients to invest their money in. The Highland Mary properties have been thoroughly examined and tested by our engineers and assayers. We feel that through our extreme caution in this respect the element of chance, that usually enters into mining propositions, has been practically eliminated. The Larder Lake gold fields are proving the greatest the world has ever known. This is being demonstrated from day to day to a certainty.

We want to induce our friends and clients to make a good, profitable investment, one that will bring them an income for the balance of their lives; an income that will amount to something, that will do some good; an income that will each year exceed the total amount of the investment; an income that will be your good friend in time of need; an income that will stand by you through sickness and adversity. An investment of this kind are the shares of the Highland Mary Gold Mines, now selling at 10c per share. We feel certain that an investment in these shares can be relied upon to do all this, and it will do it just as soon as the stamp mills can be established and the mine placed in proper working order. Some may be impressed with the idea that the shares of Highland Mary are a gamble or a speculation, but we say to all who think this, in all seriousness, that it is not. We say that it is a legitimate, honest and safe investment. A better, safer or more profitable one was never offered. It is no more of a gamble or speculation than the new dry goods store or shoe store to be established by a good business man, or the new bank to be established by tried financiers. You probably will ask, How is this? We say to you, a business man or financier will look the ground over, make calculations and figure out almost to a certainty whether the new business or bank to be established will pay. We say, further, that Law & Co., Limited, use this same caution in their business. We have looked over the ground. We know the mining business thoroughly, and we can see no possible chance of loss in the shares of the Highland Mary.

We are in a position to look ahead with some degree of certainty and figure it out. We are not making miscalculations. There is no more element of chance in purchasing the shares of the Highland Mary than there is in any legitimate business undertaking.

From our reports and examinations we figure out that there are thousands and thousands of tons of ore available for the stamp mills, and that when these thousands of tons have been milled there will have been developed many thousands of tons more. We figure that no stockholder of the Highland Mary will live long enough to see the ore exhausted.

There has never been a gold mine that did not have to make a start. It had to have a beginning. The greatest gold mines of the world had to take out the first shovel of dirt, or fire the first blast, and those who made the largest percentage of money and obtained the largest incomes were those who went in at the beginning, bought shares at the first issue price, put them away and kept them. Highland Mary is just starting; it is going to be a great mine; investors are going to get rich from shares of this Company.

The property consists of thirty gold claims of forty acres each, amounting to 1,200 acres. There are many veins and thousands of tons of ore available for treatment. Those who buy Highland Mary shares now at 10 cents and keep them will never regret it. They will secure

A NEVER-FAILING INCOME

The ore veins at Larder Lake assay all the way from \$5.00 to \$20,000 to the ton of ore—the most marvelous results known of any mining camp in the world. We figure out that the ore will run \$50.00 to the ton right through, but, for an example as to future earnings, and to figure safely, we will say that the ore will average \$25.00 to the ton. Now, the capacity of a five-stamp mill is about fifteen tons of ore per day, but for average figuring we will place it at ten tons per day. Ten tons of ore at \$25.00 per ton per day will amount to \$250.00 per day. It will cost to operate a five-stamp mill, including cost of mining the ore, about \$25.00 per day, which will leave at least \$225.00 per day profit for each five-stamp mill installed. One mill alone for one month, 26 working days, will make a profit of \$5,840, or a trifle over \$70,000 for one year. Ten of these mills of the capacity of five stamps will be installed at the earliest possible moment. Ten mills of this capacity when in operation will produce a profit for the company of from \$750,000 to \$1,000,000 per annum, but the number of mills will eventually be more than ten.

The great Treadwell mines at Juneau, Alaska, now have more than 3,000 stamps in operation. Their ore averages only \$2.60 per ton, yet it is one of the most profitable gold mines in the world. They started at one time just as the Highland Mary is starting now. They have grown, and the stockholders have grown rich. Ore can be mined and milled at Larder Lake as cheaply as at Juneau. The ore at Larder Lake averages twenty times the value per ton, and there is more of it to mine than at Juneau. These are facts that should be remembered. Highland Mary will make stockholders rich. Buy now before the big advance that will soon take place. Buy to keep; buy for investment.

Capitalization of Highland Mary, \$3,000,000. Par value of shares, \$1.00, 1,000,000 shares in the treasury for development purposes.

ECZEMA.

Skin Itches Intensely. Becomes Hard, Cracks, Bleeding Sores Develop. Pus is Discharged.

The prevalence of Eczema is due in every case to the presence of humors and poisonous acids in the blood. These poisons come from fermentation of undigested food matter in the lower bowel.

It is a waste of time to employ ointments or washes.

No lasting benefit can be had from doctoring the skin when the cause lies in the blood.

Rich, pure blood will bring new life to the skin—will surely restore beauty and richness of complexion.

Ferrozone is the best treatment. It acts on the blood instantly, acts with a purifying, healing effect—neutralizes the acids—destroys the poisons—drives every humor from the blood.

So rich and nourishing does Ferrozone make the blood, so cool and healthy, that the sores are healed—itchiness is soothed away—every trace of eczema poison removed.

If Ferrozone won't cure then nothing will—in all blood disorders its effect is instant—cure, guaranteed. Try Ferrozone, thousands it has cured—will cure you too. In 50c. boxes at all dealers.
