WHO SHE WAS

SKETCH OF THE LIFE OF LYDIA E. PINKHAM

And a True Story of How the Vegetable Compound Had Its Birth and How the "Panic of '73" Caused it to be Offered for Public Sale in Drug Stores.

This remarkable woman, whose maiden name was Estes, was born in Lynn, Mass., February 9th, 1819, coming from a good old Quaker family. For some years she taught school, and became known as a woman of an alert

and investigating mind, an earnest seeker after knowledge, and above all, possessed of a wonderfully sympathetic nature.

In 1843 she married Isaac Pinkham, a builder and real estate operator, and their early married life was marked by prosperity and happiness. They had four children, three sons and a daughter.

In those good old fashioned days it was common for mothers to make their own home medicines from roots and herbs, nature's own remedies—calling in a physician only in specially urgent cases. By tradition and experience many of them gained a wonderful knowledge of the curative properties of the various roots and herbs.

Mrs. Pinkham took a great interest in the study of roots and herbs, their characteristics and power over disease. She maintained that just as nature so bountifully provides in the harvest-fields and orchards vegetable foods of all kinds; so, if we but take the pains to find them, in the roots and herbs of the field there are remedies expressly designed to cure the various ills and weaknesses of the body, and it was her pleasure to search these out, and prepare simple and effective medicines for her own family and friends.

Chief of these was a rare combination of the choicest medicinal roots and herbs found best adapted for the cure of the ills and weaknesses peculiar to the female sex, and Lydia E. Pinkham's friends and neighbors learned that her compound relieved and cured and it became quite popular among them.

All this so far was done freely, without money and without price as a labor of love.

But in 1873 the financial crisis struck Lynn. Its length and severity were too much for the large real estate interests of the Pinkham family, as this class of business suffered most from fearful depression, so when the Centennial year dawned it found their property swept away. Some other source of income had to be found.

At this point Lydia E. Pinkham's Vegetable Compound was made known to the world.

The three sons and the daughter, with

A pleasant household deodorizer is made by pouring spirits of lavender over lumps of bicarbonate of soda.

their mother, combined forces to restore the family fortune. They argued that the medicine which was so good for their woman friends and neighbors was equally good for the women of the whole world.

The Pinkhams had no money, and little credit. Their first laboratory was the kitchen, where roots and herbs were steeped in the stove, gradually filling a gross of bottles. Then came the question of selling it, for always before they had given it away freely. They hired a job printer to run off some pamphlets setting forth the merits of the medicine, now called Lydia E. Pinkham's Vegetable Compound, and these were distributed by the Pinkham sons in Boston, New York, and Brooklyn.

The wonderful curative properties of the medicine were, to a great extent, self-advertising, for whoever used it recommended it to others, and the demand gradually increased.

In 1877, by combined efforts the family had saved enough money to commence newspaper advertising and from that time the growth and success of the enterprise were assured, until to-day Lydia E. Pinkham and her Vegetable Compound have become household words everywhere, and many tons of roots and herbs are used annually in its manufacture.

Lydia E. Pinkham herself did not live to see the great success of this work. She passed to her reward years ago, but still she had provided means for continuing her work as effectively as she could have done it herself.

During her long and eventful experience she was ever methodical in her work and she was always careful to preserve a record of every case that came to her attention. The case of every sick woman who applied to her for advice—and there were thousands—received careful study and the details, including symptoms, treatment and results were recorded for future reference, and to-day these records, together with hundreds of thousands made since, are available to sick women the world over, and represent a vast collaboration of information regarding the treatment of woman's ills, which for authenticity and accuracy can hardly be equaled in any library in the world.

With Lydia E. Pinkham worked her daughter-in-law, the present Mrs. Pinkham. She was carefully instructed in all her hard-won knowledge, and for years she assisted her in her vast correspondence.

To her hands naturally fell the direction of the work when its originator passed away. For nearly twenty-five years she has continued it, and nothing in the work shows when the first Lydia E. Pinkham dropped her pen, and the present Mrs. Pinkham, now the mother of a large family, took it up. With woman assistants, some as capable as herself, the present Mrs. Pinkham continues this great work, and probably from the office of no other person have so many women been advised how to regain health. Sick women, this advice is "Yours for Health" freely given if you only write to ask for it.

Such is the history of Lydia E. Pinkham's Vegetable Compound: made from simple roots and herbs; the one great medicine for women's ailments, and the fitting monument to the noble woman whose name it bears.

When a pretty girl is indignant all the men in her vicinity sit up and take notice.

Don't Worry.

Don't Worry.

WHY WORRY?

CONSULT

PHAROS.

The Mystic and Modern strolger

Yes, Why Worry?

About your Business, Health, Pleasures, Friends Abroad, your Love Affairs, and Chances in Life.

Yes, Why Worry? Consult Pharos. He is able to advise, Console you and Warn you. His ambition in this life is to help those in trouble, and must not be classed with the run of Palmists who use their SUPPOSED GIFTS to make money. Pharos is independent of this. Willing and able to help all in trouble and relieve their anxiety to the best of his ability and experience.

PHAROS HAS A MESSAGE FOR YOU

You are anxious to put your son to a business that he will prosper. Will your daughter be happy in her married life? You are in love. Have I made a wise choice in mate? Shall I take a partner into my business? Should I be wise in going abroad? All these questions Pharos can answer and advise by the aid of astrology. Why not put this to a test. Send P. O. value 1 shilling and addressed, stamped envelope to—

PHAROS, Dept. 14, 45 Union Street, GLASGOW

with your Birth Date, Full Name and Title and Town and County of Birth if possible, upon receipt of same Pharos will send you a written Test Horoscope.

With the above Pharos will send you FREE a written Forecast of your Future.

BITS OF NEWS

Some Interesting Items Culled from Exchanges.

Woodstock golfers, both ladies and gentlemen, were victorious at St. Stephen on Oct. 19.

The ladies of the Catholic congregation of Milltown, Charlotte Co., have completed arrangements for the opening of their fair next Tuesday evening in St. Patrick's hall.

The remains of the late Frank Stephenson in charge of his brother, Fred, arrived at Woodstock on Monday last, and were interred that day. Deceased was killed while some fifty miles north of Saskatoon, driving a pair of oxen with a load of supplies, to his ranch, where he expected to spend the winter. The manner of death is not altogether known, it being supposed that he was accidentally crushed between the cart and a building. The case is a very sad one.

Carleton county reports the yield of potatoes to be about half what it should have been there. There is a vast amount of hay, but mostly second quality. The quality and quantity of oats is above the ordinary. There will probably be the average production of dressed pork. Eggs and dairy products are scarce and high. Following is a list of prices being paid at Woodstock, Hartland and Florenceville:

Hay, loose		\$8.00 to \$9.00
Hay, pressed		9.50 to 10.50
Oats		45
Dressed pork		08 to 08 1/2
Butter		22 to 24
Eggs		22
Chickens		10 to 12
Hard wood ready for stove		4.00

4254

THE LITTLE GIRL'S SCHOOL DRESS.

For the small girl who is just beginning her school career the little frock here pictured will be found most desirable. It is made in jumper effect, with a simulated guimpe which may be composed, if preferred of the same material as the dress instead of a contrasting one, as shown. The frock is very simply made, both blouse and skirt being gathered to the prettily shaped belt. Scotch plaid is here suggested for modelling it, with red surah for the simulated guimpe, but this development is capable of numerous variations, as plain or as elaborate as one may choose to make them. The medium size calls for 1 1/2 yards of 27 inch material for the yoke and skirt, or 2 1/2 yards of 36 inch material for the overblouse and skirt. 4254—5 sizes, 3 to 7 years. The price of this pattern is 10c.

To the Fredericton Herald:

Please send the above mentioned pattern, as per directions given below, to

Name.....

No.....

To.....

Measurement—Waist..... Bust.....

CAUTION.—Be careful to send size of pattern wanted. When the pattern is sent measure you need only mark 32, 34, or whatever it may be. When in waist measure, 22, 23, 24, or whatever it may be. If a skirt, give waist and length measure. When miss' or child's pattern write only the figure representing the age. It is not necessary to write "inches" or "years." Patterns cannot reach you in less than three or four days from the date of order. The price of each pattern is 10 cents in cash or postal order or stamps.

Maud—She is a woman who has suffered a good deal for her belief.

Ethel—Dear me! What is her belief?

Maud—She believes that she can wear a No. 2 shoe on a No. 6 foot.—'Id-Bits.

HOW TO CURE A COLD.

The question of how to cure a cold without necessary loss of time is one in which we are all more or less interested, for the quicker a cold is got rid of the less the danger of pneumonia and other serious diseases. Mr. B. W. L. Hall, of Waverly, Va., has as used Chamberlain's Cough Remedy for years and says: "I firmly believe Chamberlain's Cough Remedy to be absolutely the best preparation of the market for colds. I have recommended it to my friends and they all agree with me." For sale by all dealers.

WORTH SAVING

Valuable Prescription and how to Prepare it at Home.

This is a message that will bring happiness again into many families and sunshine into the lives of hundreds of disheartened and discouraged men and women here. It requires just a little inconvenience, for it can't be bought already prepared. It is a simple home recipe now being made known in all the larger cities through the newspapers. It is intended to check the many cases of rheumatism, kidney and bladder troubles which have made so many cripples and invalids and weakenings of some of our brightest and strongest people.

The druggists here have been notified to supply themselves with the ingredients, and the sufferer will have no trouble to obtain them. The prescription is as follows: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce, and Compound of Syrup of Sarsaparilla three ounces. Mix by shaking well in a bottle. The dose is one teaspoonful after each meal and at bedtime. Recent experiments, even in severe hospital cases, prove this simple mixture the remedy for rheumatism, because of its positive action upon the eliminative tissues of the kidneys. It compels these most vital organs to filter from the blood and system the waste impurities and uric acid which are the cause of rheumatism. It cleanses the kidneys, strengthens them and removes quickly such symptoms as backache, blood disorders, bladder weakness, frequent urination, painful scalding and discolored urine. It acts as a powerful stimulant to the entire kidney and bladder structure, puts new life into them and invigorates the entire tract. It makes the kidneys clean the blood. The Dandelion will take care of liver trouble and constipation, and is fine for the stomach.

All the ingredients, states a well-known local druggist, are of vegetable extraction, making it a safe and harmless prescription at any time. Those who suffer and are accustomed to purchase a bottle of patent medicine should not let a little convenience interfere with making up this prescription. Wherever this becomes generally known, states a large Eastern publication, it ruins the sale of the patent medicines and so-called rheumatism and kidney cures, which is its best endorsement of virtue.

The Baby Food Specialist.

A woman on a car was telling another of the trouble she had to get any kind of food that would agree with the baby, says the New York Sun. "Why don't you send for a specialist?" asked the other. "Never heard of such a thing." "Well, she will come to your house every day and try all sorts of ways of mixing and various proportions of milk and cream and will give them at different temperatures and intervals. And she will stay there for two or three hours and watch the effects on the baby, and when she gets it just right she will show you how to do it yourself. It's wonderful what a little difference in the mixing makes, and these specialists can see effects that you or I would never know the cause of."

"How lovely!" exclaimed the other, and then she added, "And her charges?" "Oh, nothing at all. The people who make the foods send her at their expense."

Filet Darning.

Filet darning is the favorite work for woman's leisure hours at the present moment. If a knowledge of a netting is possessed, the foundation fabric is made by the worker, but if not the square meshed is bought at the lace counters and is then darned in historic patterns to imitate antique lace. The articles often made are dollies and centerpieces, but pillow covers and table and bureau scarfs offer themselves for adornment with the filet squares, and even bedspreads and curtains are sometimes attempted by the ambitious workers. When eyelet work and the padded French embroidery are used in conjunction with the filet lace, the result is very decorative. The foundation net must be stretched over a frame to be darned to best effect. Some lingerie blouses show insets of the filet lace with good effect.

Winding the Bobbin.

If your machine is one of the newer makes and has a winder with the little automatic catch, you can save yourself a good deal of trouble by winding a fresh bobbin while the sewing is going on. To do this put a second spool upon the spool holder and attach an end to the fresh bobbin. Slip the catch in place, and while the long seams glide smoothly from under the presser, emptying the bobbin in use, the second spool is turning merrily and filling a new one. What a comfort it is to find a bobbin already filled every machine sewer knows. And she knows equally how she hates to stop to wind one right in the middle of a long seam.

Sand Boxes.

A big box of sand is a source of great joy to small children when a slight ailment or bad weather confines them to the house all day, and this is not impossible to manage in a workmanlike nursery if a large dust sheet is spread on the floor when the operations commence. The box should be on wheels, as sand is very heavy, and it should be rolled away out of sight when not in use, says Woman's Life. Tiny spades and pails, also some pebbles and shells, are required to make this famous "play" complete, and should any sand be spilled on the unprotected parts of the room it is easily swept up.

In the year 1700 there was only one newspaper in the United States.
