NOTICE TO CONTRACTORS.

Scaled tenders addressed to the undersigned, marked on the envelope "Tender for Construction," will be received at the office of the Commissioners of the Transcontinental Railway, at Ottawa, until twelve o'clock noon of the 25th day of June, 1907, for the work required for the construction, in accordance with the plans, profiles and specifications of the Commissioners, for the following section of the Transcontinental Railway, viz.:

District "A"—From a point designated on the plans of the Commissioners at or near the Town of Chipman, in the Province of New Brunswick, easterly for a distance of about eight miles.

Plans, profiles and specifications may be seen in the office of the Chief Engineer of the Commissioners at Ottawa, also in the office of District Engineer Guy C. Dunn, St. John, N. B.

Persons tendering are notified that tenders will not be considered unless made in duplicate, and on the printed forms supplied by the Commissioners.

Tenderers shall not be in any way entitled to rely upon the classification or any other information given by any person on behalf of the Commissioners, and before submitting any tender, bidders should make a careful examination of the plans, profiles, drawings and specifications, and read the forms to be expected, and fully inform themselves as to the quantity and quality of materials, and character of workmanship required; and are understood to accept and agree to be bound by the terms and conditions contained in the form of contract, specifications, &c., annexed to the form of tender.

Each tender must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent (10 p. c.) of the amount of the tender.

Any person whose tender is accepted shall, within ten days after the acceptance thereof, furnish such additional approved security as may be required by the Commissioners; sign the contract, specifications and other documents required to be signed by the said Commissioners; and, in any case of refusal or failure on the part of the party whose tender is accepted to complete and execute a contract with the said Commissioners, and to furnish the additional approved security within ten days after the acceptance of the tender, the said cheque shall be forfeited to the Commissioners as liquidated damages for such refusal or failure, and all contract rights acquired by the acceptance of the tender shall be forfeited. The cheques deposited by parties whose tenders are accepted will be deposited to the credit of the Receiver General of Canada as part of the security for the due and faithful performance of the contract according to its terms. Cheques deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.

Attention is called to the following clauses in the form of contract:

"All mechanics, labourers or other persons who perform labour for the purposes of the construction of the works hereby contracted for shall be paid such wages as are generally accepted as current for competent workmen in the district in which the work is being performed, and if there is no current rate in such district, then a fair and reasonable rate; and, in the event of a dispute arising as to what is the current or a fair and reasonable rate, it shall be determined by the Commissioners whose decision shall be final."

"This agreement is subject to the regulations now in force, or which may at any time hereafter be in force during the construction of the works hereby contracted for, made under the authority of the Department of Labour, and which are or shall be applicable to such works."

(The schedule of Minimum wages determined upon by said department will form part of the contract.)

"The contractor shall, in connection with the whole of the said work, as far as practicable, use only material, machinery, plant supplies and rolling stock manufactured or produced in Canada, provided the same can be obtained as cheaply and upon as good terms in Canada as elsewhere, having regard to quality and price."

"The contractor shall conform to the fire regulations adopted by the Commissioners; and also to the laws and regulations respecting fires in the different Provinces wherein the work is being performed."

The right is reserved to reject any or all tenders.

By order,
P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway,
Ottawa, June 5th, 1907.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

In this place, on receipt of price. New pamphlet sent free. The Wood Medicine Co. formerly Watsons Toronto Ont.

FLAME AND SMOKE.

Enormous Destruction Caused by Forest Fires---C. N. R. Bridges Burned.

Fort William, June 22.—East of here fire is running along the line of the C. N. R. track on both sides. It extends for miles, and trains running on the Lake Superior division travel through dense clouds of smoke. Yesterday the smoke was so thick that it was necessary to light the lamps of the cars early in the afternoon, and it was not until the train reached Mackenzie that the trainmen were able to turn the lights off. Trainmen state they have never before experienced anything like it. Engineers are able to see but a few feet ahead of them. North of Peel River practically the whole country is red-hot. Flames and smoke are shooting hundreds of feet into the air. People living all along the line are in the greatest terror, and they are ready to flee to the towns at a minute's notice.

TRANSCONTINENTAL CONTRACTOR LOSSES.

One contractor for building a section of the National Transcontinental from Winnipeg to Superior Junction received word that one storehouse north of Vermilion has been destroyed, entailing a loss of \$30,000 in supplies and equipment. This is only one of several similar storehouses damaged to date, and a number of others are in danger.

J. D. McArthur, Winnipeg, wired to see whether any stock in the construction camps has been injured, but has not yet been able to get a reply.

A number of small lakes which dot the country along the new line are proving of great assistance in fire-fighting. The wind has held every day for several days past in one direction, and the fire has made rapid

progress. With a change of direction the work of fire-fighting will be easier.

Mr. McArthur states that during the past winter he hauled over a million dollars' worth of supplies to the store-houses now in danger. These include \$400,000 worth of dynamite, the largest order ever placed by one contractor. Should the fire get to these stores the result will be disastrous, as there are no summer trails through a large part of the country by which they could be replaced. The line from Superior Junction to Fort William is also in a dangerous position. Much of the embankment has been constructed of muck from the muskegs through which it runs, and this will burn readily. These sections are being carefully watched, as their destruction would set the work back for several months.

C. N. R. LOSE BRIDGES AND TIES.

On the C. N. R. the fire is still raging fiercely, and the losses to the company will be very large. No less than 20,000 ties were destroyed at one point, and 6,000 at another. Six bridges also fell a prey to the flames between the fifteen mile post and Silver Mountain.

At one time residents of Hymers were seriously considering the advisability of deserting the place. On the main line of the C. N. R. the bridge at Mattawin was destroyed, in addition to 15,000 ties. The construction is so serious that two train crews were sent out from Stanley to fight it. It finally burned itself out, and the bridge was rebuilt, so that the line is once more clear.

HOUSEHOLD HINTS.

Some Interesting Information for Busy Housewives.

RECIPES.

DAINTY VANILLA WAFERS.

One cup sugar, two-thirds cup butter, four tablespoons milk, one tablespoon vanilla, one egg, two and a half teaspoons baking powder; flour to roll very thin; cut in small, fancy shapes.

ENGLISH MARMALADE.

Cook a dozen large bitter oranges in their skins until quite soft. Chop in small pieces, removing the seeds. Make a syrup of three pounds of sugar, add the juice and grated rind of two lemons and three and one half quarts of water. Let the syrup boil until quite thick, add the oranges and simmer together half an hour, watching carefully lest the mixture over-boil and darken. It should be a clear transparent amber color.

POTATO FLOUR CAKE.

One cup granulated sugar, four eggs, one even teaspoon baking powder, half-cup potato flour, flavor with orange extract, pinch of salt beat eggs very light, and sugar little at a time until all used, then beat ten minutes, add flour same as sugar, beat whites very stiff and fold in gently with flavoring and salt. Will be all foamy, bake slowly at first. The potato flour can be bought at some of the large grocery stores or at any Swedish bakery.

GRIDDLE CAKES.

One-half pound of flour, two eggs, two teaspoons baking powder, butter size of egg (melted), tablespoon sugar and enough sweet milk to make it of the proper consistency.

SWEDISH SPONGE CAKE.

Beat the whites of four eggs to a stiff froth, add half cup sugar and beat two minutes. Beat the yolks of the eggs three minutes, add half cup of sugar and beat as before. Put whites and yolks together and beat three minutes. To this add half cup of potato flour in which one teaspoonful of baking powder has been sifted, and beat until it is well mixed. Bake in a moderate oven forty minutes. This makes a most delicious cake. This potato flour can be obtained at your grocer's at the small cost of ten cents per package, each package containing enough flour to make five cakes.

SUNFLOWER CAKE.

Yolks of three eggs, half cup of butter, one cup of sugar, half cup of milk, one and one-half cups of flour, one teaspoonful of baking powder. Flavor with orange and frost with chocolate frosting.

ORANGE PUDDING.

One and one-half cups stale bread crumbs, one cup finely chopped suet, one cup sugar, two eggs, grated rind and juice of one orange, half cup of milk. Mix thoroughly, fill six well-buttered cups and boil thirty minutes. Turn out on dish and serve with hard sauce.

THINGS WORTH KNOWING.

A PRETTY RUG

Here are directions to make a pretty inexpensive rug. Get bed ticking,

any length (36 inches by 24 inches is a good size). Take a piece of card board twenty-four inches long and three inches wide and cut a piece out of the centre twenty-two inches long and one inch wide, so as to leave a frame. Cut rags in narrow strips and wind over cardboard frame and then put in ticking and stitch it rough centre of rags where cardboard is cut out. Cut the rags on each edge of cardboard and then you can lift cardboard frame out for next row. Continue this until rug is finished. These rugs are very pretty made with dark border and mixed colors in centre.

A COMFORT FOR THE SICK.

A sheepskin is of great value to a person who is confined to bed. Place under the sheet, the wool side up; it is a good plan to have two, so one can be used while the other is being aired. To keep them soft they should be beaten on the back, never on the wool.

TO CURE EARACHE.

Fill a cup with boiling water, let stand until the cup is thoroughly heated, then pour out the water and put into the hot cup a few drops of ether; place immediately over the ear allowing the steam to penetrate; place a piece of soft cheese cloth around the edge of the cup to prevent burning the patient.

SAVE GAS WHILE ROASTING MEAT.

When you want a small roast of beef and do not care to have an oven fire, try this way: Heat a common iron spider, put the roast in and cover with a basin that will fit the spider and prevent the steam escaping; baste occasionally and turn as needed. When done, no one will know that it has not been in the oven. This method is a great gas saver as it can be done over a small burner in less time than in the oven and the meat is more juicy than when baked.

COLIC AND DIARRHOEA.

Pains in the stomach, colic and diarrhoea are quickly relieved by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by all Dealers.

Vegetables with a strong flavor, such as onions and turnips, will be much improved by putting them to boil in cold water, renewing this from a kettle of boiling water as soon as it comes to a scald.

D-A Corsets

They are the smartest models known to the Corset Manufacturer's art, science and sense having achieved a wonderful triumph.

Prices range from \$1.00 to \$5.00.

Will Improve Your Figure.

S. S. CONY

Sunbury Gathering will be held at Tracy Station, July 5.

BLUE PILLS NO LONGER USED.

When the stomach needs cleansing, the bowels increased activity, the liver additional power, don't use mercurial pills, try Dr. Hamilton's Vegetable in composition, extremely mild, yet sure to flush out all impurities and wastes, no remedy is so well adapted for family use. Positively a cure for biliousness and sick headache, unrelenting constipation and bowel trouble, exceptionally good for indigestion, no medicine is so universally needed in every home as Dr. Hamilton's Pills. Good for the young, the old, the sick and the well ones, the benefits of Dr. Hamilton's Pills are manifold. Sold everywhere in 25c. boxes.

"This document," said Senator LaFollette, anent an unreasonable petition, "reminds me of the letters that a civil servant in India sent to the Government."

"The man was a Babu, as the educated Indian natives are called. He was in charge of the state library and the documents in this library were being eaten by the rats. Accordingly he applied to the Government for weekly rations for two cats."

"The rations were granted him and several weeks passed, when the Government received from him this letter."

"I have the honor to inform you that the senior cat is absent without leave. What shall I do?"

"Receiving no reply, he wrote again as follows:

"In re absentee cat, I propose to promote the junior cat, and in the meantime to take into government service a probationer cat on full rations."

EVERY MAN HIS OWN DOCTOR

The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must from necessity, be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when suitable medicines are kept at hand. Chamberlain's Remedies have been in the market for many years and enjoy a good reputation.

Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints.

Chamberlain's Cough Remedy for coughs, colds, croup and whooping cough.

Chamberlain's Pain Balm (an antiseptic liniment) for cuts, bruises, burns, sprains, swellings, lame back and rheumatic pains.

Chamberlain's Stomach and Liver Tablets for constipation, biliousness and stomach troubles.

Chamberlain's Salve for diseases of the skin.

One bottle of each of these five preparations costs but \$1.25. For sale by all dealers.

DO YOU FEEL THE PINCH?

Not of poverty, but of corns, aching corns, that can be cured by Putnam's Corn Extractor? Don't suffer use "Putnam's"—sold everywhere in 25c bottles.

In boiling meats take the fat from the top of the water and save for cooking or soap. In roasting meat pour the grease out of the pan or dip it out before it gets burned. It will be excellent for use in cooking. But if it stays till the meat is done it will be nearly sure to have a burned, unpleasant flavor.

A bluejacket three sheets in the wind was creating a big disturbance on shore, and it was only after the sixth policeman had arrived on the scene that he was overpowered and handcuffed the six afterward escorting him on board his ship. Saluting the officer of the watch as best he could, he reported:

"Brought six phlicemen 'board, sir."

"You mean they brought you on board."

"Beg to differ, sir—I brought them, sir—I surrounded them, sir!"—Illustrated Bits.
