LABOR'S DEMANDS.

Delegation From Trades and Labor Congress Interviewed Government and Seek Some Concessions.

Ottawa, Jan. 15.—(Special)—Sir Wilfrid Laurier and Hon. Rudolph Lemieux, Minister of Labor, received a delegation today from the Trades and Labor Congress of the Dominion. The congress was represented by Alphonse Verville, M. P., President, James Simpson, vice president, P. N. Draper, secretary, and J. G. O'Donoghue, solicitor.

Several resolutions which were adopted by the congress, were presented to the Ministers, and the delegates spoke in regard to them as well as in reference to Mr. Lemieux's bill to prevent strikes and lockouts in connection with mines, and all public utilities.

One of the resolutions was in favor of a separate portfolio for the Minister of Labor.

Another resolution referred to the strike at the coal mines at Lethbridge, and protested against the Mounted Police being used in labor disputes where no breach of the peace or demonstration against property had taken place.

A resolution presented favored the establishment of industrial technical schools through the Dominion.

As to letter-carriers, a resolution held that the minimum pay should

be \$800 per annum on the expiration of three years.

In reference to the fair wage clause in government contracts, an amendment was asked so that the fair wage officers could see the books of any officer under suspicion.

The congress approved of the general principles of the Lord's Day Act, but it was asked to be amended so that a man who worked only eight hours ought not to be called upon to work on Sunday.

Another resolution protested against assisted passages of bonuses to immigrants, and asked that Hindoos should be excluded from Canada.

The delegation approved of the bill of Mr. Lemieux in reference to lockouts and strikes in connection with public utilities with the exception of sections 62 and 63, which they asked to be eliminated from the bill.

Section 62 provides that no employer can dismiss a man nor declare a lockout because he belongs to a trades union.

Section 63 provides that members of trades unions cannot refuse to work with non-union men.

This is what the delegation objected to, and to be logical they asked that the other be struck out.

Wm. Anderson was the engineer. As he took the train out of Wakefield he leaned far out of the cab window to get a sight of the driving wheels, and his head struck a signal post, fracturing the skull and killing him.

The train sped on at about 35 miles an hour.

In the cab, seated on the fireman's side was A. Wheaton, travelling engineer on trip of inspection.

He noticed the train did not stop as it neared Mount Vernon station, and stepped down to see what was the matter when he found the form of the dead engineer lying on the seat with his hand on the throttle.

Then realizing what had happened Wheaton threw air brakes and brought the train to a stop.

SEVERE WEATHER.

Zero Drops to 42 in West-Snow Blizzard Bothering Railways.

Winnipeg, Jan. 15.—(Special)—This city and the west generally, are being visited by another very severe cold snap, accompanied by a cutting northwest wind.

Last night it was 32 below zero, and the barometer is at present very high, which is an invariable indication of continued cold weather.

From all over the country come reports of bitterly cold weather. It was 42 below at Regina last night. Cold weather particularly interferes with running of trains, and double the difficulties in fighting the snow blizzard which is raging in the vicinity of Medicine Hat.

Prince Albert, Sask. Jan. 15.—For the first time since Wednesday morning last, a passenger train reached here from the south last evening.

The passengers and crew told a stirring story of what happened to the train since it left Regina on Wednesday.

The engine was battered into uselessness in attempting to force a snow plow through high and solid banks of snow.

Snowflake, Man. Jan. 15.—Since Friday night, train crews have struggled with snowdrifts between here and Mowbray. After arrival at Mowbray, while attempting to clear the way, an engine was sent over the track, which is on the brink of a ravine, over which the engine plunged.

A wrecking crew from Winnipeg is at present engaged in placing the engine back on the track, with thermometer at 23 below zero.

OPENED WITH PRAYER.

Maritime Bonspiel at Amherst Had a Good Beginning.

Amherst, N. S., Jan. 15.—(Special)—Owing to the mild weather this morning, the first games scheduled in the Maritime Curlers' bonspiel were postponed until this afternoon.

At 8.30 the curlers met at the rink and the bonspiel was opened with prayer by Rev. S. W. Cummings, chaplain of the Chignecto club, Amherst.

A rink of Hampton curlers, F. F. Giggsey, skip, with James H. Sproul, Hudson Appleby and J. Wilbur Giggsey arrived last night to take part in the bonspiel.

ANOTHER SENATOR.

Hon. A. H. Comeau of Digby, Called to the Upper House.

Ottawa, Jan. 15.—(Special)—Hon. A. H. Comeau, a member of the Nova Scotia government, without portfolio, has been called to the Senate. This leaves one vacancy for Nova Scotia.

Mr. Comeau, who is a French Acadian, is a native of Metegan River, Digby Co., and is 46 years old. He is a merchant, first entered the Nova Scotia legislature in 1890, and has been a member of the Nova Scotia local government without portfolio for some years.

COUNTY COURT.

The York County Court met at ten o'clock this morning and was further adjourned by Judge Wilson until Thursday morning. By consent of counsel the jury cases were transferred to the non-jury docket and the jurors were discharged.

HE SPOKE PLAINLY.

Coadjutor Bishop Tells Church People They Cannot Live on Traditions of the Past.

The reception to His Lordship Bishop Richardson by the Cathedral and St. Ann's guilds at the church hall last evening was largely attended and passed off very pleasantly. A pleasing feature was the presence by invitation of Revs. J. H. MacDonald, J. W. McConnell, A. A. Kidcutt and Willard Macdonald, pastors of the evangelical churches of the city and it is needless to say they were made to feel thoroughly at home and entered heartily into the spirit of the occasion.

Rev. Sub-dean Street and Mrs. Street received the people as they entered the hall and the presentations to the Bishop Coadjutor was afterwards made by Sheriff Stirling.

Rev. Mr. Street made a brief address in which he explained the object of the gathering which he said was to give the people a chance to become better acquainted with the Coadjutor. He closed by presenting the latter with a beautiful bouquet of flowers for Mrs. Richardson, on behalf of the guilds.

After the reception an invitation was extended to all to repair to a room upstairs and partake of light refreshments, such as coffee, sandwiches and cake. It is needless to say the invitation met with a very general response.

THE BISHOP'S ADDRESS.

The coadjutor bishop mingled freely with the gathering during the evening on that alone. Their point of weakness was that they had been trying to recreate the old church of England in a land that is altogether new. We have got to make the church out of the land we live in and until we can fit ourselves to the new conditions we cannot take our share in the noble work of developing the noble country in which we live. In closing he alluded to noble work done in Fredericton by the late Metropolitan and Bishop Kingston and hoped that the spirit of the past would impregnate the spirit of the future and that the church would continue to prosper.

Before the pleasant gathering dispersed, Mrs. Street was presented with a bouquet by the ladies' guild.

THE COUNTY COUNCIL.

Opening of January Session—Coun. McFarlane Unanimously Elected Warden.

The January session of the York County Council, opened at the county court house at ten o'clock this morning. Warden Timmons presiding. The roll being called by the secretary-treasurer, the following councillors answered to their names: The Catholic and one half the parish church made no difference. He wished to thank his dear brother, Mr. Street, for the way he had been holding together the work of the Cathedral

The warden elect in taking the chair, thanked the council on behalf of himself and the Parish of Douglas, for the honor done and promised to faithfully discharge his duties.

Secretary Treasurer Bliss submitted his financial statement to the council, and asked that it be referred to a committee. It was very pleasing to him to be able to announce that four parishes now had a balance to their credit, which was the best showing made for many years. The indebtedness of the parishes on Nov. 30th, was \$14,743.10, less a balance of \$3.26 to the credit of Dumfries. Since Nov. 30th, the parish indebtedness had been reduced to \$10,228.61. The parishes free of debt were Dumfries, Canterbury, North Lake and New Maryland.

Coun. Brooks and Coun. Masten complained that they had not received copies of the auditor's report before coming to the city. The secretary treasurer said he understood from the auditor that copies had been mailed to all the councillors, and Auditor McLeod bore him out in this.

Coun. Scott was proud to see so many parishes having a balance to their credit. He thought that the blame for a deficit belonged to the collectors, and not to the councillors. If every man paid his taxes promptly the parishes would have no trouble getting along.

Coun. Masten thought, with the present prosperity and high rate of wages, there should be no excuse for not collecting taxes.

Coun. Grosvenor was proud to state that the parish of Canterbury had a credit balance this year of \$69.43. It had required hard work to accomplish this, and he and his colleague, Coun. Carr, were proud of the showing made.

Coun. McNally moved, seconded by Coun. Scott, that Coun. McFarlane

(Continued Tomorrow.)

CLARKE'S SENTENCE.

St. John Man Convicted of Beastly Crime Sent to Dorchester for Five Years.

St. John, Jan. 15.—(Special)—The adjourned meeting of the Circuit court resumed this morning, at 10 o'clock, when William Clarke, found guilty of attempted rape on Ethel Train, was sentenced by Judge Landry to five years in Dorchester penitentiary.

When Clarke was brought in, it was quite evident that his lengthy confinement had paled his countenance, but nevertheless he walked in with erect, soldierly manner, characteristic of him during both trials.

Judge Landry, after having requested the prisoner to stand up pronounced the sentence. After the sentence had been pronounced the prisoner did not appear to be affected beyond a slight look of anxiety.

Immediately after sentence Clarke was taken back to jail, and walked away in the same steady manner.

Speaking to the Herald reporter, Mr. Baxter said he had not yet decided about appealing the case to the Supreme court of Canada on points raised by him in Fredericton.

THE MURDER TRIAL.

Judge Gregory Gave Indictment to Grand Jury in Collins Case and They Are Examining Witnesses.

Hopewell, Cape, N. B., Jan. 15.—(Special)—The Albert County Circuit Court opened this morning, Judge Gregory presiding.

The case against Thomas F. Collins, for the murder of Mary Ann McAulay, was given to the grand jury, who are now out considering the bill.

Twenty-one members of the grand jury, and seventy-one of the petit jury are in attendance.

His Honor said he understood that

some members of each panel had subscribed a defence fund for the prisoner and asked all such to withdraw.

One member of the grand jury, W. B. Dickson, retired.

John W. Gaskin was elected foreman of the grand jury, which retired at 11.45 to consider the bill.

The Judge charged briefly, and very fairly, telling the jury to reach a conclusion on the evidence and not consider any outside reports.

DEAD AT TROTTLER.

Tragedy on an Exprets Train that might have Meant Death to the Passengers.

New York, Jan. 15.—(Special)—The Harlem local train on the Grand Central ran from Wakefield to Mount

Vernon yesterday with a dead hand at the throttle of the engine, and none of the passengers knew it.
