

EXTENSION OF CANADA

Explorer Breiner has Added New Islands to the Dominion in the Far North.

QUEBEC, Oct. 21.—"I have had a most successful trip, fully accomplished my mission, and am now awaiting orders," said Captain Bernier as he landed from the Arctic yesterday afternoon. Bluff and hearty looking as ever, the Canadian Arctic navigator seemed to be greatly delighted with his voyage.

The Arctic, looking none the worse for the long voyage through the far northern seas, slowly steamed into port yesterday morning. Many people were on hand to see the somewhat quaint-looking craft as she sailed up the river and dropped anchor opposite the Marine department wharf. Though busy with the endless details which had to be looked after so long a voyage, Captain Bernier accorded a few minutes' conversation.

"I have covered some 11,000 miles of sailing since I left here in July, 1906," said the captain. "The voyage has been on the whole an eventful one. The work of annexing the various islands in the far north and adding them to the domain of the Dominion of Canada was carried out and a large area of new territory now

rests under the Canadian flag as a result of the trip."

Captain Bernier brings back all the records of the islands so annexed and they will be forwarded to Ottawa.

The whalers in the north were all visited and licenses issued to them. The captain reported also bringing back the records of Sverdrup, Peary and McClure, which he came across in the north.

By a strange coincidence, Capt. Bernier built the cairn for his records within a hundred yards of where McClure had made his, only discovering the fact a short time later. The winter had been a good one and there had been little or no sickness among the crew, the only exception being the death of an oiler named Fred Rosenbaum, who passed away after a month's sickness from heart failure. The man had passed a first class medical examination in Quebec before the Arctic sailed.

The Arctic is now awaiting orders as to whether the crew is to be paid off here or whether the vessel will proceed to Sorel.

OUR NEW PATTERN SERVICE.

551, 553, 556—Pillow tops, as gifts, are not exceeded in point of popularity by any article that may be embroidered; the designs here shown represent moderate cost of materials, simplicity of execution, and height of attractiveness, all sought-for qualities when holiday gifts are considered. The prices are:

Dogwood pillow top design: perforation, 25c; stamped on the ticking, 55c; material for ticking, 25c; stamped on tan linen, 75c; colored material to work on linen, 35c.

By enclosing the price of the perforation or of the stamped materials to the Needlework Department of this paper, the design will be sent to any address without delay.

These perforations are far superior to the transfer patterns sold by some newspapers and magazines.

The transfers can only be used once,

and often it is impossible to stamp an article from them, unless the transfer is used with exceeding care.

A perforated pattern may be used again and again, and there is no possibility of failure in stamping with them.

Any information in regard to the working of these designs will be gladly furnished if a letter of inquiry is addressed to the Needlework Department of this paper.

Fill out the blank below, enclose the proper amount, and mail to: The Home Needle Work Pattern Dept., The Herald, Fredericton N. B.

Gentlemen; Please send me Home Needlework Pattern No. as above. Enclosed please find Name P. O. County

Losing Muscular Power?

The First Sign of Mental Decay—The Warning of General Break-Down.

Changes in the nervous system manifest themselves slowly.

They show first by muscular weakness—a feeling that threatens paralysis, or by a fullness in the head, that indicates approaching apoplexy.

It seems like stiffness but you soon discover there's a lack of power—that the endurance of this or that muscle is not what it ought to be.

Your friends may notice a slight thickness of speech or that your memory is decidedly failing.

These symptoms may grow worse very quickly if they are not treated by Ferrozone. You must build up the nervous system. This can be accomplished in no other way as thoroughly and permanently as by the use of Ferrozone.

This remarkable remedy, which has cured tens of thousands of Canadian people, increases enormously the digestive power, stimulates the formation of blood, the rich, red kind that puts new life into the nerves.

The first result of these changes is increased strength.

Natural circulation quickly follows, and that fullness in the head, so disturbing and alarming, too quickly passes away.

These changes are wrought in a natural way, for the reason that Ferrozone treats the causes that excite these troubles.

For the aged and weak who need strength—for those run-down and thin—for the sickly and nervous who lack staying power—nothing com-

pare with Ferrozone. No tonic gives such lasting good health; try it yourself. Sold by all dealers in 50c boxes.

DIGS UP \$10,000 IN RUSTY TIN BOX.

At Least Dave Says So, and Sparrowbush Believes it, for Everybody is Digging.

PORT JERVIS, N. Y., October 21.—Following the announcement today that David Howland, a contractor and bridge builder, of Tunkhannock, Pa., who is constructing a one-story and sequel at Sparrowbush, half a mile from here, had while excavating carelessly shoved the pointed end of his pick into a rusty old tin box which contained, so David deposes, \$10,000 in cash and securities, all roads led to Sparrowbush.

Armed with everything that could make a dent in the soil some of our best citizens took up the line of march, the styles and stappers running from table forks to lightning rods. Amos Plubber unsheathed his wooden leg and was one of the first to get to work. Tonight it can be truthfully said that Sparrowbush is upside down. Every foot of ground has been turned up and the village looks like a deserted battlefield.

According to Dave's story he was digging up rose bushes when he struck something that sounded like a bale of bills. He drew his pick out of the soil and was overjoyed to find an old tin box dangling at the end of it. He knew it was buried treasure because he had often read that buried treasures invariably expressed a preference for old tin boxes. Pulling it out, he opened it up, and lo! it was the work of only a few seconds to reveal the features of some of the

"Manitoba" Overcoats

Another Fit-Reform creation that shows how well we cater to your needs.

The "Manitoba" is a big, roomy, double breasted Overcoat, coming almost to the ankles.

The collar, when turned up, covers the ears.

It may be worn, either with lapels open, or turned in and buttoned close to the throat. It affords perfect protection for the throat and chest on windy days.

Made in a variety of serviceable fabrics. \$18. up.

former presidents and Indian chiefs printed on bright green paper with obby little numerals on the corners. Dave has refrained from showing the box to his most intimate friends. He believes it was buried by old John Hartneit, who died on the premises about ten years ago. Dave declares he will make no official announcements until next week.

BOURASSA WAS TAME

The Man from Labelle Challenged to Test His Strength in Two Quebec Constituencies.

MONTREAL, Oct. 21.—More than eight thousand people attended the meeting at St. Jerome yesterday afternoon addressed by Messrs. Prevost and Bourassa, two special trains of twelve cars each going out from Montreal.

In his speech Mr. Prevost declared that Mr. Bourassa had made thirteen charges against him during his tour of the provinces, all of which he had since abandoned.

He challenged Mr. Bourassa to run against him in Terrebonne county or against Hon. Mr. Targion in Bellechasse.

In his reply, Mr. Bourassa did not attack Mr. Prevost very fiercely, but even declared he was a brave man, intimating that he believed he was being made the scapegoat of Mr. Gouin's government.

The sentiment of the meeting appeared to be fairly divided.

HOUSEHOLD SUGGESTIONS.

Save time when knife cleaning by previously warming the knife board before the fire.

Common snuff sprinkled in the chimneys round the fireplace will drive away crickets.

To cut cheese smoothly and without breaking, fold tissue or paraffin paper over the blade.

When the white of a fresh egg is beaten to a froth and added to the cream, it will whip much more quickly and easily.

A little fresh grated coconut sprinkled over a salad of celery and tart apple with a mayonnaise is a pleasant addition.

Use fine wire for hanging up such articles as rolling pins, chopping knives, potato mashers and pastry boards. The wire loop is perfectly clean.

A few drops of turpentine added to cold water starch or boiled starch will give an excellent gloss to the linen, and will prevent it from sticking to the iron.

Rubber rings used for fruit jars that have become hard may be made pliable again by soaking for half an hour in a solution of two parts water and one part ammonia.

Down on a southern plantation the dairy hands were accustomed to do the milking squatting down in a primitive fashion, until the owner introduced milking stools, with other improvements. But the initial experiment with the innovation was not exactly a success. The dairy who first sailed forth with the stool returned bruised and battered, and with an empty pail.

Ah done ma best, sah, he explained. Dat stool looked all right ter me, but de blamed cow she won't sit on it!

A VALUABLE AGENT.

Deafness because usually due to Catarrh, is quite curable. In a thousand cases this is proved absolutely true. Success invariably attained after cured catarrhal deafness of twenty-five years standing. Penetrating through the passages of the ear, the soothing vapor of Catarrhazone relieves the inflammation, destroys the seeds of Catarrh and thereby allows nature to re-ascend herself. Try Catarrhazone yourself. 25c, and \$1.00 sizes sold by all dealers.

In Terms of Pig.

The ingenuity of the Chinese in surmounting difficulties is well illustrated by the following dialogue, which recently took place on the Imperial Chinese railway.

Traveler—I wish to ship these two dogs to Peking. What is the rate?

Railway Official—No got any rate for dog. One dog all same one sheep. One sheep all same two pig. Can book four pig.

Traveler—But one dog is only a puppy. He ought to go for half fare.

Railway Official—Can do all right. Then turning to his clerk, "Write three pig," he said.—Lippincott's.

Not a Land Shark.

"I hear that you called me a land shark," said the real estate dealer hotly.

"Yes," said the customer, "and I desire to apologize for it. The lots you told me are under water at high tide. You're really a marine shark."

However, even this concession did not seem to restore the entente cordiale.

Best Seat in the House.

Executioner—How is this? We are going to cut your head off today, and yet you are laughing. The Condemned—Yes; I was thinking how glad some people would be to occupy the seat behind me at the theater tonight.—Lippincott's.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative power that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
