erickton, George Y. Dibblee.

GEO. Y. DIBBLEE.

PEOPLE'S DRUGGIST

SOLE AGENT FOR BURPEE'S SEEDS.

Chestnut  
says

"You are entitled to two comfortable feet. Why not  
resolve to have them? Scarcely any other minor  
trouble causes the discomfort and suffering that smart-  
ing, aching and burning feet do. These and a variety  
of other foot ailments are almost instantly relieved by  
Foot Elm. Price 25c. Mailed to any address on receipt  
of price."

"THE QUALITY STORE." 572 Queen Street.

## THE VALLEY RAILWAY.

McKenzie & Mann Pleased with Report of  
Flying Survey--Engineers will Soon be  
Put on the Route.

DR. PUGSLEY HOPEFUL THAT ROAD WILL SOON BE  
BUILT.

St. John, June 25.—(Special) Hon.  
Wm. Pugsley returned home to-  
day from Toronto and Montreal.

Dr. Pugsley says that the reports  
of the flying survey for the St. John  
Valley Railway, which was recently  
made, have been examined by Mc-  
Kenzie and Mann, and have been found  
very favorable from a traffic stand-  
point.

Some modifications will have to be  
made by the provincial government,

as a five tenths grade is necessary.

Dr. Pugsley says, however, there  
need be no delay. Engineers will be  
sent shortly to go over the proposed  
route.

He looks upon the project as ex-  
ceedingly hopeful, and thinks it will  
not be long before the line is built  
as part of the transcontinental sys-  
tem of McKenzie and Mann, with St.  
John as eastern terminal for winter  
business.

## DOMINION I. AND S. CO.

Annual Financial Statement Shows a Healthy  
Condition.

Montreal, June 25.—(Special)—The  
annual statement of Dominion Iron  
and Steel Company issued today  
shows the gross earnings for the  
year to have been \$2,247,000, the in-  
terest charged for the year \$684,000,  
and net earnings \$1,563,000.

From this amount there was trans-  
ferred to contingent account \$81,000.  
The company for convenience and  
regularity has charged up coal used  
in its operations at the Dominion  
Coal Company contract price of  
\$1.28 per ton, irrespective of cost.

Such cost has been charged to special  
account with Dominion Coal Com-  
pany as part of damages for which  
suit is brought.

Up to May 31 this amounted to  
\$810,000, of which about \$550,000  
was paid to the Dominion Coal Com-

pany, the balance representing the  
extra cost of coal bought from other  
concerns.

The earnings available thus amount  
to \$752,000.

Out of this the company has taken  
a sinking fund for first mortgage  
bonds, and the surplus has been  
sufficient to cover the deficit that  
occurred from past years in profit  
and loss account, and to leave a  
credit balance of \$318,000.

The current liabilities are a little  
higher than last year, while the net  
indebtedness of the company is \$142,-  
000 less than last year.

During the year \$306,000 was spent  
on capital account, the chief item be-  
ing a Bessemer plant.

The company has secured options  
on several Coal properties, which are  
now being prospected.

## CHURCH UNION.

A Practical Step Proposed in the District  
of Algoma.

Toronto, Ont., June 25.—(Special)—  
There is some prospect of the union  
of the five churches in Providence  
Bav. District of Algoma, so as to  
form two congregations in this  
sparsely settled district. There are at  
present Anglican, Methodist, Presby-

terian, Baptist, and Congregational  
churches. Although no formal pro-  
posal of union has been made, there  
has been a great deal of talk and  
strong feeling expressed by many of  
the church workers in favor of a  
formation of the five churches into  
two congregations.

## YARN DENIED.

No Truth in Report that Canadian  
Rubber Co. has been Absorbed  
by Yankee Concern.

Montreal, Que., June 25.—(Special)—  
George W. Stephens, president of  
the Canadian Rubber Company, has  
secured control of the Canadian Con-  
solidated Rubber Company.

"The United States Rubber Com-  
pany," said Mr. Stephens, "has not  
bought a share of stock in the Cana-  
dian concern." There is no truth  
whatever in the story of absorp-  
tion.

## NEW BANDSTAND.

The committee of citizens who are  
shorter subscribers for a new  
bandstand to be erected on particu-  
lar square, are meeting with great  
success. Nearly the whole amount  
of \$200 is now in sight and it is  
likely that building operations will  
start in a few days. The new band-  
stand will be located just below the  
club house.

Mr. A. B. Conn, M. P. P., of Sack-  
ville was a guest at the Queen last  
night and left for home today.

## CANADIANS AT WINDSOR.

Many Invited to King's Garden  
Party.

London, June 24.—By the King's  
express wish Canada has special re-  
cognition in the invitations to the  
Royal garden party at Windsor  
Castle Saturday. The list of Cana-  
dian guests, which was specially su-  
pervised by His Majesty, comprised 47  
names, including Senators Macdonald  
Gilson, Ellis and wives; Premier Mc-  
Bride, Premier Rutherford and wife;  
Mrs. Andrew Allen, Colonel and  
Mrs. Sterling Ryerson, Colonel and  
Mrs. Gibson, Colonel and Mrs. Crow-  
ford, L. d. Kirkpatrick, Judge Wells,  
(Magistrate, N. B.), Col. Lessard, Mr.  
W. L. and Mrs. Griffith, the Roy-  
al Canadian Grain Commissioners,  
M. H. McNair, Goldie, Field, and  
their wives.

This is the first occasion on which  
representatives of the farmers of  
Canada have received similar Royal  
recognition.

The garden party was the first  
function of the kind ever held. Fewer  
than seven hundred guests  
were invited, and several ladies were  
sent from London for their own  
entertainment.

## THE LIBEL CASE.

Judge Landry Will Give Decision at 7.30 this Evening  
on Motion to Postpone Trial.

Judge Landry was to have given  
his decision in the Circuit Court  
this morning on Mr. Barry's motion  
to postpone the Crockett defamatory  
libel case until next term, but, de-  
ferred the matter until 7.30 this eve-  
ning. He said he was busily engaged  
in court yesterday up to six o'clock  
and had not time to look up the  
authorities. As the matter was of  
considerable importance it was only  
right that he should look into it  
very carefully. As the court was  
now without a stenographer and the  
business could not go on, he would  
consult authorities during the day  
and give his decision at four o'clock.

Mr. Hazen said that he had to  
attend a meeting of the Sunbury  
County Council at Burton today and  
in consequence would like the mat-  
ter deferred until 7.30 p. m. as he  
wanted to be present when the de-  
cision was given.

The court acceded to the request  
of Mr. Hazen. The judge said that  
he was ready to give the case to  
the Federal Life Assur-

ance Company, but as the court was  
without a stenographer, perhaps it  
would be as well to postpone the  
matter. He went on to say that  
three stenographers had been called  
to Albert County to attend the Col-  
lins trial, which accounted for the  
York Circuit being without one at  
the present time. An important wit-  
ness had died since the Collins case  
was tried the first time and he sup-  
posed the attendance of all three  
stenographers was necessary as wit-  
nesses in the case to prove the  
testimony taken at the last trial.

Mr. R. B. Hanson informed the  
court that he had arranged with Mr.  
McLennan to make the case of Shields  
vs. Boone a remnant.

The judge announced that he would  
this evening adjourn the court until  
August 20th for the trial of the case  
of Seery vs. the Federal Life As-  
surance Company.

Mr. Barry informed the court that  
a settlement had been arrived at  
the case of O. M. Hartt vs. O.  
Hartt Boot and Shoe Company.

## DESTRUCTIVE PESTS.

Kingsclear Invaded by an Army of Forest Tent Cater-  
pillars.

Deputy Commissioner of Agricul-  
ture Peters paid a visit to Kings-  
clear Monday afternoon in company  
with Mr. F. W. Hatheway and in-  
vestigated the report that the much  
dreaded gypsy moth had stuck in in  
that locality. Although the weather  
was a trifle sultry for such work the  
"Squire" ascended the steep hill  
which leads up to the back road from  
the river at Springhill and made his  
way out into the woods. He was not  
long in verifying the report that a  
strange insect was destroying the  
young growth of trees in that local-  
ity, and discovered that it was not  
the gypsy moth as reported, but in-

stead the forest tent caterpillar. These in-  
sects are said to be almost as de-  
structive as the army worm and  
work something on the same prin-  
ciple. Hundreds of them will attack  
a tree at one time and not leave it  
until they have stripped it clean of  
foliage. Mr. Peters found that a  
space about fifty rods square, con-  
taining a very thick growth of  
young poplar and birch trees, had  
been swept by the pests, and an ad-  
vanced guard had arrived at an or-  
chard belonging to a colored man  
named Payne. Mr. Peters captured  
a number of specimens and brought  
them to the city with him last eve-  
ning.

## TRANSCONTINENTAL.

Mr. W. Kitchen Among Tenderers for  
Eight Mile Section from Chip-  
man Eastward.

Ottawa, June 25.—(Special)—The  
time for receiving tenders for the  
contract for the Transcontinental  
from Chipman to Moncton expired  
today. The Grand Trunk Pacific au-  
thorities, with several other con-  
tractors, are here putting in tenders.  
Four tenders were received by the  
Transcontinental Commission today  
for the construction of eight miles  
of road from a point near Chip-  
man, N. B., eastward toward Mon-  
cton. The tenders received are from  
the Grand Trunk Pacific, M. J.  
O'Brien and Z. J. Fowler, Ottawa;  
W. Kitchen Company, Fredericton; J.  
B. McManus Company, Moncton.

## THE STOCK MARKET.

Tone Weak and Little Activity in the  
Trading.

Montreal, June 25.—(Special)—  
There was little activity in the weak  
stock market today.

Dom. Coal rolled down to 55, and  
Nova Scotia Steel to 65, Mexican  
sold at 44, and Rio, which rose to  
47 in late trading yesterday on good  
business, needed to 43.

Lake of the Woods Milling sold at  
74 and Sovereign Bank was bid up  
to 110 1/2 in the market, without  
bringing out any of stock.

## DISINCLINED THEMSELVES.

New York, June 25.—At the Yale  
commencement exercises yesterday  
two New Brunswick boys failed in  
the honor and prize list.

E. C. Worman, of Ashcroft (N. B.)  
captured the fifth prize for the high-  
est and at immediate run, and  
also led the honor list for his year.

C. E. T. of St. Stephen, N. B.,  
was one of the four in the graduating  
class to receive honors in English in  
the academic department. There are  
103 students enrolled.

Montreal Star, Rev. A. J. Mawatt  
and family have left for Can a K-  
Mrs. where they will spend the  
summer.

## PERSONAL MENTION.

Movements of People in whom our  
Readers are Interested.

Mrs. C. F. Randolph and children  
left this morning for Duck Cove St.  
John to spend the summer.

## Pensions For Mothers.

In an interesting article on old-age  
pensions in the current number of  
The Empire Review, Mr. A. C. Brown-  
low declares that the class of this  
community which deserves pensions  
most are the wives of working men—  
the women who, on a wage of some-  
times less than 20s. a week, have  
brought up a large family.

"Without the mother where would  
the nation be?" he asks. "Yet what  
is the State doing at present for the  
mothers of England? Surely these  
women above all others should be  
able to look forward to a period of  
rest after fighting the battle of life."

"With a State pension how much  
lighter would the burden of the  
working man's wife become? What  
an influence for good would she be  
in her old age to the young mothers  
of a rising generation, instead of as at  
present a drag on the energies of her  
offspring, young people who ought to  
be able to give all their time and en-  
ergy to their own families."

## Babies and Cocco.

A Parisian physician, Dr. Varot, read  
a paper before the Hospital Medical  
society the other day, in which he said  
that a certain number of children had  
come under his notice who had been  
fed regularly upon cocoa since they  
had been weaned. The children lived  
this diet and in many cases refused  
any other form of nourishment. How-  
ever, they soon began to suffer from  
constipation and anæmia; they were  
pale, did not gain in weight and  
became nervous and irritable.

## Realness Pedestrianism?

An hour's automobile ride through  
the streets of any city will convince  
the most skeptical that the fault far  
more does not always rest on the  
automobile driver and that it is little  
short of marvelous that more serious  
pedestrianism are not run down every-  
day.—Automobile.
