OUR MANNERISMS.

Traits We Own That Are Annoying to Our Friends.

It may be only a way of speaking, a way of looking or some little mannerism that offends.

Of course one doesn't always realize the results caused by doing things "our way," but that doesn't excuse us.

Think out how you look when you tell something disagreeable which is unnecessary and uncalled for.

Think out if often you don't try the patience of your friends with a continued history of your ways and weakness and whether, after awhile, it does not take the form of nagging.

And even from those we love nagging is something very difficult to bear. A great sin is often forgotten, but these continual little annoyances, these continual disagreeable mannerisms and the insisting of doing things always in your own way, these little "queernesses," are just as wrong as the greater sins of people who have great temptations.

Many a boy has drifted from home and happiness on account of a nagging, suspicious mother, his future ruined.

Who is to blame?

Many a girl has turned down the primrose pathway of vice for lack of some kind little word of appreciation. Some sickening influence has often driven far apart those who should be very near together.

It may not be "your way" to speak these little words of appreciation or to do the considerate, helpful, aspiring things.

But is that an excuse?

Why not cultivate it?

Don't you think your ways and little queeresses are just as wrong as the greater sins of people who daily have to meet the greater temptations?

A CROCHETED RATTLE.

Pretty and Harmless Plaything For the Baby.

Cast on fifteen stitches, first row plain, second row purl, third row plain, fourth row purl, fifth row purl, sixth row plain, seventh row purl and eighth row plain. Repeat these eight rows until twelve ribs are worked. Now put ten stitches on the third needle and work twenty-four ribs on the remaining five stitches and cast off, dropping the middle stitch and letting it run

A BABY RATTLE

the whole way down the strip of work. This forms holes through which the ribbon is run. With the ten stitches left on the third needle do two strips in the same way.

Sew the ring on the end of center strip and a bell on each of the others. Run a piece of ribbon into each strip and tie into pretty bows at the ends. Tie a bow of ribbon at the end of broad piece of knitting, with two bells on the loops. Finish off at the top with a bow of ribbon a little wider and sew a safety pin on the back to fix to the baby's dress.

Dinner Desserts.

Spanish Cream.—One-half box of gelatin, one quart of milk, the yolks of three eggs, one small cup of sugar. Soak the gelatin in the milk for an hour, then put it on the fire and stir well as it heats. Beat the yolks lightly with the sugar. Add to milk and heat

to the boiling point, stirring all the time. Strain into a mold and flavor with vanilla.

Trifle.—Take stale cake, cut in small split squares, put whipped cream between and layer of preserved fruit over the top. Cover with cream and fruit. Served with preserved raspberries it is delicious.

Marshmallow Confection.—One-half pound of English walnuts chopped fine and added to a pound of marshmallows cut up. Mix these together. Take a pint of cream and whip it until stiff. Stir into it the nuts and marshmallows; also a quarter of a cup of candied cherries chopped fine. Flavor with a few drops of vanilla. Set on the ice an hour or two before serving.

A Hint to the Cook.

When making pastry, leave the edges quite untouched. The air in the paste causes the flakes, so it must not be pressed out. This rule holds good when making all kinds of pastry.

The "Golah" of Bankipur.

The "golah" at Bankipur, India, was built for a granary in 1783, but has never been used for that purpose. It is 426 feet around at the base, with walls 12 feet 2 inches in thickness, the interior diameter being 100 feet. It is about 90 feet high and might contain 137,000 tons. Inside is a most wonderful echo, best heard from the center of the building. As a whispering gallery there is perhaps no such building in the world, not even the famous Mormon temple.

Under the Rose.

The rose is the emblem of secrecy in Greece and was formerly hung over the table where guests were entertained, in token that nothing heard there was to be repeated; hence the expression "sub rosa."

Wildcats.

Wildcats are extremely variable in size, some kinds being no more than two feet in length, while others are five. The smallest varieties of wildcats are about the size of the domestic variety.

Mushroom Farms.

On many mushroom farms the fungi are grown under ground. The spores are planted in long, raised beds.

The Surname.

The term "surname" is supposed by some to be derived from the French surname, meaning "over name," because a person's family name was formerly written above instead of after the baptismal name.

The Monsoon.

The southwest monsoon in India blows from May to October. This brings the rain, which varies from ten inches in Rajputana to 800 inches in mountains of Assam.

Glue.

To make a good glue take equal parts of shellac and rosin, and after melting them together add an amount equal to both of carbolic acid crystals.

The Giant Pine.

There is a species of pine tree which grows in California and is known as the giant pine which is the largest of the pine genus, often rising to a height of 200 feet, with a trunk twenty to thirty feet in girth.
