A LAW.

To regulate the Use of the Common Sewers of the City of Fredericton and to Establish the Rates to be Charged Therefor.

BE IT ENACTED by the (L. S.) Mayor, Aldermen and Council of the City of Fredericton as follows:

(Sgd.) H. F. McLeod, Mayor.

1. The City Engineer under the direction of the City Council, shall have the general supervision and inspection of the construction and maintenance of all common sewers built or owned by the City, and of all connections of particular sewers built and constructed under the provisions of this law. The Engineer shall cause accurate plans thereof to be made, representing the location, depth and material, with a section plan of each sewer, indicating the size, shape, thickness and construction and shall cause to be shown upon said plan all existing connections of said sewers and all other connections as they are made.

2. All applications for the construction of particular sewers, and their entrances into the common sewers, and for permits to enter the same, shall be in such form as the City Council shall prescribe, and be filed with the City Engineer. All that portion of any particular sewer laid within the limits of any public street, square and alley-way of the City of Fredericton, and its entrance into the common sewer, shall be constructed, maintained and kept in repair by the City Corporation, and shall be the property of the City and the cost thereof shall be paid by the owner of the estate connecting, before the same is used or house connections made therewith. The cost of all repairs, or removal of stoppages, made upon any particular sewer, shall be paid by the owner of the estate connecting.

3. No work of laying a particular sewer shall be commenced or allowed to continue unless and until the deposit hereinafter required shall have been paid to the City Treasurer and a permit in Form "A" prescribed in schedule hereto, shall have been issued by the City.

4. Applications for permits to connect any particular sewer with a common sewer shall be made in writing signed by the owner or owners of the property to be connected, according to Form "B" of the Schedule hereto. At the time of making such application the applicant shall deposit with the City Treasurer an amount equal to the estimated cost of making the required connection, in no case less than TEN (\$10.) dollars, and no permit shall be issued until the amount of the required deposit has been paid. This deposit shall be credited to the cost of installation, and should such cost of installation exceed the deposit, the applicant will be required to pay the difference to the City Treasurer, together with the amount of his sewer rate for the then current half-year before the same is used or house connections made therewith. In case the deposit should exceed the cost of installation and rental, the surplus shall be refunded by the city treasurer to the applicant.

5. Every particular sewer shall be of such size and laid at such grade as the City Engineer or his assistant shall direct.

6. The City Engineer, or other person appointed by the City Council for such purpose, shall have the right at all reasonable hours to enter the premises and inspect any particular sewer and its connections and plumbing.

7. The inside of every particular sewer, after it is laid shall be smooth and clean throughout its entire length and all work and plumbing on same must be done to the satisfaction of the City Engineer.

8. When any change in direction is made in the pipe, either in horizontal or vertical direction special bends shall be used.

9. No live exhaust or waste steam or blow off, or drip pipe from any steam boiler, waste from acetylene or other illuminating gas plant, or any drainage shall be discharged directly into any common sewer or any particular sewer or house drain, connected therewith.

10. No permit to connect with the common sewers shall be issued to any manufacturing establishment until the owner or owners, shall have fulfilled any special requirement recommended by the City Engineer.

11. No person shall throw into any sewer or drain, inlet, manhole or catch-basin, any earth, dirt, stones, bricks, saw-dust, ashes, cinders, shavings, hair, grease, oyster, clam or lobster shells, or any other substances detrimental to the sewers or the use thereof.

12. Every particular sewer, which shall enter into any common sewer, shall be built of such materials, dimensions and description, with such grade and in such manner as City Engineer shall direct.

13. Every person owning or occupying property situate on any street along which there is a common sewer shall make immediate connection with the same within such time as the City Engineer, shall direct, by a written notice served on such person by delivery of the same personally, or by leaving same on the premises. In case any person shall neglect or refuse to comply with the terms of such notice the City Council may order such sewer connection to be made and the expenses of same shall be a lien upon the property so connected and may be recovered from the owner by suit in any court of competent jurisdiction.

14. Any person convicted of a breach of any of the provisions of this by-law, shall forfeit and pay, at the discretion of the convicting magistrate, a penalty not exceeding FIFTY DOLLARS and costs for each offence.

15. Every person or owner who connects his particular sewer with a common sewer shall pay for the use of such common sewer, an annual rent, to be fixed by the City Council. Such rental shall be paid semi-annually on the first day of May and the first day of November in each year,

at the same time the water rates are now payable, and no water permit shall be issued upon any premises having sewer connection unless the sewer rental has been paid. Unless the water rates and sewer rental are paid within sixty days after the time hereinbefore mentioned, it shall be the duty of the engineer to cause the water to be shut off such premises. In any case where the water supply has been shut off for non-payment of water rates or sewer rental, or both, the sum of three dollars will be charged for turning on the water and inspecting the water and sewer connection.

The following shall be the rentals to be charged for the use of the common sewers, to be paid semi-annually in advance on the first day of May and the first day of November as aforesaid:

SCHEDULE FOR SEWER RENTALS.

One kitchen sink in dwelling.....\$2.00
One kitchen sink and one bath room, (to include wash bowl, seat and tub) in dwelling..... 4.00
Each additional bath..... 2.00
Each "closet"..... 2.00
Each slop sink..... 2.00
Each additional urinal..... 1.00
Each "wash bowl"..... 1.00
Each "sink"..... .50

Hotels, boarding houses, etc., shall pay the same as for family rates and in addition shall pay a fixed sum of twenty-five cents per bed, and commercial buildings, federal and provincial, one half the amount of the water rates.

Buildings occupied as stores, or offices, or for other business or commercial purposes, when not otherwise specified, an amount equal to the water rates.

School buildings and churches, one half the amount of the water rates. Manufacturing establishments, when discharge is properly protected to the satisfaction of the engineer, employing fifty persons or less, ten dollars; for each additional 25 or less two dollars.

Steam laundries, when discharge is properly protected to satisfaction of engineer, fifteen dollars.

In no case shall the minimum rental be less than two dollars.

Form A. FREDERICTON SEWERAGE SYSTEM.

Received from..... street, the sum of..... Dollars, the estimated cost of making connection from said premises to common sewer. The above payment is received and this permit issued, subject to the regulations and by-laws of the city of Fredericton.

.....City Treasurer

Form B. APPLICATION FOR A PARTICULAR SEWER OR HOUSE DRAIN.

To the Mayor and Aldermen and Council of the City of Fredericton:

The undersigned, being owner of the estate requests that a private sewer be laid from the..... street, and that the same may be connected with the..... street sewer, and that..... may be allowed the use of such sewer for the purpose of disposing of the sewerage of said.....

And the undersigned agree to pay to the said city before connecting said..... with the said particular sewer, all of the cost of said sewer, including labor and materials or any other expense incurred necessary for the proper construction of said sewer.

And the undersigned further agree to strictly conform to the laws and ordinances relating to sewers and to the rules and regulations that are now in force or may be hereinafter adopted in relation thereto and also to the plumbing laws and ordinances so far as they relate thereto.

And the undersigned further agree that no claim for damages which may be occasioned to such estate, or any property thereon in any manner, by the construction, use or existence of such particular sewer or connection, shall be made against the city of Fredericton.

And the undersigned further agree that the said city engineer and other parties authorized by the city shall have access at all reasonable hours, to the said premises, to see that all laws, ordinances and rules relating to the sewer are complied with.

(Signature).....
(Address).....

Passed and enacted this fifth day of July, A. D., 1907.

J. W. McCREADY,
City Clerk

CITY OF FREDERICTON, S. S.:

I, James W. McCreedy, city clerk of the city of Fredericton, in the province of New Brunswick, do hereby certify, that the foregoing pages, numbered from one to nine, both inclusive, contain a correct copy of a by-law passed and enacted by the city of Fredericton on the fifth day of July instant, under authority of 59 Victoria, Chapter 52, Section 15 (1896), the same having been compared by me with the original law so passed and on file in my office.

In witness whereof I have hereto set my hand and affixed the corporate seal of said city this tenth day of July, A. D., 1907.

JAMES W. McCREADY,
City Clerk.

July 11/11

It is said that a fever blister will disappear like magic if touched with a drop of sweet spirits of niter.

M. P. DIES IN HOUSE OF COMMONS

Tragic Seizure of Sir Alfred Billson---His Daughter Was in Ladies' Gallery When Her Father Died.

One of the dramatic episodes of the life of the present Parliament occurred on Tuesday in the House of Commons. Sir Alfred Billson, the Liberal M. P. for North-West Staffordshire, died suddenly from heart failure.

The sugar debate was in full progress. Mr. A. B. Markham was addressing the House and had barely uttered a few words, when Major J. B. Seely, who was sitting at the extreme edge of the front Ministerial bench below the gangway, ran forward and crossed between the chair and the speaker. This is an infringement of the rules of the House, and there was a universal shout of denunciation. Undaunted, Major Seely went on, and engaged in earnest conversation Sir Walter Foster, the well known physician.

MR. JOHN BURN'S SAD TASK.

Mr. Emmett, who was in the chair, rose, and pointedly remarked that it was against the rules of the House for a member to interpose between the chair and a speaker on either the first or second bench. While Sir Walter Foster hastened out, Major Seely resumed his place, and rising said, with much emotion: "I only, Sir, went to fetch a doctor for a member, who is very seriously ill."

The member was Sir A. Billson. A few minutes before the picture of health, for he was a tall man of burly frame, he had crossed the Lobby. Suddenly, without the least warning or sign, he fell, collapsing to the ground.

It was known that his daughter, Miss Billson, was in the Ladies' Gallery, and an M. P. was sent up to convey the sad intelligence that her father had been taken gravely ill; a mother messenger followed with even

graver news, and when the end speedily came the news had to be broken to the unfortunate lady, and this pathetic duty was undertaken by Mr. John Burns.

The end came very soon--after a few minutes--indeed, as the division bell rang. The stretcher and medicine chest of recent times in the House for emergencies were hurried into the Aye Lobby, and the dying man, whose suppressed groans had now nearly ceased, was carried across the Inner Lobby by Mr. Burns, Mr. Seely, and two officers. Many members uncovered as he passed, for it was only two clear the end was near. They carried him into the little room of the Deputy Speaker on the right of the passage which leads from the Inner Lobby to the Reading Room and there, after a few faint twitches of his lips, Sir Alfred quietly passed away without ever having recovered consciousness.

PREMIER'S TRIBUTE

The rapidity of the end caused a most profound impression. Other members have been taken ill in the House before and subsequently died--indeed, one officer who helped with the stretcher had before carried out two members--dying. But so far as is known this was the first actual and recent death in the precincts, of the House itself. The news rapidly spread in the House. Members poured out, and it was clear that further debate was distasteful.

The Prime Minister said that he thought it right, following a precedent of very many years ago, that he should move to report progress. He paid a warm tribute to Sir A. Billson, who, he said, was a man universally respected.

Sir Alfred, who was sixty-eight years of age, was a partner in a firm of Liverpool solicitors.

SETTLEMENT SCHEME.

Ontario to Sell Salvation Army 250,000 Acres of Land--Senator Cox Loans \$50,000 of Money Required.

Toronto, July 24--(Special)--It transpires that during the recent visit to Canada of General Booth, he approved of plans of the local Salvation Army officers for a colonization scheme in New Ontario, and it is said that the interested parties now have practically agreed on the following terms.

Government to sell the Salvation Army ten townships in the Great Clay Belt, comprising some 230,000 acres. The land is the districts of Nipissing and Algoma, north of the

height of land. Price to be 25 cents per acre. Payment of sale to be spread over a period of ten years, without interest.

These settlers are to be under the supervision of Canadians experienced in clearing land for agricultural purposes as well as officials of the Army trained in settlement work.

In connection with the project, it is reported that Hon. Senator Cox has agreed to loan the Salvation Army a sum in the neighborhood of \$50,000.

BULL--TRUE.

Woodstock Wedding in Which Well Known Military Man was one of the Principals.

Woodstock Press.--One of the most anxiously looked forward to events which the town has witnessed for some time took place in the Main Street Baptist church Wednesday afternoon at four o'clock, when Rev. Dr. Keirstead in the presence of a large fashionable audience performed the ceremony which made Miss Luella Augusta True, daughter of Mr. and Mrs. Geo. E. True, and Capt. Le-Baron Bull man and wife.

The church was beautifully decorated with cut flowers and potted plants, and the bridal party stood under a bell of flowers suspended from the ceiling.

The bride who looked charming in a costume of white silk with veil and orange blossoms and carrying a bouquet of white carnations, entered the church on the arm of her father.

Miss Aggie True, the bridesmaid was dressed in blue silk voile with hat to match.

Little Miss Erma Shaw preceded the party as flower girl. Capt. J. Jarvis Bull acted as best man. Mrs. Pugsley played The Voice that Breathed O'er Eden as the party left the church. F. Parker Jacques, Corydon Bull and Judson Vanwart were the ushers.

At the conclusion of the ceremony the bridal party and guests repaired to the residence of the bride's parents, Chapel street, where a reception and luncheon took place. The happy couple departed on the evening express for a tour of Nova Scotia. Upon their return they will reside at Hawkeshaw, York county. The presents were numerous and beautiful.

ROOSEVELT THE HAYMAKER.

First of the Crop of Presidential Campaign Stories.

Philadelphia, July 24--Senator Philander C. Knox, Pennsylvania's Presidential aspirant, told this story to the Elks committee at Valley Forge yesterday.

"President Roosevelt," he said, "was surprised by a Kansas delegation at Oyster Bay not long ago.

The President appeared with coat off, trousers hitched by belt and mopping his forehead.

"Ah, gentlemen," he said, "delighted to see you, delighted. But I am very busy, putting in my hay, you know. Just come down to the barn with me and we'll talk it over while I work."

"Down to the barn hustled delegation and President.

"Mr. Roosevelt seized a pitchfork. But, behold, there was no hay on the floor. 'John, John,' shouted the President to sounds in the hayloft, 'where's all the hay?'

"I ain't had time to throw it back, sir, since you threw it up yesterday," said a man's voice from the loft."

ROMANCE OF A NAME.

Hugh Williams and a Remarkable Series of Coincidences.

Names have figured frequently in coincidences, one of the most remarkable cases being that recorded of a series of men named Hugh Williams, whose escapes from shipwreck are recorded by an English chronicler.

On Dec. 5, 1664, according to this authority, the English ship Menia was crossing the strait of Dover and capsized in a gale. Of the eighty-one passengers on board one was saved. His name was Hugh Williams.

On the same day of the same month in 1785 a pleasure boat was wrecked on the Isle of Man. There were sixty persons on the boat, among them one Hugh Williams and his family. Of the three score none but old Hugh Williams survived the shock.

On Aug. 5, 1820, a picnic party on the Thames was run down by a coal barge. There were twenty-five of the picnickers, mostly children under twelve years of age. Little Hugh Williams, a visitor from Liverpool, only five years old, was the only one who was saved.

Now comes the most singular part of this singular story. On Aug. 10, 1889, a coal laden craft, with nine men, founded in the North sea. Two of the men, each of whom was named Hugh Williams, an uncle and nephew, were rescued by some fishermen and were the only men of the crew who lived to tell of the calamity--Scrap Book.
