The Joke Was on the Students.

When Dr. Nathan Lord was pres-
dent of Dartmouth college he used to
drive about in a dilapidated, old fas-
hioned contrivance. The students be-
came tired of seeing the concern and,
though Dr. Lord knew of this, he clung
to the old calash. One night a group of
the young men hauled the thing out of
the shed where it was kept, took it sev-
eral miles down the road toward Leba-
non and hid it in a spot where it was
concealed by dense foliage. They were
just about to depart, well satisfied with
the tiresome job, when the curtain
which completely enveloped the front
of the calash was suddenly pushed
aside and the well known face of Pres-
ident Lord appeared. "Now, gentle-
men," he said, "you may draw me back
again."

RHEUMATIC PAINS RELIEVED.

B. F. Crocker, Esq., now 84 years
of age, and for twenty years Justice
of the Peace at Martinsburg, Iowa,
says: "I am terribly afflicted with
sciatic rheumatism in my left arm
and right hip. I have used three
bottles of Chamberlain's Pain Balm
and it did me lots of good." For
sale by all druggists.

A man wanted his barn whitewashed

and he sent for a colored man, and
the following conversation took
place:
"Uncle Rastus, what will you
charge to whitewash my barn?"
"Two dollars and a half a day,"
"I mean what will you do the job
for?"
"Well, I'll jest tell you how it am.
You see, when you has figgered out
de cost of de whitewash and de pails
an' de wear and tear on de brushes,
sah, yo'll find dere is no money in it
by de job."

You know heart fluttering means
you're not as well as you should be.
It's an evidence of impaired nerve
and muscular power. To obtain cure
try Ferrozone; it has a special ac-
tion on the heart as seen in the case
of Thos. Grover of Cole Harbor, N. S.,
who says: "If I exerted myself
it would bring palpitation. To carry
any heavy weight or go quickly
upstairs completely knocked me out.
When bad attacks came on I lived in
fear of sudden death. Ferrozone
gave my heart the very assistance it
needed, and now I am quite well." For
heart or nerves it's hard to excel
Ferrozone, 50c. per box at all
dealers.

a better Cocoa than

EPPS'S

A delicious drink and a sustaining
food. Fragrant, nutritious and
economical. This excellent Cocoa
maintains the system in robust
health, and enables it to resist
winter's extreme cold.

COCOA

Sold by Grocers and Storekeeper
in 1/2-lb. and 1-lb. Tins.

Awakening Him.

The honeymoon was over and the
cubboard was bare.
"Don't worry, darling," said the ro-
mantic husband as he opened the
piano. "Remember, music is the food
of love."

The practical little wife shook her
head.
"But if you really think music is the
food of love," she responded, "perhaps
you can step around and get the butch-
er to give you a beefsteak for a mere
song."

Then the long haired genius woke up.
—Houston Post.

Bad Child.

"You appear to have quite a bad
cold, Mr. Kloseman," said the hostess
sympathetically.
"Yes," replied the guest, with a
cough. "It's settled in my chest, and
it's quite tight."

"Yes," put in the hostess' little boy.
"Pa was tellin' us you was tight chest-
ed."—Catholic Standard and Times.

One Discordant Note.

Ruffon Wratz—The idee of your
claimin' to be overworked, ye durned
old hobo!
Tuffold Knutt—I am overworked,
b'gosh! Fifty times a day I hev to ex-
plain how it is that I don't git no em-
ployment when the country is list run-
nin' over wit' prosperity.—Chicago
Tribune.

The Difference.

Tell a woman her face is her fortune
and she is complimented. Hint to a
man that his cheek is his most valu-
able asset and he is likely to get mad.

He who reads only what pleases now
er grows very learned.

F'ton, N. B.

SEWERAGE QUESTION.

Mr. Whitehead in Moving His Resolution in
the Legislature Presented an Array
of Convincing Facts.

Mr. Hazen Leads in Opposition to Fredericton's Inter-
ests—Premier Opposes and Hon. Mr. Hill
Moves Adjournment of Debate.

In the legislature on Tuesday after-
noon, Mr. Whitehead, M. P. P., for
York, moved his resolution on the
Fredericton sewerage question of
which he had given notice on Friday
last. He said he regretted that it
was necessary for him to appeal from
the decision of an important body
such as the provincial board of health
but felt it to be his duty to bring
the matter before the House. The
board of health was an organization
for which all had the greatest respect
but, like other public bodies, it was
composed of men who were not infal-
lible. It had always been customary
to carry appeals from one court to
another, therefore, the fact that he
was appealing from a decision of the
board of health was in no way a re-
flection on that body. It had been
stated by sanitary experts that the
water of the St. John River was now
not fit for domestic purposes, there-
fore, the city of Fredericton is not
seeking authority to make it impure,
because it is impure now. He had
heard it stated on the floors of the
legislature that the water of the St.
John River was unfit for use, and only
a few days ago a committee had or-
dered that spring water be supplied
or the use of the members. It had
long been considered a reproach upon
the city of Fredericton that it had no
proper system of drainage. For some
years an agitation for a sewerage
system had been carried on, and last
season the work had been undertaken
under legislative sanction and pipe
lines were laid beneath the streets.
The work was done at large expense
to the citizens, and they ought to be
permitted to use them. Action had
been taken by the city after it had
been demonstrated by experts that
the water of the river was unfit for
use, and in undertaking the installa-
tion of a sewerage system when they
council had not gone beyond the au-
thority granted by the legislature.
Mr. Whitehead proceeded to point
out that other towns along the St.
John River polluted the water more
or less by emptying their sewage into
the river. He pointed out that the
city of Fredericton was the only town
in the province that had a sewerage
system. He pointed out that the
city of Fredericton was the only town
in the province that had a sewerage
system. He pointed out that the
city of Fredericton was the only town
in the province that had a sewerage
system.

Mr. Hazen next quoted from the
evidence of residents of Sunbury to
show that attempts made to procure
water by means of wells had resulted
in failure. The fact that the sewage
of Woodstock, a town of 2500 people
was going into the river was known
to the government when they gave
their decision. Woodstock was sixty
miles above Fredericton, and as the
sewage flows over numerous gravel
beds, it is practically purified before
reaching Fredericton, while below
Fredericton there is a tide, which
would back the sewage up into a
day. Even such a well known local
authority as Dr. Atherton had ex-
pressed the view that crude sewage
from Fredericton should not be al-
lowed to go into the river. Dr.
Bailey of Fredericton was of the
same opinion.
The mover of the resolution had
stated that the water from the river
was unfit to use now. The evidence
of Prof. Starkey on the other hand
showed that the water was potable
although it should be treated with
suspicion. It is no argument to say
that because the water is not good
at the present time further pollution
should be permitted. He contended
that the trend of modern legisla-
tion was to prevent the navigable rivers
from being made the receptacles for
sewage. It was the consensus of
opinion among all scientists that if
human excreta is discharged into a
river used for drinking purposes, an
outbreak of typhoid fever will ulti-
mately be the result.
Mr. Hazen admitted that Frederic-
ton had been placed in a difficult po-
sition over the sewerage question. But,
he held, that Fredericton was not in
such a difficult position that no re-
medy could be found. The sewage
could be purified by scientific means,
and it was estimated by either Mr.
Barbour or Mr. Fuller—he did not re-
member which—that a purification
plant could be installed for \$75,000.
Surely that sum is not too large to
spend when the health of a commu-
nity is at stake. Mr. Hazen hoped
the members of the house would give
the matter careful consideration and
sustain the decision of the govern-
ment and board of health.

THE PREMIER'S VIEWS.
Premier Pugsley thought that the
matter was of such great importance
that the evidence taken at the en-
quiry should be laid before the house
to enable the hon. members to come
to a decision. His own opinion on
the question was in accord with the
opinion of the executive council, read
by Mr. Hazen. The matter had been
gone into with very great care, and
the decision arrived at was that the
government could not give a decision
allowing crude sewage to go into the
river, when there appeared to be no
way of granting compensation to
those who would be injured thereby.
It was on the principle of compensa-
tion that the legislature acted in
cases of this kind, and they could
find no principle of compensation that
would interfere with the rights of
other people, the question to be de-
cided is shall the rights be taken
away from those people without
granting adequate compensation. If
sewage is discharged into the Saint
John river the time must come soon-
er or later when the water rights be-
come unfit for domestic purposes.
Then if the people cannot obtain wa-
ter from other sources their farms
must deteriorate in value. While the
government entertained very strong
views on this question, they yielded
to every member of the house of the li-

berly to exercise his own judgment.
It is not a party question, and the
government would yield to the dicta-
tion of the house. They recognized
that it would be hard for the city of
Fredericton to bear a burden beyond
its ability to pay, and on the other
hand it would be hard to take away
from the people rights that they had
long enjoyed. The government had
given their best judgment to the
question and it was for the house to
do the same. As the matter was
one of great importance he suggested
that it be stood over for a day or
two to allow hon. members a chance
to read the evidence.
Mr. Robertson read a letter from a
former Sunbury resident, now in St.
John, protesting against any change
in the government's decision.
On motion of Hon. Mr. Hill the de-
bate was adjourned and made the or-
der of the day for Wednesday.

CHAMBERLAIN'S COUGH RE-
MEDY IS BOTH AGREE-
ABLE AND EFFECT-
IVE.

Chamberlain's Cough Remedy has
no superior for coughs, colds and
croup, and the fact that it is pleas-
ant to take and contains nothing in
any way injurious has made it a fa-
vorite with mothers. Mr. W. S. Pol-
ham, a merchant of Kirksville, Iowa,
says: "For more than twenty years
Chamberlain's Cough Remedy has
been my leading remedy for all
throat troubles. It is especially suc-
cessful in cases of croup. Children
like it very much and I have used
it will not take any other." For
sale by all druggists.

Mrs. Townleigh—Your son must be
quite a magician, Mr. Hayrix.
Mrs. Hayrix—Why do you think so?
Mrs. Townleigh—I overheard his
father telling him to turn a horse in-
to a field this morning.—Chicago
News.

DO NOT CROWD THE SEASON.

The first warm days of spring bring
with them a desire to get out and en-
joy the exhilarating air and sunshine.
Children that have been housed up all
winter are brought out and you won-
der where they all came from. The
heavy winter clothing is thrown aside
and many shed their dannels. Then a
cold wave comes and people say that
grip is epidemic. Colds at this sea-
son are even more dangerous than in
mid-winter, as there is much more
danger of pneumonia. Take Cham-
berlain's Cough Remedy, however, and
you will have nothing to fear. It
always cures, and we have never
known a cold to result in pneumonia
when it was used. It is pleasant
and safe to take. Children like it.
For sale by all druggists.

A useful present for a wakeful in-
valid is a soft, silken bag filled with
pine cones or pine needles; the latter,
however, need replenishing occasion-
ally. They can be embroidered with ap-
propriate mottoes.

DO YOU FEEL THE PINCH?

Not of poverty, but of corns, ach-
ing corns, that can be cured by Put-
nam's Corn Extractor? Don't suffer
use "Putnam's"—sold everywhere in
25c bottles.

WHY CHEST COLDS ARE DAN-
GEROUS.

They lead to pleurisy and pneumo-
nia. Follow the advice of W. H.
Powell's Corners, Ont., who says:—
"I used to be subject to attacks and
although I used most everything no-
thing relieved quickly until I dis-
covered Nerville. I have used it for
pleurisy and sore chest and found it
just the proper thing. For Lum-
bago or Neuralgia it's quick as light-
ning. I cheerfully recommend Nerville."
Strongest, cleanest, most
pain destroying liniment on earth is
Polson's Nerville, 25 cent bottles
sold everywhere.

Towne—That's the local weather
forecaster who just passed us.
Brown—Indeed? He isn't a very
healthy looking man, is he?
Towne—No, he says the climate
here doesn't agree with him.
Brown—Yes, I wonder if that is
why he keeps changing it so much?

BLUE PILLS NO LONGER USED.

When the stomach needs cleansing,
the bowels increased activity, the
liver additional power, don't use
mercurial pills, try Dr. Hamilton's
Vegetable in composition, extremely
mild, yet sure to flush out all impu-
rities and wastes, no remedy is so well
adapted for family use. Positively a
cure for biliousness and sick headache
unfailing in constipation and bowel
trouble, exceptionally good for indig-
estion, no medicine is so universal-
ly needed in every home as Dr. Ham-
ilton's Pills. Good for the young,
the old, the sick and the well ones.
The benefits of Dr. Hamilton's Pills
are manifold. Sold everywhere in
25c. boxes.

Farmer—So you've had some ex-
perience, have you?
Youth—Yes, sir.
Farmer—Well, what side of a
cow do you sit on to milk?
Youth—The outside.

DOCTORS CHANGE THEIR METH-
ODS.

Years ago they fought catarrh by
internal dosing. They saw this
ruined the stomach and changed to
the ozonated air cure, better known
as "Catarrhose." This treatment
is sure to cure. It goes to the
source of the disease; it destroys the
causes that maintain catarrh and
even in the worst cases permanent
cure is guaranteed. Failure with
Catarrhose is impossible. Antiseptic,
healing and far-reaching, it's
bound to cure every time. Endorsed
by more than twenty thousand phy-
sicians in America alone and sold in
25c. and \$1.10 sizes by all dealers.
