The effect of malaria lasts a long time.
You catch cold easily or become run-down because of the after effects of malaria.
Strengthen yourself with **Scott's Emulsion.**

It builds new blood and tones up your nervous system.

ALL DRUGGISTS: 50c. AND \$1.00.

A doctor who was recounting some of his experience of hypnotism related the following story:
"I once had a patient who was ill with consumption and who ought to have gone to a warmer climate, but whose means were insufficient, so I resolved to try what hypnotism would do for him. I had a huge sun chalked on the ceiling of his room, and by suggestion induced him to think it was the sun which would cure him. The ruse succeeded and he was getting daily better, when one

day, on my arrival, I found he was dead."
"Did it fail, after all, then?" asked the doctor's hearers.
"No," replied the doctor, "he died of sunstroke."

POISONED BY A RAZOR.

Don't trim your corns with a razor. Use a purely vegetable remedy like Putnam's Corn Extractor. No pain, certain cure, and all for a quarter. Every dealer sells "Putnam's."

BANK OF NOVA SCOTIA

ANNOUNCEMENT

NEWSOME & GILBERT, LIMITED
Manufacturing Stationers
TORONTO & WINNIPEG

WILL H. NEWSOME, LIMITED
L. C. SMITH & BROS. TYPEWRITERS
TORONTO HALIFAX MONTREAL

Amalgamated January 1, 1907.

We beg to announce that we have this day amalgamated with Newsome & Gilbert, Limited, and will in future carry on the business as Newsome & Gilbert, Limited, with Head Office, Toronto, and Branches at Winnipeg, Montreal and Halifax.

Owing to the wonderful growth of our business, the Amalgamation better enables us to look after the wants of our many customers, both in Typewriter and Stationery lines, and we respectfully solicit a continuance of your valued trade.

The maritime end of the business will continue under the management of Mr. P. O. Soule, who is a director in the New Company and he will look as faithfully after the requirements of our Eastern Customers as in the past.

WILL H. NEWSOME, Limited
P. O. Soule
Vice-Pres. & East. Mgr.

BONDS WORTH \$116,740 FOUND.

While Old Inn was Being Torn Down in Cleveland, Ohio—Owner Was Murdered.

Cleveland, Ohio, May 18.—Erie Railroad bonds worth \$116,740 and \$575 in blackened gold coins were found yesterday when the rusted tin box which contractor B. W. Hollingsworth recently unearthed in the ruins of the century old Ohio city Inn at 2811 Detroit Avenue, N. W., was forced open.
The original owner of the treasure was George C. Moran, who mysteriously disappeared in 1874. A heap of charred bones found several days before the box was dug by Hollingsworth in a bricked-in fire place now seems to substantiate the theory then held that Moran was murdered.
The Erie Railroad Company made a systematic effort to locate the bonds between 1876 and 1879. Practically every newspaper in the country carried advertisements of the lost bonds, which were of the issue of 1859. Originally they had a par value of \$40,000. Accumulated interest demands and market rises have brought their value up to \$116,740.
Because he was to have all the material in the building as compensation for tearing it down, Hollingsworth claimed the entire contents of the box.
He finally compromised with the present owner of the property and divided the gold with him. The bonds have been placed in the custody of United States Judge Taylor. The latter will hold them for five years. During that time a search will be made for Moran's heirs if any are living. If none are found the bonds will revert to Hollingsworth. If a claimant turns up the contractor will get one-fourth of their value.

PRINCE FUSHIMI TO BE HONORED

As if He Were a British Prince while he is in Canada.

Ottawa, May 18.—Prince Fushimi, of Japan, who is expected to arrive at Quebec on June seventh, will be received and entertained while in Canada, with all the honors that would be accorded to a British prince in line for the throne.
He will be the guest of the Canadian Government from the time he lands at Quebec, until he crosses the International boundary line, somewhere in British Columbia. In Quebec, Prince Fushimi will be entertained by Lieut. Governor Jette, in Montreal by Sir Montagu Allan, in Toronto by Governor Sir Mortimer Clark, and in Winnipeg by Lieut. Governor McMillan.
At all points there will be military guards of honor and all the detail of ceremony which was carried out when Prince Arthur was in Canada.
The Dominion Government will provide a special train for Prince Fushimi and his suite.
Canada has every reason for being gracious to Prince Fushimi as improved relations with Japan are desired and there is a very good chance of Prince Fushimi being Emperor of Japan one day. The only person between him and the present occupant of the throne is a delicate boy.
Prince Fushimi is accompanied by four members of the Japanese aristocracy, he has three secretaries and a rather numerous establishment.
Earl Grey is so impressed with the importance of Prince Fushimi's visit that he is cutting his stay in England down to a bare fortnight that he may return to Canada with the Prince and entertain him while in Ottawa.

VINOL'S RELIABILITY.

STRONG EVIDENCE OF MERIT.

Prominent Physicians Join with Mr. George Y. Dibble in Recommending Vinol.

Countless physicians and druggists are now prescribing and endorsing Vinol as the most valuable cod liver preparation known to medicine and it is fast superseding all other forms of cod liver oil.

A prominent physician writes: "I am satisfied that Vinol derives its wonderful life-giving and strengthening power from the medicinal curative elements found in the cod's liver. It is the best strength creator and vitalizer for old people, weak women, children, and the convalescent that I ever saw."

Another physician writes: "I could cite many cases where health has been restored in a surprisingly short time by Vinol. I should be very sorry to have to do without Vinol in my practice. It has no equal for hard colds, throat and bronchial troubles."

Now, when we tell you that we have never sold in our store a remedy of such remarkable curative and strength-creating power as Vinol, for the weak, the sick and the aged, and that it fails to accomplish what we say it will, we will refund your money without question, it will show you our faith in the preparation.

In cases where cod liver oil, emulsions and other tonics fail, Vinol will heal, strengthen and cure.

Try Vinol on your guarantee, George Y. Dibble, Druggist.

Lloyd Griscom, the new Ambassador to Italy, described at a dinner in Washington, a diplomatic game of baseball in Brazil.

"An Englishman," he said, "in the course of this description, 'caught for his side, though the poor fellow was strange to the catcher's box. The Englishman grew confused in the second inning, missed a ball, and it struck him on the nose, keeling him over."
"What was it?" he said feebly, as he came to.
"A foul—only a foul," said the umpire.
"Men alive," said the Englishman, "I thought it was a mule."

GOOD WORDS FOR CHAMBERLAIN'S COUGH REMEDY.

People everywhere take pleasure in testifying to the good qualities of Chamberlain's Cough Remedy. Mrs. Edward Phillips of Barclay, Md., writes: "I wish to tell you that I can recommend Chamberlain's Cough Remedy. My little girl, Catherine, who is two years old, has been taking this remedy whenever she has had a cold since she was two months old. About a month ago I contracted a dreadful cold myself, but I took Chamberlain's Cough Remedy and was soon as well as ever." This remedy is for sale by all dealers.

WOMANLY TROUBLES.

Should Not be Allowed to Undermine Health.

It is impossible to go into details on this subject but the experience of many a poor woman who is crippled for life, just because she didn't use a good remedy in time, should be a warning to others.

When the first stages of womanhood appear in a young girl, a great deal depends in getting her over the critical stage, so that in years to come she will not develop green sickness or consumption.

When she complains of flushed face, headache bearing down feelings, give her a course of Ferrozone which will carry her past the crisis.

In the adult woman if any irregularities occur, Ferrozone will be found a remedy of remarkable potency and power.

Ferrozone is the ideal regulator and causes all organs of the body to perform their work properly. It purifies the blood, tones up the nerves and vital energies. The stomach is strengthened, and digestive and assimilative processes are improved by the good work of Ferrozone. It regulates the bowels, cures constipation and piles, and replaces disease kind decay by health and strength.

There is nothing better for the complexion than Ferrozone. It removes the dark circles from under the eyes, removes and cures all manner of skin eruptions, gives brightness and brilliancy to the eyes, a rosy tint to the cheeks, whitens the teeth and develops a well rounded, plump and handsome form.

Ferrozone is the ladies' favorite, and should find a place in every household. It is prepared in the form of a chocolate coated tablet, convenient and pleasant to take. Price per box, 50c. or three boxes for \$1.25. Sold by all druggists.

Bobby's mother was often distressed by her small son's lapses from correct speech, all the more because his reports from school were always so good.

"Bobby," she said, plaintively, one day, "why do you keep telling Major to 'set up' when you know 'sit up' is what you should say?"

"Oh, well, mother," Bobby answered, "I don't know. I have lots of grammar, but I don't like to waste it on Major when he doesn't know the difference, being a dog."

THE BARONY.

May 18.—The regular correspondent of the Herald has been rather delinquent of late, but "The Barony" has been ably represented by another. We will now endeavor to apprise our friends of the recent happenings. Mrs. Kirk, who has been very ill with la grippe, is gaining slowly.

Abraham Hoyt will finish his rafting operations today.

Chas. Roach, manager for the Scott Lumber Co., will finish his work here this week.

Mr. Robt. Burnett, who died at the home of his son, Herbert, on Sunday last, was buried in the Barony cemetery on Tuesday, May 14. Rev. Wm. Ross conducted the services, and the choir rendered appropriate music at the house and church.

The school has been closed here for the greater part of the term, owing to the inability to secure a teacher.

Wm. Duncan is farming for the Misses Kirk again this year.

Samuel Davidson, who is representing the Hilyard Lumber Co., at Springhill, spent Sunday with his family.

Coun. Scott spent last week in Fredericton. His health is very much improved, and he made the trip very easily, driving his colt down for the first time. It was very much admired by those who had the pleasure of seeing it.

KINGSLEY.

May 18.—We are having a very cold spring, which makes it bad for farming.

Quite a number of the boys have gone to the drive.

Mr. and Mrs. Wm. Seymour of McLeod Hill, spent Sunday at this place.

Miss Jennie McFarlane has returned home after spending the winter in Fredericton.

The Rev. J. W. McConnell, pastor of the Methodist church, Fredericton, will preach here in the Methodist church on Sunday, May 26th.

Mr. and Mrs. Wm. Neathway have gone to Plaster Rock, where they intend spending the summer.

Mr. Samuel Currie of Mangerville, who has been doing a rushing business in the sawing wood line around here this spring, has returned home.

Mr. Alfred Anderson of Fredericton, passed through here on Sunday last on his wheel, enroute for Upper Kingsley.

LOSS OF APPETITE AND ENERGY.

Singly they are a worry—combined they become a burden, telling that waste has been immensely greater than the body's power to rebuild. The first need is to reconstruct the blood, make good the deficiency of red cells.

Ferrozone improves digestion, makes blood, the kind that nourishes and rebuilds. Quickly the nervous system responds to the new power supplied by Ferrozone. Strength returns, ambition revives, energy and endurance give the system just what it needs to maintain the balance of health. No tonic better than Ferrozone, 50c. per box at all dealers.

Capt. and Mrs. R. C. Bacon of Moncton, are here the guests of Mr. J. Howe Dickson.

THE DYNAMITER.

He Must Be a Man of Many Parts, With Nerve and Coolness.

In an article on "Dynamite," the Power Unfathomable," Samuel Hopkins Adams thus describes the man who handles the explosive and his ways:

"The finished type of the dynamiter is the man who has had the ability to rise and the luck to survive long enough to graduate from the plant and become an agent. In his best embodiment the explosive agent is something of a chemist, something of a quarryman, something of an electrician, a good deal of a mineralogist and above all a man of resource and coolness. It is he who does the exploding. The factory gets notice from a railroad that a contract is open for the destruction of a ledge of rock which blocks their line of advance. Away goes the agent, with his gripack full of ready made destruction, to look the thing over. First he draws upon his mineralogic lore to determine the nature of the rock. It is very hard he uses a high grade of his explosive, which delivers a quick, shattering blow. In case of soft rock the lower grade supplies a blast which will produce a wider effect, although it will not break the dislodged rock into such small pieces. Next as a quarryman he considers the nature of the ledge and the indicated fissures or veins and plans his drilling accordingly. Then he must attend to the drilling of the holes, the tamping of the charge and—here his electrical knowledge is called for—the arrangement of the batteries. After a few blasts he gives the railroad company his estimate, and if it is accepted he may oversee the job himself.

"Often he meets his rivals on the ground. Then comes the tug of war. Tricks of the trade are many and not all of them scrupulous. Where many agents are gathered together it seems to be a point of honor with every man to handle his particular article with the utmost apparent carelessness, while he manifests a shrinking timidity toward the products of his competitors. This is to impress the outsider. So the agent will toss about a twenty-five pound package of dynamite like so much meal, kick it, drop it over fences or down ledges and generally maltreat it. If the dynamite is fresh this is all right, but occasionally something goes wrong, and theory, together with the theorist, is blown to atoms in practice. Theoretically a high explosive should detonate only when set off by means of a fulminate of mercury cap, and some of the safety explosives apparently live up to this. But anything with nitroglycerin in it is best treated with consideration, for nitro is a very uncertain material."

There is probably no medicine made that is relied upon more implicitly, confidence than Chamberlain's Colic, Cholera and Diarrhoea Remedy. During the third of a century in which it has been in use, people have learned that it is the one remedy that never fails. When reduced with water and sweetened it is pleasant to take. For sale by all dealers.
