A LAW.

To regulate the Use of the Common Sewers of the City of Fredericton and to Establish the Rates and to be Charged Therefor.

BE IT ENACTED by the (L. S.) Mayor, Aldermen and Commonality of the City of Fredericton as follows:

[Sgd.] H. F. McLeod, Mayor.

1. The City Engineer under the direction of the City Council, shall have the general supervision and inspection of the construction and maintenance of all common sewers built or owned by the City, and of all connections of particular sewers built and constructed under the provisions of this law. The Engineer shall cause accurate plans thereof to be made, representing the location, depth and material, with a section plan of each sewer, indicating the size, shape, thickness and construction and shall cause to be shown upon said plan all existing connections of said sewers and all other connections as they are made.

2. All applications for the construction of particular sewers, and their entrances into the common sewers, and for permits to enter the same, shall be in such form as the City Council shall prescribe, and be filed with the City Engineer. All that portion of any particular sewer laid within the limits of any public street, square and alley-way of the City of Fredericton, and its entrance into the common sewer, shall be constructed, maintained and kept in repair by the City Corporation, and shall be the property of the City and the cost thereof shall be paid by the owner of the estate connecting, before the same is used or house connections made therewith. The cost of all repairs, or removal of stoppages, made upon any particular sewer, shall be paid by the owner of the estate connecting.

3. No work of laying a particular sewer shall be commenced or allowed to continue unless and until the deposit hereinafter required shall have been paid to the City Treasurer and a permit in Form "A" prescribed in schedule hereto, shall have been issued by the City.

4. Applications for permits to connect any particular sewer with a common sewer shall be made in writing signed by the owner or owners of the property to be connected, according to Form "B" of the Schedule hereto. At the time of making such application the applicant shall deposit with the City Treasurer an amount equal to the estimated cost of making the required connection, in no case less than TEN (\$10.) dollars, and no permit shall be issued until the amount of the required deposit has been paid. This deposit shall be credited to the cost of installation, and should such cost of installation exceed the deposit, the applicant will be required to pay the difference to the City Treasurer, together with the amount of his sewer rate for the then current half-year before the same is used or house connections made therewith. In case the deposit should exceed the cost of installation and rental, the surplus shall be refunded by the city treasurer to the applicant.

5. Every particular sewer shall be of such size and laid at such grade as the City Engineer or his assistant shall direct.

6. The City Engineer, or other person appointed by the City Council for such purpose, shall have the right at all reasonable hours to enter the premises and inspect any particular sewer and its connections and plumbing.

7. The inside of every particular sewer, after it is laid shall be smooth and clean throughout its entire length and all work and plumbing on same must be done to the satisfaction of the City Engineer.

8. When any change in direction is made in the pipe, either in horizontal or vertical direction special bends shall be used.

9. No live exhaust or waste steam or blow off, or drip pipe from any steam boiler, waste from acetylene or other illuminating gas plant, or any drainage shall be discharged directly into any common sewer or any particular sewer or house drain, connected therewith.

10. No permit to connect with the common sewers shall be issued to any manufacturing establishment, until the owner or owners, shall have fulfilled any special requirement recommended by the City Engineer.

11. No person shall throw into any sewer or drain, inlet, manhole or catch-basin, any earth, dirt, stones, bricks, saw-dust, ashes, cinders, shavings, hair, grease, oyster, clam or lobster shells or any other substances detrimental to the sewers or the use thereof.

12. Every particular sewer, which shall enter into any common sewer, shall be built of such materials, dimensions and description, with such grade and in such manner as City Engineer shall direct.

13. Every person owning or occupying property situate on any street along which there is a common sewer shall make immediate connection with the same within such time as the City Engineer, shall direct, by a written notice served on such person by delivery of the same personally, or by leaving same on any street along which there is a common sewer. In case any person shall neglect or refuse to comply with the terms of such notice the City Council may order such sewer connection to be made and the expenses of same shall be a lien upon the property so connected and may be recovered from the owner by suit in any court of competent jurisdiction.

14. Any person convicted of a breach of any of the provisions of this by-law, shall forfeit and pay, at the discretion of the convicting magistrate, a penalty not exceeding FIFTY DOLLARS and costs for each offence.

15. Every person or owner who connects his particular sewer with a common sewer shall pay for the use of such common sewer, an annual rent, to be fixed by the City Council, shall be paid semi-annually on the first day of May and the first day of November in each year.

At the same time the water rates are now payable, and no water permit shall be issued upon any premises having sewer connection unless the sewer rental has been paid. Unless the water rates and sewer rentals are paid within sixty days after the time hereinbefore mentioned, it shall be the duty of the engineer to cause the water to be shut off such premises. In any case where the water supply has been shut off for non-payment of water rates or sewer rental, or both, the sum of three dollars will be charged for turning on the water and inspecting the water and sewer connection.

The following shall be the rentals to be charged for the use of the common sewers, to be paid semi-annually in advance on the first day of May and the first day of November as aforesaid:

SCHEDULE FOR SEWER RENTALS.

One kitchen sink in dwelling.....	\$2.00
One kitchen sink and one bath room, (to include wash bowl, seat and tub) in dwelling.....	4.00
Each additional bath.....	2.00
Each " " closet.....	2.00
Each slop sink.....	2.00
Each additional urinal.....	1.00
Each " " wash bowl.....	1.00
Each " " sink.....	.50

Hotels, boarding houses, etc., shall pay the same as for family rates and in addition shall pay a fixed sum of twenty-five cents per bed.

All government buildings, federal and provincial, one half the amount of the water rates.

Buildings occupied as stores, or offices, or for other business or commercial purposes, when not otherwise specified, an amount equal to the water rates.

School buildings and churches, one half the amount of the water rates.

Manufacturing establishments, when discharge is properly protected to the satisfaction of the engineer, employing fifty persons or less, ten dollars; for each additional 25 or less two dollars.

Steam laundries, when discharge is properly protected to satisfaction of engineer, fifteen dollars.

In no case shall the minimum rental be less than two dollars.

Form A.

FREDERICTON SEWERAGE SYSTEM.

Received from..... street, the sum of..... Dollars the estimated cost of making connection from said premises to common sewer. The above payment is received and this permit issued, subject to the regulations and by-laws of the city of Fredericton.

Form B.

APPLICATION FOR A PARTICULAR SEWER OR HOUSE DRAIN.

To the Mayor and Aldermen and Commonality of the City of Fredericton.

The undersigned, being owner of the estate requests that a private sewer be laid from the..... street, and that the same may be connected with the..... street sewer, and that..... may be allowed the use of such sewer for the purpose of disposing of the sewerage of said.....

And the undersigned agree to pay to the said city before connecting said..... with the said particular sewer, all of the cost of said sewer, including labor and materials or any other expense incurred necessary for the proper construction of said sewer.

And the undersigned further agree to strictly conform to the laws and ordinances relating to sewers and to the rules and regulations that are now in force or may be hereinafter adopted in relation thereto and also to the plumbing laws and ordinances so far as they relate thereto.

And the undersigned further agree that no claim for damages which may be occasioned to such estate, or any property thereon in any manner, by the construction, use or existence of such particular sewer or connection, shall be made against the city of Fredericton.

And the undersigned further agree that the said city engineer and other parties authorized by the city shall have access at all reasonable hours, to the said premises, to see that all laws, ordinances and rules relating to the sewer are complied with.

(Signature).....

(Address).....

Passed and enacted this fifth day of July, A. D., 1907.

J. W. McCREADY,

City Clerk

CITY OF FREDERICTON, S. S.:

I, James W. McCreedy, city clerk of the city of Fredericton, in the province of New Brunswick, do hereby certify, that the foregoing pages, numbered from one to nine, both inclusive, contain a correct copy of a by-law passed and enacted by the city of Fredericton on the fifth day of July instant, under authority of 59 Victoria, Chapter 52, Section 15 (1896), the same having been compared by me with the original law so passed and on file in my office.

In witness whereof I have hereto set my hand and affixed the corporate seal of said city this tenth day of July, A. D., 1907.

JAMES W. McCREADY,

City Clerk.

Hon. Mr. Emmerson seems to have won the first round in the campaign against his detractors.

FRIGHTFUL DISASTER.

Over 100 Lives Lost by the Collision of Steamships.

San Francisco, Cal., July 23—In one of the worst marine disasters in the history of the California coast, between 100 and 150 lives were lost, as far as has been learned, by a mid-night collision between the steamer Columbia and the steam lumber schooner San Pedro in Shelter Cove twelve miles southwest of Mendocino-Humboldt County line, between twelve and one o'clock Sunday morning.

The Columbia, a three hundred foot steel vessel of the San Francisco and Portland S. S. Company, while bound from San Francisco to Portland, Oregon, with 189 passengers and a crew of 60, collided with and was rammed by the San Pedro, a 170 foot wooden steamer, south-

bound for this city. The sea was smooth, but the weather was foggy. The San Pedro, looming out of the mist, a few ship lengths away, bore down on the Columbia at high speed despite frantic efforts to clear. With a grinding crash the San Pedro sank her stem fully ten feet into the Columbia's port bow.

Nearly all of the Columbia's passengers and many of her crew were asleep in their cabins and bunks when the crash came. As the San Pedro backed away the sea poured in through the ragged hole in the Columbia's bow above and below the water line, and in five minutes the Columbia sank to the bottom, the deep waters of Shelter Cove covering over the tops of the Columbia's masts.

Gentle Laxative Needed For the Aged and Feeble

With the advance of years the vital functions of the body slow down. The organs of secretion grow weak, the peristaltic action of the bowels is perceptibly lessened and dangerous constipation develops.

What is the result? Poisonous substances over-run the system, and circulation is engorged with wastes, the brain is filled with blood, the hands and feet grow numb with cold, the whole body twitches and trembles.

A drastic cathartic is dangerous. Nothing will cure but a gentle laxative like Dr. Hamilton's Pills; their action not only extends to the stomach, liver and kidneys, but is directed to the secretory glands and increases their activity and volume.

Dr. Hamilton's Pills are different from other pills. Their activity is profound, but their action is so mild and free from gripe, that it seems scarcely possible you have taken medicine at all. Yet they do their work efficiently and that is why they are so widely prescribed for old folks who need a laxative and system tonic.

Cured by Dr. Hamilton's Pills.

Headache, Constipation, Biliousness, Sallowiness, Dizziness, Colicky Bowels, Vertigo, Dyspepsia, Slow Liver, Bad Breath, Bad Dreams, Poor Appetite.

For your own sake keep Dr. Hamilton's Pills within reach. Take them whenever you feel unwell; they clean out the entire system, keep it pure and in working order. Purely vegetable in composition, safe for young or old, no system tonic compares with Dr. Hamilton's Pills, 25c. per box or five boxes for \$1.00, at all dealers.

MASKED WOMEN.

Farmer Whipped Into Fortune of £100,000.

Daubed With Red Paint.

Fortunes have from time to time been acquired in curious ways, but surely it is without precedent for a man to be literally whipped into wealth.

Such is likely to be the extraordinary sequel to an attack by a band of masked women at Resaca, Madison County, Ohio, on George Ward, who is now on his way to Great Britain to claim a fortune of £100,000.

This romance of a whipping and a fortune is a strange one. Ward, who is fifty years old and a farmer at Resaca, in Madison County, married several years ago. After a time, when his wife fell ill of consumption, his neighbors took to gossiping about his treatment of her.

At length Mrs. Ward died. Her husband was driving back from her funeral through the village of Resaca when thirty women sprang out of ambush, masked and armed with whips, hickory switches, and pieces of lath.

The women surrounded the vehicle and dragged the struggling man upon the road. A dozen hands quickly slipped a noose around Ward's neck and he was held helpless, while the other of the masked party promptly proceeded to whip him almost into insensibility.

Nor was this all. The whipping over, they brought red paint and liquid tar and daubed them all over his hair and whiskers, until the poor man was a sight indeed.

The victim of the attack went home expressing a determination to discover who the women were and prosecute them. But a stranger result than prosecution was to follow the attack. The story of it was published in a broadcast not only in America, but in Europe.

Among those who read was a well-known solicitor in Great Britain. He came to the conclusion that the victim of the attack was the man for whom he had been searching—the missing heir to £100,000.

Ward received a letter enclosing several cuttings from British newspapers describing the whipping in detail. The letter went into the facts of the case and asked him if he could send on documents which would prove his birth and identity. And so the man who was whipped is coming home to establish his claim to the fortune.

Half a teaspoonful of table salt dissolved in a half glassful cold water will give instant relief in case of heart-burn.

FATAL AUTO ACCIDENTS.

Dr. Edward J. Gallagher Burned to Death by Gasoline—Fiance Mortally Injured.

Pittsburg Party Thrown Over 150-Foot Embankment, John J. Wallace Being Killed—His Wife Dying and Others Injured.

New York, July 23—Dr. Edward J. Gallagher, a New York physician, was burned to death in automobile accident on Long Island last night, while his fiance, who accompanied him, was perhaps fatally injured. Dr. Gallagher, accompanied by Miss Helen Madigan, was driving his machine over the Locust Avenue crossing of the Long Island railroad, in Jamaica, L. I., when the car was struck a glancing blow by the Narragansett Flyer, a fast passenger train.

The machine was thrown a considerable distance and turned over upon its occupants. A moment later the gasoline tank exploded and shot burning gasoline over the half-stunned autoists. The physician was so badly burned as to be hardly recognizable. He died in a few minutes. Miss Madigan was also frightfully burned. Her left leg was broken, her jaw bone fractured, and her teeth knocked out. She is hardly expected to live. Miss Madigan and Dr. Gallagher were to have been married in August.

THE PITTSBURGH ACCIDENT.

Pittsburg, Pa., July 23—John J. Wallace, a well known business man of this city, is dead with a broken neck, his wife is dying at her home with internal injuries, and J. S. Henner and wife, friends of the Wallaces, are in a serious condition, as a result of an accident to their motor, which plunged over a 150-foot embankment on the road to Butler last night.

About five miles out of the city the chauffeur stopped the car to inquire as to the direction to Butler. The car started without apparent cause, and the chauffeur jumped up on the side of the machine, but before he could get control, the machine with the entire party plunged over the embankment and landed in a big tree. Wallace was dead when picked up. The others were unconscious.

TAKE THE POSTMASTER'S WORD FOR IT.

Mr. F. M. Hamilton, postmaster at Cherryvale, Ind., keeps also a stock of general merchandise and patent medicines. He says: "Chamberlain's Colic, Cholera and Diarrhoea Remedy is standard here in its line. It never fails to give satisfaction and we could hardly afford to be without it." For sale by all dealers.

GIRL-PREACHER'S CONVERTS.

Wonderful Sermons by a Child of Twelve.

Frances Bradley Storr, the Doncaster girl-preacher, who is twelve years of age, has already preached in many towns to congregations varying from 1,000 to 1,500 and her immediate future engagements are at Bradford, Wakefield, Huddersfield, Sheffield and towns in Durham, Leicestershire and Nottinghamshire.

She writes out her sermons in full but goes into the pulpit with a postcard containing the principal heads, trusting to her memory to fill in the details. She preaches somewhere every Sunday night. Her sermons last from twenty-five to forty minutes, and converts result from each service.

She commenced preaching of her own free will—in fact, pleaded with her mother, who is police court missionary for the British Women's Temperance Association, until she was allowed to take up the work.

South American Kidney Cure is the only kidney treatment that has proved equal to correct all the evils that are likely to befall these physical regulators. Hundreds of testimonials prove the curative merits of this liquid kidney specific in cases of Bright's disease, diabetes, irritation of the bladder, inflammation, dropsical tendency. Don't delay.—22, Oule at Central Pharmacy, A. C. Ryan.

Buy a supply of corks once in a while and you will regard it as one of your best investments. Many a time something spoils or is spilled out and wasted simply because a bottle is without cork. Once try the plan of getting a fresh supply of corks and you will wonder that you never thought of it before.
