

METHODIST CONFERENCE.

Cheering Reports of the Past Year's Progress—Rev. Mr. Campbell's Work Eulogized.

St. Stephen, N. B., June 21.—The fourth session of the Methodist conference opened at 2 p. m., President Crisp in the chair. After devotional exercises, Rev. Dr. Paisley submitted the report of the educational fund committee, showing receipts to be \$116.89. Dr. Paisley, having called attention of the conference to the fact that the general conference had directed that the union church relief fund should be extinguished not later than 1910, and had apportioned to this conference as its fair proportion of total amount the sum of \$500, it was resolved that a committee of three to be nominated by the president, should be appointed to proportion that amount to the district; second, that the financial district should apportion the amount to the circuits. The president nominated as the committee Revs. Geo. Steele, G. A. Ross and E. Bell. Dr. Paisley was appointed treasurer of the church relief fund.

LAYMEN'S MISSIONARY MOVEMENT.

Rev. E. Shore, field secretary for the foreign department of missions, then addressed the conference on mission work. He especially explained the laymen's missionary movement, stating it originated in New York a few years ago. It is to organize the laymen of Christendom into a spiritual and missionary feeder and to apply business principles to the policy of our missionary work. One of the practical steps taken this year was to set apart a secretary to organize a laymen's centennial commission to visit the Christian nations of the world to remedy the conditions of morality, life and missionary labors of those peoples. Its aim is to bring the gospel to every man, woman and child within the present generation.

Moved by Rev. G. M. Campbell, seconded by J. J. Weddall, Fredericton and unanimously resolved, that the conference having heard with deep interest and sympathy the address of Rev. T. E. Shore, setting forth the aims and work of the international laymen's movement, thanking him for the information imparted to its members and expresses its belief in the purposes of the organization and pledges itself to support the movement in every possible way.

PRESBYTERIAN GREETINGS.

At this point Rev. George M. Young conducted to the platform Rev. L. B. Gibson, B. D., and P. G. MacFarlane, M. A., a delegation bringing fraternal greetings from the Presbyterian Church.

Rev. Mr. Gibson said: "We have come up from the Presbyterian church of this town to convey their greetings and bid the conference welcome to our midst. The Methodist church had made rapid progress the world over, and Presbyterians rejoiced over it. The church rejoiced in the peace and good will especially existing between the two churches."

Mr. MacFarlane wished the conference enjoyable and profitable sessions. On motion of Rev. George Steel, seconded by Rev. J. C. Berrie, the following resolution was unanimously adopted:

That this conference having heard with much pleasure the addresses of Rev. Mr. Gibson and Elder MacFarlane, conveying the greetings of the Presbyterians of St. Stephen, desires to assure these esteemed representatives of the great sister church of the real heartiness with which we have received them and of our desires and prayers that these churches may be drawn closer and closer together until, in the providence of God, they may be no longer two, but one in carrying forward the work of the Lord in this Dominion."

A NEW OFFICIAL.

Rev. Mr. Bartlett, the new as-

ciate secretary of Sunday schools and Epworth Leagues for the Maritime provinces, was introduced to the conference and spoke at some length upon the work of which he is now assuming supervision. His address dealt with evangelical educational, and industrial phases of work among the young people. The following resolution was passed:

"The conference has heard with great pleasure and interest the address of Rev. Mr. Bartlett, secretary of Sunday schools and Epworth Leagues, would welcome him to our conference and would express its satisfaction with the creation of the office and would assure Mr. Bartlett of its hearty sympathy and it pledges all possible support to whatever he may undertake in the interest of the department."

The following executive committee was appointed for this year to assist Rev. Mr. Bartlett: E. R. Machum, Revs. A. Lucas, W. S. Robinson, G. M. Campbell, George Steele.

SUNDAY SCHOOL REPORT.

E. R. Machum presented the report of the Sunday schools of the conference. He stated that the amount raised by the schools for all purposes was \$7,719.86 an increase over last year of \$129.73. Total members in the schools are 16,367, a decrease of 292.

Dr. Allison moved, seconded by Dr. Rogers, that this conference taking note of the fact that Rev. G. M. Campbell has been appointed district secretary of the Canadian Bible Society for the maritime provinces and Newfoundland and of the further fact that the ministerial conference has granted him permission to withdraw from the regular work of the ministry, that he may devote himself exclusively to this important field of Christian activity, desires to place on record an expression.

1st, of its deep sense of the loss which the pulpits and circuits of our church must sustain by the removal from the itinerant work of an effective and successful minister.

2nd, of its conviction that this loss great as it is, will be more than compensated by the gain sure to accrue to our common Protestant Christianity from Mr. Campbell's leadership in the new and much needed movement to increase and intensify interest in the circulation of and use of the Holy Scripture.

3rd, of its strong desire and hope that when the time necessary for the organization and consolidation of this new work shall have passed it may please Divine Providence to open up the way for Mr. Campbell's return to the work of the regular ministry in our conference to add to the crown of his rejoicing.

SUSTENTATION REPORT.

Rev. J. J. Pinkerton reported for the sustentation fund as follows: The committee orders that the secretary-treasurer divide the fund according to the constitution as interpreted by the conference of last year. The ideas of the conference on the matter were expressed in the following resolution, moved by Rev. J. K. King and seconded by Rev. Mr. Bell:

That the sustentation money be so distributed as to give each man on a mission what his mission raised for the fund, also that each man on a semi-independent circuit be paid what his circuit raised and that then all that was contributed by independent circuits be used to level up the semi-independent ones.

A public educational meeting, Dr. Allison presiding, tonight was addressed by Rev. J. W. McConnell, and Rev. Mr. Graham. Rev. Mr. Graham delivered stirring and most interesting addresses this morning in conference and again to a large congregation tonight.

KIMONO PARTY IS NEW YORK'S LATEST.

Dancing by Well-known Authoress and Artist Caused a Sensation.

New York, June 22.—Edmund Russell, painter, author and tourist, who on Monday evening gave a kimono party in his artistic and attractive studio on the top floor of No. 40 West Thirty-ninth street, talked yesterday afternoon on kimonos and their reference to aesthetics, and on similar artistic themes.

Mr. Russell who had laid aside the Oriental bejeweled statue kimono presented him by the Gackway of Baroda, in which he received his guests, for a plain American business suit of gray mixed cloth sack coat and trousers—was enthusiastic regarding his party.

"It was an artistic triumph," he said. "You should have seen Mr. H. L. Horton, the banker, in his scarlet red kimono, embroidered with gold dragons, and, topping all, his fine face framed in snowy beard and whiskers, and there were also other handsome and effective kimonos worn."

"But the feature of the evening was the dancing of Mrs. Ethel Watts Mumford-Grant, the well known authoress and artist. Her gown was simply wonderful. She wore a close fitting Oriental garment—not a kimono—covered and spangled with costly gems. Her whole appearance was that of an eastern queen, and

when she sat in the carved throne over there she looked superb. And then her dancing! To the music of a tom-tom beaten by a charming young girl, Mrs. Mumford-Grant danced two dances of the Orient—two gliding, sensuous creations. Such art! Such grace! It was the sensation of the evening. I always try to have one artistic novelty, at my affairs, and this dance of Mrs. Ethel Watts Mumford-Grant's last night was it."

"What was your idea in giving a kimono party," Mr. Russell was asked.

"They have," he replied, "been wearing kimonos a good deal at the opera and elsewhere this past season, as you know, as outer wraps, and some of these have been so rich and handsome that it occurred to me to give an evening party with my guests attired in this characteristic garment of the Japanese. It was a success."

"Then you think the kimono artistic?"

"Yes in its way, and it gives room for the use of the richest and most beautiful stuffs. You know that the two representative feminine costumes of the Orient are the Indian sari and the Japanese kimono. The Japanese, who with the Chinese, as Mme. Blavatsky has well said, are

the remnants of civilization long before us, think nothing of the human figure. They do not care for it unlike the Greeks, who worshipped it, and whose goddesses were always pictured and sculptured nude. The Japanese, on the contrary, swathe the figure all the more as rank increases, so that their queens and goddesses are covered, or rather, voluminously enveloped in great folds and mounting stuffs. The lower classes alone are only partly clothed. The Hindus do not venerate the human figure as did the Greeks, but on the other hand they do not despise it as do the Japanese. The Hindu woman, especially the high class woman, wears the sari gracefully. She wraps it in tight folds around and above her head, but she leaves the shape of her figure visible through the folds.

"Mr. Watts-Mumford, in her costume and dance, was a comfort to the eye."

WATERY BLOOD.

Nerves are Weak
Face is Pallid
You Lack Strength
You Look Sickly

Until You Ironize and Fortify the Blood There's no Hope of Cure.

Thousands of tired workers need the invigoration, the strength, the nerve-force which Ferrozone can supply.

Ferrozone imparts strength because it nourishes.

Ferrozone is able to nourish because it supplies to the blood the elements it lacks.

Once the blood is vitalized, its tonic influence is circulated to every nook and corner of the body, carrying new life with it.

Cases on record prove that Ferrozone builds up when else fails. Mr. Alonzo W. Douglas of Woodbridge, Ont., says: "I desire to state the results I derived from the use of Ferrozone. Two years ago I was stricken with pneumonia. So severe was the attack and so reduced was my strength that my life was despaired of. I had the very best medical attention, but made no progress towards recovery. When reduced to practically a kind friend told me of the remarkable powers of Ferrozone. An improvement began almost at once. I gained steadily in weight and strength until Ferrozone made me a new man. I will gladly answer inquiries from other sufferers if they care to have further particulars about my recovery. Ferrozone deserves its great measure of success."

When a man in Mr. Douglas' low condition can be quickly cured, are not the chances good for you? Don't fail to try Ferrozone. Price 50 cts. per box at all dealers.

BANK OF BRAZIL HIT HARD.

Lent 7½ Millions to Relieve the Coffee Troubles.

Rio Janeiro, Brazil, June 22.—The coffee troubles put in a serious condition the Bank of Brazil, which has lent \$5,000,000 to the Government of Sao Paulo and \$2,500,000 to the firm of Wille & Co. It is generally believed Congress will authorize the government to guarantee the loan.

The French, Belgian and Canadian syndicate complains of the attitude of the government of Sao Paulo. The syndicate purchased the Sorocabá Railway, and has already paid \$1,300,000; nevertheless the Legislature has not yet sanctioned the sale.

THE BEST GUARANTEE OF MEDICINE IS OPEN PUBLICITY.

Every bottle of Dr. Pierce's world-famed medicine leaving the great laboratory at Buffalo, N. Y., has printed upon its wrapper all the ingredients entering into its composition. This fact alone places Dr. Pierce's Family Medicines in a class all by themselves. They cannot be classed with patent or secret medicines because they are neither. This is why so many unprejudiced physicians prescribe them and recommend them to their patients. They know what they are composed of, and that the ingredients are those endorsed by the most eminent medical authorities. The further fact that neither Dr. Pierce's Golden Tonic, liver invigorator, heart regulator and blood purifier, nor his "Favorite Prescription" for weak, over-worked, broken-down, nervous women, contains any alcohol, also entitles them to a place all by themselves.

Many years ago, Dr. Pierce discovered that chemically pure glycerine, of proper strength, is a better solvent and preservative of the medicinal principles residing in our indigenous, or native, medicinal plants than is alcohol; and, furthermore, that it possesses valuable medicinal properties of its own, being demulcent, nutritive, antiseptic, and a most efficient antiferment.

Neither of the above medicines contain alcohol, or any harmful, habit forming drug, as will be seen from a glance at the formula printed on each bottle wrapper. They are safe to use and potent to cure.

DO NOT NEGLECT THE CHILDREN.

At this season of the year the first unnatural looseness of a child's bowels should have immediate attention. The best thing that can be given is Chamberlain's Colic, Cholera and Diarrhoea Remedy, followed by castor oil as directed with each bottle of the remedy. For sale by all Dealers.

ELECTRIC WIRES KILLED FOUR MEN.

Lattes Were Raising Boiler When it Struck Wires and Broke Them.

New York, June 22.—Four Italian laborers were shocked to death yesterday and two others were rendered unconscious last night when a steel boiler which the men were moving on a flat car came in contact with a group of electric light wires in the yards of the Proctor & Gamble soap manufactory at Mariners' Harbor, Staten Island.

The boiler was being transferred from the building to another over the yard railway that led between two poles and under the wires of the Richmond Light and Railway Company. Seven Italians composed the moving gang.

Four of them were pushing with both hands against the boiler, while the others' hands were on the wooden truck of the car. They failed to observe that the steel, towering high above the boiler, would not clear the wires above, and their load struck against the construction. As the wires touched them, seven of the ten snapped, while 5,000 volts of electricity passed through the boiler, against which the hands of four of the men were pressed. These men dropped dead. Dangling ends of the broken wires struck two other men, hurling them senseless to the ground. The seventh man escaped injury. When he saw what had happened to his companions he fled. Two firemen in charge of the yard were arrested.

WHY CHEST COLDS ARE DANGEROUS.

They lead to pleurisy and pneumonia. Follow the advice of W. H. Poewle's Corners, Ont., who says:—

"I used to be subject to attacks and although I used most everything nothing relieved quickly till I discovered Nerviline. I have used it for pleurisy and sore chest and found it just the proper thing. For Lumbago or Neuralgia it's quick as lightning. I cheerfully recommend Nerviline." Strongest, cleanest, most pain destroying liniment on earth is Polson's Nerviline. 25 cent bottles sold everywhere.

If ribbons need renewing wash them in cool suds, made of soap, and iron when damp. Cover with a clean cloth and iron over it.

MAILS CLOSING

In effect, October 1, 1906.

6 a.m.—For St. John, etc., St. Stephen and Charlotte Co., Carleton, Victoria and Madawaska Counties, and United States.

7:00 a.m.—Woodstock and Gibson Branch Stations, daily.

WAY MAILS—East Side St. John River.

7:00 a. m.—For Keswick Ridge, Southampton, etc., Mondays and Thursdays.

West Side St. John River.
