HAVING RARE SPORT.

The run of smelt is said to be the best in several years, and according to reports some great catches are being made. Several ladies of color were noticed in the crowd fishing at the court house slip yesterday afternoon, but they had rather indifferent success.

THE BISHOP BETTER.

The many friends of Bishop Kingdon and citizens generally, will be glad to learn that there is quite a marked improvement in his condition today. He is not however, out of danger, and will be obliged to keep to his bed for some time.

THE LUMBER DRIVES.

Latest Reports from the Headwaters are More Encouraging.

Mr. Thomas Clair, M. P. P., of Clair Station, arrived in the city last evening on business with the Local Government, and is a guest at the Queen. Speaking of the lumber drives he said that undoubtedly some of the operators on the Upper St. John were having a hard time of it, as of late the water had been falling fast. This he explained was due to the backward state of the weather. There is still about two feet of the snow in the woods, and if warm weather comes, even if there should be no heavy rains, there will be a rise of water and the drives will have a good chance of getting out. He does not think a present there is any real cause for alarm.

Word has been received that Mr. William Stone's drive on Blue River for Randolph & Baker, is progressing favorably. The water continues at a good driving pitch, and there is every prospect of the drive being out in the course of a few days. The Scott Lumber Company have their drive of five million feet boomed in the cove near their mill at Magaguadavic Lake, and their mill there is running to its fullest capacity. This enterprise, however, has thirteen million feet of logs in safe water, and all that remains to be brought out is their drive on Smoky River in the province of Quebec. They anticipate the best season they have ever had.

The water in the river here is still falling steadily, having dropped about four inches during last night. There has been a very good run of logs at the booms during the past few days.
