A rich old man was making his will, and was assigning legacies to his various servants. "Why," said the notary, "are you giving less to the older servants than you are to those recently engaged?"

Racine at His Work.

Racine, the French writer, composed his work while walking rapidly about, shouting out the lines in a loud voice. One day while he was thus composing part of his play of "Mithridates" in the Tuilleries gardens in Paris he was surrounded by a group of workmen who took him to be a maniac. On his return home from these walks he would write down scene after scene in prose, and when they were finished he would exclaim, "My tragedy is done!" considering the transposition of the lines into verse only a trivial thing.

A Remarkable Church.

A small watering place in Austria named Elchwald can boast of possessing a remarkable church. It was first built by an Italian architect at Venice at the expense of Prince Carlos Clary-Aldringen, who is a great admirer of Italian architecture. When it was finished the church was taken to pieces and packed in thousands of numbered cases for transportation to Elchwald. At that place it was eventually rebuilt and then made over to its inhabitants as a gift from the prince.

Safest Medicine for Women's Complaints

Women certainly do neglect themselves. They work too hard—over-tax their strength—and then wonder why they suffer with diseases peculiar to their sex.

Most cases of female trouble start when the bowels become inactive—the kidneys strained—and the skin not cared for. Poisons, which should leave the system by these organs, are taken up by the blood and inflame the delicate female organs.

Fruit-a-tives

ON FRUIT LIVER TABLETS.) remove the CAUSE of these diseases. "Fruit-a-tives" sweeten the stomach—make the bowels move regularly every day—strengthen the kidneys—improve the action of the skin—and thus purify the blood.

"Fruit-a-tives" take away those distressing headaches, backaches and bearing-down pains, and make you well and strong. "Fruit-a-tives" are fruit juices, intensified, with tonics and antiseptics added, get a box for \$2.50. At all druggists—or from Fruit-a-tives Limited, Ottawa.

FAMOUS ARCHERS.

Stories of Wonderful Skill With Bow and Arrow.

The expression "drawing a long bow" does not of necessity mean the telling of a falsehood. It sometimes refers to a wonderful story, which may be true enough, but which is so marvelous as to require a firm trust in the veracity of the narrator to enable the hearer to believe it. Some of the longest bows of this sort have been drawn about bows and arrows.

These stories began long ago. Virgil in the "Aeneid" tells of four archers who were shooting for a prize, the mark being a pigeon tied by a cord to the mast of a ship. The first man hit the mast, the second cut the cord, and the third shot the pigeon as it flew away. The fourth archer, having nothing left to shoot, drew his bow and sent his arrow flying toward the sky with such speed that the friction of the air set the feathers on fire, and it swept on, like a meteor, to disappear in the clouds.

The stories told of Robin Hood's archery, illustrated by his wonderful performance as Locksley in Scott's "Ivanhoe," are also a decided strain upon a sensible person's credulity. The famous story of William Tell, doubted by many persons, is believed by others to have a foundation of fact. There was a Dane named Puke of whom the same story is told, and William of Cloudesley, an Englishman, is said to have shot an apple from his son's head merely to show his expertise.

Most stories of bows and arrows relate to the accurate aim of the archers, but a Frenchman, Blaise de Vignerot, tells one that shows the tremendous force with which an arrow may be propelled if the bow be strong and long enough. According to his own account of the matter, he saw Barbarossa, a Turk, admiral of a ship called the Grand Soliman, send an arrow from his bow right through a cannon ball.

Where Snow Falls.

If you are not a lover of snow, go to Malta, which is the nearest spot where you are certain of complete immunity. If you are fond of it, the suburbs of St. Petersburg will furnish all you need to ask, for there you may be sure of it for 170 days in the year. The happy medium is supplied by Copenhagen, with thirty days, while Palermo, Rome and Venice, with one, two and five days respectively, may be recommended to those who merely care for snow as a casual and fleeting guest—London Chronicle.

His Suggestion.

"That young woman is not intelligent, amiable or even decently courteous." "Oh, but her father is worth a million dollars." "Then I think she should be required to display a notice to that effect."

Bad For Tail Hats.

New Year's eve, which is sacred to St. Sylvester, is celebrated in Berlin by the blowing of tin horns, the ringing of bells and all other devices for making a noise. The only horse play indulged in is at the expense of the wearer of the silk tie. Any one on the street is privileged to bring his cane down on the crown of the offending headgear as hard and as often as he can. When the man with the dilapidated hat complains to the police the only consolation he gets is, "It serves you right for wearing it on Sylvester night."

GOOD WORDS FOR CHAMBERLAIN'S COUGH REMEDY.

People everywhere take pleasure in testifying to the good qualities of Chamberlain's Cough Remedy. Mrs. Edward Phillips of Barclay, Md., writes: "I wish to tell you that I can recommend Chamberlain's Cough Remedy. My little girl, Catherine, who is two years old, has been taking this remedy whenever she has had a cold since she was two months old. About a month ago I contracted a dreadful cold myself, but I took Chamberlain's Cough Remedy, and was soon as well as ever." This remedy is for sale by all dealers.

THE KING COMES HOME.

Lord of the Plains is Being Repatriated—The Largest Herd of Buffaloes now in Existence on the Move to Canada.

Calgary, May 18.—A train load of Northern, near which place their the buffaloes which the Dominion

government have purchased from Montana will pass through Calgary within the next week. There will be eighteen cars in the train and about two hundred head of the prairie kings on board. The bulls will be carried eight in a car, each in separate partitions, and the younger stock will be carried in open cars, like range cattle.

The second train will leave some time in August. It will be composed of the cows and young calves and there will be more animals in this train than in the one coming through this week. It is expected that there are nearly five hundred head in the entire herd which is being shipped to Canada. The buffalo will be shipped from Ravalli to Helena, thence through Great Falls, Sweet Grass, Lethbridge, Macleod, Calgary, Edmonton, and will be unloaded at Lamont, on the Canadian

OLD FOLKS.

THEIR DAYS MAY BE PROLONGED. How the Evening of Life May be Made Happier for All.

"If people only knew the good that Vinol does old people," said Mr. Geo. Y. Dibblee, our well known druggist. "Columns of space in the newspapers would be devoted to the subject for the benefit of mankind in general. I can truly say that we have never sold anything in our store equal to Vinol as a strengthener and body-builder for old people."

"You see, with old age comes feebleness and loss of power, the organs act more slowly and less effectually than in youth, the appetite is poor, the digestion weak, and there is not that same renewal of body tissue."

"There is nothing more pitiful to me than to see old people tottering around. I know that Vinol cannot bring back lost years, but it will lengthen life and brighten the years that remain."

"We are hearing from all over the country remarkable results which prove my statement, and we have received letters from sons and daughters of old people telling how father or mother has been made well and happy by the vigor and strength which Vinol brings the old."

"It is just this way," continued Mr. Dibblee, "Vinol invigorates the stomach first of all, creates an appetite and enables the stomach to separate from food the elements needed for rich, red blood, healthy body material and sound, steady nerves. In this natural manner it repairs worn tissues, checks the natural decline and replaces weakness with strength."

"For any one suffering from any weakened, run-down condition Vinol will do the same, and it is because we know so well what Vinol will do that we guarantee its action, and we will gladly refund the money we paid for it to any one who is not satisfied. I wish every old person in this vicinity would just try Vinol on our guarantee. If it does not satisfy, then it will not cost them a cent. George Y. Dibblee, druggist."

HACK DRIVER SHOT.

Killed at Washington by Prominent Society Man.

Washington, May 21.—Frank Macaboy, a local hack driver, was shot early yesterday at the Arlington Hotel by Gaston P. Philip of this city and Cloverock, N. Y. He was removed to the Emergency Hospital, where he died.

Philip, who is well known in social circles here, was placed under arrest immediately after the shooting. While there are no eye-witnesses to the affair, there are two versions. Macaboy made a statement at the hospital in which he is reported to have said that because of his refusal to take a drink with Philip, the latter shot him; that there was no quarrel whatever between himself and Philip.

The other version, given as the trouble the refusal of Philip to pay a \$150 cab fare bill he is alleged to have owed Macaboy. At first Philip maintained that Macaboy tried to collect the bill from him, and that he was endeavoring to explain to Macaboy that he would pay the bill in time. Later Philip said that at the time in question there was no dispute in regard to the bill for \$150.

LOG STEALING CASE.

Carleton County Man Charged With Purloining Logs from the River St. John.

Bristol, N. B., May 18.—Before Magistrate Farley today the examination of one Tise Dyer was begun, on the charge of stealing logs, the property of the St. John River Log Driving Co. P. B. Carvell, M. P., appeared for the complainant, company. After some evidence had been given, further hearing was adjourned until Wednesday.

For some years the Log Driving Company have had strong suspicions that certain persons in Carleton county were unlawfully taking logs from the river, and this spring they decided to investigate, and if necessary, prosecute the suspected parties. Friday night Dyer, who has been rafting for B. F. Smith, M. P., was arrested by the deputy sheriff, who found the man with a raft of six joints, five of which were of inferior fir and poplar, while the sixth was of excellent spruce. Last night Smith, and Tompkins, his surveyor, came on the raft, which had been dropped down to Bristol, and surveyed it. Mr. Foster took Dyer in custody, and shortly after daylight this morning, prevented Mr. Smith from taking the raft to Upper Woodstock. The joint claimed by the company was hauled up the beach. Possibly further interesting developments will come to light as the case proceeds.

Too Cold For Overcoats.

"You do not find any one wearing overcoats in Alaska, even in the winter," said a man from that territory. "The principal thing to be careful about is keeping the head, hands and feet warm. In that part of Alaska where I have been the only land transportation is by dog sleds, and to follow them one has to drop into a dog-trot beside the sled. An ordinary suit is plenty thick enough to keep you warm, and an overcoat is dangerous in that temperature. Trotting alongside a sled wearing an overcoat would make you perspire, and the bitter cold would freeze the perspiration. The men there wear a fur cap that covers every part of the head and face except the eyes, and there is only a little peephole for them. Wool lined mitts are worn on the hands and moccasins with woolen stockings on the feet."

Tragedy of a Wooden Leg.

A man who travels on a wooden leg says: "About the worst accident we ever heard of befalling a wooden legged man is the time one such unfortunate was going home after being to a late supper, along about 3 o'clock in the morning, when his leg went through an auger hole in the grub plank sidewalk, and he kept circling about that hole all night thinking he was going home. The editor of this paper wants it distinctly understood that we cannot vouch for the truthfulness of this story."

A Question.

"My wife thinks she will never find a better cook than the one we now have." "Humph! Uh—er—say, what would you call your wife, a pessimist or an optimist?"—Cleveland Press.

Those Wicked Clubs.

Doctor (to wife whose husband is ill):—Is not your husband a hypochondriac? Wife—Oh, doctor, he doesn't belong to any society at all—Meggen-dorfer Blatter.
