POLES INVADE SCOTLAND.

Thousands of Them Flourish in Lanark.

London Daily Mail.—Lanarkshire, the most populous of Scotland's counties, and the principal source of the country's mining industries, is troubled with a large invasion. As the Celestial is becoming to Liverpool, so is the wily Pole to Lanark only more so. Fifteen years ago the sons of Lithuania in Scotland numbered little more than fifty. In Lanarkshire alone their strength has now reached over ten thousand producing a social problem for the local authorities.

These strong people, dispersed throughout the world by Russian severity, are to be found wherever the hardest work prevails. In Lanark-

shire they principally labour, with trade union approval, in the coal and shale mines and at the furnaces of the iron and steel smelting works. The typical Lithuanian may be a good workman (writes a correspondent in Lanark) but as a citizen he is a miserable failure. His home life knows no purity, his moral character is far from being above reproach, and his sense of honor is not too well defined. "I have visited scores of Polish homes throughout Lanarkshire, and nowhere have I seen more miserable hovels. The filth appals one; and yet the lords of these dismal and dirt-laden apartments are probably wealthier than even a Motherwell 'shingler' with a wage-earning ability of £10 per week!

TAKING HARDWARE OUT OF STOMACH.

Operation on Man Who Lives by Swallowing Nails and
Other Such Delicacies.

Montreal Herald.—Albert Logan of Somerville, having had the wounds made by the surgeons healed a little, is going back to his old vocation of eating nails, needles, broken glass and other such delicacies.

Mr. Logan has been making a good living on this form of diet for about sixteen years, and it seems that he has become so attached to it that he does not care to give it up.

It may not be nourishing, but public exhibitions of the way he gets away with his unique bill of fare enable him to receive a fat pay envelope every Saturday night. It isn't everyone who is paid just for eating, says Logan, as he rolls a tender ten-penny nail on his tongue, or reaches for another spoonful of delicious carpet tacks.

SOME LITTLE DRAWBACKS.

Little incidental drawbacks, such as being forced to be out open by surgeons every little while to have choice collections of undigested hardware removed, do not seem to him worthy of serious consideration.

Not many weeks ago Logan showed up at the hospital. A young physician just out of college examined him and was sure that he was suffering from acute appendicitis. Logan knew better. So did the older surgeon.

When the latter came in, he laughed, for he knew Logan. He had helped carve him before.

"Same old trouble," said Logan. "Then it will have to be the same old cure," said the surgeon. And forthwith it was Logan for the operating table.

They slashed him good and plentiful, for you can't remove four-inch nails and a quart or so of other hardware with a stiletto jab.

The collection they took out made a small table groan, and they left Logan much lighter than when they found him. They told him that they hoped that this last test would be a lesson to him, and trusted that he was convinced that he was neither a goat nor an ostrich.

LIVER ILLS

Bowels are Constipated.
Kidneys are Unhealthy.
Constant Headaches.

Nothing makes you feel worse than slow liver. Seems as if every organ in the body had gone wrong.

What the liver needs is the stimulation afforded by Dr. Hamilton's Pills; they go right to work on a lazy liver and restore it in a few hours.

At night, you're well next morning; that's how Dr. Hamilton's act.

Had Bad Taste and Headaches.

Thus writes Mrs. D. F. Fowler, from Yarmouth: "I used to feel drowsy and heavy, my color was sallow, and there was usually a bad taste in my mouth. I had vague pains all through my limbs and annoying headache as well."

"After one dose of Dr. Hamilton's Pills there was a sudden change. I felt better, my appetite increased, and that exhaustion and depression gradually left me. Life seemed brighter and happier after I used Dr. Hamilton's Pills, so I strongly recommend such good medicine."

No Appetite—Bad Color—General Debility.

"I was run down," writes Mrs. Albert E. Dixon, of Fairhaven P. O. "My color was dull and, appetite was poor, and I constantly suffered from rheumatism."

"I found it hard to sleep and felt worn out and tired all the time. Dr. Hamilton's Pills made an instant change. I grew strong, my blood was restored, rheumatism vanished. Today I am vigorous, cheery and healthy in every respect."

SPECIAL NOTICE.—The secret of the wonderful success of Dr. Hamilton's Pills is due to their ability to improve the tone of the kidneys, liver, stomach and bowels, thereby assuring an ample supply of rich, nourishing blood, which circulates its strengthening influence to every part of the system that requires assistance.

Take Dr. Hamilton's Pills when you're well, when you're sick, whenever you think a purifying tonic will do you good. Sold everywhere in yellow boxes, 25c. each or five for \$1.00. Insist on having only Dr. Hamilton's Pills of Mandrake and Butternut.

The man who has an exalted opinion of himself is nearly always a poor judge of human nature.

DO NOT CROWD THE SEASON.

The first warm days of spring bring with them a desire to get out and enjoy the exhilarating air and sunshine. Children that have been housed up all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their fannels. Then a cold wave comes and people say that grip is epidemic. Colds at this season are even more dangerous than in mid-winter, as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It always cures, and we have never known a cold to result in pneumonia when it was used. It is pleasant and safe to take. Children like it. For sale by all druggists.

About a week ago the last bandage was removed, and Logan, whose anatomy in the altogether looks like a war map which has been through an earthquake, went to his home, kissed his wife and baby, and began to figure out how soon he could get a return engagement at his old stunts.

He is an ordinarily hale and hearty young man. He can enjoy a good steak as well as a beveled glass mirror, and a string of sausages is an acceptable as a yard of barbed wire. Everything is appreciated.

Although he has been swallowing hardware for sixteen years, it was not until a little more than a year ago that he had to go to the operating table.

A PLEASANT BREAKFAST.

Logan does not say whether or not he allows his craving for products of the steel trust to follow him into his private life. He does insist, however, that powdered glass makes a very good substitute for breakfast food, fully as tasty, and when eaten with cream and sugar makes a splendid dish to sharpen the appetite.

Logan is not a penurious man, yet he cannot help realize that nails at eight cents a pound are cheaper than steak at forty cents. Then, besides, in the summer there is a large saving in ice bills. Carpet tacks keep just as well in warm weather as in cold. They may be bought by the keg and there is no danger of their spoiling. Creamed carpet tacks on asbestos toast make a decidedly novel and appetizing tit bit.

It will probably be another year, or three months anyhow, before Logan will be in the hospital again. As he is able also to travel as "the human pincushion" and stick needles into his anatomy without feeling pain, operations are to him a simple matter.

He says that he has become so fond of watching the surgeons cut into him that if he goes too long without visiting them he gets sort of melancholy and has that heavy depressive feeling associated with overeating.

Take care of the stomach and the health will take care of itself. If people only realized the soundness of that statement the majority might live to a good old age like Moses, "the eye undimmed, the natural force unabated."

It is in the stomach that the blood is made. It is from the stomach that nourishment is dispensed to nerve and muscle. If the stomach is "weak" it can't do its whole work for each part of the body. If it is diseased the disease will taint the nourishment which is distributed and so spread disease throughout the body. It was the realization of the importance of the stomach as the very centre of health and the common source of disease, which led Dr. Pierce to prepare his "Golden Medical Discovery."

"Diseases which originate in the stomach must be cured through the stomach." The soundness of this theory is proved every day by cures of diseased organs, heat, liver, lungs, blood,—by the use of the "Discovery" which is solely and singly a medicine for the blood and organs of digestion and nutrition.

Not a secret or "patent medicine" because ingredients are printed on the label; contains no alcohol, is purely vegetable.

An Englishman resident in Persia fell into a discussion with a neighbor there, says Napier Malcolm in his book on Persia, over the native tendency to lying. He insisted that lying was a sin.

It is all very well for a Ferangi (an Englishman) to say that, replied the Persian. But the fact is they cannot tell lies as we can. It is entirely a matter of climate.

In that case Persians ought to speak the truth, said the Englishman. One of the ancient Greek historians declared that Persians were remarkable for their truth telling.

That is very true said the native, but who does not know that the climate of a country changes entirely in 2,000 years.

RHEUMATIC PAINS RELIEVED.

B. F. Crocker, Esq., now 84 years of age, and for twenty years Justice of the Peace at Martinsburg, Iowa, says: "I am terribly afflicted with sciatic rheumatism in my left arm and right hip. I have used three bottles of Chamberlain's Pain Balm and it did me lots of good." For sale by all druggists.

THE CHANNEL TUNNEL.

Would Make London Terminus of Trans-Siberian Railway.

New York, March 5.—The Herald correspondent at London sends the following cable despatch. The Channel tunnel controversy is by no means abating. Hitherto it has been confined to arguments pro and con by military, naval and commercial men. Now the general public are waking up and discussing the matter, and from what one can gather, opinion is more favorable than otherwise.

To be able to enter a train at Charing Cross and go to Vladivostok without changing carriages is one of the alluring possibilities of the Channel tunnel scheme of view.

"When the Channel tunnel is built the trans-Siberian express will start from London instead of Moscow, as it does at present," said Mr. Snow, London manager of the International Sleeping Car Company. "In those days, which may not be far ahead, it will be possible to make a world tour via the Trans-Siberian railway, Dahn, Yokohama, Vancouver, Que-

bec and Liverpool in about 35 days. With the Vladivostok express running to and fro from Charing Cross travelers between the eastern States of America and the far east will probably prefer to come by way of England instead of taking a German boat from New York to Hamburg, as some of them do at present.

"London would thus stand to gain as the western terminus of the longest line of railway in the world.

"The far east would be a fortnight's ride from the west end, and Japan would be within a day or two as near in point of time as India. Even at present it is possible, journeying across Asia in the luxurious trains of the Trans-Siberian express, to make a world tour in 41 days, given the best existing conditions."

YOU MAY BE SICK TO-NIGHT.

Without a moment's warning pain springs upon us. At the outset it is instantly cured by Nerviline. Surprising what fifteen drops of this marvelous medicine will do. Its external action is no less certain than its wonderful effect when taken internally.

Of course, Nerviline is powerful or it couldn't be so penetrating. But not irritating or caustic. There are other pain remedies, but when you use Nerviline you see the difference. That difference is this—others relieve, but Nerviline cures sprains, strains, swellings, earache, toothache, neuralgia, lumbago, in fact all muscular pains. Large bottles 25c. at all dealers.

LAUVINIA.

Feb. 23.

The weather for the past few weeks has been very cold and stormy, and the roads are in a very bad condition.

Mr. A. Bailey gas finished hauling logs, and has left for home.

Mrs. Fred Allen is spending the winter with her mother, Mrs. James E. Smith.

Mrs. Theo Smith has returned home again after spending a few days with her mother, Mrs. Adam Harper.

We are glad to report that Mr. Stanley Howe is improving after a serious attack of la grippe.

Mr. and Mrs. Melvin Carr called on Mr. and Mrs. Adam Harper one evening last week. Mr. John Harper furnished music from his gramophone.

Misses Annie and Frances Howe were the guests of Mrs. Adam Harper one day this week.

Mr. and Mrs. Rainsford Shanks have returned home again after spending a few days with Miss Case of Burton.

Mr. Harvey Boone and son are hauling lath wood to Carr and Barker's mill.

Mr. Adam Harper and sons are lumbering some in the woods this winter.

The bob cats are very plentiful here and a number of deer have been killed by them.

Several of the people attended Mrs. Charles Smith's funeral on Wednesday last.

Our school has re-opened under the skilful management of Miss Maggie Johnston.

Mr. George Hughes spent Sunday afternoon with Mr. Adam Harper.

LITTLE BUT SEARCHING.—Dr. Von Stan's Pineapple Tablets are not big nauseous doses that contain injurious drugs or narcotics—they are the pure vegetable peepsin—the medicinal extract from this luscious fruit, and the tablets are prepared in a palatable form as the fruit itself. They cure indigestion. 60 in a box, 35 cents. Sold at Central Pharmacy, A. J. Ryan.—56.

INVALUABLE FOR NURSING MOTHERS.

With nursing comes an unceasing strain on the mother's vitality. The blood is weakened. Nerves are irritable through loss of sleep. Anxiety and care break down even the strongest.

Experience teaches that nothing is more helpful than Ferrozene. What an appetite it brings! No blood-former or nerve tonic more potent, no medicine known that so steadily brings back the health, vigor and spirit that mothers require. It's because Ferrozene nourishes, because it supplies the materials for rebuilding that it does such permanent good, 50c. per box at all dealers.

Mr. Stople—No, I never played adept at baseball.

Miss Tersleep—What position did you play?

Mr. Stople—I was shortstop.

Miss Tersleep—I should have imagined just the opposite.

ATIC CATARRH.

Not an easy thing to cure, and a remedy that makes good deserves the credit. Catarrh cured Chas. H. Webb of Woodstock, N. B., who writes: "For a number of years I was troubled with systematic catarrh. It was a very tenacious form of the disease and nothing helped. I used Catarrhazone and got relief. To build up my system I used Ferrozene. This catarrh and kept it out. Two sizes, 25c. and \$1.00 at all dealers, sold uncombined can't be beaten. They cured me." Your case may be chronic but Catarrhazone will drive out der guarantee of satisfaction.

Judge—And you, who remained honest until you were 40, have smirched your name and dishonored your family all for the sake of a few francs?

Prisoner—Excuse me, sir. Was it my fault that they were so few?

TO IMPROVE ILL TEMPER.

Relieve the physical suffering of corns. Quickly done by reliable Putnam's Corn Extractor. Beware of acid, flesh-eating substitutes and insist on "Putnam's" it's the one sure and painless cure.
