A LAW.

To regulate the Use of the Common Sewers of the City of Fredericton and to Establish the Rates to be Charged Therefor.

BE IT ENACTED by the (L. S.) Mayor, Aldermen and Council (Copy) monality of the City of Fredericton as follows:

(Sgd.) H. F. McLeod, Mayor.

1. The City Engineer, under the direction of the City Council, shall have the general supervision and inspection of the construction and maintenance of all common sewers built or owned by the City, and of all connections of particular sewers built and constructed under the provisions of this law. The Engineer shall cause accurate plans thereof to be made, representing the location, depth and material, with a section plan of each sewer, indicating the size, shape, thickness and construction, and shall cause to be shown upon said plan all existing connections of said sewers and all other connections as they are made.

2. All applications for the construction of particular sewers, and their entrances into the common sewers, and for permits to enter the same, shall be in such form as the City Council shall prescribe, and be filed with the City Engineer. All that portion of any particular sewer laid within the limits of any public street, square and alley-way of the City of Fredericton, and its entrance into the common sewer, shall be constructed, maintained and kept in repair by the City Corporation, and shall be the property of the City and the cost thereof shall be paid by the owner of the estate connecting, before the same is used or house connections made therewith. The cost of all repairs, or removal of stoppages, made upon any particular sewer, shall be paid by the owner of the estate connecting.

3. No work of laying a particular sewer shall be commenced or allowed to continue unless and until the deposit hereinafter required shall have been paid to the City Treasurer and a permit in Form "A" prescribed in schedule hereto, shall have been issued by the City.

4. Applications for permits to connect any particular sewer with a common sewer shall be made in writing signed by the owner or owners of the property to be connected, according to Form "B" of the Schedule hereto. At the time of making such application the applicant shall deposit with the City Treasurer an amount equal to the estimated cost of making the required connection, in less than TEN (\$10.) dollars, and no permit shall be issued until the amount of the required deposit has been paid. This deposit shall be credited to the cost of installation, and should such cost of installation exceed the deposit, the applicant will be required to pay the difference to the City Treasurer, together with the amount of his sewer rate for the then current half-year before the same is used or house connections made therewith. In case the deposit should exceed the cost of installation, the surplus shall be refunded by the City Treasurer to the applicant.

5. Every particular sewer shall be of such size and laid at such grade as the City Engineer or his assistant shall direct.

6. The City Engineer, or other person appointed by the City Council for such purpose, shall have the right at all reasonable hours to enter the premises and inspect any particular sewer and its connections and plumbing.

7. The inside of every particular sewer, after it is laid shall be smooth and clean throughout its entire length, and all work and plumbing on same must be done to the satisfaction of the City Engineer.

8. When any change in direction is made in the pipe, either in horizontal or vertical direction special bends shall be used.

9. No live exhaust or waste steam or blow off, or drip pipe from any steam boiler, waste from acetylene or other illuminating gas plant, or any drainage shall be discharged directly into any common sewer or any particular sewer or house drain, connected therewith.

10. No permit to connect with the common sewers shall be issued to any manufacturing establishment until the owner or owners, shall have fulfilled any special requirement recommended by the City Engineer.

11. No person shall throw into any sewer or drain, inlet, manhole or catch-basin, any earth, dirt, stones, bricks, saw-dust, shavings, cinders, shavings, hair, grease, oyster, clam or lobster shells or any other substances detrimental to the sewers or the use thereof.

12. Every particular sewer, which shall enter into any common sewer, shall be built of such materials, dimensions and description, with such grade and in such manner as the City Engineer shall direct.

13. Every person owning or occupying property situate on any street along which there is a common sewer shall make immediate connection with the same within such time as the City Engineer, shall direct, by a written notice served on such person by delivery of the same personally, or by leaving same on the premises. In case any person shall neglect or refuse to comply with the terms of such notice the City Council may order such sewer connection to be made and the expenses of same shall be a lien upon the property so connected and may be recovered from the owner by suit in any court of competent jurisdiction.

14. Any person convicted of a breach of any of the provisions of this by-law, shall forfeit and pay, at the discretion of the convicting magistrate, a penalty not exceeding FIFTY DOLLARS and costs for each offence.

15. Every person or owner who connects his particular sewer with a common sewer shall pay for the use of such common sewer, an annual rent, to be fixed by the City Council. Such rental shall be paid semi-annually on the first day of May and the first day of November in each year,

at the same time the water rates are now payable, and no water permit shall be issued upon any premises having sewer connection unless the sewer rental has been paid. Unless the water rates and sewer rental are paid within sixty days after the time hereinbefore mentioned, it shall be the duty of the engineer to cause the water to be shut off such premises. In any case where the water supply has been shut off for non-payment of water rates or sewer rental, or both, the sum of three dollars will be charged for turning on the water and inspecting the water and sewer connection.

The following shall be the rentals to be charged for the use of the common sewers, to be paid semi-annually in advance on the first day of May and the first day of November as aforesaid:

SCHEDULE FOR SEWER RENTALS.

One kitchen sink in dwelling.....\$2.00
One kitchen sink and one bath room, (to include wash bowl, seat and tub) in dwelling..... 4.00
Each additional bath..... 2.00
Each closet..... 2.00
Each slop sink..... 2.00
Each additional urinal..... 1.00
Each wash bowl..... 1.00
Each sink..... .50

Hotels, boarding houses, etc., shall pay the same as for family raters and in addition shall pay a fixed sum of twenty-five cents per bed.

Buildings occupied as stores, or offices, or for other business or commercial purposes, when not otherwise specified, an amount equal to the water rates.

School buildings and churches, one half the amount of the water rates. Manufacturing establishments, when discharge is properly protected, to employing fifty persons or less, ten dollars; for each additional 25 or less two dollars.

Steam laundries, when discharge is properly protected to satisfaction of engineer, fifteen dollars. In no case shall the minimum rental be less than two dollars.

Form A.

FREDERICTON SEWERAGE SYSTEM.

Received from..... Street,

the sum of..... Dollars

the estimated cost of making connection from said premises to common sewer. The above payment is received and this permit issued, subject to the regulations and by-laws of the city of Fredericton.

City Treasurer

Form B.

APPLICATION FOR A PARTICULAR SEWER OR HOUSE DRAIN.

To the Mayor and Aldermen and Council of the City of Fredericton:

The undersigned, being owner of the estate requests that a private sewer be laid from the.....

No..... Street, and that the same may be connected with the..... Street sewer, and that..... may be allowed the use of such sewer for the purpose of disposing of the sewerage of said.....

And the undersigned agree to pay to the said city before connecting said..... with the said particular sewer, all of the cost of said sewer, including labor and materials or any other expense incurred necessary for the proper construction of said sewer.

And the undersigned further agree to strictly conform to the laws and ordinances relating to sewers and to the rules and regulations that are now in force or may be hereinafter adopted in relation thereto and also to the plumbing laws and ordinances so far as they relate thereto.

And the undersigned further agree that no claim for damages which may be occasioned to such estate, or any property thereon in any manner, by the construction, use or existence of such particular sewer or connection, shall be made against the city of Fredericton.

And the undersigned further agree that the said city engineer and other parties authorized by the city shall have access at all reasonable hours, to the said premises, to see that all laws, ordinances and rules relating to the sewer are complied with.

(Signature).....

(Address).....

Passed and enacted this fifth day of July, A. D., 1907.

J. W. McCREADY, City Clerk

CITY OF FREDERICTON, S. S.:

I, James W. McCreedy, city clerk of the city of Fredericton, in the province of New Brunswick, do hereby certify, that the foregoing pages, numbered from one to nine, both inclusive, contain a correct copy of a by-law passed and enacted by the city of Fredericton on the fifth day of July instant, under authority of 59 Victoria, Chapter 52, Section 15 (1896), the same having been compared by me with the original law so passed and on file in my office.

In witness whereof I have hereunto set my hand and affixed the corporate seal of said city this tenth day of July, A. D., 1907.

JAMES W. McCREADY, City Clerk.

Dig for your coin, and dig hard—but be the master of your dollar, and not its slave.

TRAEVLER KNOCKS THIEF INTO DETECTIVE'S ARMS.

Quick Retribution Overtook Pickpocket who Tried to Steal Watch of Man from Montana.

Montreal Herald.—One of the most spectacular arrests made in a Montreal railway station was made last night by Detective Clendenning, of the C. P. R., when the "Big Soo" train was standing in the Windsor depot waiting for the hand of the engineer to throw over the lever and start her on her journey.

Around one of the cars of the train there was a sudden tumult. An officer of the railway detective department showed his badge to a man he had by the collar, and William Michaels, forty-two years of age, who claims to be a telegraph operator, hailing from Ogdensburg, was in the hands of the law on a charge of picking pockets.

The circumstances of the arrest were peculiarly exciting and interesting. Detective Clendenning had been warned to keep a look out for pickpockets. Before the "Soo" train pulled into the track he had got his eye on a bunch of four or five young fellows well dressed and prosperous looking, who were hanging around the ticket office. When the "Soo" train pulled in the bunch got on to a car crowded with passengers who were leaving the city. The detective still kept their trail, and observed that they were crowding around a tall well dressed man who was carrying a beautiful gold watch chain. The detective stood on the rear platform observing their actions. They

jumped up closer and closer to the would-be victim.

All of a sudden the tall man turned around exclaiming, "What the blank are you doing?" A hurried reply came back, "It's all right, I'm not doing anything."

And then the tall man shot out his fist hitting the other man fair on the point of the chin and landing him head first into the arms of the detective. The detective at once got the man's name and the names of those standing around, all except those who had been "working" in the crowd, and these had quickly disappeared.

The complainant in the case was a tall athletic man, hails from Ansonia, Montana, and his name is Isaac Perry. He told the detective that Michaels grabbed his watch from his pocket and was doing his best to break the chain when he hit him the blow that sent him sprawling into the arms of the detective.

"My chain," said Mr. Perry, "is a good stout reliable one and the fellow who grabbed it actually had the watch in his hand when I asked him what he was doing." Two or three around also told the detective that the man actually had the watch in his hand. The chronometer was a very valuable one, being worth at the very least \$200.

WENT 1,700 MILES TO WORK.

Dentist Treating the Ameer's Teeth Meant a Dangerous Journey of 3,1800 Miles.

The Job Took Two Months and the Fee was of 34,000 Miles.

Indianapolis, Ind., July 10.—A journey of 34,000 miles going and coming, to treat a man's teeth is an episode in the history of Dr. M. L. Smith a guest of Mr. and Mrs. Felix T. McWhirter, No. 2,308 College Ave. Dr. Smith graduated from the Indiana Dental College ten years ago in India, then went directly to Calcutta, India, to engage in dentistry at that place with his brother who had preceded him.

"A little more than a year ago," said Dr. Smith, "I was called to attend a royal patient, the Ameer, of Afghanistan, the most absolute ruler in Asia. He sent an agent to me in Calcutta to arrange for my coming to his capital of Kabul, 1,700 miles away. The trip was made from Calcutta to the Khyber Pass, 1,500 miles by rail and thence 200 miles through the mountains on horseback. The East Indian Government furnished me an escort of ten soldiers. The pass was picketed its entire length by soldiers and at no time was I out of sight of a picket. It took two interpreters to properly deliver to me the story of the trouble his Highness was having with his teeth. He was a docile subject when I got him in the chair. I worked away at his teeth four days, two hours a day filling them. On the third day he said I had been more gentle than he had expected and at that presented me with a gold watch with a fine gold chain and this turquoise ring.

"When my work was over and I was to start back to Ameer gave me a larger military escort than had received me into his country and each of the soldiers of this escort wore a medal for distinguished service. In all my employment had extended over two and one-half months and I was paid 13,500 rupees about \$6,000. It was all in silver and made more than two horseback loads. It took eight days to make the trip each way."

GOOD REASONS FOR ITS SUCCESS.

The majority of catarrh remedies are useless. But one that does cure is "Catarrhazone." It clears the head of all mucous discharge. Putrid matter in the nostrils, phlegm in the throat, and disease germs are completely swept away. The cause of the disease is destroyed, its results are destroyed, and the system so thoroughly cleansed of catarrhal poison that cure is permanent. All types of catarrh, throat and bronchial trouble, colds and coughs are more certainly cured by Catarrhazone than any thing else. Two sizes, 25c. and \$1.00 at all dealers.

CANADA'S RESOURCES IMPRESSED THE KING.

Hon. Sydney Fisher Showed Him Dominion's Exhibits at Dublin Exhibition.

Dublin, July 11.—The King and Queen visited the Canadian Pavilion at the Dublin exhibition. Hon. Sydney Fisher showed the royal couple the collection of royal specimens which were so large the Queen at first believed them to be wax. She was greatly surprised when informed that the fruit was more than a year old, but had been kept perfectly fresh in cold storage.

The King expressed gratification to Mr. Fisher that the United States was sending so many farmers annually into Canada to be citizens of the Great Northwestern provinces. He was also much impressed with the samples of the mineral and agricultural products of Canada.

When 20,000 fans turn out And root with all their might, 'Tis then the home team weakens and Gets beaten out of sight.

A woman was waiting for her sister in a railway station when a gentleman, looking for his wife, and misled by a general resemblance in figure and clothing, stepped up behind her, and laying his hand on her shoulder exclaimed:

"Thank goodness, Emma, it's you. The name as used happened to be really hers, which made the sudden familiarity even more startling. She jumped nervously.

"You're mistaken sir!" she gasped.

"I'm Emma, but she isn't me."

As a famous comedian was travelling on a steamboat he seated himself at the table and called for some beefsteak. The waiter furnished him with a small strip of the article such as travellers are usually put off with. Taking it up on his fork and turning it over and examining it with one of his peculiar, serious looks, the comedian coolly remarked:

"Yes, that's it; bring me some."

SUMMER COMPLAINTS.

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets, or in a few hours the trouble may be beyond cure. Baby's Own Tablets is the best medicine in the world to prevent summer complaints if given occasionally to well children, and will as promptly cure these troubles if they come unexpectedly. But the prudent mother will not wait until trouble comes—she will keep her children well through an occasional dose of this medicine. The Tablets ought, therefore, be kept in the house at all times. Mrs. Chas. Warren, Nevis, Sask., says: "My little boy was greatly troubled with his stomach and bowels, but a few doses of Baby's Own Tablets wrought a great change in him. I would not be without the Tablets in the house." Sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"You don't mean to tell me you called Jim Jeffries a liar?" "That's exactly what I did."

"What did he say?"

"I don't know. He was in San Francisco at the time. I was in Chicago."—Cleveland Press.

Dr. Agnew's Cure for the Heart acts directly and quickly, stimulates the heart's action, stops most acute pain dispels all signs of weakness, fluttering, sinking, smothering or palpitation. This wonderful cure is the sturdy ship which carries the heart-sick patient into the haven of radiant and perfect health. Gives relief in most acute forms of heart disease in 30 minutes. Sold at Central Pharmacy, A. J. Ryan—10.

"Sold your automobile, eh?" exclaimed Wyes. "What was the trouble?"

"Couldn't control it," explained Archer. "When I ran fast it took me to the police court, and when I ran slowly it didn't take me anywhere."

DIET NOT THE WHOLE THING.

Your table is loaded with food—digestible and wholesome, yet you never gain strength. What's the trouble? Look within, and what do you find? A lazy liver, stomach overloaded with work—useless work because the bowels and liver are not sufficiently active. Relief is quickly supplied by Dr. Hamilton's Pills. They make weak folks strong by removing the cause of the weakness. Digestion improves, constipation leaves, liver takes new life, kidneys wake up—the whole system is enlivened by Dr. Hamilton's Pills. No better medicine for the sick or well, 25c. at all dealers.
